

**NOTICE OF APPROVED
APPLICATION FOR
WATER**

Notice is hereby given that Alex Mason, Box 417, Bliss, Idaho has received an approved permit No. R-936 to store 2500 acre feet of water from Dry Creek tributary of Big Wood River. The priority to be established under this permit is April 13, 1954. Water will be diverted by reservoir dam, and canal within the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 6, T. 4 S., R. 14 E., B. M., Gooding County and is to be used for irrigation and domestic purposes in all of section 3 and 9; NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$, S $\frac{1}{2}$ -NW $\frac{1}{4}$, S $\frac{1}{2}$. Sec. 4, T. 5 s., R. 13 E., B. M.

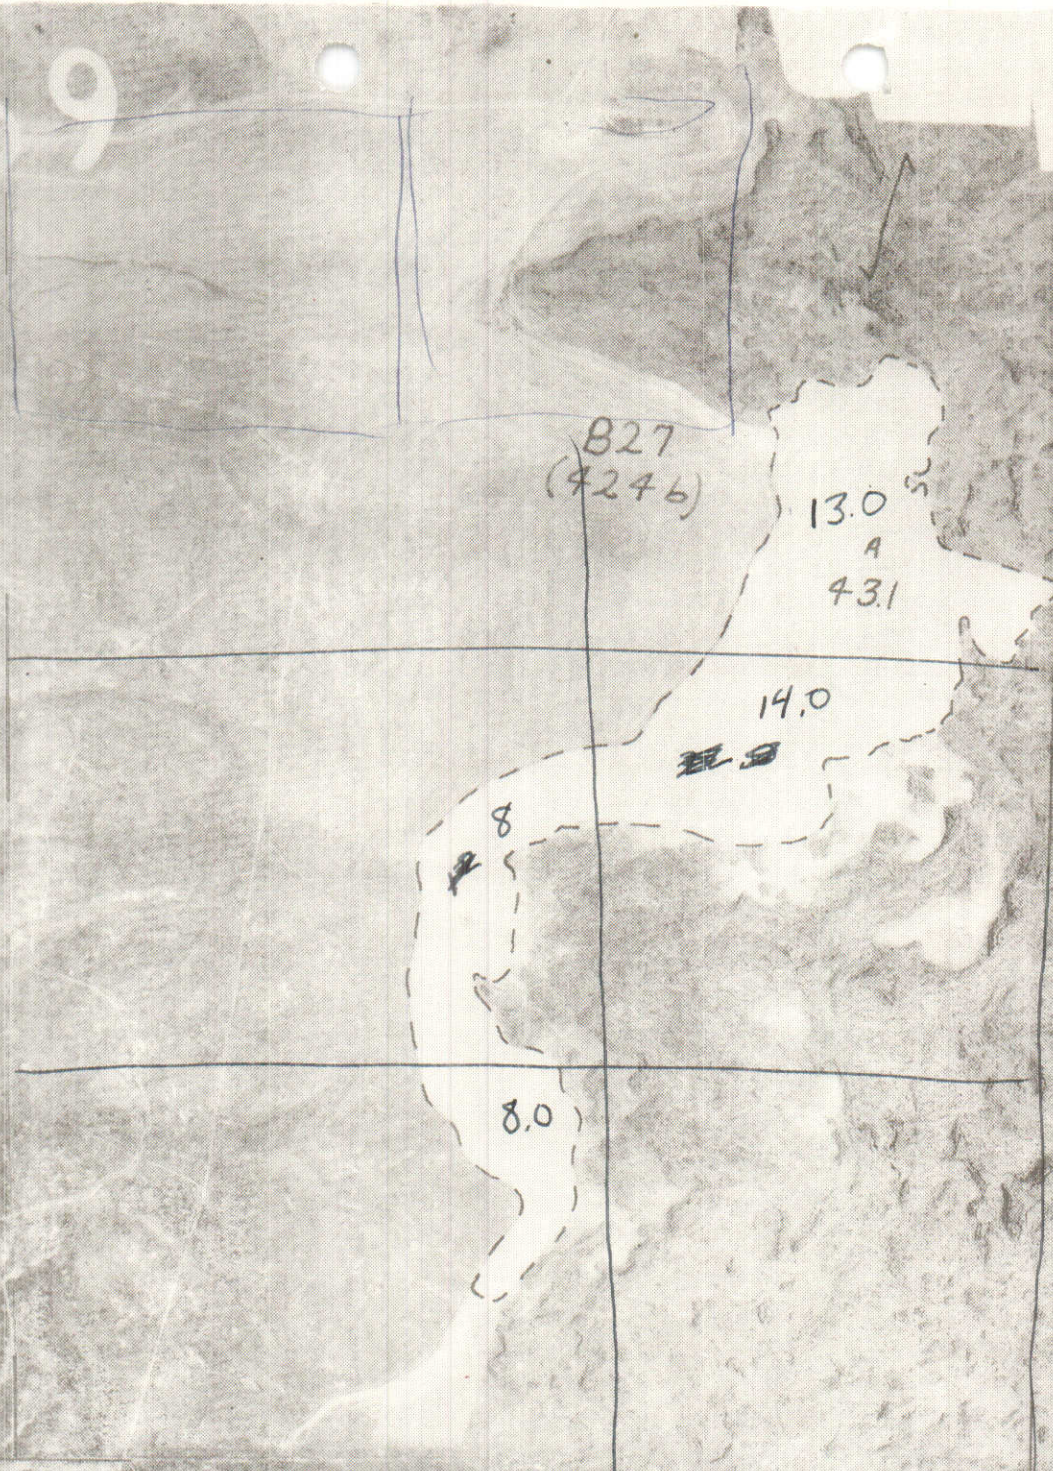

Any protests against the intent of the permit must be filed with the Department of Reclamation within ten days from the last date of publication of this notice.

AFFIDAVIT OF PUBLICATION

RECEIVED
DEC 3 1 1958

Department of Reclamation

NOTICE FOR PUBLICATION

Notice is hereby given that at 10:00 A.M., on the 30th day of December 1958, at Gooding, County of Gooding, State of Idaho, before Mr. Ryan, Notary Public proof will be submitted of the completion of works for the diversion of 2500 acre feet per annum of the waters of Dry Creek in accordance with the terms and conditions of a certain permit heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name of the person or corporation holding said permit is Bray Lake Ranch, Inc.

2. The postoffice address of such person or principal place of business of such corporation is Bliss, County of Gooding, State of Idaho.

3. The number of such permit is R-936, and the date set for the completion of such work is May 3, 1959.

4. Said water is to be used for irrigation and domestic purposes.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of storing and conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is 2500 acre feet per annum. (Total storage of reservoir is 4365 acre feet per annum)

6. The amount of lands for which said water is available is 3880 acres, particularly described as follows: N $\frac{1}{2}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 33, Twp. 4 S., Rge. 13 E., S $\frac{1}{2}$ Sec. 34., S $\frac{1}{2}$ Sec. 35., SW $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 36 all in Twp. 4 S., Rge. 13 E., B. M. Sec. 3., NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$, S $\frac{1}{2}$ NW $\frac{1}{4}$, S1-2, Sec. 4.; Sec. 9 W $\frac{1}{2}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 1., NE $\frac{1}{4}$, E $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 2., all in Twp. 5 S., Rge. 13 E., B.M.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised

WATER RIGHT NO. 37-7385B
As Modified by Transfer No. 69896

CONDITIONS OF APPROVAL

1. This right is limited to the irrigation of 124 acres within the place of use described above in a single irrigation season.
2. The direct flow irrigation use described by rights 37-7385B, 37-7754, and 37-2778 when combined shall not exceed a total annual maximum diversion volume of 2161 af at the field headgate, and the irrigation of 679 acres.
3. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
4. The period of use for the irrigation described in this approval may be extended to a beginning date of 3/15 and an ending date of 11/15 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 4/1 and after 11/01 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than December 11, 2002.
5. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 130.
6. The right holder shall maintain lockable controlling works of a type approved by the Department in a manner that will provide the watermaster suitable control of the diversion.
7. Prior to the diversion and use of water under Transfer approval 69896, the right holder shall install and maintain acceptable measuring device(s), including data logger(s), at the authorized point of diversion, in accordance with Department specifications.
8. The right holder shall measure and annually report diversions of water and/or other pertinent hydrologic and system information as required by Section 42-701, Idaho Code.
9. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
10. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
11. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.

This water right is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.

CONDITIONS OF APPROVAL

1. The direct flow irrigation use described by this right is limited to the irrigation of 313 acres within the place of use described above in a single irrigation season. Irrigation from storage is not limited but currently confined to the place of use described above.
2. The direct flow irrigation use described by rights 37-7385B, 37-7754, and 37-2778 when combined shall not exceed a total annual maximum diversion volume of 2161 af at the field headgate, and the irrigation of 679 acres.
3. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
4. The period of use for the irrigation and irrigation from storage described in this approval may be extended to a beginning date of 3/15 and an ending date of 11/15 provided that beneficial use of the water can be shown and other elements of the right are not exceeded. The use of water before 4/1 and after 11/01 is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date of this approval.
5. All storage uses described by rights 37-7754, 37-2780, 37-2778, 37-856, and 37-857 when combined shall not exceed the reservoir storage capacity of 4365 acre-feet.
6. The storage of water under this right is contingent upon continued certification by the Department of Water Resources under the dam safety provisions of the Idaho Code, authorizing storage.

MICROFILMED

APR 11 2003

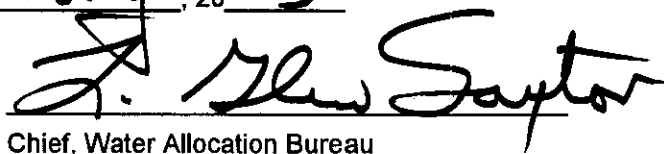

WATER RIGHT NO. 37-7754
As Modified by Transfer No. 69896

CONDITIONS OF APPROVAL

7. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.
8. The right holder shall accomplish the change authorized by this transfer within one (1) year of the date of this approval.
9. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
10. Approval of this transfer does not preclude the opportunity for review of the validity of this water right in the ongoing Snake River Basin Adjudication.

This water right is subject to all prior water rights and shall be administered in accordance with Idaho law and applicable rules of the Department of Water Resources.

