

NOTICE OF PROOF OF
COMPLETION OF WORKS
and
APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at Two o'clock P. M., on the 17th day of October, 1953, at Carey, County of Blaine, State of Idaho, before Alice York, Notary Public proof will be submitted of the completion of works for the storage and appropriation of 12,724 acre feet per annum of the waters of Little Wood River and of the application to beneficial use of said water, in accordance with the terms and conditions of Permits Nos. R-604 and R-656 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permits are Little Wood River Irrigation District, Carey, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permits, is 12,724 acre feet per annum.

3. The use to which said water has been applied is irrigation and domestic purposes, and the amount applied to the beneficial use is 12,724 acre feet per annum.

4. The place where said water is used is Little Wood River Irrigation District, in Townships 1 North, 1 South and 2 South, Range 21, East, B. M.

5. The date of priority which said user is prepared to establish is 10,000 A. F. - Sept. 3, 1935 - (Permit No. R-604) and 2,724 A. F. - Nov. 21, 1938 - (Permit No. R-656.)

NOTICE OF PROOF
APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 2:00 P. M. on the 11th day of January, 1947, at Carey, County of Blaine, State of Idaho, before Alice A. York, Notary Public, proof will be submitted of the application to beneficial use of 10,000 acre feet per annum of the waters of Little Wood River in accordance with the terms and conditions of Permit No. R-604 heretofore issued by the Department of Reclamation, of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Little Wood River Irrigation District, Carey, Idaho.

The use to which said water has been applied is Irrigation and domestic purposes.

The amount applied to beneficial use is 10,000 acre feet per annum.

The place where said water is used Lands within the boundaries of the Little Wood River Irrigation District, located in Sections 4, 5, 6, 7, 8, 9, 10, 14, 15, 16, 17, 20, 21, 22, 23, 24, 26, 27, 28, 33, 34, and 35, Twp. 1 South, Range 21 East, B.M., and also in Section 2, 3, 8, 9, 10, 11, 15, 16, 20 and 21, Twp. 2 South, Range 21 East, B.M.

The name of the canal or ditch or other works by which said water is conducted to such place of use

is Little Wood River Canal.

The right to take water from such works is based upon Permit No. R-604.

The source of supply from which such water is diverted is Little Wood River.

The date of priority which said user is prepared to establish is September 3, 1935.

JAMES SPOFFORD,
Commissioner of Reclamation.

Jan. 9, 16, 23, 30.

SCALE: 2 INCHES EQUALS 1 MILE. DRAW MAP IN INK.

NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE.

Notice is hereby given that at 2:00 p.m. on the 30th day of December 1946, at Carey, County of Blaine, State of Idaho, before Alice A. York, Notary Public, proof will be submitted of the application to beneficial use of 10,000 Acre Feet per second of the waters of Little Wood River in accordance with the terms and conditions of Permit No. R-604 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Little Wood River Irrigation District At Carey, Idaho.

The use to which said water has been applied is Irrigation and domestic purposes

The amount applied to beneficial use is 10,000 Acre Feet

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated) Located in Sections 4, 5, 6, 7, 8, 9, 10, 14, 16, 17, 20, 21, 22, 23, 24, 26, 27, 28, 33, 34, and 35, Twp. 1 South Range 21, East B. M. Also in Sections 2, 3, 8, 9, 10, 11, 15, 16, 20, 21, Twp 2 South, Range 21 E. B. M. Said water is to be used on all the lands within the present boundaries of said Little Wood River Irrigation District.

The name of the canal or ditch or other works by which said water is conducted to such place of use is Little Wood River Canal

The right to take water from such works is based upon Permit No. R-604

The source of supply from which such water is diverted is Little Wood River Dam

The date of priority which said user is prepared to establish is September 3, 1935

MARK R. KULP
State Reclamation Engineer.

Notice For Publication

NOTICE is hereby given that at 2 o'clock p. m., on the 1st day of February 1941, at Carey, County of Blaine, State of Idaho, before W. L. Adamson, a Notary Public, proof will be submitted of the completion of works for the diversion of 10,000 acre feet of the waters of Little Wood River in Blaine County, Idaho, in accordance with the terms and conditions of a certain permit heretofore issued by the Department of Reclamation of the State of Idaho.

- The name of the person or corporation holding said permit is Little Wood River Irrigation District.
- The postoffice address of such person or principal place of business of such corporation is Carey, Idaho, County of Blaine, State of Idaho.
- The number of such permit is R-604 and the date set for the completion of such work is January 9th, 1941.
- Said water is to be used for irrigation purposes.
- Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is 10,000 acre feet.
- The amount of lands for which said water is available is 7930.29 acres, particularly described as follows:

PERMIT NO. R-604

RECL.

FEB 5 1941

Department of Reclamation

Proof of Completion of Works

DEPOSITION OF HOLDER

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. O. J. McCarter, President of Board of Directors, of Little Wood River Irrigation District. I am a Farmer and Stockman and reside at Carey, Idaho.

Ques. 2. If acting in behalf of a corporation, state its name, principal place of business, your position with reference to same, and your authority for appearing in its behalf.

Ans. Little Wood River Irrigation District, Carey, Idaho, in Blaine County, Ida. I am President of the Board of Directors of the Little Wood River Irrigation District of Carey, Blaine County, Idaho.

Ques. 3. State number and date of permit, amount of water you are authorized to divert, source, and point of diversion.

Ans. R-604 dated January 9, 1936, for 10,000 acre feet of water. Source of this water is Little Wood River in Blaine County, Idaho. Diverted in Sec. 13, T. 1 N. R. 1 E. (20 E. B. M.)

Ques. 4. State purpose for which water is to be used, and, if for irrigation, state the number of acres and give description of the land you intend to reclaim.

Ans. This water is to be used for irrigation purposes. The amount of lands for which said water is available is 7930.29 acres, particularly described as follows:

Notice For Publication

NOTICE is hereby given that at 2 o'clock p. m. on the 1st day of February 1941, at Carey, County of Blaine, State of Idaho, before W. L. Adamson, a Notary Public, proof will be submitted of the completion of works for the diversion of 10,000 acre feet of the waters of Little Wood River in Blaine County, Idaho, in accordance with the terms and conditions of a certain permit heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name of the person or corporation holding said permit is Little Wood River Irrigation District.

2. The postoffice address of such person or principal place of business of such corporation is Carey, Idaho, County of Blaine, State of Idaho.

3. The number of such permit is R-604, and the date set for the completion of such work is January 9th, 1941.

4. Said water is to be used for Irrigation purposes.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is 10,000 acre feet.

6. The amount of lands for which said water is available is 7930.29 acres, particularly described as follows:

Ques. 5. State whether or not and, if so, when and to what extent

Ans. Water has not as yet of our canals.

Ques. 6. State whether or not or not they comply in all respects

Ans. Yes

Ques. 7. If the works of diversion state fully those particulars in which

Ans. None

Ques. 8. Give description of works, state dimensions and capacity of each part, and give cost of same. (The District has put \$127,000.00 into this project and the W. P. A. some

Ans. The main body of the dam will consist of clay, sand and gravel, and loose rock back-fill. This dam is about 1000 feet long and 77 feet high. There is also an adequate spillway, control gates and diversion concrete tunnel.

(Sign here.)

O. J. McCarter
President, Board of Directors

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, in Carey

County of Blaine, State of Idaho, on this 1st day of February A. D. 1941.

My Commission expires Feb 9 - 1943

Notary Public.

Notice For Publication

NOTICE is hereby given that at 2 o'clock p. m., on the 1st day of February 1941, at Carey, County of Blaine, State of Idaho, before W. L. Adamson, a Notary Public, proof will be submitted of the completion of works for the diversion of 10,000 acre feet of the waters of Little Wood River in Blaine County, Idaho, in accordance with the terms and conditions of a certain permit heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name of the person or corporation holding said permit is Little Wood River Irrigation District.
2. The postoffice address of such person or principal place of business of such corporation is Carey, Idaho, County of Blaine, State of Idaho.

3. The number of such permit is R-604, and the date set for the completion of such work is January 9th, 1941.

4. Said water is to be used for Irrigation purposes.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is 10,000 acre feet.

6. The amount of lands for which said water is available is 7930.29 acres, particularly described as follows:

STATE OF IDAHO DEPARTMENT OF RECLAMATION

Notice of Application to Appropriate Water in Accordance with the Provisions of House Bill 293, 1935 Session Laws

NOTICE IS HEREBY GIVEN

That on the 3rd day of September, 1935, the LITTLE WOOD RIVER IRRIGATION DISTRICT, whose address is Carey, Blaine County, Idaho, made Application No. R-25408 to appropriate 10,000 acre feet of water per annum from LITTLE WOOD RIVER for irrigation and domestic purposes.

That the point of outlet of the proposed reservoir is located: S. 78° 15' W. 1648 feet, distant from the N $\frac{1}{4}$ corner of Section 13, Township 1 N., Range 20 E., B. M., and is in the NW $\frac{1}{4}$ of NW $\frac{1}{4}$ of Section 13, Township 1 N., Range 20 East, B. M., County of Blaine.

