IN REPLY REFER TO:

George E. Tucker,
State Fish & Game Department,
Boise, Idaho.

Dear Tuck:

In answer to your letter of June 30, 1947, please be advised that no agreement was ever entered into between this Service and the last user of the water from the lateral that feeds Star Lake. Neither has there been an agreement between this Service and the Big Wood Canal Company. It was the opinion of the canal company officials that any water going past the last headgate was surplus or waste, and they had no objection to diverting the same into the lake. The last user would have nothing to do with this water as long as the proper amount was delivered to ~~the~~ ^{his} point of diversion.

As mentioned above, this water is part of the Big Wood River Canal system.

We sent in the time for the two boys that were working on this project but we are still doing a little more work in cleaning the ditch with our own funds.

Best personal regards.

Very truly yours,

John A. Keith,
District Grazier.