Department of Water Resources

WATER RIGHT LICENSE

License of Water Right No. R-936/37-2780 Priority April 13, 1954 Amount 157 cfs

THIS IS TO CERTIFY, that ALEX MASON
of Box 417, Bliss, Idaho, has complied with the terms and conditions of Permit
No. R-936/37-2780 issued pursuant to Application for Permit dated April 13, 1954,
and has submitted proof to the Department of Water Resources on December 13, 1972,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 237 cfs and storage of 2,500 acre feet of water from Dry Creek,
tributary to Big Wood River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Storage for Irrigation	from <u>Jan. 1</u> to <u>Dec. 31</u>	at <u>157</u> cfs and	<u>905 acre feet</u>
Irrigation	from <u>Apr. 1</u> to <u>Oct. 31</u>	at <u>157</u> cfs and	<u>905 acre feet</u>
	from <u> </u> to <u> </u>	at <u> </u> cfs and	<u> </u>

(both dates inclusive)

Subject, however, to the condition that no more than 157 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
 acre feet per year, said waters to be diverted within the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 6, Twp. 4S,
Rge. 14E, B.M. and rediverted at the outlet in the County of Gooding
works in the SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 35, Twp. 4S, Rge. 13E, B.M.
Description and location of place of use:

APPLICATION FOR PERMIT

To Construct a Reservoir and Appropriate and Store
The Public Waters of the State of IdahoLICENSE ISSUED FOR 152 SEC. FI.Application No. R 32687
Permit No. R 936

Assigned to

37-2780
Jury Lemos, Engr
Lemos & Phillip R.
Lemos - Bliss -
P. Lemos

1. Name of Applicant: LEONARD E. STROUT

Postoffice address: Bliss

County Gooding

State Idaho

I. If applicant is a corporation, give:

(a) Date and place of incorporation:

(b) Amount of Capital Stock: \$

(c) Amount paid in: \$

(d) Names and addresses of directors:

3426 Mt. Diablo Blvd.
Lafayette, Calif.

II. The financial resources of the corporation are:

(a) Cash on hand: \$

(b) Treasury Stock: \$

(c) Bonds to be issued: \$

(d) Other resources:

2. Quantity of water to be stored: 2500

acre feet per annum.

3. Source of water supply is Dry Creek

(Creek) (River) (Spring), a tributary of Big Wood River

River.

4. The outlet of the proposed reservoir is located No. 60°30' W. 1282 feet, distant from the E 1/4 corner of Section 35, Township 4 S., Range 13 E., B. M. and is in the SW 1/4 of NE 1/4 of Section 35, Township 4 S., Range 13 E., B. M. County of Gooding

5. Fill out either (a) or (b).

(a) The reservoir is located in the channel of

(Creek) (River).

(b) The reservoir is to be filled through a feeder canal, the point of diversion for which is located N. 57°30' E. 2455 feet distant from the S 1/4 corner of Section 6, Township 4 S., Range 14 E., B. M., and is in the NE 1/4 of SE 1/4 of Section 6, Township 4 S., Range 14 E. B. M.; width at bottom 18 feet, width at top 50 feet, depth of water 5 feet; average grade per mile 5.28 feet; Capacity 4,000 cubic feet per second.

6. (a) The area of the high water line of the reservoir is 300

acres.

(b) The reservoir capacity is 2500

acre feet.

7. Height of reservoir dam 27 feet, length at top 1300 feet, length at bottom 20 feet, size of outlet 2 feet by 2.75 feet. The dam is to be constructed of materials as follows: Earth

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

8. (a) Will water stored in reservoir be diverted to canal or aqueduct, thence to land to be irrigated without commingling with natural flow of

Dry Creek

(Creek) (River)? Yes

(b) Water stored in reservoir will be carried in the channel of

(Creek,) (River,) a distance

of miles to point of diversion located (bearing) feet, distant from the corner of Section Township, Range, B. M., and in the 1/4 of 1/4 of Section Township, Range B. M.

9. (a) Area of watershed above dam site

square miles

(b) Estimated maximum flow of stream

cubic feet per second.

10. Water is to be used for Irrigation and domestic

purposes.

11. If for mining, milling, power or manufacturing purposes give:

(a) Point of use of water (bearing) feet, distant from Corner of Section, Township, Range B. M. and is in the 1/4 of 1/4 of Section, Township, Range, B. M.

(b) Amount of power generated: H. P., under feet head.

(c) Water is to be returned to (Creek) (River) (Spring) at a point (bearing) feet distant from the corner of Section, Township, Range, B. M. in the 1/4 of 1/4 of Section, Township, Range, B. M.

12. Water stored in accordance with this Permit will be carried to place of use through a canal heretofore constructed under the terms of Permit No. , which is hereby referred to and made a part hereof.

13. Kind of diversion works: Canal from reservoir to land

(Dam, canal, flume, pipe, etc.)

14. Height of diversion dam: feet, length at top feet, length at bottom feet. The dam is to be constructed of materials as follows:

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

15. Size of headgate: Width feet, Height feet.
16. Diversion Canal: Width at bottom 4 feet, width at water line 8 feet, depth of water 1 1/2 feet, Dimensions of Flume
- Diameter of Pipe inches; Length of Conduit 5 miles. Average grade per mile 5.28 feet.
17. Estimated cost of Works: Storage Works: \$ 5,000.00 Diversion Works: \$
18. Time required for completion of work Five (5) years.
19. Time required for complete application of water to proposed beneficial use is Six (6) years.
20. The land to be irrigated is described in the following tabulation:

(Give Irrigable acreage in each 40-acre subdivision.)

Twp.	Range	Sec.	NE 1/4				NW 1/4				SW 1/4				SE 1/4				Totals

MARK R. KULP
State Reclamation Engineer.

APPLICATION FOR AMENDMENT TO PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO, NO. R-936

Comes now F. T. HORTON, Nampa, Idaho, and represents to the State Reclamation Engineer of the State of Idaho.

That he is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. R-936, and requests that the list of lands to be irrigated, as described in said permit, be changed to read as follows:

N $\frac{1}{2}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 33, Twp. 4 South, Rge. 13 East; S $\frac{1}{2}$ Section 34; S $\frac{1}{2}$ Section 35; SW $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36, all in Township 4 South, Range 13 East. NE $\frac{1}{4}$, NW $\frac{1}{4}$, SW $\frac{1}{4}$, SE $\frac{1}{4}$, Sec. 3, NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$, S $\frac{1}{2}$ NW $\frac{1}{4}$, S $\frac{1}{2}$, Sec. 4; NE $\frac{1}{4}$, NW $\frac{1}{4}$, SW $\frac{1}{4}$, SE $\frac{1}{4}$, Sec. 9; W $\frac{1}{2}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 1; NE $\frac{1}{4}$, E $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$, Section 2, all in Township 5 South, Range 13 East, making a total of 3880 acres.

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change.

Signed at Boise, this 13th day of July, 1956.

F. T. HORTON

Date of receipt at office of Department of Reclamation July 13, 1956.

APPROVAL OF STATE RECLAMATION ENGINEER

I, Mark R. STATE OF IDAHO
DEPARTMENT OF RECLAMATION

APPLICATION FOR EXTENSION OF TIME

State of Idaho
County of Gooding

Permit No. R936

Alex Mason of Box 417 Bliss
(name) (address)

State of Idaho, being first duly sworn, upon his oath deposes and says:

That he is the holder, or the duly authorized agent of the holder*, of Permit to Appropriate the Public Waters of the State of Idaho No. R 936.

That under the terms and conditions of said permit, work thereunder was required to be completed by Jan. 1, 19 69.

That he has heretofore performed the following work described under said permit:

Enlarged the feeder canal to 24" bottom, 5" banks.
Installed 100' spillway and 4 new headgates in the feeder canal.
Installed 3 overflow pipes through the ditch bank on Canal.
Installed 18" steel liner and 18" headgate on dam, and we are about
to complete the Rip Rap on the face of dam. Costing \$ 55,000

That he is unable to complete the remainder of the work within the required time for the following reasons, to-wit: I moved on to this ranch in June 1967
and have put all my time and money into the feeder
canal, and the Reservoir - I need time to level land
put in cross fences and seed it.

WHEREFORE, he asks that the State Reclamation Engineer extend the time for the completion of obligations under said permit to Jan. 1, 19 75.

Alex Mason

Permit No. 2-936

Tony Lemos, Eva Lemos
Phillip R. Lemos
(name)

of 3426 Mt. Diablo Blvd., Lafayette,
(address)

State of California, being first duly sworn, upon his oath deposes and says:

That he is the holder, or the duly authorized agent of the holder, of Permit to Appropri-
ate the Public Waters of the State of Idaho No. 2-936.

That under the terms and conditions of said permit, work thereunder was required to be
completed by May 3, 19 65.

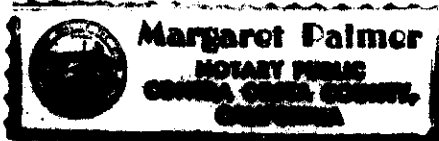

That he has heretofore performed the following work described under said permit: _____
Constructing a Reservoir; a Diversion Canal from the
Reservoir to the dry land; beginning to line the Reservoir with
"Rip-Rap" (large drainage rock). The above project under the guide
of the Department of Reclamation Engineer. Error
_____ Costing \$ 18,000.00

That he is unable to complete the remainder of the work within the required time for the
following reasons, to-wit: We purchased the property in October, 1966, and were
not aware of the time limit. Since we have been informed of the
water right status, we have been working full time to complete the
necessary requirements. We will continue to work on the project until
it is completed, and meets the standards set forth by the Department of Reclamation.

WHEREFORE, he asks that the State Reclamation Engineer extend the time for the com-
pletion of obligations under said permit to January 1, 19 70.

RE: Water Right Nos. 37-0856/2778/2780/7754

Gary &/or Helen DeMoss
HC 69, Box 3900
Cambridge, ID 83610

Dear Mr. and Mrs. DeMoss:

We received the documentation regarding transfer of ownership of the above referenced water rights. Water Right Nos. 37-2778 and 37-2780 are licenses and Right No. 37-0856 is a decreed right.

In Idaho, licensed and decreed water rights are considered real property and are acquired when the property to which they are appurtenant is purchased. Proof of owning the land is proof of owning the water right, if the previous land owner did not exclude the water right from the sale. The Department does not attempt to follow the chain of title for ownership of such lands.

We have placed your correspondence in the file for future reference and have added your names to our computer records as the present owners of the rights.