That the land to be irrigated under said application is described as follows, to-wit:

W $\frac{1}{2}$ NE $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$ & SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 31, T. 1 N., R. 21 E., B. M.; All Sec. 4, All Sec. 5, Lot 1 & SE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 6, NE $\frac{1}{4}$ & SE $\frac{1}{4}$ Sec. 7, All Sec. 8, All Sec. 9, W $\frac{1}{2}$ NW $\frac{1}{4}$ & W $\frac{1}{2}$ SW $\frac{1}{4}$ Sec. 15, All Sec. 16, NE $\frac{1}{4}$, N $\frac{1}{2}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, E $\frac{1}{2}$ SW $\frac{1}{4}$ & SE $\frac{1}{4}$ Sec. 17, N $\frac{1}{2}$ NE $\frac{1}{4}$ Sec. 18, All Sec. 20, All Sec. 21, All Sec. 22, NW $\frac{1}{4}$, SW $\frac{1}{4}$ & W $\frac{1}{2}$ SE $\frac{1}{4}$ Sec. 23, W $\frac{1}{2}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ SW $\frac{1}{4}$ & W $\frac{1}{2}$ SE $\frac{1}{4}$ Sec. 26, All Sec. 27, NE $\frac{1}{4}$, N $\frac{1}{2}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$ & SE $\frac{1}{4}$ Sec. 28, NE $\frac{1}{4}$ & NE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 33, All Sec. 34, All Sec. 35, T. 1 S., R. 21 E., B. M.; Lots 1, 2, 3, & 4, S $\frac{1}{2}$ NE $\frac{1}{4}$, S $\frac{1}{2}$ NW $\frac{1}{4}$ & SW $\frac{1}{4}$ Sec. 2, All Sec. 3, N $\frac{1}{2}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ NE $\frac{1}{4}$, & NE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 8, All Sec. 9, All Sec. 10, NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$ & SW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 11, Lots 4, 5, & 6, Sec. 14, NE $\frac{1}{4}$, NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SW $\frac{1}{4}$, & N $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 15, All Sec. 16, S $\frac{1}{2}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$ & SE $\frac{1}{4}$ Sec. 20, N $\frac{1}{2}$ NE $\frac{1}{4}$, SW $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$, SW $\frac{1}{4}$, & NW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 21, NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 22, NW $\frac{1}{4}$ Sec. 28, NE $\frac{1}{4}$, & E $\frac{1}{2}$ NW $\frac{1}{4}$ Sec. 29, T. 2 S., R. 21 E., B. M., containing a total of 14,711.13 acres.

That any protests against the approval of this application should be filed in the Department of Reclamation within forty (40) days of the date of this notice; such protest shall state the name and address of the protestant and shall clearly set forth his objections to the approval of the said application.

Dated This 18th day of November 1935.

R. W. FARIS,

Commissioner of Reclamation.

APPLICATION FOR PERMIT

37-2773

To Construct a Reservoir and Store and Appropriate
The Public Waters of the State of Idaho

Application No. R 25408
Permit No. R 604

1. Name of Applicant: LITTLE WOOD RIVER IRRIGATION DISTRICT

Postoffice address: Carey County Blaine State Idaho

I. If applicant is a corporation, give:

- (a) Date and place of incorporation: (b) Amount of Capital Stock: \$
(c) Amount paid in: \$ (d) Names and addresses of directors:

II. The financial resources of the corporation are:

- (a) Cash on hand: \$ (b) Treasury Stock: \$
(c) Bonds to be issued: \$ (d) Other resources:

2. Quantity of water to be stored: 10,000 acre feet per annum.

3. Source of water supply is Little Wood (River) (Spring), a tributary of Big Wood River.

4. The outlet of the proposed reservoir is located S.78°15'W./1648 feet, distant from the N¹/₄ corner of Section 13, Township 1 N., Range 20 E., B. M. and is in the NW ¹/₄ of NW ¹/₄ of Section 13, Township 1 N., Range 20 E., B. M. County of Blaine

5. Fill out either (a) or (b).

(a) The reservoir is located in the channel of Little Wood (River).

(b) The reservoir is to be filled through a feeder canal, the point of diversion for which is located (bearing) feet distant from

the corner of Section, Township, Range, B. M., and is in the ¹/₄ of ¹/₄ of

Section, Township, Range, B. M.; width at bottom feet, width at top

feet, depth of water feet; average grade per mile feet; Capacity cubic feet per second.

6. (a) The area of the high water line of the reservoir is 325 acres.

(b) The reservoir capacity is 10,000 acre feet.

7. Height of reservoir dam 85 feet, length at top 860 feet, length at bottom 380 feet, size of outlet 6 feet

by 6 feet. The dam is to be constructed of materials as follows: Earth and rock fill

(If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)

8. (a) Will water stored in reservoir be diverted to canal or aqueduct, thence to land to be irrigated without commingling with natural flow of

Little Wood (River) ? No

(b) Water stored in reservoir will be carried in the channel of Little Wood (River), a distance

of 4 miles to point of diversion located in Sections 30, & 31 (bearing) ~~XXXXXXXXXXXX~~ ~~XXXXXXXXXXXX~~

Township 1 N., Range 21 E., B. M., and in the ¹/₄ of ¹/₄ of Section, Township, Range

B. M.

9. Amount of water claimed from (Creek) (River) (Spring) in addition to that

stored in reservoir cubic feet per second.

10. Water is to be used for Irrigation and domestic purposes.

11. If for mining, milling, power or manufacturing purposes give:

(a) Point of use of water (bearing) feet, distant from Corner of Section, Township, Range

B. M. and is in the ¹/₄ of ¹/₄ of Section, Township, Range, B. M.

(b) Amount of power generated: H. P., under feet head.

(c) Water is to be returned to (Creek) (River) (Spring) at a point (bearing) feet

distant from the corner of Section, Township, Range, B. M., in

the ¹/₄ of ¹/₄ of Section, Township, Range, B. M.

12. Water stored in accordance with this Permit will be carried to place of use through a canal heretofore constructed under the terms of Permit No.

, which is hereby referred to and made a part hereof.

13. Kind of diversion works: See Remarks
- (Dam, canal, flume, pipe, etc.)
14. Height of diversion dam: feet, length at top feet, length at bottom feet. The dam is to be constructed of materials as follows:
- (If height will exceed 10 feet, plans must be approved by Department of Reclamation, before beginning construction.)
15. Size of headgate: Width feet, Height feet.
16. Diversion Canal: Width at bottom feet, width at water line feet, depth of water feet, Dimensions of Flume Diameter of Pipe inches; Length of Conduit miles. Average grade per mile feet.
17. Estimated cost of Works: Storage Works: \$ 230,000 Diversion Works: \$ Already built
18. Time required for completion of work 5 years .
19. Time required for complete application of water to proposed beneficial use is 6 years.
20. The land to be irrigated is described in the following tabulation:
- (Give Irrigable acreage in each 40-acre subdivision.)

Twp.	Range	Sec.	NE¼				NW¼				SW¼				SE¼				Totals

Total Number of Acres to be Irrigated

Remarks: No construction contemplated other than storage works. The various canals with their respective diversion works, which will utilize the water appropriated by this permit, have been constructed and in use for many years.

BE IT KNOWN That the undersigned hereby makes application for permit to construct a reservoir and store and appropriate the public waters of Idaho as herein set forth, and that the enclosed map is hereby made a part of this application.

LITTLE WOOD RIVER IRRIGATION DISTRICT

Applicant.

By Geo. N. Carter

Agent.

Date of first receipt at office of Commissioner of Reclamation 4:00 P. M. September 3, 1935

Returned to applicant for correction October 2, 1935

Corrected application received November 13, 1935

APPROVAL OF COMMISSIONER OF RECLAMATION

The number of this permit is R 604

Recorded in book R 2 , page 604 Approved January 9, 1936

This is to certify that I have examined the within application for a permit to construct a reservoir and store and appropriate the public waters of the State of Idaho, and hereby approve the same, subject to the following limitations and conditions:

Bond in the sum of \$ 1,000.00 , to be filed on or before March 8, 1936

Work to begin on or before and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which the permit holder has no control.

One fifth of the work above specified to be completed on or before July 9, 1938

The whole of said work to be completed on or before January 9, 1941

Beneficial use of water stored in accordance herewith, to be made on or before January 9, 1947

Witness my hand this 9th day of January , 1936 .

R. W. FARIS

Commissioner of Reclamation.

Making a total of 7930.29 acres.

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change.

Little Wood River Irrigation District, By W. D. Richards, Sec.-Treas
Signed at Carey, Idaho, this 22nd day of January, 1941.

Date of receipt at office of Department of Reclamation 11:00 A. M., January 24, 1941.

APPROVAL OF COMMISSIONER OF RECLAMATION.

I, E. V. Berg, Commissioner of Reclamation of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. R-604. This approval constitute a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part and said application is approved only insofar as the rights of others will not be adversely affected thereby.

E. V. BERG.
Commissioner of Reclamation.

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO
No. R-604

Comes now Bessie Stanford, and represents to the State Reclamation Engineer of the State of Idaho,

That she is the Secretary-Treasurer of the Little Eood River Irrigation District, the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. R-604, and requests that the list of lands to be irrigated as described in said Permit be changed to include the lands owned by the District in Sections 7, 10 and 14, Township 1 South, Range 21 East, B.M., more particularly described as follows:

NE $\frac{1}{4}$ SE $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, NE $\frac{1}{4}$ SW $\frac{1}{4}$ in Section 7;
NW $\frac{1}{4}$ SE $\frac{1}{4}$, SW $\frac{1}{4}$ SW $\frac{1}{4}$ in Section 8;
NE $\frac{1}{4}$ NE $\frac{1}{4}$, NW $\frac{1}{4}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, Section 9;
SW $\frac{1}{4}$ NW $\frac{1}{4}$ in Section 10;

Fr. SW $\frac{1}{4}$ NW $\frac{1}{4}$, Fr. SE $\frac{1}{4}$ NW $\frac{1}{4}$ in Section 21;
All in Township 2 South, Range 21 East, B.M.

lands annexed to and made a part of the District on August 10th, 1946, and being in addition to the lands originally described in the permit.

