NOTICE OF PROOF OF
COMPLETION OF WORKS
and
APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at Two o'clock P. M., on the 17th day of October, 1953, at Carey, County of Blaine, State of Idaho, before Alice York, Notary Public proof will be submitted of the completion of works for the storage and appropriation of 12,724 acre feet per annum of the waters of Little Wood River and of the application to beneficial use of said water, in accordance with the terms and conditions of Permits Nos. R-604 and R-656 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permits are Little Wood River Irrigation District, Carey, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permits, is 12,724 acre feet per annum.

3. The use to which said water has been applied is irrigation and domestic purposes, and the amount applied to the beneficial use is 12,724 acre feet per annum.

4. The place where said water is used is Little Wood River Irrigation District, in Townships 1 North, 1 South and 2 South, Range 21, East, B. M.

5. The date of priority which said user is prepared to establish is 10,000 A. F. - Sept. 3, 1935 - (Permit No. R-604) and 2,724 A. F. - Nov. 21, 1938 - (Permit No. R-656.)

1. Name of Applicant: LITTLE WOOD RIVER IRRIGATION DISTRICT

Postoffice address: Carey

County Blaine

State Idaho

I. If applicant is a corporation, give:

resolution of Blaine Co. Commissioners, organized under Title 42, Secs. 42-101 to 42-1834 inc. I.C.A. 1932

(a) Date and place of incorporation: Feb. 11, 1935-by / (b) Amount of Capital Stock: \$

(c) Amount paid in: \$

(d) Names and addresses of directors: O. J. McCarter, President ;
William Aitken; James Turnbull; W. D. Richards, Secy.-Treas.
all of Carey, Idaho. A. F. James, Gooding, Attorney for the
District.

II. The financial resources of the corporation are:

(a) Cash on hand: \$

(b) Treasury Stock: \$

(c) Bonds to be issued: \$

(d) Other resources:

2. Quantity of water to be stored: 6000 acre feet per annum.
3. Source of water supply is Little Wood ~~(Creek)~~ (River) ~~(Spring)~~, a tributary of Big Wood River.
4. The outlet of the proposed reservoir is located S 78°15'W. 1648 feet, distant from the NW $\frac{1}{4}$ corner of Section 13, Township 1 N., Range 20 E., B. M. and is in the NW $\frac{1}{4}$ of NW $\frac{1}{4}$ of Section 13, Township 1 N., Range 20 E., B. M. County of Blaine
5. Fill out either (a) or (b).

(a) The reservoir is located in the channel of Little Wood ~~(Creek)~~ (River).

(b) The reservoir is to be filled through a feeder canal, the point of diversion for which is located (bearing) feet distant from

the corner of Section, Township, Range, B. M., and is in the $\frac{1}{4}$ of $\frac{1}{4}$ of

Section, Township, Range, B. M.; width at bottom feet, width at top

feet, depth of water feet; average grade per mile feet; Capacity cubic feet per second.

6. (a) The area of the high water line of the reservoir is 420 acres.
- (b) The reservoir capacity is 16000 acre feet.
7. Height of reservoir dam 90 feet, length at top 1000 feet, length at bottom 400 feet, size of outlet 5 feet
- by 7 feet. The dam is to be constructed of materials as follows:

Earth and Rock fill

(Spillway, 500 feet wide at its weir, SW end of dam)

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

8. (a) Will water stored in reservoir be diverted to canal or aqueduct, thence to land to be irrigated without commingling with natural flow of

Little Wood ~~(Creek)~~ (River) ? No.(b) Water stored in reservoir will be carried in the channel of Little Wood ~~(Creek)~~ (River), a distanceof 4 & 5 miles to point of diversion located in Secs. 30 and 31 feet, distant from the corner of Section
West Side Canal - SW $\frac{1}{4}$ of SE $\frac{1}{4}$ of Sec. 30, Twp. 1 N., Range 21 E. B. M.
Township, Range, B. M., and in the $\frac{1}{4}$ of $\frac{1}{4}$ of Section, Township, Range
East Side Canal - NE $\frac{1}{4}$ of SE $\frac{1}{4}$ of Sec. 31, Twp. 1 N., Range 21 E. B. M.
B. M.

9. Amount of water claimed from (Creek) (River) (Spring) in addition to that stored in reservoir cubic feet per second.

10. Water is to be used for Irrigation and Domestic purposes.

11. If for mining, milling, power or manufacturing purposes give:

(a) Point of use of water (bearing) feet, distant from Corner of Section, Township, Range, B. M. and is in the $\frac{1}{4}$ of $\frac{1}{4}$ of Section, Township, Range, B. M.

(b) Amount of power generated: H. P., under feet head.

(c) Water is to be returned to (Creek) (River) (Spring) at a point (bearing) feet

distant from the corner of Section, Township, Range, B. M., in

the $\frac{1}{4}$ of $\frac{1}{4}$ of Section, Township, Range, B. M.

12. Water stored in accordance with this Permit will be carried to place of use through a canal heretofore constructed under the terms of Permit No.

, which is hereby referred to and made a part hereof.

13. Kind of diversion works: See Remarks

(Dam, canal, flume, pipe, etc.)

14. Height of diversion dam: feet, length at top feet, length at bottom feet. The dam is to be constructed of materials as follows:

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

15. Size of headgate: Width feet, Height feet.

16. Diversion Canal: Width at bottom feet, width at water line feet, depth of water feet, Dimensions of Flume Diameter of Pipe inches; Length of Conduit miles. Average grade per mile feet.

17. Estimated cost of Works: Storage Works: \$ 500,000 Diversion Works: \$ See Remarks

18. Time required for completion of work 5 years.

19. Time required for complete application of water to proposed beneficial use is 6 years.

20. The land to be irrigated is described in the following tabulation:

(Give Irrigable acreage in each 40-acre subdivision.)

Total Number of Acres to be Irrigated

Remarks: This application is additional and supplemental to Application No. R 25408, Permit No. R 604, which approves storage of 10,000 acre feet of water. This Application requests increase in storage to a total of 16,000 acre feet of water in the same reservoir. Subsequent to date of Permit No. R 604, it has been determined that reservoir capacity will exceed the amount set forth in the Application upon which Permit No. R 604 was issued.

The various distribution canals and their respective diversion works, which will utilize the water appropriated by this Permit, have been constructed and in use for many years.

Construction of the dam and appurtenances, to impound water requested in this Application and in Permit No. R 604, is substantially completed as of this date, except the main fill and the spillway.

BE IT KNOWN That the undersigned hereby makes application for permit to construct a reservoir and store and appropriate the public waters of Idaho as herein set forth, and that the enclosed map is hereby made a part of this application.

LITTLE WOOD RIVER IRRIGATION DISTRICT

Applicant.

By Raymond J. Briggs, Consulting Engineer,

Agent.