Right No. 37-7754 is in a permit stage and we are in the process of issuing a license on this right, therefore, we have changed our computer records and will be sending a copy of the final license to you shortly.

If you have any questions, please let us know.

Sincerely,

SHARLA CURTIS
Clerical Specialist

Bureau of Land Management
Shoshone District Office
Attn: Robert B. Hellie -
EIS Team Leader
P.O. Box 2B
Shoshone, ID 83352

Dear Mr. Hellie:

Thank you for the opportunity to comment on the WSA's in the Shoshone District.

Our files show the following four water right permits within the area recommended for Wilderness designation. All are located within the Gooding City of Rocks (54-8a) WSA.

T3S - R14E

Sec. 21:	37-2808	D permit	BLM
Sec. 23:	37-2941	D permit	BLM

T4S - R14E

Sec. 6:	37-2778	Storage Right	1210 acre-feet
	<u>37-2780</u>	Storage Right	905 acre-feet

I assume the Wilderness designation will not adversely affect the water rights of the BLM.

The storage water rights may present a different problem. If the Wilderness designation will cut-off access to the reservoir, periodic required maintenance at the dam would be difficult or non-existent. I assume you have taken this into account and have planned in some manner to provide access. If not, then consideration should be given to maintain or eliminate the facility.

Thank you for the opportunity to comment on the WSA's.

FROM Gary Funderburg

DATE October 21, 1976

RECEIVED

TO Bob Fleenor

OCT 26 1976

SUBJECT Re: Permit No. 37-2780

Department of Water Resources

Dear Bobby:

In reference to our phone conversation on October 21 regarding the Alex Mason field exam, as I indicated on the phone, the land as it lays now is all being irrigated as shown on the aerial photo. At the time of the field exam it was our understanding that the section line between Sections 3 and 4 was not in the correct location. After re-examining the field exam with the aerial photos we have corrected this error. Part of the ground which would have been listed on the field exam would not have been irrigated. If you will note the attachment, corrected in red, indicates the ground which was submitted on the proof of beneficial use. At the time of the field exam we only indicated that this was the ground to be irrigated. This ground which I am including is the ground located in the SE portion of Section 4. This acreage amounts to approximately 160 acres. This is what we based our findings on.

SIGNATURE

MEMORANDUM

RECEIVED

TO: MIKE STEELE
FROM: BOB FLEENOR
RE: PERMIT NO. 37-2780

I am very concerned about the field exam made on Permit No. 37-2780 in the name of Alex Mason. Gary, in his first exam, found that only 160 acres were being irrigated from Dry Creek, the same acres licensed under 37-2778.

Mr. Mason on his proof of beneficial use claimed to be irrigating 242 acres.

Now upon re-examination, 418.60 acres are found to be irrigated.

Why the difference of 258 acres?

Is the land shown on the photo actually being irrigated from the reservoir?

Even from the photo I question whether all of the land was being irrigated.

Please clarify the major discrepancy in the field exam before we take further action on the license.

Re: License No. R-864/37-2778
Permit No. R-936/37-2780

Mr. Alex Mason
P.O. Box 417
Bliss, Idaho 83314

Dear Mr. Mason:

Enclosed is a copy of your water right license R-864/37-2778 that has been corrected to describe more closely your water right.

Our records also show that you hold water right permit R-936/37-2780 for additional storage of water in the reservoir to be used for the irrigation of some 3,720 acres. However, our examiner found that you were irrigating only 160 acres and that those acres are already included under License R-864/37-2778.

Therefore, it appears that you have made no additional development of water or land under Permit R-936/37-2780 and that it should be removed from our records. Please complete and return the enclosed relinquishment form as soon as possible. Should you have questions regarding the license or permit, please contact us.

Sincerely,

BOBBY D. FLEENOR
Chief, Water Rights

Re: Permit No. R-936

Alex Mason
Box 417
Bliss, Idaho 83314

Dear Mr. Mason:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with those rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