Making a total of 8814.12 acres.

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change.

Signed at Carey, Idaho, this 5 day of December, 1946.

LITTLE WOOD RIVER IRRIGATION DISTRICT
By Bessie Stanford
Secretary-Treasurer.

Date of receipt at Office of Department of Reclamation 9:00 A.M. Dec. 9, 1946.

APPROVAL OF STATE RECLAMATION ENGINEER

I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. R-604. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

MARK R. KULP
State Reclamation Engineer

Permit No. R-604

CERTIFICATE OF COMPLETION OF WORKS

TO ALL WHOM IT MAY CONCERN:

This is to certify that LITTLE WOOD RIVER IRRIGATION DISTRICT of Carey, County of Blaine and State of Idaho, the holder of Permit No. R-604, issued upon Application No. R-25408, bearing date of priority of September 3, 1935 authorizing the construction of a reservoir, with the right to appropriate and store 10,000 acre feet per annum of the waters of Little Wood River, a tributary of Big Wood River, in the County of Blaine, State of Idaho, for irrigation and domestic purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works set out and described in said Permit; that said works include a dam and reservoir, adequate for the storage of 10,000 acre feet of water per annum, with adequate diversion works and conduit to the reservoir, and a conduit capable of conducting said water to the place of intended use; that the point of outlet of said reservoir is located in the NW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 13, Township 1 N., Range 20 E., B.M., and that the place of use, or the lands proposed to be irrigated by the use of said water, are described as follows, to-wit: Lands within the boundaries of Little Wood River Irrigation District, located in Townships 1 and 2 South, Range 21 East, B.M.

Witness my hand this 4th day of December, 1953.

MARK R. KULP
State Reclamation Engineer

Proof of Completion of Works made October 17, 1953.

To: Mr. Mark R. Kulp, State Reclamation Engineer

From: Raymond J. Briggs and Associates, Consulting Engineers, by
Robert M. Nelson and Raymond J. Briggs

Subject: Construction Repairs and Maintenance on Little Wood River Dam
1952 - 1953

Date: November 25, 1953.

1952

During the fall of 1952 the spillway was raised two feet, according to plans and specifications by Raymond J. Briggs and Associates, Consulting Engineers, with approval of the State Reclamation Engineer. This work consisted of constructing concrete piers along the crest of the spillway with timber flashboards placed in slots in the piers. To maintain the required seven foot freeboard, selected clay and rock surfacing was placed and compacted along the top of the dam where necessary.

At the request of the State Reclamation Engineer, the throat of the spillway channel was widened and the auxiliary side channel blocked with rocks covered by a clay blanket, the blanket in turn being covered by more rock to protect the clay from washing.

A small "sinkhole" in front of the dam was filled and compacted with selected clay material to stop any further leakage through the rock fill.

1953

During the spring of 1953, leakage was observed through the dam about eight feet down from the crest on the downstream side, at several points, for approximately 300 feet. This leakage was due to percolation through a layer of old rock riprap on the crest of the dam that was flooded by the two foot additional reservoir elevation. The leakage was temporarily stopped by dumping of clay along the face of the dam, with permanent repairs to await lowering of the reservoir by normal irrigation usage.

The repair was undertaken this fall in the following manner: a trench was dug with minimum width of 4 feet, starting at the Northerly end of the dam. This trench ran approximately four hundred feet long with depth varied to keep two feet below the rock stratum causing the leakage. The maximum depth reached was eleven feet from the new dam crest.

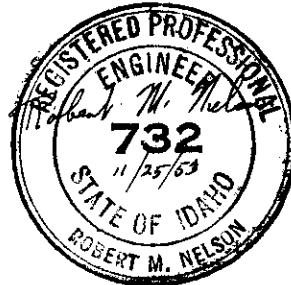

R-604

The trench was then backfilled with selected impervious clay material with rocks removed. The backfilling was done in six-inch lifts, with each lift being watered and tamped. Replacement of the riprap on the face of dam to condition prior to trenching completed this work.

The erosion in the tunnel concrete directly behind the outlet gates was corrected by cleaning the eroded areas to firm concrete and patching the holes with "Granite patch," a commercial concrete patching material that expands upon setting, thus making a very tight bond to the parent material. One-half inch steel plate was then cut to fit and bolted to the vertical faces of the gate outlet transitions to outlet tunnel and covering the entire area upon which water impinges under the maximum gate opening now used. A 3/16 inch steel floor plate was wedged between the side plates and the joints welded. The side plates were also welded at the top to the angle iron base frame of the gates.

A check was made of the sinkhole repair in front of the dam and no sign of the former leakage exists as of this date.

All of the listed work was done under the resident supervision of the undersigned, and final inspection made on November 20, 1953.

Robert M. Nelson
Robert M. Nelson
Professional Engineer

I, Raymond J. Briggs, do certify that so far as I know all of the requirements have been fulfilled in respect to that certain conditional approval given by the State Reclamation Engineer of March 20, 1952 for installation of spillway flashboards to raise the maximum reservoir water level two feet, raise the dam crest two feet, and condition the spillway channel, and to bring construction into acceptable compliance with requirements for issuance of certificate of completion of works.

Further, and in addition, the work noted hereinabove has been completed, i.e., (a) leakage emanating from near the gatehouse has apparently been completely stopped; (b) leakage from a horizontal zone near dam crest has been cut off by clay core wall construction, as Mr. Nelson reports above; (c) rock riprap restored on upstream face immediately below dam crest; (d) outlet tunnel transition sections to reservoir outlet gates repaired.

The spillway flashboards and spillway channel functioned satisfactorily

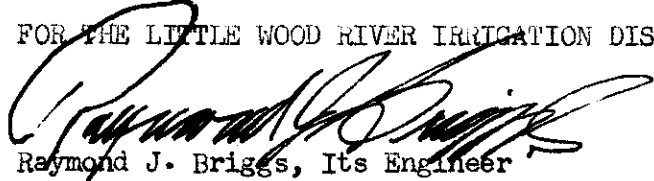

R-604

the past season.

I believe that all of the orders and stipulations of the State Reclamation Engineer, as requirements for justification for issuance of completion of work certificate, have now been executed as required.

Respectfully

FOR THE LITTLE WOOD RIVER IRRIGATION DISTRICT

TO Mr. Mark R. Kulp

PAGE #2

in company with Robert M. Nelson, project resident engineer, R. E. Adamson, Board President, and Oliver Eldredge, River Watermaster. All work appeared to be acceptable and I accordingly signed the final estimate.

This party made an inspection of the outlet tunnel. I could not see that any deterioration has taken place anywhere in it during the past three years; however, some raveling near the gate house should be repaired and materials are to be ordered immediately by the District to accomplish that purpose. We plan to experiment with a type of material, which if proved to be unsatisfactory will be removed and another method tried subsequently.

I believe you will find all details of this work to your satisfaction and recommend your final inspection and approval thereof.

Very truly yours

Raymond J. Briggs

Re: Little Wood River Irrigation
District.

Dear Mr. Kulp:

Herewith for your files and information is a copy of final estimate for construction work performed by W. H. Uhrig, Contractor, on the Little Wood River Irrigation District's dam, Carey, Idaho.

Work accomplished includes:

1. Spillway flashboard piers installed.
2. Spillway flash boards installed - two feet high.
3. Spillway channel improvement, including earth and rock retaining wall, left side, and widening channel outfall throat.
4. Raised dam two feet.
5. Placed 500 cu.yds. earth blanket over leakage area near bottom of upstream face of dam and near gate house.
6. Constructed small water level recording house and mounted water level recording instrument.

As stipulated in Contractor's contract, the contract performance bond is to run for a period of nine months after completion of work, to provide for final inspection and release of bond at that time or prior thereto, as you may approve.

In so far as I know, all of the stipulations contained in that certain agreement of May 7, 1952 pertaining to requirements for Completion of Works certificate have been satisfied.

On November 6 I made an inspection of the site of construction,

DEPARTMENT OF RECLAMATION

BOISE, IDAHO

REPORT OF ENGINEER

Permit No. R-604

This proof is for Beneficial use

In Water District No.

1. Name of applicant Little Wood River Irrigation District, Carey, Idaho

2. Source of water supply: Little Wood River

3. Location of point of diversion: Is in the Sections 30 and 31, of Section

T. 1 N. R. 21 E. County of Blaine

4. Describe works as they exist, giving dimensions and capacities of same:

See plans and spec by R. W. Briggs Eng. in file
also certification as to work done.

5. Water is used for: Irrigation and domestic purposes

6. State whether or not water has been turned into works of diversion: yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres
under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Land within the boundaries of the Little Wood River Irrigation District-

in Sections 4, 5, 6, 7, 8, 9, 10, 14, 15, 16, 17, 20, 21, 22, 23, 24, 26, 27,

28, 33, 34 and 35, Twp. 1 South, Range 21 East, B.M. and Sections 2, 3, 8,

9, 10, 11, 15, 16, 20 and 21, Twp. 2 South, Range 21 East, B.M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks:

Hay - grain and dairying.