Date of first receipt at office of Commissioner of Reclamation 9:00 A.M., November 21, 1938

Returned to applicant for correction December 21, 1938

Corrected application received January 20, 1939

APPROVAL OF COMMISSIONER OF RECLAMATION

The number of this permit is R 656

Recorded in book R 2, page 656 Approved January 27, 1939

This is to certify that I have examined the within application for a permit to construct a reservoir and store and appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$, to be filed on or before

Work to begin on or before March 28, 1939

uninterruptedly to completion, unless temporarily interrupted by circumstances over which the permit holder has no control, and to continue diligently and

One fifth of the work above specified to be completed on or before July 27, 1941

The whole of said work to be completed on or before January 27, 1944

Beneficial use of water stored in accordance herewith, to be made on or before January 27, 1950

Witness my hand this 27th day of January

APPROVAL OF STATE RECLAMATION ENGINEER

WHEREAS, Application for Extension of Time for completion of works under Permit to appropriate the Public Waters of the State of Idaho, No. R-656, has been made by the owner thereof, Little Wood River Irrigation District, of Carey, Idaho, which application was duly advertised for a period of two consecutive weeks in the Hailey Times, stating that on the 4th day of December, 1943, a hearing would be held for the purpose of receiving any protest, testimony or evidence regarding such application; and,

WHEREAS, At the time set for the hearing no protest, testimony or evidence had been presented, either orally or by affidavit; and,

WHEREAS, It appears that the owner of said permit is entitled to a further extension of time within which to complete work;

NOW, THEREFORE, I, James Spofford, State Reclamation Engineer of the State of Idaho, by virtue of authority vested in me under Chapter 79 (Senate Bill No. 93°, of the 1943 Session Laws, hereby extend the time for Completion of Works under Permit to appropriate the Public Waters of the State of Idaho, No. R-656, to January 27, 1948.

WITNESS MY HAND, this 8th day of January, A. D. 1944.

JAMES SPOFFORD
State Reclamation Engineer

APPLICATION FOR AMENDMENT TO PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO No. R-656

Comes now The Little Wood River Irrigation District and represents to the State Reclamation Engineer of the State of Idaho:

That they are the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. R-656, and request that the list of lands to be irrigated, as described in said Permit, be changed to read as follows:

That the following described lands be eliminated from above permit, for reason that said lands were withdrawn by the land owners after permit had been made.

Eliminated land: Section 36, Twp. 1 N., Range 21 E., B. M.
Section 15, " 1 S., " " "
Section 18, " 1 S., " " "
Section 14, " 2 S., " " "

Land annexed to the District with water thereon in 1946, and not included in the original Permit as made by land owners having purchased storage water for said described lands, are as follows:

SE $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 7, Twp. 1 S., Range 21 E., B.M.

SW $\frac{1}{4}$ NW $\frac{1}{4}$ " 10, Twp. 1 S., " " "

Fr. S $\frac{1}{2}$ SW $\frac{1}{4}$, Fr. SW $\frac{1}{4}$ SE $\frac{1}{4}$, E $\frac{1}{2}$ SE $\frac{1}{4}$, Fr. NE $\frac{1}{4}$ SW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 14, Twp. 1 S., Range 21 E., B.M.

Above annexed land to be included in the Permit No. R-656

Making a total of 8814.12 acres.

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change.

Signed at Carey, Idaho, this 17th day of November, 1947.

LITTLE WOOD RIVER IRRIGATION DISTRICT

APPROVAL OF STATE RECLAMATION ENGINEER

I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. R-656. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

MARK R. KULP
State Reclamation Engineer

APPLICATION FOR AMENDMENT TO PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO

No. R-656

Comes now The Little Wood River Irrigation District and represents to the State Reclamation Engineer of the State of Idaho:

That they are the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. R-656, and requests that the list of lands to be irrigated, as described in said Permit, be changed to read as follows:

That the following described lands be eliminated from above permit, for the reason that said lands were withdrawn by the land owners after permit had been made:

Eliminated land: Section 31, Twp. 1 N., Range 21 E., B. M.

"	15	"	1 S.	"	"
"	18	"	1 S.	"	"
"	14	"	2 S.	"	"

Also Sections 22, 28, 29 " 2 S. " "

Lands annexed to the District with water thereon in 1946 and not included in the original Permit as made by land owners having purchased storage water for said described land are as follows:

SE $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 7, Twp. 1 S., Range 21 E., B.M.

SW $\frac{1}{4}$ NW $\frac{1}{4}$ " 10, " 1 S. " "

Fr. S $\frac{1}{2}$ SW $\frac{1}{4}$, Fr. SW $\frac{1}{4}$ SE $\frac{1}{4}$,

E $\frac{1}{2}$ SE $\frac{1}{4}$, Fr. NE $\frac{1}{4}$ SW $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$ " 14, " 1 S. " "

Above annexed land to be included in Permit No. R-656-

Making a total of 8814 acres.

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected thereby.

Signed at Carey, Idaho, this 17th day of November, 1947.

State Reclamation Engineer

Permit No. R-656

CERTIFICATE OF COMPLETION OF WORKS

TO ALL WHOM IT MAY CONCERN:

This is to certify that LITTLE WOOD RIVER IRRIGATION DISTRICT of Carey, County of Blaine and State of Idaho, the holder of Permit No. R-656, issued upon Application No. R-26065, bearing date of priority of November 21, 1938, authorizing the construction of a reservoir, with the right to appropriate and store 6,000 acre feet per annum of the waters of Little Wood River, a tributary of Big Wood River, in the County of Blaine, State of Idaho, for irrigation and domestic purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works set out and described in said Permit; that said works include a dam and reservoir adequate for the storage of 2,724 acre feet of water per annum, with adequate diversion works and conduit to the reservoir, and a conduit capable of conducting said water to the place of intended use; that the point of outlet of said reservoir is located in the NW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 13, Township 1 N., Range 20 E., B.M., and that the place of use, or the lands proposed to be irrigated by the use of said water, are described as follows, to-wit: Lands within the boundaries of the Little Wood River Irrigation District, located in Townships 1 and 2 South, Range 21 East, B.M.

Witness my hand this 4th day of December, 1953.

MARK R. KULP

Mr. Ralph Thomas
Deputy State Reclamation Engineer
State Capitol Building
Boise, Idaho

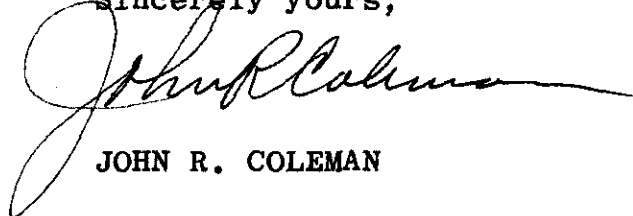

Dear Mr. Thomas:

Would you please furnish me with information from your records showing the storage licenses of the Little Wood River Irrigation District for storage rights in the Little Wood River Reservoir. It is my understanding that there are two storage licenses which have been issued prior to the issuance of Storage Permit R-935. I would like to know the license numbers, dates of priority and amount of storage under each of these licenses.

Pursuant to an agreement between Mr. William Burpee and myself concerning the Storage Permit R-935 held by the Little Wood River Irrigation District, we have proceeded to have a hearing of Proof of Beneficial Use in this matter. As soon as I have the above information concerning the existing storage licenses, I will be able to forward the depositions taken upon Proof of Completion of Works to your office for filing in this matter.

Your cooperation in this matter is greatly appreciated.

Sincerely yours,

JOHN R. COLEMAN

Department of Reclamation

MEMORANDUM.

Date: September 8, 1953

To: Mr. R. E. Adamson, President,
Little Wood River Irrigation District.
Carey, Idaho

By: Raymond J. Briggs

Copies to: Mrs. Bessie Stanford, Secretary, Little Wood River Irri. District,
Mr. C. E. Fix, Attorney, Twin Falls, Mr. Mark R. Kulp, State
Reclamation Engineer.

Subject: Leakage through dam, near crest.

On Saturday, Memorial Day, May 30, 1953, Mr. R. E. Adamson, President, Little Wood River Irrigation District, Carey, phoned me that the District's dam is leaking near its crest and that I should make an inspection as soon as possible. The next day, Sunday, May 31, I travelled to Carey and upon arrival at the dam found men and equipment spreading earth on upstream side of dam, from crest downward a few feet, to intercept leakage through a rock layer placed on dam crest years ago and prior to some differential settlement of the main fill, which was raised by additional earth fill subsequently and without prior removal of this rock.