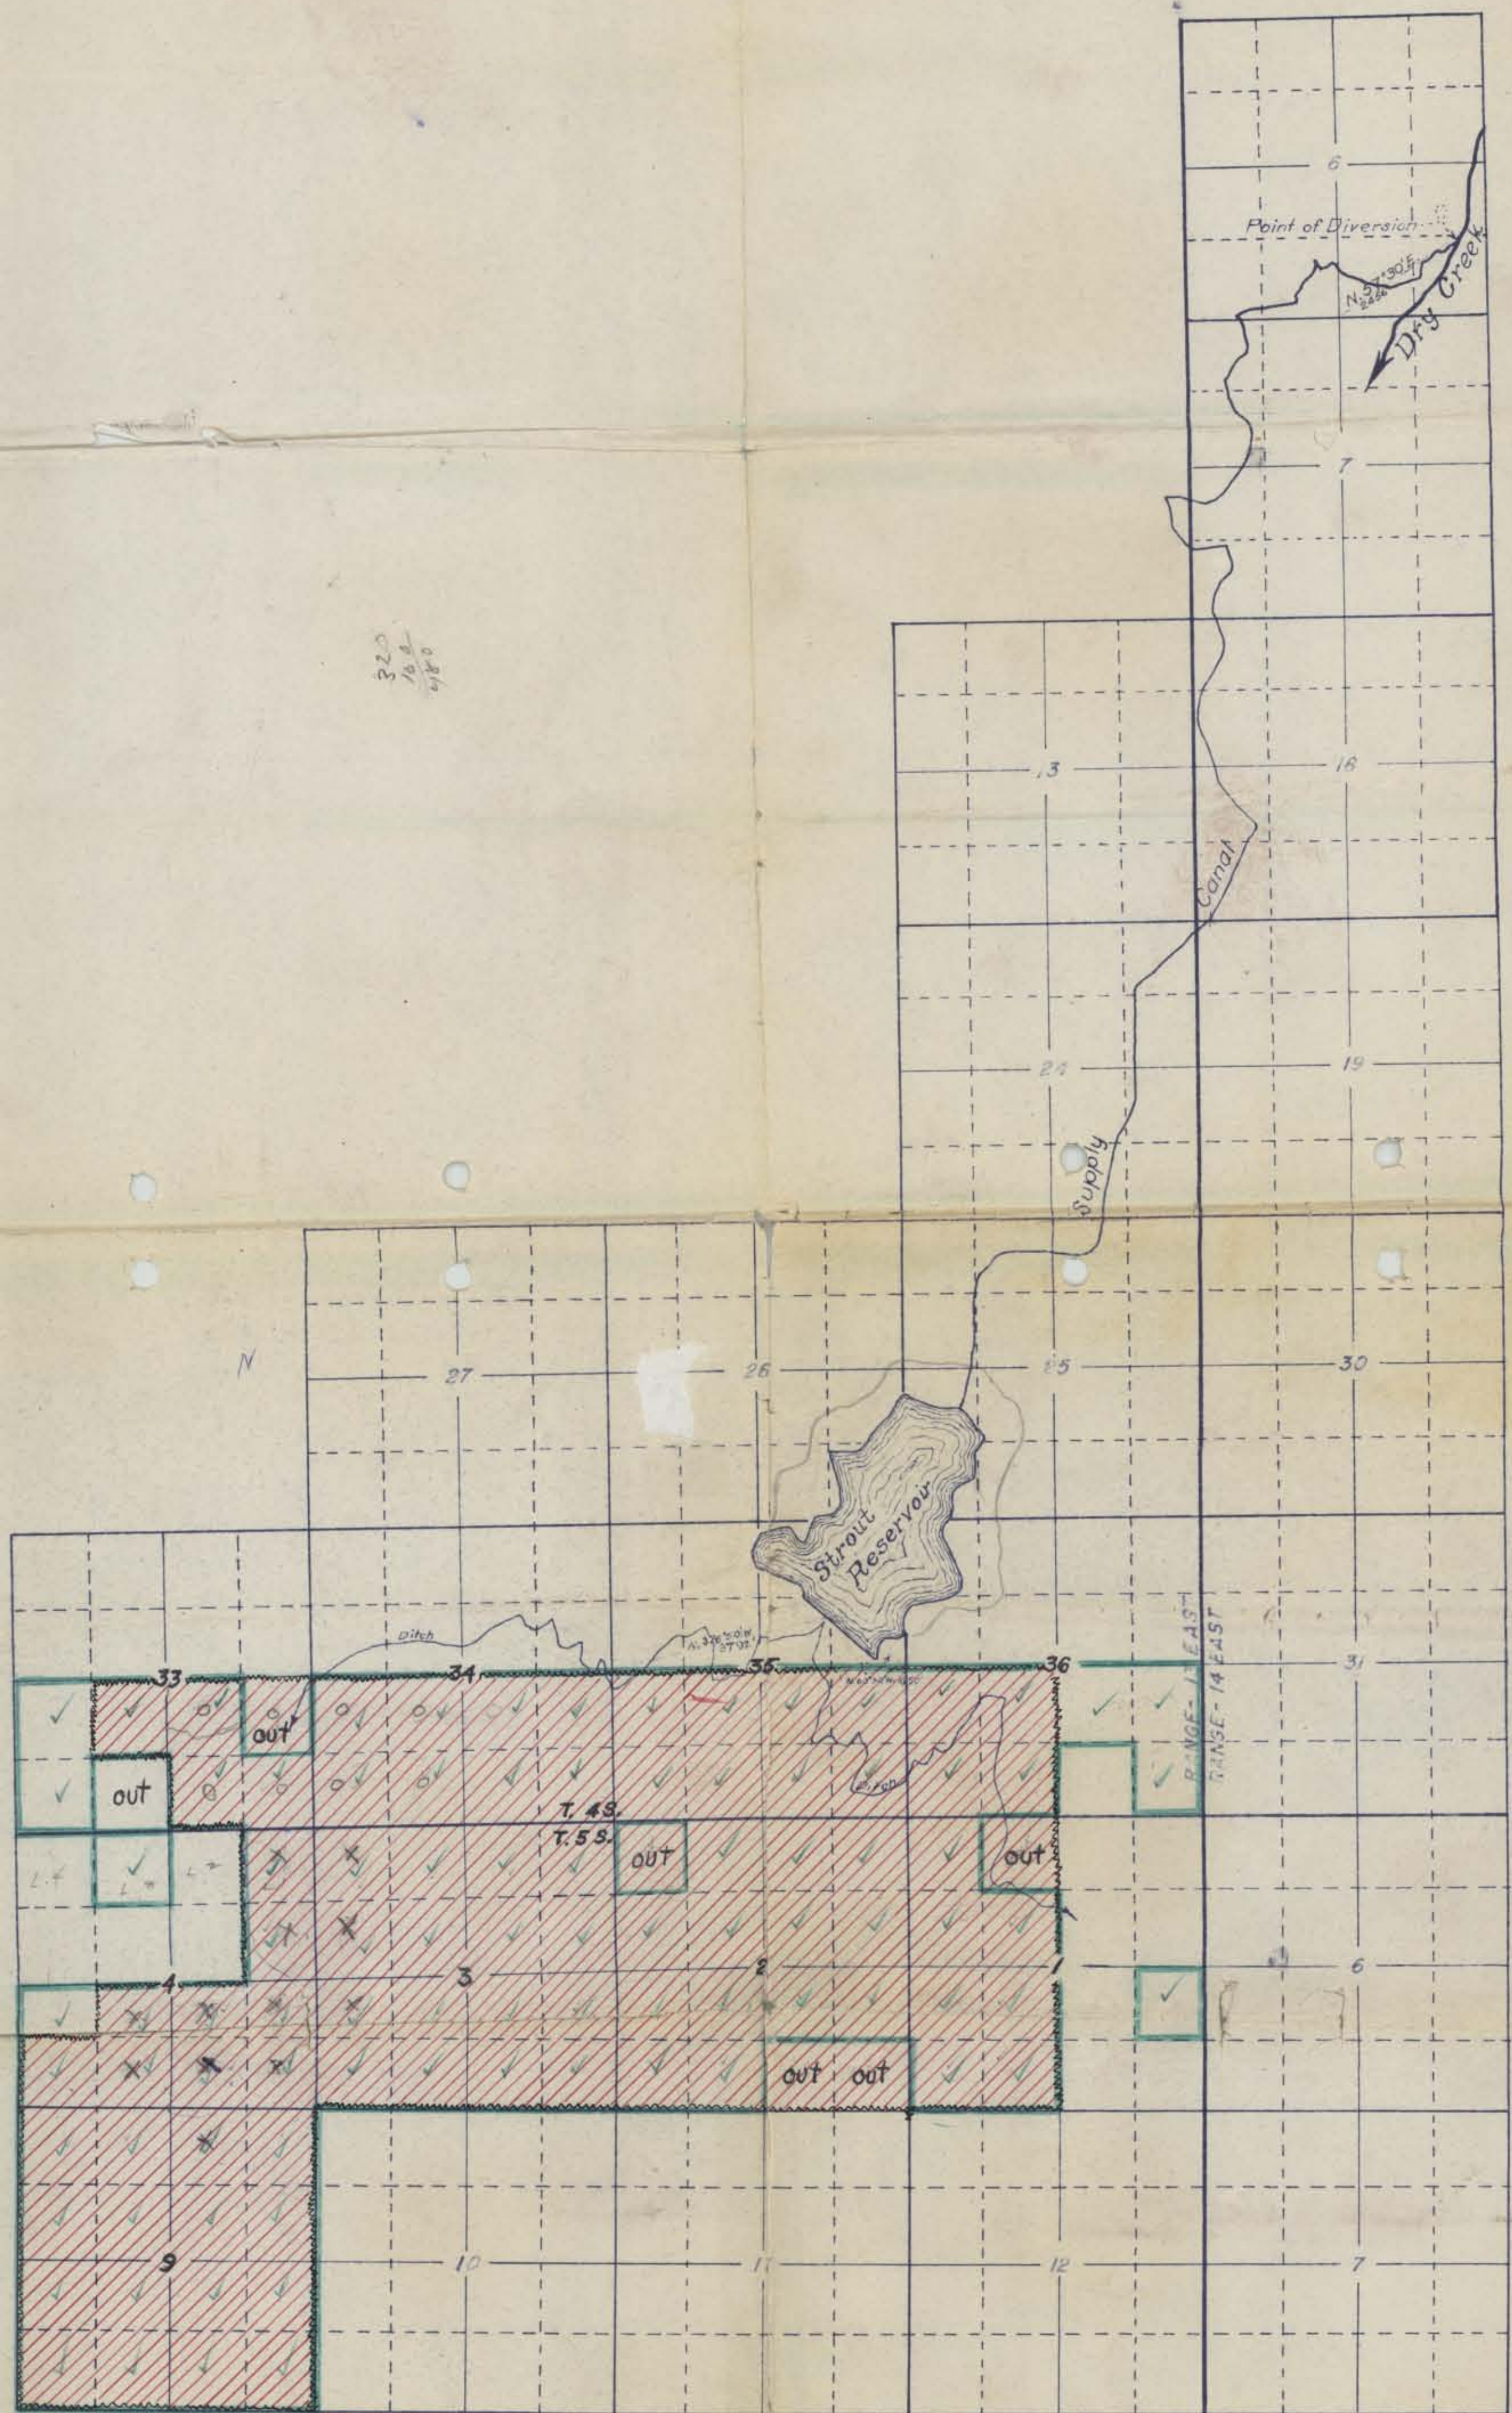

Very truly yours,

Donald W. McEldon
Appropriation Examiner

Re: Permit No. R-936 (New No. 37-2780)

Alex Mason
P.O. Box 417
Bliss, Idaho 83314

Dear Mr. Mason:

One of the conditions of approval of your water Permit No. R-936/37-2780 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before January 1, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Ellettsville, Idaho

Dear Mr. Mason:

We acknowledge receipt of the affidavit of publication submitted in connection with the above referenced permit. Since proof of the application of the water to beneficial use is not due until January 1, 1971, the Department will notify you sixty days in advance of this date as to further requirements. We wish to advise you ~~however~~, that when you have fulfilled the requirements of the permit, you may submit proof of beneficial use of the water.

Very truly yours,

Re: Permit No. R-936

Alex Mason
Box 417
Bliss, Idaho

Dear Mr. Mason:

As of this date we have not yet received the affidavit of publication to be submitted in connection with the above referenced permit. Proof of the application of the water to beneficial use is not due until January 1, 1973; however, many newspapers do not keep copies of these advertisements in their files. We, therefore, recommend that you obtain this affidavit from the Gooding Leader, Gooding, Idaho, and submit it to the Department as soon as possible so that when you are ready to submit proof of beneficial use there will be no unnecessary delay.

Very truly yours,

A handwritten signature in cursive script that reads "Donald W. McEldowney".

NOTICE OF APPROVED
APPLICATION FOR
WATER

Notice is hereby given that Alex Mason, Box 417, Bliss, Idaho has received an approved permit No. R-936 to store 2500 acre feet of water from Dry Creek tributary of Big Wood River. The priority to be established under this permit is April 13, 1954. Water will be diverted by reservoir dam, and canal within the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 8, T. 4 S., R. 14 E., B. M., Gooding County and is to be used for irrigation and domestic purposes in all of section 8 and 9, NE $\frac{1}{4}$ NE $\frac{1}{4}$ NW $\frac{1}{4}$, S $\frac{1}{2}$ NW $\frac{1}{4}$, S $\frac{1}{2}$ Sec. 4, T. 5 S., R. 13 E., B. M.

Any protests against the intent of the permit must be filed with the Department of Reclamation within ten days from the last date of publication of this notice.

Alex Mason

Gooding Leader
Gooding, Idaho

Gentlemen:

Enclosed is a legal notice which we wish to have published for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for our review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you can not publish the notice on the proposed dates, please contact the Department of Reclamation immediately.

The expense of the publication is to be paid by Alex Mason,
Box 417, Bliss, Idaho

to whom you should furnish an affidavit of publication.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

BEFORE THE STATE RECLAMATION ENGINEER

OF THE

STATE OF IDAHO

IN THE MATTER OF PERMIT NO. R-936)

in the name of Alex Mason)

Box 417, Bliss, Idaho)

ORDER MODIFYING REQUIREMENTS
FOR COMPLETION OF PERMIT TO
APPROPRIATE WATER

WHEREAS, the 39th Idaho Legislature made certain amendments to the Idaho Water Law; and,

WHEREAS, these changes raised questions as to the procedures to be followed by holders of permits issued prior to the effective date of the amendments, May 31, 1967; and,

WHEREAS, on August 1, 1968, the Department of Reclamation adopted Rules of Practice and Procedures for the processing of such permits issued prior to May 31, 1967; and,

WHEREAS, Permit No. R-936 was issued previous to that date;

NOW THEREFORE, the requirements for completion of the above-numbered permit are hereby modified to conform to the adopted Rules of Practice and Procedures as follows:

1. The above-numbered permit will be completed under the terms of Title 42, Chapter 2, Idaho Code, as amended by the 39th Idaho Legislature.
2. The conditions of the above-numbered permit are modified as follows:
 - a. Notice of the issuance of the permit will be published at the permit holders expense for two weekly issues in the official newspaper of the county in which the point of diversion lies.

Dated this _____ day of _____, 19____.

Alex Mason
Box 417
Bliss, Idaho 83314

Dear Mr. Mason:

One of the conditions of the approval of your permit ~~R-936~~ ^{R-936} was that proof of application of the water to beneficial use be submitted to this office on or before January 1, 19 69.

Enclosed is an affidavit form which must be used to submit this proof. You may also request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, ICA.

Either the proof or a request for extension must be received by this department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

State Reclamation Engineer

Enclosure: Proof form

RE: Permit R-864 and R-936

John E. Gray, Appraiser
Federal Land Bank Association
P. O. Box 548
Burley, Idaho 83318

Dear Mr. Gray:

There are only three water rights on Dry Creek that are current, all the others have been cancelled or relinquished. Mr. Mason owns the first two priority rights; one with a 1957 right, the other with approximately 1961. One right, R-864 is for 1965 Acre Feet for 400 acres of land and the other permit, R-936, is for 2500 A.F. Mr. Leonard E. Stout has filed 21 applications previously and all have been cancelled except those assigned to Mr. Mason and the one he filed July 2, 1965. If this last filing of Mr. Stout's goes like his last 20 it will be cancelled in 1970.

We cannot give an exact figure on the amount of water allowed since our field man has not examined the property. The figure will not exceed 1 inch per acre and with both permits he should have sufficient water to irrigate Mr. Mason's property.

Mr. Mason is now in our office and he has been given copies of both his water permits.