This examination was made on the 30 day of Nov., 1953

Permit No. R-604

Examination for Beneficial use

County Blaine

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
 2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
 3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
 4. If any unusual conditions are discovered, make plain statement of them under remarks.
 5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
 6. Give general characteristics of soils, topography, and crops raised.

December 4, 1933

RE: Permits Nos. R-656, R-604, & R-813

Little Wood River Irrigation District
Carey
Idaho

ATT: Mr. R. E. Adamson

Dear Mr. Adamson:

In reference to the above numbered permits for the construction of a reservoir and storage of water from Little Wood River:

Certificate of Completion of Works will be issued for 10,000 acre feet of water on Permit No. R-604 upon receipt of the statutory fee for same, amounting to \$5.00 for the first 2,500 acre feet and 30 ¢ for each additional 250 acre feet, or a total of \$4.00.

No additional fee is required for the issuance of a license on this permit.

On Permit No. R-656, a Certificate of Completion of Works and License will be issued for 2,724 acre feet upon receipt of the statutory fee of \$5.30 for Certificate of Completion of Works.

Since Permit No. R-813 is upon the same reservoir and the above two permits cover all available storage, there will be no water available for license under Permit No. R-813.

Proof of Completion of Works was due on this permit on or before September 22, 1933, and it is technically subject to cancellation. However, in order to save the necessity of sending formal notice of cancellation, and in order to clear our records, we would appreciate receiving a relinquishment from you of Permit No. R-813 on the form enclosed.

**COMPLETION OF WORKS
and
APPLICATION OF WATER
TO BENEFICIAL USE**

Notice is hereby given that at Two o'clock P. M., on the 17th day of October, 1953, at Carey, County of Blaine, State of Idaho, before Alice York, Notary Public, proof will be submitted of the completion of works for the storage and appropriation of 12,724 acre feet per annum of the waters of Little Wood River and of the application to beneficial use of said water, in accordance with the terms and conditions of Permits Nos. R-604 and R-606 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permits are Little Wood River Irrigation District, Carey, Idaho.

2. Said works of diversion are to the place of use, in accordance with the plans accompanying the application for such permits, is 12,724 acre feet per annum.

3. The use to which said water has been applied is irrigation and domestic purposes, and the amount applied to the beneficial use is 12,724 acre feet per annum.

4. The place where said water is used is Little Wood River Irrigation District, in Townships 1 North, 1 South and 2 South, Range 21, East, E. M.

5. The date of priority which said user is prepared to establish is 10,000 A. F. - Sept. 3, 1935 - (Permit No. R-604) and 2,724 A. F. - Nov. 21, 1935 - (Permit No. R-606.)

Permit No. R- 604**Proof of Completion of Works**

AND BENEFICIAL USE

DEPOSITION OF HOLDER

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. R. E. Adamson, Chairman, Board of Directors, Little Wood River Irrigation
District, Carey, Blaine County, Idaho.

Ques. 2. If acting on behalf of a corporation, state its name, principal place of business, your position with reference to same, and your authority for appearing in its behalf.

Ans. Chairman, Board of Directors, Little Wood River Irrigation District, Carey,
Blaine County, Idaho.

Ques. 3. State number and date of permit, acre feet of water you claim for storage, and source of same.

Ans. Permit No. 604, issued January 9, 1936, for 10,000 acre feet from the
Little Wood River, per annumQues. 4. Under terms of permit construction was required to be completed by January
9 19 41. Proof of completion of works submitted on February 10, 1941.Ques. 5. Construction was actually completed on the date of November 8 19 52.Ques. 6. Does the construction fully comply with the specifications? YesQues. 7. Of what material was the dam built? Earth and rock fill

Ques. 8. State whether or not the water has been turned into your reservoir, and if so, when and to what extent.

Ans. Reservoir partially filled in 1941, 1942 and 1943 and filled to spillway
level in 1944 and thereafter each year.Ques. 9. The capacity of the reservoir is 18,724 acre feet.Ques. 10. The area of the high water line of the reservoir is 364 acres.Ques. 11. The height of the dam above bottom of reservoir is 79 feet, above low water is 79 feet.Ques. 12. The dimensions of the spillway are 300 ft wide and the bottom of the spillway is 7 feet below the top of the dam.Ques. 13. Dimensions of the reservoir outlet are 5 feet x 7 feet tunnel

Ques. 14. Describe the gate and control unit.

Ans. Two 48" square Hunt Mfg. Co. slide gates, each with 25 ton geared, hand
operated, pedestal mounted hoist.Ques. 15. The reservoir outlet is made of Reinforced concrete lined tunnelQues. 16. Is the reservoir filled through a feeder canal? No

Ques. 17. If so, where is the point of diversion for same?

Ans. 1/4 1/4 Section, Twp. Range

R-604

Ques. 18. Does the feeder canal comply with the specifications in the permit?.....

Ques. 19. If not, explain **No feeder canal. Dam constructed across channel of Little Wood River.**

Ques. 20. Cost of constructing feeder canal? \$..... Cost of reservoir? \$ **500,000. est.**

Ques. 21. State whether or not the works from reservoir outlet to place of use are fully completed, and whether or not they comply with the specifications in permit. ~~If not, explain.~~ **Yes**

Ans. **Works completed and in use**

Ques. 22. Water has ~~(has not)~~ been delivered to place of intended use? **Yes**

Ques. 23. Give description of dam, state dimensions, and give slope of face both upstream and downstream. Also method and material for protecting against wave action.

Ans. **Approx. 1,000' long on top, 400' on bottom. Upstream earth face at 3:1, with 5:1 toe apron. Downstream rock face at approx. 1-1/2:1 slope. Upstream face riprapped with rock.**

Ques. 24. State the purpose for which the water is to be used and give the place of use, and if for irrigation, state the number of acres, and give the legal description of same.

Ans. **Supplemental irrigation and domestic. District-wide use. Water allotted to 8,776 acres, with 2,282 acres without allotment in the District. Lands in Townships 1 North, 1 South and 2 South, Range 21 East, B.M.**

The Depositions of two Witnesses, in this form, taken separately, required in each case.

Permit No. R-604

Proof of Completion of Works

AND BENEFICIAL USE

DEPOSITION OF WITNESS

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Oliver Eldredge, Little Wood River Watermaster, Carey, Idaho

Ques. 2. Are you acquainted with Little Wood River Irrigation District, the holder of Permit No. R-604, authorizing the storage of 10,000 acre feet of the waters of Little Wood River which is tributary to Snake River, in the County of Blaine, State of Idaho? How long have you known ~~him~~ ^{it}, and where ~~does he reside?~~ ^{Is it located?}

Ans. _____

Ques. 3. Have you read or heard read said Permit? Yes Are you familiar with its terms and conditions? Yes

Ques. 4. Of what material and how has the dam been constructed?

Ans. Earth and rock fill

Ques. 5. Is the reservoir fully constructed? Yes Has water been turned into it? Yes And to what extent? Filled to spillway capacity since 1944.

Ques. 6. Where is the point of diversion of the feeder canal? No feeder canal

Ans. $\frac{1}{4}$ $\frac{1}{4}$ Section _____, Township _____ Range _____

Ques. 7. The outlet of the reservoir is located in the $\frac{1}{4}$ $\frac{1}{4}$ Section 13 Twp. 1 N. Range 20 E., B.M.

Ques. 8. Describe the spillway.

Ans. Concrete structure 300' long, with 24" flashboard installation.

Ques. 9. How much below the top of the dam is the bottom of the spillway? 7 Ft.

Ques. 10. State the dimensions of the outlet for the reservoir. Tunnel 5' x 7'

Ques. 11. Of what material is the outlet made? Reinforced concrete lined tunnel

Ques. 12. How is the outlet gate operated? Two 4' x 4' gates, each with a 25 ton geared hoist attached to lifting stems.

Ques. 13. Of what material has the dam been constructed? Earth and rock

Ques. 14. Are the works from the reservoir to place of use fully completed? Yes

Ques. 15. Describe these works as they now exist, and give your estimate of their capacity.

Ans. Dam impounds 12,724 A.F. according to report of engineer survey compiled and filed May 4, 1953.

Ques. 16. For what purpose is the water to be used?

Ans. Irrigation and domestic.

R-604

Ques. 17. If for irrigation purposes, are you acquainted with the land to be irrigated?.....**Yes**.....
How much water is required for its profitable cultivation?

Ans. All of the 12,724 acre feet of reservoir capacity for lands now being served by reservoir waters.

Ques. 18. Give the legal description of the land to be irrigated, or the place of use.

Ans. District-wide, in Townships 1 North, 1 South, and 2 South, R. 21 E., B.M.

Re: Permit Numbers R-604
and R-656.

Dear Mr. Kulp:

Supplementing my conversation with Mrs. Anderson last week, I am enclosing the depositions, in duplicate, of R. E. Adamson, Holder, and F. W. Davis and Oliver Eldredge, Witnesses, in support of proof of completion of works and beneficial use on the above numbered permits.

If you need any additional information, please do not hesitate to let me know.

Any action you may take to expedite issuance of the licenses will be very much appreciated by us and the District.

I would appreciate it if you would have Mrs. Anderson send me about 8 additional blanks for deposition of holder and 16 additional blanks of deposition of witness so that I may have copies made of these depositions for the District's and Mr. Briggs' files.