Raise in reservoir water level due to 24" spillway flashboards and flushing off of earth curtain on upstream side of crest was permitting water to travel through the shallow rock layer. This was clearly evident as dumping of earth caused muddy water promptly to issue on downstream side of the crest. With the Directors in attendance, it was agreed to dump a limited additional amount of earth and to complete the necessary sealing work before next winter.

I reported this to Mark R. Kulp, State Reclamation Engineer, by phone, promptly upon return and received his request to be kept informed. Reservoir level soon dropped and thereby temporarily suspended the hazard for the irrigation season.

On Friday, September 4, 1953, Mr. Adamson phoned me, inquiring as to what must be done to stop the leakage in question. I then phoned Mr. Kulp, who said we may put down test pits and determine from them how much core trenching will be required, or to proceed otherwise if in my judgment such would be prudent. I then phoned Mr. Adamson and reported that core trenching through the leakage zone and clay backfill would be required and that we may put down exploratory test pits or start trenching under acceptable

supervision. He asked me to come to Carey and I agreed to do so the next day.

On Saturday, September 5, 1953, I travelled to Carey and made an inspection in company with all three Board Directors. Two contractor agents were also present. It was agreed, and approved by the Board:

1. To rent suitable trench excavation power equipment, facilities for wetting trench backfill, place backfill, riprap as may be required and other necessary items and personnel.
2. To dispense with test pitting due to severely restricted working room, duplication of effort, etc., as pits would have to be backfilled prior to trenching as crest is only around 20 feet wide.
3. That I would provide an engineer to supervise the work and make the necessary reports to Mr. Kulp.
4. That I would inform Mr. Kulp as to the work program and proposed remedy for the leakage in question.
5. That I shall call for quotations from steel fabricating firms on the gauging station bridge now being designed.
6. That I, in cooperation with Mr. Fix, to do all possible toward early filing of application for reservoir license.

RE: Permits Nos. R-656, R-654, & R-615

Little Wood River Irrigation District
Carey
Idaho

ATT: Mr. H. E. Adamson

Dear Mr. Adamson:

In reference to the above numbered permits for the construction of a reservoir and storage of water from Little Wood River:

Certificate of Completion of Works will be issued for 10,000 acre feet of water on Permit No. R-656 upon receipt of the statutory fee for same, amounting to \$5.00 for the first 2,500 acre feet and 30 ¢ for each additional 250 acre feet, or a total of \$14.00.

No additional fee is required for the issuance of a license on this Permit.

On Permit No. R-656, a Certificate of Completion of Works and License will be issued for 2,724 acre feet upon receipt of the statutory fee of \$5.30 for Certificate of Completion of Works.

Since Permit No. R-615 is upon the same reservoir and the above two permits cover all available storage, there will be no water available for license under Permit No. R-615.

Proof of Completion of Works was due on this permit on or before September 22, 1953, and it is technically subject to cancellation. However, in order to save the necessity of sending formal notice of cancellation, and in order to clear our records, we would appreciate receiving a relinquishment from you of Permit No. R-615 on the form enclosed.

R-656

Permit No. R-656

Proof of Completion of Works

AND BENEFICIAL USE

DEPOSITION OF HOLDER

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. R.E. Adamson, Chairman, Board of Directors, Little Wood River Irrigation District, Carey, Blaine County, Idaho.

Ques. 2. If acting on behalf of a corporation, state its name, principal place of business, your position with reference to same, and your authority for appearing in its behalf.

Ans. Chairman, Board of Directors, Little Wood River Irrigation District, Carey, Blaine County, Idaho

Ques. 3. State number and date of permit, acre feet of water you claim for storage, and source of same.

Ans. Permit No. R 656, issued January 27, 1939, for 2,724 acre feet from the Little Wood River, per annum.

Ques. 4. Under terms of permit construction was required to be completed by January 27 19 48 Proof of Completion of Works was submitted February 5, 1948

Ques. 5. Construction was actually completed on the date of November 8 19 52

Ques. 6. Does the construction fully comply with the specifications? Yes

Ques. 7. Of what material was the dam built? Earth and rock fill

Ques. 8. State whether or not the water has been turned into your reservoir, and if so, when and to what extent. Reservoir partially filled in 1941, 1942 and 1943 and filled to filled to spillway level in 1944 and thereafter each year.

Ans.

Ques. 9. The capacity of the reservoir is 12,724 acre feet.

Ques. 10. The area of the high water line of the reservoir is 364 acres.

Ques. 11. The height of the dam above bottom of reservoir is 79 feet, above low water is 79 feet.

Ques. 12. The dimensions of the spillway are 300 feet wide and the bottom of the spillway is 7 feet below the top of the dam.

Ques. 13. Dimensions of the reservoir outlet are 5 ft. x 7 ft. tunnel

Ques. 14. Describe the gate and control unit.

Ans. Two 48" square Hunt Mfg. Co. slide gates, each with 25 ton, geared, hand operated, pedestal mounted hoist.

Ques. 15. The reservoir outlet is made of Reinforced concrete lined tunnel

Ques. 16. Is the reservoir filled through a feeder canal? No

Ques. 17. If so, where is the point of diversion for same?

Ans. $\frac{1}{4}$ $\frac{1}{4}$ Section, Twp. Range

R-656

Ques. 18. Does the feeder canal comply with the specifications in the permit?

Ques. 19. If not, explain No feeder canal, dam is across channel of Little Wood River

Ques. 20. Cost of constructing feeder canal? \$ ----- Cost of reservoir? \$ 500,000 est.

Ques. 21. State whether or not the works from reservoir outlet to place of use are fully completed, and whether or not they comply with the specifications in permit. If not, explain. Yes

Ans. Works completed and in use

Ques. 22. Water has (~~has not~~) been delivered to place of intended use? Yes

Ques. 23. Give description of dam, state dimensions, and give slope of face both upstream and downstream. Also method and material for protecting against wave action.

Ans. Approx. 1000' long on top and 400' on bottom. Upstream earth face at 3:1 with 5:1 toe apron. Downstream rock face at approx. 1-1/2: 1 slope. Upstream face riprapped with rock.

Ques. 24. State the purpose for which the water is to be used and give the place of use, and if for irrigation, state the number of acres, and give the legal description of same.

Ans. Supplemental irrigation and domestic. District-wide use. Water allotted to 8,776 acres, with 2,282 acres without allotment in the District. Lands in Townships 1 North, 1 South and 2 South, Range 21 East, B.M.

Notary Public

The Depositions of two Witnesses, in this form, taken separately, required in each case.

Permit No. R-656

Proof of Completion of Works

AND BENEFICIAL USE

DEPOSITION OF WITNESS

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Oliver Eldredge, Little Wood River Watermaster, Carey, Idaho

Ques. 2. Are you acquainted with Little Wood River Irrigation District holder of Permit No. R-656, authorizing the storage of 2,724 acre feet of the waters of Little Wood River which is tributary to Snake River, in the County of Blaine, State of Idaho? How long have you known it, and where does he reside? is it located?

Ans. Acquainted with the District for years, which is in Carey Valley, Blaine County, Idaho, where I reside.

Ques. 3. Have you read or heard read said Permit? Yes Are you familiar with its terms and conditions? Yes

Ques. 4. Of what material and how has the dam been constructed?

Ans. Earth and rock fill

Ques. 5. Is the reservoir fully constructed? Yes Has water been turned into it? Yes And to what extent? Filled to spillway capacity since 1944.