Very truly yours,

M. RUSSELL BOSCH
Administrative Assistant

FEB 2 1968

Department of Reclamation

R. Keith Higginson
State Reclamation Engineer
Room 107 Statehouse
Boise, Idaho 83701

Dear Mr. Higginson:

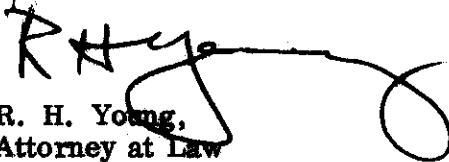

I am writing you in connection with the Bray Lake Ranch and Reservoir located near Bliss, Idaho.

This property was formerly owned by Dr. Frederick T. Horton, deceased, and the property in question was not distributed to his heirs until some time late in 1966, I believe. The property was the subject of litigation and the probate proceedings, afore mentioned, from late in the 1950's until the date mentioned above.

It was for this reason and because the necessary agreements could not be obtained prior to the settlement of the estate, proof of completion of works could not be had.

If you have any further questions concerning this property I would be glad to oblige, as it is my understanding that the present owners are seeking an extension of time and want to make the necessary proof of completion.

Sincerely yours,

R. H. Young,
Attorney at Law

RHY:kd

EXTENSION OF TIME TO BE GRANTED FOR
1 WR. NOT TO EXCEED 2-2-69

DR R-936

IN THE MATTER OF)
APPLICATION FOR EXTENSION)
OF TIME - R-864 and R-936.)

I wish to make the following statement in support of the extension application on the above referenced permits, and to have same filed as record:

Below is an approximation of the works which have been completed on Permit Numbers R-864 and R-936:

1. An outlet canal with a 12~~4~~ foot bottom and 5 foot high banks which is approximately 3 miles in length.
2. All irrigation ditches are complete on lands which cover approximately 600 acres. These lands are now irrigated.
3. A feeder canal with a 24 foot bottom, 5 foot high banks, and at a 2 $\frac{1}{2}$ foot elevation a capacity of 150 cubic feet per second. The length of the canal is approximately 2 $\frac{1}{2}$ miles to a natural drainage and then into the reservoir.
4. A dam of rock and earth, completed to 4,365 acre foot capacity.
5. Dam is rip-rapped to a 1800 acre foot capacity.

The works to be completed are as follows:

1. Rip-rap the balance of the dam to above 1800 acre foot capacity to a 4365 total acre foot capacity.
2. Install concrete spillway, and headgate at head of the feeder canal.
3. Irrigate a balance of 1080 acres of ground on the ranch.

The following is a statement of labor and construction cost since July, 1967.

1. 340 hours on a DC-8 Catapillar Tractor at \$17.50 per hour.
2. \$1,000 in labor costs.
3. \$10,209.10 to C. B. Eaton & Sons for blasting works on feeder canal. (Eaton's statement attached)

Alex Mason

Dated this 2nd day of February, 1968.

NOV 13 1967

Re: Permit No. R-936

Dear Mr. Allred:

As set forth in our recent telephone conversation, we would like to retain Water Permit No. R-936.

Since we purchased the Bray Lake Ranch in October, 1966, we have been attempting to complete the works, and to submit proof of beneficial use of the water. During the last six months, a contracting firm and our ranch manager, Mr. Alex Mason, have been working full-time to meet the specifications set forth by the Department (the details of the work, and the contractor's name can be obtained from Mr. Mason; P. O. Box 217, Bliss, Idaho).

We are aware of the extension allowed by the Department, but we would appreciate additional time to finish the conduit and the embankment.

Very truly yours,

Phillip R. Lemos

Re: Permit No. R-936

Tony and Eva Lemos
Phillip R. Lemos
3426 Mt. Diablo Blvd.
Lafayette, California

Gentlemen:

Enclosed is a precancellation notice for R-936. Precancellation notices have previously been sent to your Bliss, Idaho, address.

You will please note that the permit is subject to cancellation because there has not been sufficient proof of completion of works and because proof of beneficial use was not made within the time set forth in the permit.

On December 30, 1958, proof of completion of works was submitted by Bray Lake Ranch, Inc. The works were inspected and were deemed by the department not to be capable of storing the additional water asked for in Permit No. R-936. On December 17, 1963, this department informed the permit holder that the works had to be completed by installing a new conduit and finishing the embankment. On September 18, 1964, a precancellation letter was sent to Mr. William H. Horton, Bray Lake Ranch, Inc., by registered mail. On October 7, 1964, we were informed by Mr. R. H. Young, at attorney for the permittee, that they were attempting to obtain bids to finish the work.

On March 1, 1965, Mr. Young was sent a notice that proof of beneficial use on Permit No. R-936 was due on or before May 3, 1965.

Assignments conveying permit R-936 were received in this office on October 25, 1966. Because of the assignment, an additional notice of proof due was sent to your address at Bliss on July 18, 1967, and to your California address. No answer was received.

Precancellation notices for failure to submit beneficial use proof were sent on July 25, 1967, and on October 5, 1967.

We feel that we have made every effort possible to make the permit holder aware of the requirements of the law with respect to this permit.

R-936

Tony and Eva Lemos
Phillip R. Lemos

2

October 30, 1967

If we do not receive just cause as to why we should not cancel the permit at this time, we will proceed to do so on December 8, 1967.

If we can provide you with further information, please contact us.

Very truly yours,

C. Stephen Allred
Assistant State Reclamation Engineer

Gentlemen:

It appearing to the State Reclamation Engineer that the terms and conditions of Permit R-936 to appropriate the public waters of the State of Idaho, have not been complied with as to failure to prove completion of works and failure to submit proof of beneficial use of water, you are hereby notified that under the provisions of Section 42-311, Idaho Code, as amended, said permit is hereby held for cancellation, and you are required to show cause before the State Reclamation Engineer on or before December 8, 1967, why said permit should not be cancelled.

Permit R-936 claims the use of 2500 ^{acre feet per annum} ~~cubic feet per second~~ of water. The point of diversion was to be located SW 1/4, Sec. 35, T. 4 S, R. 13 E, B.M., Wooding Co., and the permit was approved May 3, 1954.

Re: Permit R-936

Mr. & Mrs. Tony Lemos & Phillip Lemos
3426 Mt. Diablo Blvd.
Lafayette, California

Dear Mr. & Mrs. Lemos:

Proof of ~~completion of work~~ and application of water to beneficial use for the above referenced permit, ~~is~~ due not later than May 3, 1965 ~~was~~.

Under the terms of your permit, it is required that a notice be published once a week for four consecutive weeks in a local newspaper showing your intent to submit proof. The proof will consist of depositions which the permit holder and two disinterested witnesses must complete before the listed notary public, and must be accompanied by an affidavit of publication of the legal notice.

We have prepared the enclosed notice from the information on your permit. The complete name and address of a notary public of the State of Idaho must be entered together with a date for you to appear before the notary. Allow at least 40 days from the date the notice is mailed to this department for your appearance before the notary.

If you find any discrepancy in the notice or have made any changes, please advise this department and we will assist you in doing whatever may be necessary to assure correct publication.

If the enclosed notice is correct, complete the blank spaces and sign the form authorizing us to publish the notice at your expense and return all forms. At the time we send the notice to the newspaper, you will be supplied with further instructions.

If you do not desire to complete the proofs and obtain a license of water right, you are requested to complete the relinquishment portion of this form below and return it to the Department of Reclamation.

Attention: R. H. Young

Dear Mr. Young:

On September 18, 1964, we sent Mr. William H. Horton, Administrator, a notice allowing 40 days within which to show cause why the above noted permit should not be cancelled.

Your letter of October 7, 1964 showed that Mr. Horton, with other members of the family, would go to Bliss October 12 to obtain bids for completing the works. You also promised to notify this office of further progress.

We must cancel this permit if work has not been started to complete the works.

A new application for permit has been filed by Mr. Leonard E. Strout to complete the dam. This application will have to be approved upon receipt of the filing fees.

Dear Mr. Tappan:

I certainly enjoyed the opportunity of visiting with you and of meeting Mrs. Tappan the other evening in Boise at the Hotel Boise.

However, when I returned to my desk, I find that under the date of March 1, 1965, I was sent a Form 5A which states that under the terms of our permit we are required to make proofs of completion of works and application of water to beneficial use on or before May 3, 1965. The Forms 36-A was included in duplicate, and I notice in reading the same that this should be done at least forty days prior to the above mentioned date. Regrettably, due to my legislative complications, I do not now have the required forty days left, and I am wondering if you might see fit to reissue this notice to me in order that I may make the necessary and proper arrangements?

Thanking you for your consideration in this matter, I am

*Send these — — — forms in to this office
as soon as possible.*

R-936

STATE OF IDAHO

DEPARTMENT OF RECLAMATION

Re: Permit No. **R-936**
Bray Lake Ranch, Inc.

Date:

March 1, 1965

Schiller & Young
Attorneys at Law
Nampa, Idaho

Attn: **R. H. Young**

Dear **Mr. Young:**

Under the terms of your Permit No. **R-936** you are required to make proofs of completion of works and application of water to beneficial use on or before **May 3, 1965**

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper in the county.

We enclose Form 36-A in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use, or lands which are irrigated - - by legal description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published, or you may have to readvertise and complete another set of proof forms.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 36-A

At the time we send the notice to the newspaper we will send you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, and at the place named, before the Notary Public as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by the field inspection to have been irrigated at the time of proof.

Very truly yours,

Carl E. Tappan

Re: Permit No. R-936
Bray Lake Ranch, Inc.

William H. Horton
603 Kearney
Caldwell, Idaho

Dear Mr. Horton:

Proof of Completion of Works under Permit No. R-936, raising Bray Lake to 4365 acre foot capacity, was made by Mr. F. T. Horton for the Ranch, on December 30, 1958.

The structure was inspected November 7, 1963. The earth fill appears to be adequate, however there was no rip-rap on the upper part of the dam. The gate control has not been moved from the level of the dam as of 1957. Evidently the old conduit is in place under the old dam. Plans call for a new pipe to be ^{gr}anted within the old conduit.

The work must be completed in the near future or the permit will be cancelled. Notify this office upon completion in order that the works can be inspected.

Very truly yours,

RALPH W. THOMAS, Deputy
State Reclamation Engineer

R-864 and R-936

Mr. L. E. Strout
633 4th Ave. West
Gooding, Idaho

Dear Mr. Strout:

This is in reply to your letter of December 28, 1959.