Very truly yours,

Clifford E. Fix

Mr. R. E. Adamson, President
Little Wood River Irrigation District
Carey, Idaho

Re: (1) Spillway Flashboards and Spill-
way Improvements
(2) Water Measuring Station

Dear Mr. Adamson:

1. Under separate cover and by even mail I am forwarding you prints of our design drawings Nos. 31552-1 and 31552-2, for water measuring station at the weir in the River below the dam. Mr. Kulp waived action on these drawings as he is not charged by law with jurisdiction over the construction of measuring stations. He is, however, pleased to have the station constructed and receive reports on measurements and recordings taken at the station.

Please have these drawings reviewed by your Board and notify me of action taken, in respect to approval thereof and if approved instruct me as to what materials you would like for us to solicit price quotations and prepare purchase orders for your clearance on District account.

2. Under separate cover is a blueprint of our Drawing No. 022952, Spillway Flashboard installation, which carries Mr. Kulp's approval of March 20, 1952.

3. Enclosed herewith is a copy of "Specifications for Improvements to Little Wood River Dam Spillway Channel," which carries Mr. Kulp's conditional approval, signed March 20, 1952.

4. Mr. Kulp reports that the next and final requirement, precedent to initiating spillway work and filing applications for licenses under the outstanding permits for present water storage capacity, involves execution and his acceptance of a performance warrantee covering the work and requirements set forth on the approved drawing and in the specifications. This agreement, I think, should be drawn by Mr. Fix, who of course may call on me for any assistance I can render him. The agreement, I suggest, should be drawn as soon as possible, as our further progress is wholly dependent on its acceptance.

5. I am sending Mr. Fix a copy of the specifications and a

R. Goy

print of the spillway flashboard installation drawing. I am also filing today three prints of that drawing with the Department of Reclamation.

6. We may start work on the measuring station, or place orders for materials any time you may choose and you may instruct me as suggested in No. 1 above. We will set construction stakes any appropriate time after weather is favorable for beginning construction.

Very truly yours

July 17, 1950

Re: Permit No. R-604

Bessie Stanford, Secretary
Little Wood River Irrigation District
Carey, Idaho

Dear Mrs. Stanford:

Completion of works proof was made on Permit No. R-694⁹ on February 1, 1941, but Certificate of Completion of Works has never been issued.

We have no engineer's field report on the proof of completion of works but correspondence on the construction of the dam and on Permit No. R-656 indicates that the works were not completed satisfactorily. Specifically, the spillway channel was not constructed in accordance with the plans approved.

There may be a technical difference between "Completion" as defined in Section 42-112 Idaho Code and in Section 42-415, which implies completion according to the terms of the Permit which we have always considered to include the approved plans and specifications.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Mr. Mark R. Kulp
State Reclamation Engineer
State House
Boise, Idaho

Dear Sir:

The Board of Directors of this district are desirous of having information regarding the 'Certificate' of completion of works on storage permit R-604.

Completion of works proof was made on this permit on February 1, 1941, proof of beneficial use on this permit has also been completed in 1947.

We are therefore desirous of having our Certificate issued for this permit, R-604. We shall appreciate your attention in this matter at your early convenience and shall greatly appreciate having you mail copy, of any correspondence regarding this matter, to our attorney, Mr. A.F. James, Sr. residing at Gooding, Idaho.

Truly yours,

Bessie Stanford
Secretary for Board of Directors
Little Wood River Irrigation District.

8-604

✓
R-604

March 15, 1948

Miss Bessie Stanford, Sec'y
Little Wood River Irrig. Dist.
Carey, Idaho

Dear Miss Stanford:

Your letter of March 10, 1948, regarding the possibility of increasing the storage capacity of the Little Wood River reservoir by installing flash planks on the present spillway crest has been discussed at some length.

Regarding the possibility of increasing the storage capacity by the suggested method, it appears that such a proposition would have merit if installed under proper safeguards.

However, it is the feeling of this Department that first things should come first, and in view of the present unfinished condition of the spillway below the concreted section - which condition by the way has been responsible for past delay in the acceptance of completion of works proof upon the dam as a whole - we would not under present conditions, favor any possible further increase of spillway load.

It is suggested that the District submit detailed plans and specifications for the completion of work under Permit R-604, and also that plans be submitted for the proposed spillway crest addition, to the end that some further storage can eventually be acquired for the benefit of all concerned.

It is noted that the U. S. Forest Service Report of the 8th shows the snow moisture of the Hailey Section to be only 3.08 inches as against 6.46 inches of water content a year ago, and the total precipitation since October 1, 1947 is 5.71 inches thus far against 9.02 last year, and while the Hailey snow area may be somewhat different to that of the Little Wood River, yet they are comparable to a great extent, and the present conditions should be improved upon for the future if a proper method is to be worked out.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

BESSIE STANFORD
SECRETARY-TREASURER

LITTLE WOOD RIVER IRRIGATION DISTRICT

CAREY IDAHO

March 10, 1938

Mr. Mark L. Kulp
State Reclamation Engineer
Department of Reclamation
Boise, Idaho

Dear Sir:

The Directors of the Little Wood River Irrigation District have been confronted with the anticipated shortage of water for the coming irrigation season, by many of the shareholders in the district. This matter results in our writing your department concerning a possible means of storing more water by planking of the spillway.

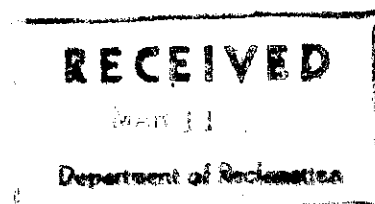

This matter has been discussed at some length in our meetings. We, therefore should greatly appreciate having you consider this matter. Should this privilege be permitted, the directors believe that planking by some two feet on the spillway would store possibly 1,000 acre feet of additional storage.

During the time that the dam was being constructed and after its completion, this matter was discussed with engineers in charge and statement was made at that time that this program could be successfully carried out if need come for water in an anticipated dry year.

Your consideration in this matter will be greatly appreciated, and we shall await a reply at your convenience.

Respectfully yours,
Directors of the Little Wood River
Irrigation District.

Re: Permit No. R-604

Little Wood River Irrigation District
Carey, Idaho

Attention- Bessie Stanford, Secretary

Gentlemen:

We do not know when our Field Engineer will be available for examination in connection with proof of beneficial use under Permit No. R-604.

We did not make the examination earlier on account of the water running over the spillway, which was never finished according to plans and specifications.

The condition below the spillway is unsatisfactory and hazardous to the dam, and we have with-held approval of proofs of completion of works and the issuance of a certificate of completion on this account.

Very truly yours,

MARK R. KULP

**NOTICE OF PROOF
APPLICATION OF WATER
TO BENEFICIAL USE**

Notice is hereby given that at 2:00 P. M. on the 11th day of January, 1947, at Carey, County of Blaine, State of Idaho, before Alice M. York, Notary Public, proof will be submitted of the application to beneficial use of 10,000 acre feet per annum of the waters of Little Wood River in accordance with the terms and conditions of Permit No. R-604 heretofore issued by the Department of Reclamation, of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Little Wood River Irrigation District, Carey, Idaho.

The use to which said water has been applied is Irrigation and domestic purposes.

The amount applied to beneficial use is 10,000 acre feet per annum.

The place where said water is used lands within the boundaries of the Little Wood River Irrigation District, located in Sections 4, 5, 6, 7, 8, 9, 10, 14, 15, 16, 17, 20, 21, 22, 23, 24, 25, 27, 28, 33, 34, and 35, Twp. 1 South, Range 21 East, B.M., and also in Section 2, 3, 9, 10, 11, 15, 16, 20 and 21, Twp. 3 South, Range 21 East, B.M.

The name of the canal or ditch or other works by which said water is conducted to such place of use

is Little Wood River Canal.

The right to take water from such works is based upon Permit No. R-604.

The source of supply from which such water is diverted is Little Wood River.

The date of priority which said user is prepared to establish is September 3, 1935.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Little Wood River, on Secs 30 and 31
T. 1 N. R. 21 E. 3 M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Dam on Little Wood River, 17 ft high, about 80 ft long
and ditch, 17 ft high, about 80 ft long
on top of Canal, about 27 miles long.
320 ac. ft. Little Wood River
Canal.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For irrigation. Used on lands in said Irrigation District,
located in sections, 4, 5, 6, 7, 8, 9, 10, 14, 15, 16, 17, 20, 21, 22, 23, 24, 26, 27, 28
33, 34, 35, Township 1 south, range 21 E. B. M. and in sections 2, 3, 8, 9, 10, 11,
15, 16, 20, 21, in Township 2 South, range 21 E. B. M. in Blaine County, Idaho.

Cultivated land, fully reclaimed
and highly productive.

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. Not used for other purposes.

Ques. 8. What is the minimum amount of water required for the purpose specified above?
Ans. 30,000 acre feet.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. Permit issued to our district.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Ever since spring of 1941, by means of canals mentioned, at least 10,000 acre feet.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. The lands in this district have decreed water rights of different priorities and amounts which are used on such lands. Such decreed rights are inadequate.

INSTRUCTIONS

PROOF OF BENEFICIAL USE OF WATER

BOISE, IDAHO, January 2, 1947

Re: Permit No. R-604
Little Wood River Irrigation District

Alice A. York
Notary Public
Carey, Idaho

DEAR ~~SIR~~: Madam:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. R-604.

DEPOSITION OF PERMIT HOLDER, DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On January 11, 1947, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Carey, Idaho before Alice A. York, Notary Public.