Ques. 6. Where is the point of diversion of the feeder canal? No feeder canal

Ans. 1/4 1/4 Section, Township Range

Ques. 7. The outlet of the reservoir is located in the NW 1/4 NW 1/4 Section 13 Twp. 1 N., Range 20 E., B.M.

Ques. 8. Describe the spillway.

Ans. Concrete structure 300' long, with 24" flashboard installation.

Ques. 9. How much below the top of the dam is the bottom of the spillway? 7 Ft.

Ques. 10. State the dimensions of the outlet for the reservoir. Tunnel 5' x 7'

Ques. 11. Of what material is the outlet made? Reinforced concrete lined tunnel

Ques. 12. How is the outlet gate operated? Two 4' x 4' gates, each with a 25 ton geared hoist attached to lifting stems.

Ques. 13. Of what material has the dam been constructed? Earth and rock

Ques. 14. Are the works from the reservoir to place of use fully completed? Yes

Ques. 15. Describe these works as they now exist, and give your estimate of their capacity.

Ans. Dam impounds 12,724 A.F. according to report of engineer survey compiled and filed May 4, 1953.

Ques. 16. For what purpose is the water to be used?

Ans. Irrigation and domestic.

R-656

Ques. 17. If for irrigation purposes, are you acquainted with the land to be irrigated?.....**Yes**.....
How much water is required for its profitable cultivation?

Ans. All of the 12,724 acre feet of reservoir capacity for lands now being served by reservoir waters.

Ques. 18. Give the legal description of the land to be irrigated, or the place of use.

Ans. District-wide, in Townships 1 North, 1 South, and 2 South, R. 21, E.B.M.

Permit No. R- 656

Proof of Completion of Works

AND BENEFICIAL USE

DEPOSITION OF HOLDER

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. R.E. Adamson, Chairman, Board of Directors, Little Wood River Irrigation District, Carey, Blaine County, Idaho.

Ques. 2. If acting on behalf of a corporation, state its name, principal place of business, your position with reference to same, and your authority for appearing in its behalf.

Ans. Chairman, Board of Directors, Little Wood River Irrigation District, Carey, Blaine County, Idaho

Ques. 3. State number and date of permit, acre feet of water you claim for storage, and source of same.

Ans. Permit No. R 656, issued January 27, 1939, for 2,724 acre feet from the Little Wood River, per annum.

Ques. 4. Under terms of permit construction was required to be completed by January 27 19 48. Proof of Completion of Works was submitted February 5, 1948

Ques. 5. Construction was actually completed on the date of November 8 19 52

Ques. 6. Does the construction fully comply with the specifications? Yes

Ques. 7. Of what material was the dam built? Earth and rock fill

Ques. 8. State whether or not the water has been turned into your reservoir, and if so, when and to what extent. Reservoir partially filled in 1941, 1942 and 1943 and filled to spillway level in 1944 and thereafter each year.

Ans.

Ques. 9. The capacity of the reservoir is 12,724 acre feet.

Ques. 10. The area of the high water line of the reservoir is 364 acres.

Ques. 11. The height of the dam above bottom of reservoir is 79 feet, above low water is 79 feet.

Ques. 12. The dimensions of the spillway are 300 feet wide and the bottom of the spillway is 7 feet below the top of the dam.

Ques. 13. Dimensions of the reservoir outlet are 5 ft. x 7 ft. tunnel

Ques. 14. Describe the gate and control unit.

Ans. Two 48" square Hunt Mfg. Co. slide gates, each with 25 ton, geared, hand operated, pedestal mounted hoist.

Ques. 15. The reservoir outlet is made of Reinforced concrete lined tunnel

Ques. 16. Is the reservoir filled through a feeder canal? No

Ques. 17. If so, where is the point of diversion for same?

Ans. 1/4 1/4 Section, Twp. Range.

R-656

Ques. 18. Does the feeder canal comply with the specifications in the permit?.....

Ques. 19. If not, explain No feeder canal, dam is across channel of Little Wood River

Ques. 20. Cost of constructing feeder canal? \$ ----- Cost of reservoir? \$ 500,000 est.

Ques. 21. State whether or not the works from reservoir outlet to place of use are fully completed, and whether or not they comply with the specifications in permit. If not, explain. Yes

Ans. Works completed and in use

Ques. 22. Water has (~~has not~~) been delivered to place of intended use? Yes

Ques. 23. Give description of dam, state dimensions, and give slope of face both upstream and downstream. Also method and material for protecting against wave action.

Ans. Approx. 1000' long on top and 400' on bottom. Upstream earth face at 3:1 with 5:1 toe apron. Downstream rock face at approx. 1-1/2: 1 slope. Upstream face riprapped with rock.

Ques. 24. State the purpose for which the water is to be used and give the place of use, and if for irrigation, state the number of acres, and give the legal description of same.

Ans. Supplemental irrigation and domestic. District-wide use. Water allotted to 8,776 acres, with 2,282 acres without allotment in the District. Lands in Townships 1 North, 1 South and 2 South, Range 21 East, B.M.

Department of Reclamation

Mr. Mark R. Kulp
State Reclamation Engineer
Boise, Idaho

Attention Jeanne L. Anderson, Chief Clerk

Dear Madam:

Re: Permit No. 1000

I refer to the above matter. On the 11th day of April of the present year, I went to Carey to obtain proof of application of water to beneficial use under the above permit, pursuant to published notice. However, upon going over the matter with various witnesses, I found that the District had not previously applied all of the 6000 acre feet allowed under this permit. In fact, the proof showed that at that time the District had applied for beneficial use only about 1500 acre feet of the allowed 6000 acre feet. Because of that fact and the further fact that the time for making proof of beneficial use under this permit was automatically extended to January 27, 1954, as stated in your letter of December 22nd, we did not complete the proof, but will do so at a later date when all or mostly all of the 6000 acre feet has been actually put to beneficial use.

I am sending you this information so that you may know why you did not receive the papers showing proof of use.

Yours very truly,

JAMES, SHAW & JAMES

R-656

NOTICE FOR PUBLICATION
**NOTICE OF PROOF APPLICATION OF WATER
 TO BENEFICIAL USE**

Notice is hereby given that at 2 P.M. on the 8th day of April, 1950.,
 at Carey, County of Blaine, State of Idaho, before
Alice York, Notary Public, proof will be submitted of the
 application to beneficial use of 6000 ~~acre~~ ^{acre} ~~feet~~ of the waters of Little Wood River
 in accordance with the terms and conditions of Permit No. R-656
 heretofore issued by the ~~State Reclamation Engineer~~ ^{Department of Reclamation} of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are.....

Little Wood River Irrigation District, Carey, Idaho

The use to which said water has been applied is irrigation

The amount applied to beneficial use is 6000 acre feet

The place where said water is used (if for irrigation, give full and accurate description of the
 lands irrigated) On all of the lands in said irrigation district,
located in Twp. 1 N., Range 21 E., B.M., and Twp. 1 and 2 S., Range 21 E., B.M.

The name of the canal or ditch or other works by which said water is conducted to such place of
 use is Little Wood Canal

The right to take water from such works is based upon Permit No. R-656

The source of supply from which such water is diverted is Little Wood River

The date of priority which said user is prepared to establish is November 21, 1938

MARK R. KULP
 State Reclamation Engineer.