Nothing has been done in regard to R-971, R-972 and R-973 in the name of R. J. Bostrum. Completion of works proof are not yet due on them.

Permit R-864 was assigned to Bray Lakes Ranch, Inc. Completion of Works proof was made for 1865 acre feet and certificate for same was issued on March 6, 1958.

Permit No. R-936 was assigned to Bray Lakes Ranch, Inc. It is for an amount of 2500 acre feet. Completion of Works proofs were made on December 30, 1958. Same were accepted. As soon as an inspection is made a report will be submitted and a completion of works certificate issued if the works are approved. If not approved they will be told what is necessary to make the dam acceptable.

There is no reason to believe this permit will be cancelled.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

RECEIVED
DEC 2 1958

63 Emerald Avenue,
Chicago 21, Illinois,
December 22, 1958.

Mr. George N. Carter,
State Reclamation Engineer, Bureau of Reclamation
Capitol Building,
Boise, Idaho.

R-936.

Dear Mr. Carter:

In my last letter, I requested that you supply the Bureau of Land Management with two photostatic copies of my R-971, and I suspect that the materials have reached them by this time.

In order that I may be properly equipped when I appear at Gooding on December 30, 1958, for the "proving up" exercises respecting R-936, bearing upon the history of that enterprise, I feel that I must have more complete data than my incomplete table hereunder now reflects:

<u>Under Aus- pices of</u>	<u>Reservoir Site No.</u>	<u>Appli- cation No.</u>	<u>Year of Filing or, re- filing.</u>	<u>Total acreage to be served</u>	<u>Capacity of Reservoir, in terms of Acre Feet.</u>
Strout	R-817	28,367	11-13-48	3600	2000 (?)
Strout	R-864(?)	?	1950	3600(?)	2000 (?)
Strout	R-936(a)	?	4-13-54	3720	2500 (?)
			(Betw.Oct.,		
Horton, or Bray Lake.	R-936(b)	?	1955 & 1958)?	3880	4365

From the foregoing, you may readily observe that I have only partial information on the Filings, Site numbers, Year, and acreage to be served.

But to make my request a little more to the point, I desire the entire data available from your files, under the four-line set-up which I have outlined above. You will note that I have but an approximation to accuracy respecting data in total form. But I should like to obtain it in detailed form: not only correct Site numbers, Application numbers (with dates), but each Forty built into a table, such that it can be located, as ordinarily legally described; or, more particularly, as you usually have it tabulated inside the front cover of each Permit; if not this, then a plotted Map; or better still, a combination of the two. It would be quite satisfactory to me if the whole of it were merely photostated from your office records. You need not mail these materials to me. I should prefer that you merely have the processing done, and the data ready for me when I reach your office on Dec. 26th when I should like to pick up these materials in person.

Inclosed herewith is my Ck. No. 659, bearing today's date, on the First Security Bank of Gooding, in blank form, except that I have noted below that the check should not exceed \$15.00.

I should not fail to tell you that it was a pleasure to meet you last July when I called on you, and that I am looking forward to seeing you again on or about December 26, 1958. If my request as here represented lacks clearness in any respect, undoubtedly the whole matter can be cleared through by a brief oral discussion of the same.

Thanking you for your cooperation, and with the

Season's Greetings, I am

Yours sincerely,

R. J. Bestrom

P.S. Respecting the notice published in the Gooding Leader, it appears to me that the legal description of lands to be served is readable as regards Twp. 4 So., but that the listing under Twp. 5 So. appears to be full of contradictions.

6816 Emerald Ave.,
Chicago 21, Illinois,
December 22, 1958.

RECEIVED
DEC 26 1958
Department of Reclamation

Mr. George N. Carter,
State Reclamation Engineer,
Capitol Building,
Boise, Idaho.

Dear Mr. Carter:

R-936

As I am indirectly connected with the status of R-936, and have need of more information concerning the same, historically, for the last decade,

I respectfully request that you prepare for me photostatic copies of the successive issues of Permits during that period, beginning, I think, with R-817, and concluding with the present R-936.

The Permit numbers that seem to constitute the line of succession, renewals included, appear to be these:

R-817, R-864, and R-936, but the latter may be broken down into two parts:
(a) when R-936 was controlled by L. E. Strout, and
(b) when R-936 was and is " " Mr. Horton, or perhaps I should say, Bray Lake Ranch Inc.

To that end, I am inclosing herewith, my Ch. No. 639, drawn on the First Security Bank of Gooding, having left blanks for you to fill in for a sum sufficient to cover the costs, etc., in perfecting the aforesaid copies intended for my perusal.

Yours very truly,

R.J. Bestrom

P. S. I first prepared the same request in a longer form, with considerable detail, but I thought that as we are approaching the holiday season, the reading of the details might hinder the preparation of the items wanted now. However, I invite you to read the detailed letter when time permits.

R.J.B.

RE: Permit No. R-936

Mr. F. T. Horton
Bliss, Idaho

Dear Mr. Horton:

We acknowledge receipt of the ~~Deposition~~ of Holder and two witnesses, also affidavit of publication in The Gooding Leader, all submitted in proof of completion of works on Permit No. R-936.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

2-936

Permit No. R-936

Proof of Completion of Works

DEPOSITION OF HOLDER

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. F. T. Horton, (Bray Lake ranch)

Bliss, Idaho

Ques. 2. If acting on behalf of a corporation, state its name, principal place of business, your position with reference to same, and your authority for appearing in its behalf.

Ans. President

Ques. 3. State number and date of permit, acre feet of water you claim for storage, and source of same.

Ans. No. R 936 May 3, 1954-Approved Total storage 4365 Acre ft.
Source of supply is Dry Creek, Gooding Co. Idaho

Ques. 4. Under terms of permit construction was required to be completed by

May 3, 1959

Ques. 5. Construction was actually completed on the date of October 31, 58

Ques. 6. Does the construction fully comply with the specifications? yes

Ques. 7. Of what material was the dam built? Earth

Ques. 8. State whether or not the water has been turned into your reservoir, and if so, when and to what extent

Ans. yes- Flood waters

Ques. 9. The capacity of the reservoir is 4,365 acre feet.

Ques. 10. The area of the high water line of the reservoir is 220 acres.

Ques. 11. The height of the dam above bottom of reservoir is 36.5 feet, above low water is 36.5 feet.

Ques. 12. The dimensions of the spillway are 25'-0" wide and the bottom of the spillway is 4.0 feet below the top of the dam.

Ques. 13. Dimensions of the reservoir outlet are 26" X 32"

Ques. 14. Describe the gate and control unit.

Ans. The gate is controlled with a 1" rod inside of a 3 1/4" galvanized pipe it is moved with a gear and screw lever.

Ques. 15. The reservoir outlet is made of Concrete

Ques. 16. Is the reservoir filled through a feeder canal? yes

Ques. 17. If so, where is the point of diversion for same?

Ans. 1/4 SW 1/4 Section, 6 Twp. 4S Range 14E

RT 232

RT

Ques. 18. Does the feeder canal comply with the specifications in the permit? no

Ques. 19. If not, explain Lacking in Width

Ques. 20. Cost of constructing feeder canal? \$..... Cost of reservoir? \$.....

Ques. 21. State whether or not the works from reservoir outlet to place of use are fully completed, and whether or not they comply with the specifications in permit. If not, explain.

Ans. yes

Ques. 22. Water has (has not) been delivered to place of intended use?

Ques. 23. Give description of dam, state dimensions, and give slope of face both upstream and downstream. Also method and material for protecting against wave action.

Ans. Dam is 1800 ft. long, 194 ft. wide at the base and 14 ft. on top
upstream slope is 3 1/3 to 1 down stream slope is 2 to 1 Upstream Riprapped

Ques. 24. State the purpose for which the water is to be used and give the place of use, and if for irrigation, state the number of acres, and give the legal description of same.

Ans. Irrigation and domestic purposes 3720 Acres twp 4S 13E Sec 33,
34, 35, 36. twp. 5S Range 13. E sec 3, 4, 9, 1, 2.

The Depositions of two Witnesses, in this form, taken separately, required in each case.

Permit No. R-936

Department of Reclamation

Proof of Completion of Works

DEPOSITION OF WITNESS

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Ralph M. Arrington, engineer, Gooding, Idaho

Ques. 2. Are you acquainted with F. T. Horton, the holder of Permit No. R-936, authorizing the storage of 4365 acre feet of the waters of Dry creek which is tributary to Big Wood River, in the County of Gooding, State of Idaho? How long have you known him, and where does he reside?

Ans. Bliss, Idaho, on land irrigated from this reservoir

Ques. 3. Have you read or heard read said Permit? yes Are you familiar with its terms and conditions? yes

Ques. 4. Of what material and how has the dam been constructed?

Ans. Inner core is of compacted clay outer fill of gravel etc.

Ques. 5. Is the reservoir fully constructed? yes Has water been turned into it? yes And to what extent? Flood waters from Dry Creek now running into reservoir

Ques. 6. Where is the point of diversion of the feeder canal?

Ans. $\frac{1}{4}$ SW $\frac{1}{4}$ Section 6, Township 4S Range 14E

Ques. 7. The outlet of the reservoir is located in the SW $\frac{1}{4}$ N E $\frac{1}{4}$ Section 35 Twp. 4S Range 13E B.M.

Ques. 8. Describe the spillway.

Ans. 25 foot rip rap cut through northwest portion of dam.

Ques. 9. How much below the top of the dam is the bottom of the spillway? 4.0 ft. Ft.

Ques. 10. State the dimensions of the outlet for the reservoir. Concrete tube 26" X 32"

Ques. 11. Of what material is the outlet made? Concrete

Ques. 12. How is the outlet gate operated? A manufactured wheel and screw

Ques. 13. Of what material has the dam been constructed? clay and gravel

Ques. 14. Are the works from the reservoir to place of use fully completed? yes- Previous water

Ques. 15. Describe these works as they now exist, and give your estimate of their capacity.

Ans. 4.365- Dam was engineered by soil conservation

Ques. 16. For what purpose is the water to be used?

Ans. Irrigation and Domestic

R. 936

Ques. 17. If for irrigation purposes, are you acquainted with the land to be irrigated?.....**Yes**.....
How much water is required for its profitable cultivation?

3 acre feet per acre

Ans

Ques. 18. Give the legal description of the land to be irrigated, or the place of use.