2. When the depositions have been taken, they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

MARK A. KULP

Commissioner of Reclamation.

January 6, 1947

The Blaine County Citizen
Hailey, Idaho

Gentlemen:

Attention- Mr. N. Harry Smith

Reference is made to your letter in reply to office letter addressed you on December 11, 1946, requesting you to discontinue publication of notice of beneficial use proof to be made by the Little Wood River Irrigation District.

We quote from an opinion received this morning from the Attorney General's office, under date of January 4th, as follows:

"You are advised that unless the newspaper has obtained a status of a legal newspaper as defined under the law, which requires that it must be a continuous publication, having been such continuous publication for at least 78 weeks, that such publication is invalid."

Very truly yours,

K: A

MARK R. KULP

January 4, 1947

FRANK LANGLEY
ATTORNEY GENERAL

Mark R. Kulp
Reclamation Engineer
B U I L D I N G

Dear Sir:

This is in reply to your letter of December 17. It appears from your letter that a notice of beneficial use proof was sent to the Blaine County Citizen of Hailey, Idaho, for publication as required by Section 41-211, Idaho Code Annotated at the request of the secretary of the Little Wood River Irrigation District. It now appears that the newspaper was not a legal newspaper as defined under the law and you now desire an opinion as to whether such publication was a valid publication.

You are advised that unless the newspaper has obtained a status of a legal newspaper as defined under the law, which requires that it must be a continuous publication, having been such continuous publication for at least 78 weeks, that such publication is invalid.

Very truly yours,

THOS. E. GWILLIAM
Asst. Atty. General

TYG:dr

R-604

R-604

December 17, 1946

Hon. Frank Langley
Attorney General
Building

Dear Mr. Langley:

On November 27th, 1946, notice of beneficial use proof under Permit No. R-604 was sent to the Blaine County Citizen, of Hailey, Idaho, for publication, as required by Section 41-211, I. C. A., said newspaper having been designated by the Little Wood River Irrigation District, Bessie Stanford, Secretary. A copy of the notice, the authorization to publish, and the letter sending said notice to the newspaper are enclosed herewith.

On December 10th a letter was received from McFadden & McFadden, Attorneys at Law, Hailey, Idaho, questioning the legality of the publication in this newspaper under the provisions of Section 58-106, I. C. A. as the Blaine County Citizen started as a new publication in July, 1946, not succeeding any other newspaper.

On December 11th this Department notified the Blaine County Citizen to discontinue publication, calling attention to the legal requirements as set out in Section 58-106, and advising them to send a statement of publication costs to date to Bessie Stanford, Secretary of the Little Wood River Irrigation District.

We enclose a letter just received from the Blaine County Citizen in reply.

We request an opinion from you as to whether or not said notice could legally be published in the Blaine County Citizen.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

N. HARRY SMITH, Publisher

Hailey, Idaho

December 14, 1946

Department of Reclamation,
State of Idaho,
Boise, Idaho.

Att: Mr. Mark R. Kulp.

Dear Mr. Kulp:

We are in receipt of your letter of December 11, (Re: Permit No. R-604), stating that we cannot legally publish such legal advertisement.

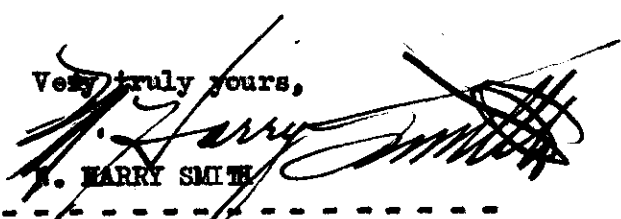

In accordance with Section 58-106, Idaho Code Annotated, and other provisions of laws and amendments, we cannot qualify legally to publish county legal advertisement. But, in accordance with these same laws governing such advertisement, we are entitled by law to publish such advertisement under legal status if the advertisement is accorded this publication by the party concerned. Likewise does the law interpret such advertisement in such manner that we can publish such advertisement if not originating from state and local offices.

We appreciate your desire to continue in appliance with governing laws but wish to contest the governing interpretation of this law as applying in this case and any such parties that might have called your attention to this supposed error.

We have been directed by our offices to discontinue publication of this legal notice and to forward a statement of costs to date to Bessie Stanford, Secretary Little Wood River Irrigation District, Carey, Idaho. We believe that your offices does not govern the payment of such publication of legal notices. If the said Bessie Stanford is to pay the costs as directed by our offices, then this publication under existing law is entitled to publish such advertisement as it is entered in our publication by a private project.

We would appreciate your attention in this matter and ask that we be granted the right to continue publication coming from private sources in similar manner. Awaiting your reply, thanking you for your kind indulgence, I am

Very truly yours,

N. HARRY SMITH

Bessie Stanford

Secretary and Treasurer

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water
per second, the following certificate must be signed by a well-known and competent engineer)

I hereby certify that the facts set forth in the attached notice are true.

Engineer.

R-604

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 4:00 ^{P.M.} ~~A.M.~~ on the 30th day of December, 1946,
at Carey, County of Blaine, State of Idaho, before
Alice A. Yark, Notary Public, proof will be submitted of the
application to beneficial use of 10.000 ^{acre feet} cubic feet per second of the waters of Little Wood
in accordance with the terms and conditions of Permit No. 1 - 604
heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are _____

Little Wood River Irrigation District At Carey, Idaho

The use to which said water has been applied is Irrigation and domestic purposes

The amount applied to beneficial use is 10.000 acre feet

The place where said water is used (if for irrigation, give full and accurate description of the
lands irrigated) Located in Sections 4, 5, 6, 7, 8, 9, 16, 17, 20, 21, 22, 23,

24, 26, 27, 28, 33, 34, and 35, Twp. 1 South Range 21, East B.M.

Also in sections 2, 3, 8, 9, 10, 11, 15, 16, 20, 21, Twp 2 South,

Range 21 E.B.M. Said water is to be used on all the lands within

the present boundaries of said Little Wood River Irrigation District.

The name of the canal or ditch or other works by which said water is conducted to such place of
use is Little Wood River Canal

The right to take water from such works is based upon Permit No. R- 604

The source of supply from which such water is diverted is Little Wood River Dam

The date of priority which said user is prepared to establish is September 3, 1935
~~January 8, 1944~~

December 11, 1946

Re: Permit No. R-604

Blaine County Citizen
Hailey, Idaho

Gentlemen:

Reference is made to notice of publication sent you on November 27th, in connection with beneficial use proof to be made by the Little Wood River Irrigation District under Permit No. R-604.

We assume that this notice is being published, although we have received no acknowledgment of same, nor have we received a copy of your paper containing same, as requested.

However, our attention has been called to the fact that your newspaper cannot qualify for legal publications at this time, as Section 58-106, Idaho Code Annotated, provides that such notices must be published in a newspaper that has been continuously and uninterruptedly published for seventy-eight consecutive weeks prior to first publication of such notice.

Please, therefore, discontinue publication, and send a statement of the costs to date to Bessie Stanford, Secretary Little Wood River Irrigation District, at Carey, Idaho.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
By

Chief Clerk

A

R-604

NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE.

Notice is hereby given that at 2:00 p.m. on the 30th day of December 1946, at Carey, County of Blaine, State of Idaho, before Alice A. York, Notary Public, proof will be submitted of the application to beneficial use of 10,000 Acre Feet per second of the waters of Little Wood River in accordance with the terms and conditions of Permit No. R-604 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Little Wood River Irrigation District At Carey, Idaho.

The use to which said water has been applied is Irrigation and domestic purposes

The amount applied to beneficial use is 10,000 Acre Feet

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated) Located in Sections 4, 5, 6, 7, 8, 9, 10, 14, 16, 17, 20, 21, 22, 23, 24, 26, 27, 28, 33, 34, and 35, Twp. 1 South Range 21 East B. M. Also in Sections 2, 3, 9, 10, 11, 15, 16, 20, 21, Twp 2 South, Range 21 E. B. M. Said water is to be used on all the lands within the present boundaries of said Little Wood River Irrigation District.

The name of the canal or ditch or other works by which said water is conducted to such place of use Little Wood River Canal

The right to take water from such works is based upon Permit R-604

The source of supply from which the water is diverted is Little Wood River Dam

The date of priority which said is prepared to establish is September 3, 1935

MARK R. KULP
State Reclamation Engineer.

Re: Permit No. R-604

Messrs. McFadden & McFadden
Attorneys at Law
Hailey, Idaho

Attention- Mr. J. J. McFadden

Gentlemen:

Thank you for your letter of
December 6th, in regard to publication of
notice in connection with the above numbered
permit in the Blaine County Citizen.

This newspaper was named by the permit
holder as the one to which the notice should be
sent, and this Department did not check into
the length of time this paper had been published.

We have discontinued publication in this
newspaper, and same will now appear for the statutory
four weeks' publication in the Hailey Times.

Very truly yours,

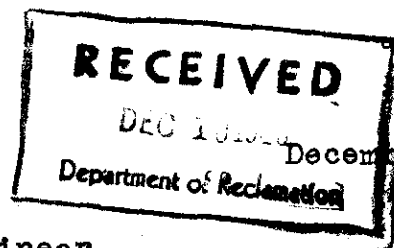

MARK H. KULP
State Reclamation Engineer

R-604

MCFADDEN & MCFADDEN
LAWYERS
HAILEY, IDAHO

J. J. MCFADDEN
JOSEPH MCFADDEN

December 6, 1946.