R-656

OF WATER TO BENEFICIAL U

Notice is hereby given that at 2 P. M. on the 8th day of April, 1950, at Carey, County of Blaine, State of Idaho, before Alice York, Notary Public, proof will be submitted of the application to beneficial use of 6000 acre feet per annum of the waters of Little Wood River in accordance with the terms and conditions of Permit No. R-656 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and post office address of the person or corporation holding said permit are Little Wood River Irrigation District, Carey, Idaho.

The use to which said water has been applied is irrigation.

Re: Little Wood River Irrigation
District - Dept. of Reclamation
Permit No. R-656.

Dear Mr. James:

This will acknowledge receipt of your communication of March 8, 1950, transmitting Notice of Publication for Proof of Application of Water to Beneficial Use, appertaining to Permit No. R-656 for the Little Wood River Irrigation District, Carey, Idaho.

Yesterday I delivered these papers to the Department of Reclamation and signed the papers in the capacity of engineer for the District. Mrs. Anderson, Chief Clerk in the Department of Reclamation, checked the records and made an addition to the Notice of Proof Application of Water to Beneficial Use, describing the lands involved by listing the townships in which the land lies.

The date for execution of proof of application is 2:00 P.M. Saturday, April 8, 1950, with publication dates of the notice to be carried in the Hailey Times March 16, 23, 30 and April 6, 1950. The Department will transmit the notice to the Hailey Times with instructions to send proof of publication to you so that you may incorporate it with the return of proof papers to the Department.

Enclosed herewith is the Department's application form No. 10 "Notice for Publication - Notice of Proof Application of Water to Beneficial Use" in one copy, which copy was made by Mrs. Anderson as a transcript of the one to be furnished for publication; Department Form No. 16 entitled "Proof of Application of Water to Beneficial Use - Deposition of Holder" in one copy, and Department Form No. 17 entitled "Proof of Application of Water to Beneficial Use - Deposition of Witness" in two copies.

I presume you will prepare Forms 16 and 17 and see that they are properly executed and thereafter file them with Mr. Mark R. Kulp, State Reclamation Engineer.

If it is required that I be present at the time specified for making the filing in Carey, 2:00 P.M. April 8, 1950, kindly advise me in advance so that I may arrange accordingly.

ATT: Mr. A. F. James

Dear Mr. James:

In reply to your letter of December 20, 1949, in regard to Beneficial Use Proof to be made under Permit No. R-656 of the Little Wood Irrigation District:

It is true that under the original terms of this Permit, Proof of Beneficial Use was due on or before January 27, 1950. However, in as much as four years extension of time was allowed for making Proof of Completion of Works that automatically extended the time for making Proof of Beneficial Use until January 27, 1954.

However, if it is desired to make Proof of Beneficial Use at this time, the notice may be made in duplicate on Form 10 enclosed, both copies to be returned to this Department together with Form 11 which is authorization for us to have the notice published at Permit Holders expense in the designated County newspaper.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Attention- Mr. A. F. James

Dear Mr. James:

In reply to your recent letter in regard to the dam and reservoir of the Little Wood River Irrigation District:

The top of the dam as now constructed is of 77 ft. height above original ground surface, and adding 31 feet would make the total height of the proposed project 108 feet.

This is in accordance with an application now on file in this Department for the proposed enlargement of the dam and reservoir.

Very truly yours,

MARK R. KULP

**FILE OF PROOF APPLICATION
OF WATER TO BENEFICIAL USE**

Notice is hereby given that at 2
P. M. on the 8th day of April, 1950,
at Carey, County of Blaine, State
of Idaho, before Alice York, Notary
Public, proof will be submitted of
the application to beneficial use
of 6000 acre feet per annum of the
waters of Little Wood River in ac-
cordance with the terms and con-
ditions of Permit No. R-656 here-
before issued by the Department
of Reclamation of the State of
Idaho.

The name and post office ad-
dress of the person or corporation
holding said permit are Little Wood
River Irrigation District, Carey, Ida-
ho.

The use to which said water has
been applied is irrigation.

The amount applied to beneficial
use is 6000 acre feet.

The place where said water is
used On all of the lands in said
irrigation district, located in Twp.
1 N., Range 21 E., B.M., and Twps.
1 and 2 S., Range 21 E., B. M.

The name of the canal or ditch
or other works by which said wat-
er is conducted to such place of
use is Little Wood Canal.

The right to take water from
such works is based upon Permit
No. R-656.

The source of supply from which
such water is diverted is Little
Wood River.

The date of priority which said
user is prepared to establish is
November 21, 1938.

Dear Sir:

We are the attorneys for the Little Wood River Irrigation District, which district several years ago constructed a dam and reservoir on Little Wood River. The President of the Board of Directors tells us that the board desires to raise the dam an additional 30 or 31 feet. We understand that the present dam has a height of 177 feet and we wish to know what the maps and plans in your office show as to the original proposed height of the dam. In other words, we wish to know whether the records in your office show a proposed height of 177 feet or 207 or 208 feet.

Thanking you for any information which you can give us on this point, we remain,

Very truly yours,

JAMES, SHAW & JAMES

R-656

R656 + 604

April 7, 1948

Messrs. James, Shaw & James
Attorneys at Law
Gooding, Idaho

Attention- Mr. A. F. James

Dear Mr. James:

Referring to your letter of March 30, 1948, in which you ask what the situation is relative to the proof of completion of works upon water storage permit No. R-656 of the Little Wood River Irrigation District.

Permit No. R-656 is supplemental to prior permit No. R-604, which specified a dam of 80 feet in height for the storage of 10,000 acre feet of water.

Plans and specifications for the construction of this dam were duly filed with, and approved by this Department, and construction proceeded until the works were very nearly completed.

The unfinished part of the work, while relatively small in respect to cost or quantity, is of vital importance to the length of life of the dam itself, and it is due to this situation that no certificate of completion of works has issued from this office.

The spillway of the dam was never carried to completion as shown by the plans and specifications which were submitted as a necessary part of the water filing.

The order of procedure following construction of irrigation works is, first, a proof of completion of works. This is followed by a field examination, and if satisfactory a certificate of completion of works is issued to the claimant. Next in proper order and in due time a proof of beneficial use is made, and after a field examination license is issued for a water right.

In the present case an additional filing (R-656) was made for more water and additional construction on top of a structure not as yet recognized as satisfactorily completed.

We feel that the District has been negligent in this matter in view of the following notes relative to completion of the spillway:

March 18, 1941- Superintendent of construction, F. S. Payne, was warned against deepening channel of tail race..

March 18, 1941- Letter to Superintendent Payne recommending details of spillway finish.

R-656

James, Shaw & James
April 7, 1948
Page 2

March 11, 1941- Letter of Lewis Roberts, Director of Operations, re "Blasting that would endanger breaking through the lava strata below the spillway?"

March 6, 1941- Letter of . V. Berg to R. W. Hampton, District Director of Operations, ordering "discontinuance of deeper excavation below the spillway".

June 12, 1942- Letter of . V. Berg to Mr. Frank Dahlstrom, Mgr. Northwest Securities Corp., advising "There are several minor details about the dam and the spillway that must be completed before the structure can be finally accepted".

August 15, 1944- Letter of Mark R. Kulp to Little Wood River Irrigation District- "Conditions below the spillway are unsatisfactory and must be corrected to protect the dam structure - ".

Referring to the 4th paragraph of the letter to which you refer, I am sure it summarizes the requirements of this Department that the dam, as a whole, must be made safe as possible before final proofs can be accepted, and the matter is of such importance that a detailed plan must be submitted, approved, and constructed, before final acceptance of past work or approval of future expansion of the project will be possible.

Very truly yours,

MARK R. KULP

STATE RECLAMATION ENGINEER:
TO THE ~~COMMISSIONER OF RECLAMATION~~

Boise, Idaho.

