INSTRUCTIONS

Your claim should set forth all necessary information to describe your claimed right. Failure to give enough information may make your claim of little value. Some of the items in the form may not apply to your situation. Please use additional sheets if space provided is not sufficient to fully answer the questions.

Paragraph No.

1. Give full name and post office address of person or company making the claim.
2. Describe the point of diversion by 40-acre subdivision. Give the name of the source, the drainage to which it is tributary if surface water, and the county in which the point of diversion is located. If there is more than one point of diversion, list others in the remarks section.
3. Give the priority dates and the quantities of water that you claim. You should accurately list the dates that you initiated each new use of the water. List separately the dates and amounts of water involved in each enlargement of the diversion. (Example: if you diverted 0.8 c.f.s. of water for irrigation on May 18, 1871, for the first time for use on 40 acres of land, and then later you enlarged the diversion by diverting an additional 0.4 c.f.s. of water to irrigate an additional 20 acres of land on June 1, 1901, your right should be described as follows:

Date of priority claimed:	<u>May 18, 1871</u>	amount:	<u>0.8 c.f.s. or</u>	<u> </u> acre feet
	<u>June 1, 1901</u>	amount:	<u>0.4 c.f.s. or</u>	<u> </u> acre feet
		Total claimed:	<u>1.2 c.f.s. or</u>	<u> </u> acre feet

Since the water was used for irrigation between April 1 and October 31 on that particular farm, part b. would be completed as follows:

use irrigation period of use from April 1 to October 31 (both dates inclusive). If the water had been used for any other purpose, you would have described the priority date, amount, use, and period of use in a similar manner.

4. Describe the diversion works and explain any changes since the right was first initiated.
5. If the water is used for irrigation, give the total acreage and list the lands irrigated by 40-acre subdivisions and complete the other questions.
- 6, 7, & 8. Describe any other uses of water.
9. In the remarks section, give any information or details that you feel are not fully covered or that need clarifying. You might explain your operation, where the water is returned to if for an industrial or non-consumptive right, the condition and temperature of the returned water, and any other information to help explain your claim.

You may wish to include as a part of your claim, affidavits of witnesses who are familiar with your right and who have a personal knowledge of the circumstances which you have described in your claim. You may submit maps, drawings, certified copies of posted notices which may have been filed in the county courthouse, water measurement records, or any other document which you feel will support your claim.

Your claim will be advertised in a county newspaper for two weeks. Exceptions to your claim which dispute the water right that you have described may be received by the Department of Reclamation and you will be provided a copy of such exceptions.

The fee for filing this claim with the Department of Reclamation, Room 107, Statehouse, Boise, Idaho 83701, is \$10.00.

ANNETTE THOMPSON, being first duly sworn, deposes and says
as follows:

That this affiant and this affiant's husband, Martin Thompson,
are acquiring what is commonly known as the Jay Stout ranch, which
includes the East Half of the Southeast Quarter of Section Nine,
Township Five South, Range Eleven East, Boise Meridian, by purchase
contract, and are now in possession of the same and have been in
possession for the past two years and are the equitable owners of
the land.

That upon these lands there arise some waters, which waters
are used by this affiant and her husband for domestic purposes in
the use in their household, for stock watering and for irrigation.
That these waters flow northwesterly towards Clover Creek.

That this affiant has read the Notice of Claim to a Water
Right by Arden Lauritzen, Claim No. 37-4017, No. 37-4018 and No.
37-4019. That this affidavit is in opposition to said claim, based
upon the following facts:

(1) Mr. Arden Lauritzen of Corral, Idaho, sold the premises
upon which he claims the use of the water to Gordon Gilbert and
Arden Lauritzen no longer is in possession of the property nor does
he possess full title thereto.

(2) That the flow of water from these springs and waste water
results solely from the irrigation canals of the King Hill Irrigation
District and does not at any time flow the amount of water onto the

claimant's property as set out in the three notices of claim to a water right. That after the irrigation season the flow of water is minimal from the lands of this affiant and would not in any event reach the volume claimed at any time of year and would be considerably less than one cubic foot of water at any time of year even during irrigation season.

(3) That the only water which flows continuously in any degree is the water which is wasted from the irrigation system of the King Hill Irrigation District.

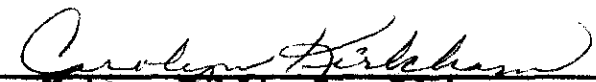

(4) That the claimant Arden Lauritzen has not diverted the water to a beneficial use. That such waters as do flow down the channel have continuously flowed into Clover Creek without diversion or any diversion works by the claimant Arden Lauritzen.

(5) That no works or diversions have been constructed by Arden Lauritzen or his successors or predecessors upon which he can claim a diversion.