Hon. Mark R. Kulp,
State Reclamation Engineer,
State House, Boise, Idaho.

Dear Mr. Kulp:

We enclose you clipping-legal ad-"Notice of
Proof of Application of water to Beneficial Use,
Little Wood River Irrigation District.

This was published in the "Blaine County Citizen"
a weekly newspaper published here at Hailey, in its issue
of December 5th.

This newspaper started publication in Hailey, -not
succeeding any other paper- as a new publication,
in July, 1946, published weekly on Thursdays.

Now, the "Hailey Times" is also a weekly newspaper,
published at Hailey, also on Thursdays.

This latter newspaper has been published in Hailey,
continuously, many years.

These are the only papers published in the County.

We have been legal counsel for the latter paper, for
more than ten years past- --J.J. McFadden, then McFadden &
McFadden, and the publisher, Mrs. Norma Werry Gillespie,
called our attention to this legal publication in the new
newspaper, asking that we investigate.

We respectfully call your attention to Sec. 58-106,
Idaho Codes Ann. as amended by the 1943 laws, Chapter 16,
page 45, specifying how legal notices shall be published,
i.e. paper shall if weekly have been published 78 consecutive
weeks, etc.

Will you kindly check the matter, and if this
Notice should be published in the "Times", as we believe it
should, under the Statute, have the matter attended to, and
new publication made in the Hailey Times, as we feel it must
have been an oversight in being put in the new publication,
which has not been published the required period.

Kindly let us hear from you at your convenience.

Very respectfully,

McFadden & McFadden.

JJM:s.

J. J. McFadden

Re: Permit No. R-604

Messrs. James, Shaw & James
Attorneys at Law
Gooding, Idaho

Attention- Mr. A. F. James

Gentlemen:

In reply to your letter of December 11th, we have written the Blaine County Citizen to discontinue publication of the notice in connection with the above numbered permit, and have sent a copy of the notice to the Hailey Times, with instructions to publish it once a week for four consecutive weeks prior to January 11, 1947-

We have set 2:00 P.M. on January 11, 1947, as the date for making this proof- which will allow for the four publications, starting with next week's issue.

There will be no loss of priority on account of this misunderstanding in regard to publication.

Very truly yours,

MARK R. KULP

State Reclamation Engineer

Re: Permit No. R-604

Dear Mr. Kulp:

Your letter of December 10th received relative to the above matter. In view of the statements contained in your letter, a notice cannot of course be published in the Blaine County Citizen and it will, of course, be necessary for you to publish it in the Hailey Times, and we hope that you will arrange to do this immediately.

Does this mean that the delay will result in deferring the priority date and if so are there any other filings on Little Wood River which would come ahead of the deferred priority date of the above permit.

If the latter is the case, it seems to us that some arrangement should be made by your office to avoid the deferring of such priority date.

Please let us hear from you.

Very truly yours,

JAMES, SHAW & James

A. F. JAMES

AFJ/sr

R. 604

December 10, 1946

Re: Permit No. R-604

Messrs. James, Shaw & James
Attorneys at Law
Gooding, Idaho

Attention- Mr. A. F. James

Gentlemen:

Our attention has been called to the notice of beneficial use under Permit No. R-604, Little Wood River Irrigation District, now being published in the Blaine County Citizen, claiming that same is not a legal publication, since this newspaper has only been published since July, 1946.

Section 58-106, Idaho Code Annotated, definitely sets forth the requirements of a newspaper in which legal notices can be published.

Will you please check this matter, and advise us as to the status of the Blaine County Citizen as to these requirements?

Of course, if it cannot qualify, the notice will have to be published elsewhere- probably the Hailey Times- in which case a later date will have to be set for the proof in order to allow for the necessary four weeks' publication.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

A

Application for Amendment
To Permit to Appropriate the Public Waters
of the State of Idaho, No. R-604

State

Comes now Bessie Stanford, and represents to the ~~Commissioner~~
 Reclamation Engineer ~~of Reclamation~~ of the State of Idaho.

Secretary-treasurer of the Little Wood River Irrigation District,
 That he is the owner and holder of Permit to Appropriate the Public Waters of the State of
 Idaho, No. R-604, and requests that the list of lands to be irrigated, as described in said per-
 mit, be changed to ~~read as follows:~~ include the lands owned by the District in
 Sections 7, 10 and 14, Township 1 South, Range 21 East, B.M., more particularly
 described as follows:

(description attached hereto, being ~~A~~ certain
 lands annexed to and made a part of the District
 on August 10th, 1946, and being in addition to ~~the~~
 the lands originally described in the permit.)

making a total of 8814.12 acres.

That an additional amount of water is not asked for, and that the rights of others will not be ad-
 versely affected by such change.

Signed at Carey, Idaho, this 5 day of December, 1946.

LITTLE WOOD RIVER IRRIGATION DISTRICT
 By: Bessie Stanford
 Secretary-Treasurer

Date of receipt at Office of Department of Reclamation 9:00 A.M. Dec. 9, 1946

STATE RECLAMATION ENGINEER
 APPROVAL OF ~~COMMISSIONER OF RECLAMATION~~

Mark R. Kulp State Reclamation Engineer
~~Commissioner of Reclamation~~ of the State of Idaho, hereby approve
 the above and foregoing application for amendment to Permit to Appropriate the Public Waters of
 the State of Idaho, No. R-604. This approval constitutes a new permit and is issued as an
 amendment to the original permit, to which it refers, and of which it becomes a part, and said applica-
 tion is approved only insofar as the rights of others will not be adversely affected thereby.

Mark R. Kulp
~~Commissioner of Reclamation~~
 State Reclamation Engineer

(Over)

R-604

Effective April 10, 1911

Department of Reclamation

REGULATIONS AS TO AMENDED APPLICATION AND PERMIT.

Section 3255 of the Revised Codes, provides for the amendment of a permit as to lands upon which the water is to be used. The permit holder, to avail himself of the provisions of this section, should fill out and file with the Commissioner of Reclamation the application blank found upon the reverse side of the sheet. If there is not sufficient room in such blank for the legal description of the amended list of lands, this may be submitted as an exhibit, proper reference thereto being made in the application.

Before amended permit will be granted applicant must file with the application two maps, showing the following details:

- (a) Name of applicant.
- (b) Section, town and range numbers, where public survey has been made.
- (c) Source or sources of supply.
- (d) Point or points of diversion.
- (e) Route of ditch or ditches, including laterals delivering water within one mile of each 160 acre tract of the lands to be irrigated.
- (f) Lands to be irrigated to be shown by cross-hatching, outlining, or coloring.

If original permit called for more than 25 cubic feet per second, the maps must be prepared from actual survey and must be certified to by engineer in charge of survey, in the following form:

I hereby certify that this map was prepared from an actual survey made by me.....
19..... and correctly shows position of points indicated thereon.

.....
Engineer.

Attention- Mr. A. F. James

Gentlemen:

We acknowledge receipt of your letter of December 7th, enclosing application for amendment of Permit No. R-604, of the Little Wood River Irrigation District, which has been duly approved and recorded

The proofs of beneficial use, which are to be made on December 30th, consist of depositions by the owner and two competent witnesses, to be taken before Alice A. York, Notary Public, at Carey, Idaho, in accordance with the notice now being published in the Blaine County Citizen.

These must be made, regardless of whether there should be any protest filed or not, and the depositions transmitted promptly to this Department, together with the affidavit of publication, which the newspaper was instructed to send the permit holder, in care of Bessie Stanford, Secretary.

We enclose forms of deposition to be used in making these proofs- for your information, and other copies will be sent to the Notary Public about ten days ahead of the date set for proof.

On that date, a representative of the Little Wood River Irrigation District should appear before the Notary Public, together with two disinterested witnesses, who are familiar with the terms of the permit, and the works constructed thereunder, for the purpose of making the proof.

Very truly yours,

MARK R. KULP

Dear Sir:

Your letter of November 27th received. We assume that the application for amendment will have to be signed by an officer of the irrigation district and for this reason, we are forwarding the application to the secretary for attention. This will delay your receipt of the application for a few days but otherwise, should make no difference.

There is no reason why the officers cannot arrange for this meeting on December 30th, and you may consider that date satisfactory. We are notifying the secretary to make the arrangements accordingly.

Very truly yours,

Attention- Mr. A. F. James

Gentlemen:

In reply to your letter of November 26th, in regard to lands in Sections 7, 10 and 14, now included in the Little Wood River Irrigation District, but not listed under Permit No. R-604.

The permit can be amended by the enclosed form of Application for Amendment, which we have partially filled out, and which should be completed and returned to this office for record.

Meanwhile, to avoid delay in making the proof, we have set December 30, 1946, at 2:00 P. M., as the date when such proof will be made, and have sent a copy of the notice to the Blaine County Citizen, at Hailey, Idaho, with instructions to publish it once a week for four consecutive weeks prior to that date, and to send the affidavit of publication to the Secretary of the District, together with statement of publication costs.

If December 30th is not a satisfactory date, please designate another date subsequent to this, and advise us promptly of the change, so that we may notify the newspaper accordingly.

The notice as sent to the newspaper includes the above additional sections, as we anticipate the prompt return of the amendment application describing same.