Dear Sir:

You are hereby authorized to have the attached notice published at my expense in the
Hailey Times of Hailey, Idaho, published in
the county in which the works are situated.

Little Wood River Irrigation Dist.
By Jessie Stanford Secy.

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water
per second, the following certificate must be signed by a well-known and competent engineer)

I hereby certify that the facts set forth in the attached notice are true.

Engineer.

R-656

Notice for Publication

Notice is hereby given that at 2 o'clock, on the 27th day of January, 1948
 19....., at Carey, Idaho, County of Blaine, State of Idaho,
 before Alice A. York, Notary Public proof will be submitted of the completion of works
 for the diversion of 6,000 ^{A cfs} ~~cubic~~ feet per second of the waters of Little Wood River in
Blaine County, Idaho in accordance with the terms and conditions of a
 certain permit heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name of the person or corporation holding said permit is Little Wood River Irrigation District.

2. The postoffice address of such person or principal place of business of such corporation is Carey, Idaho
 , County of Blaine, State of Idaho.

3. The number of such permit is 2656, and the date set for the completion of such work is
January 27, 1948

4. Said water is to be used for Irrigation and domestic purposes purposes.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water
 which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying
 the application for such permit, is 6,000 ^{cfs} ~~cubic~~ feet per second.

6. The amount of lands for which said water is available is 8814.12 acres, particularly described as follows:

Lands within the boundaries of the Little Wood River Irrigation District,
and located in sections 4, 5, 6, 7, 8, 9, 10, 14, 15, 17, 20, 21, 22, 23, 24,

Permit No. R-656

Proof of Completion of Works

DEPOSITION OF HOLDER

Ques. 1. State your name, residence, occupation and postoffice address.

Ans.

James Turnbull, Carey, Idaho
Stockman + farmer

Ques. 2. If acting on behalf of a corporation, state its name, principal place of business, your position with reference to same, and your authority for appearing in its behalf.

Ans.

Little Wood Irrigation Dist
Carey Idaho, President authorized
by Board of Directors

Ques. 3. State number and date of permit, acre feet of water you claim for storage, and source of same.

Ans.

R-656 - Nov. 21, 1938. 6000 acre ft.
Little Wood River

Ques. 4. Under terms of permit construction was required to be completed by Jan 27, 1948.

Ques. 5. Construction was actually completed on the date of Oct 19 46.

Ques. 6. Does the construction fully comply with the specifications? yes

Ques. 7. Of what material was the dam built? Concrete, rock and dirt

Ques. 8. State whether or not the water has been turned into your reservoir, and if so, when and to what extent.

Ans.

yes In 1941. 6000 acre ft

Ques. 9. The capacity of the reservoir is 11,705 acre feet.

Ques. 10. The area of the high water line of the reservoir is 550 acres.

Ques. 11. The height of the dam above bottom of reservoir is 85 feet, above low water is 80 feet.

Ques. 12. The dimensions of the spillway are 300 by 7 ft and the bottom of the spillway is 7 feet below the top of the dam.

Ques. 13. Dimensions of the reservoir outlet are 8 ft x 6 ft.

Ques. 14. Describe the gate and control unit.

Ans.

2 gates each 4 by 4 ft
hand control wheel

Ques. 15. The reservoir outlet is made of concrete

Ques. 16. Is the reservoir filled through a feeder canal? No

Ques. 17. If so, where is the point of diversion for same?

Ans. 1/4 1/4 Section, Twp. Range.

R-656
1948

Ques. 18. Does the feeder canal comply with the specifications in the permit?

Ques. 19. If not, explain

Ques. 20. Cost of constructing feeder canal? \$..... Cost of reservoir? ^{over} \$1300,000 ⁵⁰

Ques. 21. State whether or not the works from reservoir outlet to place of use are fully completed, and whether or not they comply with the specifications in permit. If not, explain.

Ans. yes - yes

Ques. 22. Water has ~~(has not)~~ been delivered to place of intended use? yes

Ques. 23. Give description of dam, state dimensions, and give slope of face both upstream and downstream. Also method and material for protecting against wave action.

Ans. Concrete, rock + dirt, length 1000 ft.

at top 400 at bottom 20 ft wide at top

420 ft wide at bottom. Slope upstream 3 to 1,

Ques. 24. State the purpose for which the water is to be used and give the place of use, and if for irrigation, state the number of acres, and give the legal description of same.

Ans. For irrigation, on lands in

our District. 8814.12 acres

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Re: Permit No. R-656
Little Wood River Irr. Dist.

Alice A. York
Notary Public
Carey, Idaho

Boise, Idaho, January 17, 1948

Dear ~~Sir~~ Madam:

I enclose herewith the following forms to be used in connection with proof of completion of works under Permit No. R-656

Deposition of Permit Holder,
Depositions of Two Witnesses.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of the permit holder's rights:

1. On January 27, 1948, the date set for proof of completion of works, the enclosed deposition forms (one for permit holder and one each for two witnesses) should be filled out and sworn to, at Carey, Idaho, before Alice A. York, Notary Public.

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

MARK R. KULP

~~Commissioner of Reclamation~~
State Reclamation Engineer

Re: Permit No. R-656

Bessie Stanford, Secretary
Little Wood River Irrigation District
Carey, Idaho

Dear Madam:

We enclose herewith the application of the Little Wood River Irrigation District for amendment of their land list, which has been approved by the State Reclamation Engineer, and duly recorded in this Department.

A copy of the notice of beneficial use proof to be made on January 27, 1948, will be sent to the Bailey Times, with instructions to publish it once a week for four consecutive weeks prior to that date, and to send you the affidavit of publication, together with statement of costs.

About ten days prior to that date we shall send to Alice A. York, Notary Public, the necessary forms of deposition, consisting of one for the permit holder and one for each of two witnesses, so that she will have them in ample time for the proof.

At the time set a representative of the District, together with two disinterested witnesses, should appear before the Notary Public, for the purpose of executing the depositions.

Very truly yours,

MARK A. KULP
State Reclamation Engineer

 Boise, Idaho.

Dear Sir:

In answer to letter of November 20, 1947, stating lands in Sections 22, 28 and 29 in Twp. 2 South Range 21 E. B. M. are on original permit, I will state that these lands too, should be included as "Eliminated" on Amendment Application. Said above described lands are not now included in our present land descriptions.

I shall appreciate having these lands included for "Elimination" as stated in your letter. Thank you for your kind Cooperation in this matter.

Respectfully Yours,
Bessie Stanford
Secretary.

Re: Permit No. R-656

Bessie Stanford, Secretary
Little Wood River Irrigation District
Carey, Idaho

Dear Madam:

We acknowledge receipt of your application for amendment of the land list on Permit No. R-656, to correctly describe the land now within the District, which will be duly approved and recorded.

In making a recheck, however, we find that the original permit also includes land in Sections 22, 28 and 29, Twp. 2 South, Range 21 East, which are not in your detailed list.

No doubt these should also be eliminated, as you state that your descriptions are correct in every detail, and if instructed to do so, we shall include these in the lands described in your amendment application, to be eliminated.

Please advise us as to this.

Very truly yours,

MARK A. KULP
State Reclamation Engineer

Mr. Mark R. Kulp
State Reclamation Engineer
Boise, Idaho

Dear Sir:

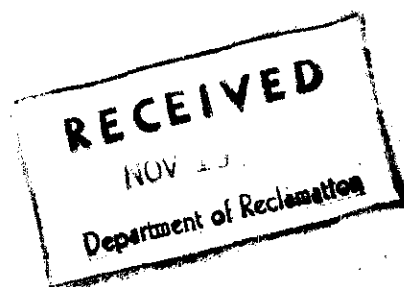

Please find enclosed Amendment to Permit R-656, as completed for the elimination of certain land and the annexation of certain described lands.

