Dear "Gilly":

Doubtless you have received by this time notice of this Department's action with reference to Permit No. 29656, but I am enclosing a copy just in case.

Sorry that I cannot offer any relief from the Forest Service regulation, probably their annual charge will remain at 10.00 per year. A state permit for use of water is not a decree but even a decree would carry no reason for the Forest Service to provide relief for an annual fee.

Thank you for your kind statement in behalf of what acclaim I may deserve.

Kindest person regards to yourself and Mrs. Russell and also to a former golfing partner.

Department of Reclamation

Dear Dap;

I trust you and Mrs Dappan survived the festivities and the truly deserved personal acclaim of the last week end.

I was happy to get the opportunity to speak to you about Dad's and my Permit # 29656 for water use at our cabin on a tributary of Soldier Creek in Camas County. As you will note the last correspondence we had with your Department was dated April 6, 1962. The thought conveyed was that we might be contacted by a member of the Department either before or after a visit by him to the location. As we have heard nothing further we are wondering if the Permit is completed and the use of the water is decreed to us.

As you will note the spring rises on U.S. F.S. property, lying approximately 100' W. of our N + S line. We are paying the U.S.F.S. a \$1000 annual use fee for the right to fence only the immediate spring area and a right of way for pipe burial to our property. Is this permit necessary after our Permit is final with your Department? The \$10.00 will neither make nor break it and I but maybe we are slightly prejudiced against so damn much "higness" from Washington D.C.

Any assistance you might be to us in these matters would be greatly appreciated.

With kindest personal regards from Dad & I

Yours Truly

Gentlemen:

Our field engineer's report on his inspection of the proof of completion of works and application of water to beneficial use under the terms of Permit No. 29656 shows the storage tank and pipe line are capable of conveying 1 miner's inch, or 0.02 c.f.s. of water for domestic use.

Upon receipt of the statutory fees of \$10.00, based at the rate of \$5.00 for the completion of works and \$5.00 for the license we will issue the Certificate of Completion of Works and License and Certificate of Water Right, confirming the right, with priority of April 25, 1961, to the use of 0.02 second foot of surface water with the point of diversion in the SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 30, T. 2 N., R. 14 E., B. 1. from an unnamed spring for domestic use in the SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 29, T. 2 N., R. 14 E., B. 1.