Ans. **land in Sec. 33, 34, 35, 36 in Twp 4 S. R. 13 EBM and in Sections 3, 4, 9, 1 and 2 in Twp. 5 S. R. 13 EBM**

R-936

Notices have been mailed to the water users of your district notifying them of the time and place for holding the Annual Water Users' Meeting, on March 7, 1955. It is very important that you, as Secretary of the District, attend this meeting.

A letter is enclosed, which we request that you read at the meeting, so the water users may not fail to attend to those matters which are vitally important. You should have available at the meeting your copy of the Watermaster's Report for 1954 and your copy of his Proposed Budget for 1955. The one vitally important matter for the meeting is the adoption of a budget, and resolutions providing for its collection. Without this action the District will be without funds to pay a Watermaster.

We are not furnishing you with any blank form for submitting to this department a certified copy of the minutes of the meeting. You may supply them in whatever form you prefer, just so they are complete, correct and certified.

In order that the adopted budgets filed with the counties may be uniform, we have prepared and enclose herewith budget forms for your use. Be sure and give the addresses as well as the names of water users.

If for any reason you are unable to attend the annual meeting, please hand this letter and all other papers to someone who will attend. If you do not act

Re: Permit R-936 & R-864

Mr. F. T. Horton
804 Dewey Ave.,
Nampa, Idaho

Dear Mr. Horton:

If you will remember the last time that you were in our office, that we completed assignments assigning 15/100 of 1865 acre feet to Miss Johanna Horton, in connection with Permit No. R-864, also assignment to Mrs. June Rose Horton, for 36/100 of 1865 acre feet of the waters of Bray Lake.

These last assignments were to take the place of assignments to the same people recorded in this department under R-936 under date of August 13, 1956.

It is necessary that we have a re-assignment of the last above stated assignments to be assigned back to the Bray Lake Ranch, Incorporated, in order to clear our records in connection with R-936, which was recorded in error. Would you kindly have the enclosed assignments signed by Miss Johanna Horton and Mrs. June Rose Horton.

We are sorry to have to bother you again, but it is necessary that we have these assignments that are in connection with Permit No. R-936 re-assigned back to the Bray Lake Ranch Incorporated, in order to clear the records of this department.

Very truly yours,

Dear Mr. Horton:

We are writing you in regard to the two assignments which you took with you the day you were in our office to have them completed and returned to this office at once, in order that the publication could be sent to the paper and proofs made December 10, 1958.

However, the Notice for Publication cannot be published until the two assignments are recorded in this office, and to date we have not received them, therefore it will be necessary for you to advance the date for final proof, in order to allow for four weekly publications.

Please return the assignments, together with a fifty cent recording fee for each assignment at once, and advise us of the advanced date set for final proof.

R-936

RIGHTS IN DRY CREEK WATERS,
Other than Bray Lake Ranch, Inc.

The "Notice" published in the Gooding Leader, in its issues of Dec. 4 and 11, 1958, respecting "proofs" that the owners of the Bray Lake Ranch, Inc., intend making on Dec. 30, 1958, respecting the "completion of works by the diversion of 2500 acre feet per annum of the waters in Dry Creek ...", etc., and further specifying by legal description some 3880 acres in Gooding Co. that may be served by such waters as are to be impounded in R-936; said notice bearing the signature of Geo. N. Carter, State Reclamation Engineer, has come to the notice of the undersigned.

The undersigned desires once more to notify the general public, and the owners of Bray Lake Ranch, Inc., in particular, that by way of contrast, he owns one-half interest in the Canal supplying R-936, for the first one-half (or more) of the canal's length; and a one-half interest in the water that flows thru the said canal; that is, up to the point where a marked diversion point should still be in existence, unless destroyed by adverse parties; and also to state that he is interested in some of the lands which are included in the notices of Dec. 4 and 11.

Moreover he wishes to notify the public, and more particularly the Bray Lake Ranch Inc. owners, or any parties contracting with them respecting lands or waters embraced within the aforesaid notices, concerning any acts or procedures that might be followed by them that would be injurious to or in contravention of the rights of the undersigned herein; which rights will be properly defended by the undersigned, in order that his own rights may remain undiminished.

The parties herein addressed, and anyone now contracting with them, or intending to contract with them, in any manner respecting land or water rights, are hereby put on notice to read the contents of the contract, dated July 25, 1953, by and between Leonard E. Strout et ux (grantors) and R. J. Bostrom (grantee) respecting a half interest in the waters flowing thru the canal then owned by the Strouts, but now owned by the Bray Lake Ranch, Inc.

This contract can be identified on the records of Gooding Co., by Doc. 129072, recorded in Book 6 or 7 of Agreements, p. 179; and is supplemented by a prior notice, Doc. 128140, Book 7 Misc., p. 435, and by a subsequent and correcting notice in Doc. 129749, recorded in Book 7 Misc., p. 467.

Respectfully submitted,

Notice for Publication

RECEIVED
NOV 10 1958

Notice is hereby given that at 10:00 A.M., on the 30th day of December, 1958, at Gooding, County of Gooding, Department of Reclamation

before Mr. Ryan, Notary Public, proof will be submitted of the completion of works for the diversion of 2500 ^{acre} ~~feet~~ feet per annum of the waters of Dry Creek

in accordance with the terms and conditions of a certain permit heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name of the person or corporation holding said permit is Bray Lake Ranch, Inc.

2. The postoffice address of such person or principal place of business of such corporation is

Bliss, County of Gooding, State of Idaho.

3. The number of such permit is R-936, and the date set for the completion of such work is

May 3, 1959

4. Said water is to be used for irrigation and domestic purposes.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of ^{storing and} conducting to the place of intended use, in accordance with the plans accompanying

the application for such permit, is 2500 ^{acre} ~~feet~~ feet per annum (Total storage of reservoir is 4365 ^{acre} ~~feet~~ per annum)

6. The amount of lands for which said water is available is 3880 acres, particularly described as follows:

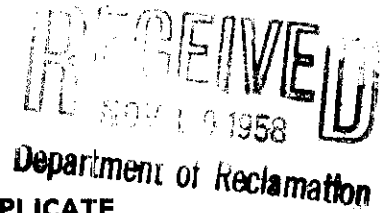

N $\frac{1}{2}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SW $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 33., Twp. 4 S., Rge. 13 E., S $\frac{1}{2}$ Sec. 34., S $\frac{1}{2}$ Sec. 35., SW $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 36 all in Twp. 4 S., Rge. 13 E., B. M. Sec 3., NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$, S $\frac{1}{2}$ NW $\frac{1}{4}$, E $\frac{1}{2}$, Sec. 4., NE $\frac{1}{4}$, Sec. 9., W $\frac{1}{2}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 1., NE $\frac{1}{4}$, E $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 2., all in Twp. 5 S., Rge. 13 E., B. M.

Mr. Ryan
Notary Public
Gooding, Idaho

Dear Mr. Ryan:

This acknowledges the Notice for Publication in connection with Permit No. R-936, in the name of Bray Lake Ranch, Inc. Final proof is to be made before you, as Notary, on the 30th day of December, 1958, at 10:00 A. M., at Gooding, Idaho.

As of this date we have mailed the notice to the Gooding Leader, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof, and then to send the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. M. CARTER

R-936

To Permit to appropriate the Public Waters

of the State of Idaho, No. R-936

Comes now F. T. HORTON, Nampa, Idaho, and represents to the State Reclamation Engineer of the State of Idaho.

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. R-936, and requests that the list of lands to be irrigated, as described in said permit, be changed to read as follows:

N $\frac{1}{2}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 33, Twp. 4 South, Rge. 13 East;
S $\frac{1}{2}$ Section 34; S $\frac{1}{2}$ Section 35; SW $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 36, all in
Township 4 South, Range 13 East. NE $\frac{1}{4}$, NW $\frac{1}{4}$, SW $\frac{1}{4}$, SE $\frac{1}{4}$, Sec. 3,
NE $\frac{1}{4}$, NE $\frac{1}{4}$ NW $\frac{1}{4}$, S $\frac{1}{2}$ NW $\frac{1}{4}$, S $\frac{1}{2}$, Sec. 4; NE $\frac{1}{4}$, NW $\frac{1}{4}$, SW $\frac{1}{4}$, SE $\frac{1}{4}$, Sec. 9;
W $\frac{1}{2}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 1; NE $\frac{1}{4}$, E $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$,
N $\frac{1}{2}$ SE $\frac{1}{4}$, Section 2, all in Township 5 South, Range 13 East.

making a total of 3880 acres.

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change.

Signed at Boise, this 13th day of July, 1956

F. T. Horton

Date of receipt at office of Department of Reclamation July 13, 1956.

APPROVAL OF STATE RECLAMATION ENGINEER

I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. R-936. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

Dear Mr Kulp:

I want to put 12000 yds of Dirt in
or on my Dam.

And I saw the P.M.A. today for
payments they are paying for a
Dam as mine:

I sent you my plans and Drawings
of the work to be put in to raise it.
And Tom said he had to have
a O.K. from you as they will
send their Engineer out to get the yardage
and look after the job when it is
completed I can draw the Payment.
Can I prove up on what I get in?
Best wishes,

J. E. Strout.

March 24, 1954

Mr. Leonard E. Strout
Bliss
Idaho

Dear Mr. Strout:

We have your letter of March 22 enclosing application for permit, which is evidently intended to take the place of your Permit No. R-864, accompanied by your check for \$6.25.

We do not quite understand this as your Permit No. R-864 is still in good standing and proof of completion of works is not due until October 10, 1955.

Also, our records show no other filings from this source subsequent to your Permit No. R-864.

We shall await your further advice before proceeding in the matter.

Very truly yours,

Mar. 29 - 1954

Blisselda

Mr. M. R. Culp

2. To Eng. Blisselda Cap. Blady
From Mr. Culp and Mr. Thompson:
To explain the situation better:
I had two Contractors to
estimate the work to be done
to raise the Reservoir 5 ft.
making it wider than Mr.
Trails estimation which was
7550 yds. But I want to
go on up to 33 ft later
and I figured to make it
150 or 160 ft wide so as
not to have to go or bring it
up level to a full width of
33 ft high dam. So it would
be 18000 yds the Estimation.