In rechecking again, I found that lands in section 7, Twp 1 So., range 21 E., B.M. should be included as land annexed. I have included description of that land also. I believe that the descriptions of land as first sent are correct in every detail and therefor describe the lands as included in the entire area of the district.

Should there be further work to be done on this permit I shall be very glad to furnish any needed material the district has.

Very truly yours,

Bessie Stanford

Mr. Mark R. Kulp
State Reclamation Engineer
 Boise, Idaho.

Dear Sir:

After mailing a letter to you about certain land not described on my list contained in Section 10 I find that the district records show land in section 10 township 1 South and also section 10 township 2 south. I will state that the description in section 10 - Twp 1 South probably does not read on original permit as that is land which district annexed in spring of 1946.

If I have failed to show descriptions as mentioned above, please return copies and shall make correct indentation. This was an oversight in reading the land as I typed if it is not shown. Sorry for making such error - Respectfully yours,
R. 656 Bessie Stanford Secy

Re: Permit No. R-656

Bessie Stanford, Secretary,
Little Wood River Irrigation District
Carey, Idaho

Dear Madam:

In reply to your letter of November 10th,
and in further reference to completion of works proof
to be made on Permit No. ~~R-656~~:

We enclose a form of application for amendment
to this original permit, and it will be sufficient to
request amendment by eliminating "lands described in
the following sections", naming the four sections without
going into detail as to subdivisions; and by adding
"land in (described subdivisions) Section 14, Twp. 1 S.,
Range 21 E., B.M."- and stating the reason for such
change as outlined in your letter.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Permit R-656

Mr. Mark R. Kulp
State Reclamation Engineer
Boise, Idaho

Dear Sir:

Your letter of November 7, stating a difference in the land descriptions and total of acres in the Irrigation District from the time the application was made for permit R-656 and that of the present, has been checked.

I sent the land descriptions in detail, as from previous letters in our file, I noticed that it was a requirement on the publication notice on permit R-604.

The difference in the number of acres lies in the fact that the 16,351.13 acres was probably the estimated acreage that the district would represent before the final withdrawals were made. Landowners had the opportunity to withdraw their land before the final boundaries were made and many did so. However, the number of acres in the district to 1946 was 7930.29 acres. In the spring of 1946 some 1451.04 acres were annexed to the district. Then in July and August of 1946 the district excluded certain land from the district that had been in the district but never had had any water allotted to the land and therefore was paying no assessments or receiving any benefits. Number of acres excluded amounted to 567.21 acres. Thus the total number of acres now in the district stands at 8814.12 acres.

You state that an amendment to the original list will be necessary. I shall be glad to have this work completed when forms for this work are sent as furnished by your department.

The sections 36, Twp 1 No. Rge 21 E.B.M.
" 15 and 18 Twp 1 No. Rge 21 E.B.M.
" 14 Twp 2 SO. " " " were
probably part of the land that was withdrawn as stated above before final boundaries were completed.

If the description as sent you reads section 10 in township 1 south, that has been a typographical error. The district does have land in Section 10 but in Twp 2 South and Section 14 Twp 1 South which is land which was annexed to the district in the Spring of 1946.

If necessary to return the copies for this correction on Section 10 in Twp 2 South Rge 21 E.B.M., if you find the error as made, I shall endeavor to complete them and return them as soon as train service permits.

Truly yours,

Bessie Stanford
Secretary-Treas.

Re: Permit No. R-656

Bessie Stanford, Secretary,
Little Wood River Irrigation District
Carey, Idaho

Dear Madam:

We acknowledge receipt of your letter of November 5th, enclosing duplicate notice of completion of works proof under Permit No. R-656, and authorization to publish same in the Hailey Times.

We are sorry that you went to the trouble of listing the land in detail, as all that is necessary in the case of an irrigation district is to describe it as lands within the boundaries of the district, and name the sections, township and range.

However, in checking your list we find the following variations from the land as described in the permit:

The following sections are described in the permit but not on your list:

Section 34, Twp. 1 N., Range 21 E., E.M.
Sections 15 and 18, Twp. 1 S., Range 21 E., S.M.
Section 14, Twp. 2 S., Range 21 E., E.M.

Also these are in your list, but not on the permit:
Sections 10 and 14, Twp. 1 S., Range 21 E., S.M.

We also note that you list a total of 8814.12 acres, whereas the permit describes 16,351.13 acres.

Is there a change in the land list as originally described? If so, there should be an amendment to the permit on a form which we will furnish.

Very truly yours,

MARK J. KULP
State Reclamation Engineer

State of Idaho
DEPARTMENT OF RECLAMATION
BOISE

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Little Wood River Irrigation District
Carey, Idaho

Boise, Idaho, November 1, 1947

Dear Sirs:-

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. ~~4-656~~.....

This form should be filled out and mailed to the Department of Reclamation, at least 60 days before the date upon which proof is to be submitted, which proof MUST be on or before.....~~January 27, 1948~~
Upon receipt of the blank properly filled out, notice for publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application is made, as it only confirms the completion of the works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

MARK R. KULP

.....
~~Commissioner of Reclamation~~
State Reclamation Engineer

Re: Permit no. R-656

Mr. W. D. Richards, Secretary-Treasurer,
Little Wood River Irrigation District,
Carey, Idaho

Dear Mr. Richards:

We acknowledge receipt of your returned application for extension of time for completion of works under the above numbered permit, with your signature duly acknowledged- which evidently crossed our letter to you of January 7th, in the mail.

We are enclosing the approval of the State Reclamation Engineer of such extension until January 27, 1948.

Very truly yours,

JAMES SPOTFORD
State Reclamation Engineer

Encl.

Chief Clerk

R-656

APPROVAL OF STATE RECLAMATION ENGINEER

WHEREAS, Application for Extension of Time for completion of works under Permit to appropriate the Public Waters of the State of Idaho, No. R-656, has been made by the owner thereof, Little Wood River Irrigation District, of Carey, Idaho, which application was duly advertised for a period of two consecutive weeks in the Hailey Times, stating that on the 4th day of December, 1943, a hearing would be held for the purpose of receiving any protests, testimony or evidence regarding such application; and,

WHEREAS, At the time set for the hearing no protest, testimony or evidence had been presented, either orally or by affidavit; and,

WHEREAS, It appears that the owner of said permit is entitled to a further extension of time within which to complete work;

NOW, THEREFORE, I, James Spofford, State Reclamation Engineer of the State of Idaho, by virtue of authority vested in me under Chapter 79 (Senate Bill No. 93), of the 1943 Session Laws, hereby extend the time for Completion of Works, under Permit to appropriate the Public Waters of the State of Idaho, no. R-656, to January 27, 1944

WITNESS MY HAND this 8th day of January, A. D. 1944.

JAMES SPOFFORD
State Reclamation Engineer

R-656

PERMIT NO R-604 & R-656
EXTENSION OF TIME FOR COMPLETION OF WORKS UNDER SENATE BILL NO. 93
SESSION LAWS OF 1943

STATE OF IDAHO)
County of Blaine) ss.

Little Wood River Irrigation Dist. of Carey, State of Idaho,
being first duly sworn, upon his oath, deposes and says:
That he is the owner and holder of Permit to appropriate the Public Waters
of the State of Idaho, No. R-604 & R-656.

