Dear Mr. Thompson:

We are now in receipt of corrected proofs of beneficial use made by yourself and two witnesses under the above numbered permit, and also the affidavit of publication from the Gooding Leader.

This affidavit was accompanied by the statement for cost of publication, which we return herewith— as this cost is to be paid by you.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot say just when this examination will be made, since this department has but one field engineer, who makes examinations all over the state. However, Mr. Tolman, Field Engineer for this department, will try and contact you at the time he makes the examination, so that you may arrange to show him over the ground.

Re: Permit No. 17927

Mr. Fred L. Thompson
Hagerman, Idaho

Dear Mr. Thompson:

We are returning herewith the depositions of yourself and two witnesses, submitted in proof of beneficial use under the above numbered permit, for the following reasons:

In your own deposition you do not correctly state the legal description of the land irrigated, but instead seem to have given the point of diversion.

Also, in neither of the depositions of the witnesses do they give the description of the land irrigated, by subdivision, section, township and range, as indicated.

Please have these corrections made and return to us promptly, together with the affidavit of publication, which the Coding Leader was instructed to send you, and which is a necessary part of the proof.

Very truly yours,

BOISE, IDAHO, May 11, 1945

Re: Permit No. 17927
Fred L. Thompson

Mr. V. A. Heffner
Justice of the Peace
Hagerman, Idaho

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 17927

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On May 21, 1945, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Hagerman, Idaho before V. A. Heffner, J. P.

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Fred L. Thompson,
Hagerman, Idaho

Boise, Idaho, **March 7, 1939**

Dear Sir:—

Under the terms of your permit No **17927**.....you are required to complete your diversion works on or before.....**May 21, 1939**..... I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00 a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