RECEIVED

MAR 30 1954

Department of Reclamation

1954

of the P.M.A. Engineers at Garding:
 Every way these gentlemen want
 to build up the Res. I am for
 water, and I keep their land.
 It is like this they seem to be
 so anxious how I stand on
 my filings and how or are going
 to go to Boise look them up
 Well I thought like this I
 spent over \$2700 dollars the
 last two years on the ^{fuel} canal
 its capacity is 4000 ft. S. S.
 15 ft bottom 3 ft deep surface
 to carry 5 times what it did.
 800 ft S. S. 5 times = 4000 ft. S. S.
 Now I want to start in and build
 up the Cap. of the Res; These
 men see an opportunity getting
 land or a water right for

Their Canal for 20 or 25⁵
 less per acre, and I am
 thinking when they see
 I have a filling 23 ft. they
 can put a filling on for
 additional 10 33 ft.
 and I should not get
 my Dam completed at that
 time their filling will take
 place and I will be as I
 am with 766 acre ft and
 they would get all the ben-
 efit of the big canal.
 So I thought I had better
 file and make the Raise
 to 27 ft. adding on a
 water Capacity from 1863
 acre ft to 25 hundred a ft.
 It will give me then 3900
 R-036

more to complete all
 the Dam. work. If I
 have not sent enough money
 all do so right away. I
 Don't you think this would
 be O.K. for my protection?
 If you will fill out the
 signed App. as it should be
 I will sure appreciate it and
 in the Remarks you have
 Judge Sulphur Res. 32 cft.
 water recorded and the year
 also. The feeder Canal 18 ft
 wide on bottom 7 ft banks
 cap. 4000 a.ft. Completed
 The Dam Reservoir Cap at the
 present line 766. a.ft.
 Use your judgment on the new
 Raised Dam as to its Cap. Yours and E. Shon

APPLICATION FOR PERMITTo Construct a Reservoir and Store and Appropriate
The Public Waters of the State of Idaho

Application No. R.....

Permit No. R.....

1. Name of Applicant: Leonard E Strait
 Postoffice address: Bliss County Gooding State Idaho

I. If applicant is a corporation, give:

- (a) Date and place of incorporation:
- (b) Amount of Capital Stock: \$.....
- (c) Amount paid in: \$.....
- (d) Names and addresses of directors:

II. The financial resources of the corporation are:

- (a) Cash on hand: \$.....
- (b) Treasury Stock: \$.....
- (c) Bonds to be issued: \$.....
- (d) Other resources:

2. Quantity of water to be stored: 2000 acre feet per annum

3. Source of water supply is Dry Creek (Creek) (River) (Spring), a tributary
 of River.

4. The outlet of the proposed reservoir is located N 80° 30' W 1282 feet, distant from the E 1/4
 corner of Section 35, Township 45, Range 13 E, B. M., and is in the NW 1/4 of NE 1/4
 of Section 35, Township 45, Range 13 E, B. M. County of Gooding

5. Fill out either (a) or (b).

(a) The reservoir is located in the channel of (Creek) (River).

(b) The reservoir is to be filled through a feeder canal, the point of diversion for which is located N 57° 30' E
2455 feet, distant from the S 1/4 corner of Section 6, Township 45, Range 14 E
 B. M., and is in the NE 1/4 of SE 1/4 of Section 6, Township 45, Range 14 E B. M.;
 width at bottom 16 feet, width at top 50 feet, depth of water 4 feet; average grade
 per mile 2 1/2 feet; Capacity 3200 cubic feet per second.

6. (a) The area of the high water line of the reservoir is 260 acres.(b) The reservoir capacity is 2700 acre feet.

7. Height of reservoir dam 25 feet, length at top 1280 feet, length at bottom 20 feet, size of
 outlet 2 feet by 2 3/4 feet. The dam is to be constructed of materials as follows: Earth

(If height of dam will exceed 10 feet or capacity of reservoir will exceed 100 acre feet, plans must be approved
 by Department of Reclamation, before beginning construction.)

8. (a) Will water stored in reservoir be diverted to canal or aqueduct, thence to land to be irrigated without com-
 mingling with natural flow of Dry Creek (Creek) (River)? Yes

R-936

(b) Water stored in reservoir will be carried in the channel of..... (Creek.) (River,) a distance of..... miles to point of diversion located feet, distant (bearing) from the..... corner of Section..... Township....., Range....., B. M., and in the ¼ of ¼ of Section....., Township....., Range..... B. M.

9. Amount of water claimed from Dry Creek (Creek) (River) (Spring) in addition to that stored in reservoir 400 cubic feet per second.

10. Water is to be used for Irrigation and domestic purposes.

11. If for mining, milling, power or manufacturing purposes give:

(a) Point of use of water..... feet, distant from..... Corner of Section..... (bearing) Township....., Range..... B. M. and is in the ¼ of ¼ of Section....., Township....., Range....., B. M.

(b) Amount of power generated:..... H. P., under..... feet head.

(c) Water is to be returned to..... (Creek) (River) (Spring) at a point feet distant from the..... corner of Section....., Township....., Range..... (bearing)....., B. M., in the ¼ of ¼ of Section....., Township....., Range....., B. M.

12. Water stored in accordance with this Permit will be carried to place of use through a canal heretofore constructed under the terms of Permit No....., which is hereby referred to and made a part hereof.

13. Kind of diversion works: Canal from reservoir outlet to land (Dam, canal, flume, pipe, etc.)

14. Height of diversion dam:..... feet, length at top..... feet, length at bottom..... feet. The dam is to be constructed of materials as follows:.....

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

15. Size of headgate: Width....., feet, Height..... feet.

16. Diversion Canal: Width at bottom 4 feet, width at water line 8 feet, depth of water 1 1/2 feet, Dimensions of Flume.....

Diameter of Pipe..... inches; Length of Conduit 5 miles. Average grade per mile 5 feet.

17. Estimated cost of Works: Storage Works: \$ 3500 Diversion Works: \$ 1500

18. Time required for completion of work 5 years.

19. Time required for complete application of water to proposed beneficial use is 6 years.

20. The land to be irrigated is described in the following tabulation:

(Give Irrigable acreage in each 40-acre subdivision.)

TWP.	RANGE	SEC.	NE ¼				NW ¼				SW ¼				SE ¼				TOTALS

T. 4 S R. 13 E. B.M. County of Gooding
4. Describe works as they exist, giving dimensions and capacities of same: _____

Permit No. R-936

File No. _____

or feeder

Name of Dam: Bray Lake Dam Stream: Dry Creek (diversion/canal from)
 Name of Owner: F.T. Horton (Leonard Strout) Location: SE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 35, T. 4 S., R. 13 E. B.M.
 Type: Earth Fill Purpose: Irrigation & Domestic Constructed: _____
 Engineer: Soil Conservation Engineers Contractor: _____

DIMENSIONS OF DAM

.33 ⁰/₁₀₀ meter Miles

Length on Bottom:	Ft.	Length on Crest:	1742	Ft.
Height above Stream Bed:	38.7	Depth to Bedrock:		"
Top Width:	10	Upstream Slope:	3:1	
Freeboard:		Slope Protection: <u>Rip rap lower 68' of slope only.</u>		
Downstream Slope:	2:1	Watershed Area: <u>23 Sq. miles.</u>		
Area of Reservoir at Spillway Level	204	Capacity of Reservoir	1365	Acre Feet.

(See Remarks)

Description of Foundation, including Cut-off Walls and other Precautions as to Safety: _____

Used old existing concrete Conduit-24" X 30" ID X 170' long with 6 cut-off collars spaced 15' apart. This outlet conduit conforms with the present dam height with slopes 3:1 upstream and 2:1 downstream. Inlet and outlet ends of conduit are in good condition. (New plans show a 21" twisted steel culvert to be installed and grouted inside old conduit - this not done.)

Dimensions and Description of Spillway: Natural spillway around North West end of dam, also a small plug or dyke 300' X 6' X 6' with proper slope 250' N. W. from N. W. end of Dam. This natural spillway empties into a round pot-hole approximately 700' across and 30' deep.

Dimensions and Description of Outlet Works, Gate Hoisting Mechanism, etc.: Concrete headwall with a 2' sloping outlet screw gate, 74' X 1" controll rod in a 73' X 2" CIP tube. Used existing conduit to open ditch. Trash rack is not a fixed grating. It is placed loosely over inlet and depending on its weight to hold in place. Concrete around gate housing is good, but wings are broken.

Historical: Dry Creek has a drainage area estimated at 21 Sq. miles. The flood water is diverted into Bray Lake Reservoir by feeder canal. When water-level reaches the desired height it is then turned out of the canal. There is approximately 2 square miles of drainage area in the vicinity of Reservoir.

This is a well constructed dam, No sag, cracks or erosion channels in structure. No rip-rap on down-stream side.

Remarks: Mr. Strout stated he would never allow Mr. Horton to fill reservoir above the rip-raped section because the wave action would destroy the new extension. There is no indication of water having been stored above the rip-raped section.

R-864 has C/W for 1865 AF. R-936 is for 2500AF additional storage by extending the dam height, making a total storage capacity of 4365AF.

OF MERCEL AND THE PEOPLE OF THE STATE OF NEW YORK, IN SENATE,

January 10, 1967.

REPORT OF THE

COMMISSIONERS OF THE DEPARTMENT OF ENVIRONMENTAL CONSERVATION, ON THE

PROGRESS OF THE WORK DURING THE YEAR 1966.

ALBANY:

THE UNIVERSITY OF THE STATE OF NEW YORK PRESS, 1967.

PUBLISHED BY THE UNIVERSITY OF THE STATE OF NEW YORK PRESS, ALBANY, N.Y. 12244.

PRINTED AT THE UNIVERSITY OF THE STATE OF NEW YORK PRESS, ALBANY, N.Y.

No part of this publication may be reproduced without permission in writing from the University of the State of New York Press.

This report was prepared under the direction of the Commissioner of the Department of Environmental Conservation, and was written by the staff of the Department.

The Commission on the Environment, created by Chapter 860 of the Laws of 1965, has the honor to present this report to the Senate and the Assembly.

The Commission on the Environment was organized on July 1, 1965, and since that time it has been actively engaged in studying the problems of environmental conservation in this State.

The Commission's first major study was the "Report of the Commission on the Environment," which was submitted to the Governor and the Legislature in December, 1965.

This report contains a comprehensive survey of the current status of environmental conservation in New York State, and sets forth a program of action for the future.

The Commission believes that this report will provide a valuable basis for discussion and action by the Legislature and the people of this State.

Sincerely,
The Commission on the Environment

Chairman:
JAMES A. HANCOCK
Commissioner of the Department of Environmental Conservation

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.