That under the terms and conditions of said Permit, Completion of Works
thereunder is required by January 27th, 1944.

That he has heretofore in good faith performed the following work and taken
the following steps to bring about the completion of the said works described
under the said Permit, to-wit:

Constructed an earth-filled dam across the Little Wood River
canyon about ten miles above the town of Carey, Idaho, in Blaine County, Idaho.
Also installed control gates and an adequate spillway.

That he is unable to complete the remainder of the said works and submit
proof of Completion of Works within the required time for the following reasons,
to-wit:

Lack of funds, material and manpower. Also the Department of
Reclamation has not given us permission to close up the gap which now
exists in the present spillway to date.

Wherefore, he makes application to the State Reclamation Engineer to extend
the time for Completion of Works under the said Permit to January 27th, 1948,
1948, pursuant to the provisions of Senate Bill No. 93, Session Laws of 1943.

Subscribed and sworn to before me this

19th day of

December 1943

My commission expires:

Feb 9 - 1947

Notary Public for Idaho,
Residing at _____ Idaho

Date of receipt at office of Department of Reclamation Nov. 12 1943

APPROVAL OF STATE RECLAMATION ENGINEER

WHEREAS, Application for an extension of time for Completion of Works under
Permit No. _____ has been made by the owner thereof, which application was
duly advertised in the _____ of _____

Idaho, for a period of two consecutive weeks; and

WHEREAS, A hearing in regard to the said application was then duly held at
_____, Idaho, on _____, 1943
as specified in the said advertisement above referred to; and

WHEREAS, After taking into consideration all evidence and testimony intro-
duced at the said hearing, it appears that the owner of said Permit is entitled
to a further extension of time within which to complete work;

NOW, THEREFORE, I _____, State Reclamation Engineer of the
State of Idaho, by virtue of the authority vested in me under Senate Bill No. 93,
Session Laws of 1943, hereby extend the time for Completion of Works under
Permit to appropriate the Public Waters of the State of Idaho, No. _____ to
_____, 1948.

WITNESS my hand this _____ day of _____ 1943.

State Reclamation Engineer

Re: Permit No. R-656

Mr. W. D. Richards, Secretary-Treasurer,
Little Wood River Irrigation District,
Carey, Idaho

Dear Mr. Richards:

Since we have received from the Bailey Times the affidavit of publication of the notice of hearing in connection with your application for extension of time for completion of works under the above numbered permit, all that is now required for the approval of the application is that you return the application itself, which was enclosed to you under date of December 9, 1943, in order to have your signature acknowledged before a Notary Public.

It is necessary that this application be returned to this Department before approval can be given.

Very truly yours,

JAMES SPOFFORD
State Reclamation Engineer

NOTICE FOR PUBLICATION

NOTICE OF APPLICATION FOR
EXTENSION OF TIME FOR
COMPLETION OF WORKS
UNDER SENATE BILL NO. 28,
SESSION LAWS OF 1943

Notice is hereby given, that on the 4th day of December 1943, at 10:00 o'clock, A. M., a hearing will be held by the State Reclamation Engineer, or his deputy, at Reclamation Department, Boise, County of Ada, State of Idaho, for the purpose of receiving any protests, testimony and evidence regarding an application for extension of time for completion of works under Permit to appropriate the Public Waters of the State of Idaho, No. R-656. The said protests and evidence may be submitted either orally or by affidavit by any person or persons owning or in possession of a right to the use of any waters of a stream or source of supply affected by the said extension.

1. The name of said Permit is R-656.

2. The name and post-office address of the person or persons or corporation holding said permit or permits are: Little Wood River Irrigation District, Carey, Idaho.

3. The amount of water claimed by the said permit or permits is 6,000 acre feet from Little Wood River which is tributary to Big Wood River.

Re: Permit No. R-656

Mr. W. D. Richards, Secretary-Treasurer,
Little Wood River Irrigation District
Carey, Idaho

Dear Mr. Richards:

We acknowledge receipt of your application for extension of time for completion of works on Permits Nos. R-604 and R-656, under the provisions of Senate Bill No. 93; also your authorization to have the notice published in the Hailey Times.

We have set the date for hearing on any possible protests for December 4th, in the Department of Reclamation, Boise, Idaho, and have sent the notice to the Hailey Times with instructions to publish it once a week for two consecutive weeks prior to that date, at your expense, and to send you the affidavit of publication on or before December 4th.

It is not necessary for you to appear at the Department at the time set for the hearing, but the affidavit of publication should be sent to us, and if no protests are filed, the extension can be allowed as applied for.

However, we have only included Permit No. R-656 in this notice, as the completion of works proof has already been made under Permit No. R-604, and action thereon is waiting the report of our Field Engineer, which inspection and report cannot be made until the reservoir is completed, inasmuch as both permits are included in the same construction works.

Very truly yours,

JAMES SPOFFORD
State Reclamation Engineer

Re: Permit No. R-656

Little Wood River Irrigation District
Carey, Idaho

Gentlemen:

In reference to Reservoir Permit No. R656, of the Little Wood River Irrigation District, on which the proof of completion of works is due on or before January 27, 1944:

We are enclosing a summary of Senate Bill No. 93 which was passed by the last legislature, which allows for a four years' extension of time for completion of works, under certain conditions.

No doubt you will want to take advantage of this additional time, and we enclose a form of application for such extension to be filled out by you.

The bill providing for this extension requires that a notice of the application be published for two weeks, and a form of such notice is enclosed herewith; also authorization to have the notice published at your expense in a newspaper to be designated by you in the county where the reservoir is located.

The application and the authorization to publish should be executed and returned to this Department, and upon receipt of same we shall prepare the necessary notice and send it to the newspaper with instructions in regard to publication.

Very truly yours,

JAMES SPOFFORD
State Reclamation Engineer

MR. R.W.FARIS, Commissioner
State Department of Reclamation
State House
Boise, Idaho

Dear Mr. Faris:

For your approval, we forward herein enclosed an application for Permit to store 6000 acre feet of water in a reservoir located about eleven miles above Carey, Blaine County, Idaho, on the Little Wood River. The dam to impound this water is under construction as a Works Progress Administration construction project, the details of which are known to you.

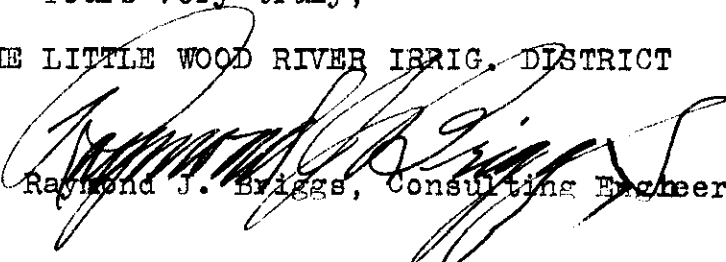

The enclosed application for Permit requests approval for storage of water in the same reservoir set out in Permit No. R.604, and for 6000 acre feet in addition to that Permit, making a total of 16,000 acre feet. The justification for this supplemental request is stated in the body of the application enclosed.

Attached to the application enclosed you will note a check, dated November 17, 1938, drawn to R.W.Faris, Commissioner of Reclamation, in the sum of ten (\$10.75) and seventy five hundredths dollars, signed by W.D. Richards, Treasurer, Little Wood River Irrigation District; which is the required filing fee.

The requisite map is not yet drawn, therefore kindly delay, within the statutory time limit, return of the application to me for correction and/or amendments.

Yours very truly,

FOR THE LITTLE WOOD RIVER IRRIG. DISTRICT
