Dear Mr. McPheters:

We are presently in the process of updating all of our water right files. Water right file No. 71-2087 was issued for water to be diverted from Gladiator and Titus Creek for domestic use at the Galema Store and Trailer Area. We have been advised by the county assessor that you are the present operator of the Galema Store. This permit can be licensed for 0.04 cubic feet per second of water as soon as the licensing fee of \$5 has been paid. If this fee has not been paid within 30 days of the date of this letter, Permit No. 71-2087 will be cancelled. If you are interested in securing this water right it would be to your advantage to pay this fee. If you no longer have an interest in this store, we would appreciate it if you would advise us as to whom we should contact concerning this matter.

Dear Mr. Hobday:

Our field engineer has made his examination of the above numbered permit. We can issue the License and Certificate of Water Right for 0.04 c.f.s., or 2 miner's inches of water for domestic use.

The fee for the license is \$5.00. .

Since there has been no assignment of this permit, and there seem to have been two buyers of the property, we wonder if you might be able to clarify the situation in so far as to whom we should bill for the fees, and whether or not an assignment of the permit might be made.