Re: Permit No. R-604

Dear Mr. Kulp:

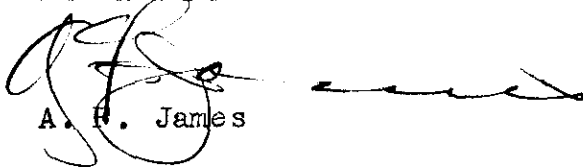

Your letter of November 19th received relative to the above matter. The lands mentioned in the second paragraph of your letter and located in Sections 7, 10 and 14, are lands that were brought into the district and made a part of the district by appropriate statutory proceedings had in August of the present year. In other words, certain lands not then in the district were annexed to the district and are now a part of the district.

In the light of this information, please advise us as to your requirements. We hope that any new requirements can be taken care of immediately so as to not defer the priority date.

Mr. A. F. James

Gentlemen:

We acknowledge receipt of your letter of November 18th, enclosing duplicate notice of beneficial use proof to be made under the above numbered permit, in the name of the Little Wood River Irrigation District.

We note that the land description includes lands in Sections 7, 10 and 14, Twp. 1 South, Range 21 East, B.M., which are not listed in the permit itself. If this land is to be included, there should be an amendment to the permit, on a form which we can furnish. Please advise us about this.

We shall also change the date of the priority which can be established under this permit- to September 3, 1935- the date of the filing of the application.

As for the date for proof, that can be any date that will be convenient for the permit holder and the two witnesses- but must be on or before January 9, 1947.

We are sending a copy of this letter to the Little Wood River Irrigation District, for their information, and attention.

Very truly yours,

Messrs. James, Shaw & James
Attorneys at Law
Gooding, Idaho

Attention- Mr. A. F. James

Dear Mr. James:

In reply to your letter of November 12th,
regarding beneficial use proof to be made on
Permit No. R-604, in the name of the Little
Wood River Irrigation District:

This permit is for the storage and appropria-
tion of 10,000 acre feet of water, and the proof
may be made for this amount, or any portion of
it which has been beneficially used. It is
not necessary to have an engineer's certificate,
but when the field examination is made
our engineer's report will show the amount actually
stored and beneficially used.

The notice need not contain a detailed description
of the land- A statement that it includes the land
within the boundaries of the Little Wood River
Irrigation District, in Sections- so-and-so- Twp. and Range
so-and-so, will suffice.

Very truly yours,

Dear Mr. Kulp:

The Little Wood River Irrigation District has forwarded us your communication of November 1st, addressed to them, concerning proof of permit No. R-604 and have requested us to fill out the blank notice. Will you, however, give us information on the following points.

The permit is for the storage of 10,000 acre feet and does not specify any amount of flowage. Under these circumstances, is it necessary that any engineer certify as to the correctness of the notice.

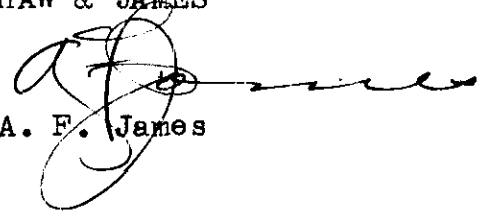

The description of the land in the district is very lengthy and we wish to know whether or not each 40 acres or fraction thereof must be described or whether or not the sections numbers will be sufficient.

Thanking you for a prompt reply, we remain.

Very truly yours,

JAMES, SHAW & JAMES

By:

A. F. James

AFJ/sr

P. S. By "section numbers", we mean will it be sufficient to indicate the various section numbers in which the smaller tracts are situated. In many instances, these smaller tracts will represent only portions of given sections.

DEPARTMENT OF RECLAMATION

Boise, Idaho

November 1, 1946

Little Wood River Irrigation District
C/o Bessie Stanford, Secretary
Carey, Idaho

Dear Sir:

We enclose herewith blank notice for proof of application of water to beneficial use under your Permit No. R-604. This should be filled out in duplicate and returned to this office at least 40 days before the date upon which you wish to make proof, in order to allow time for the four weeks' publication required by law.

The proof must be submitted before a Notary Public or other officer authorized by law to administer oaths.

The date for proof, as set out in your permit, is not later than January 9, 1947, and if proof is submitted subsequent to said date, your priority will be brought down a length of time equal to the time elapsing between the date the proof is due and the date proof is actually made.

Very truly yours,

MARK R. KULP

State Reclamation Engineer

R-604

R-604

December 9, 1944

Bessie Stanford,
Secretary & Treasurer,
Little Wood River Irrigation District,
Carey, Idaho

Dear Madam:

Reference is made to your letter of December 5th, in which you inquire as to permits of the Little Wood River Irrigation District.

Our records show two reservoir permits, Nos. R-604 and R-656.

Permit No. R-604 is for 10,000 acre feet, with priority of September 3, 1935. Completion of works proof was made on this on February 1, 1941, but Certificate of completion of works has not been issued, because the report of our Field Engineer does not show same to be in such condition that it can be approved by this Department at the present time.

Permit No. R-656 is for the storage of 6,000 acre feet, with priority of November 21, 1938. Completion of works proof was due on this on January 27, 1944, but was extended to January 27, 1948, under the provisions of Chapter 79 of the 1943 Session Laws.

We trust that the above gives you the desired information.

Very truly yours,

MARK R. KUEP

State Reclamation Engineer

LITTLE WOOD RIVER IRRIGATION DISTRICT
CAREY, IDAHO

December, 5, 1944

Department of Reclamation

Boise, Idaho.

Dear Sir:

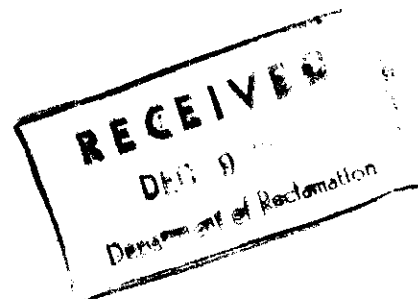

The Directors of the Little Wood River Irrigation District would appreciate having information, regarding, the actual capacity permit, that you have on file in your office, of the Little Wood River Dam, at Carey, Idaho.

Our Records show a permit for 10,000 acre feet and we also have an additional permit for 6,000 acre feet but at the present time that permit does not seem to be in our files.

We shall appreciate having you inform us of the files on record in your office, of the entire storage permit we hold for the dam.

Respectfully yours,

Bessie Stanford
Secretary and Treasurer

R-604

R604

November 25, 1944

Messrs. James, Shaw & James,
Attorneys at Law
Gooding, Idaho

Attention- Mr. A. F. James

Gentlemen:

Reference is made to your letter of November 22nd, in which you inquire relative to water permit to the Little Wood River Irrigation District.

Reservoir Permit No. 656, with priority date of November 21, 1938, is for the storage of 6,000 acre feet of water from Little Wood River. Completion of works proof was due on this permit on January 27, 1944, but it was extended to January 27, 1948, under the provisions of Chapter 79 of the 1943 Session Laws.

There is also Reservoir Permit No. 604 in the name of the Little Wood River Irrigation District, for 10,000 acre feet, with priority of September 3, 1935. Completion of works proof was made on this on February 1, 1941. However, Certificate of Completion of Works has not been issued, because the report of the Field Engineer of this Department does not show same to be in such condition that it can be approved by the Department at the present time.

We trust that the above will give you the information which you seek.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Dear Sir:

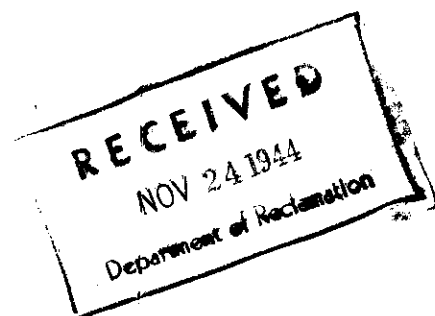

Will you check your records as to whether or not a water permit was issued to Little Wood River Irrigation District several years ago. If such a permit was issued, will you kindly give us the date it was issued and for what amount of water, also advise us as to the present status of the permit. We are representing the Little Wood River Irrigation District.

Very truly yours,

JAMES, SHAW & JAMES

Re : R-604

Mr. W. D. Richards
Little Hood River Irrigation Dist.
Carey, Idaho

Dear Mr. Richards:

We are in receipt of your letter of May 27th regarding the cancellation notice that we mailed to you on the 20th of May. We remembered the letter written to you returning the depositions for correction on your Completion of Works Proof, but were unable to find the returned depositions. As you perhaps know, the proof is not completed until on file in this office, so we mailed the notice.

This morning after the receipt of your letter, we all started a thorough search of files, mail, and etc. and your returned depositions were located.

On March 15th, we wrote you that all depositions had been received and that Mr. Tolman would make an inspection trip sometime in the near future, but this was only a routine letter, and we were hoping that the depositions would "turn-up". But we did not have them on file.

We are very sorry to have caused you any unnecessary worry, and will do better in the future. Please ignore the notice of the 20th. An order for Mr. Tolman to inspect your Completion of Works has been made and placed on his desk.

Very truly yours,

E. V. BERG.
Commissioner of Reclamation.

Mr. E. V. Berg,
Commissioner of Reclamation,
Boise, Idaho.

Dear Sir:

Re: Permit No. R-604.

We received your form letter dated May 15th. 1941, but we are at a loss to know just what is ment by it as we made Proof of Completion of Works under this permit on February 1st. 1941.

All necessary papers were made out and filed that we were asked to execute, and therefore we cannot understand what more there is to be done in this matter.

Kindly recheck your records to see if there has not been an error made in this case, and if not just what more there is to be done to make proper proof.

Very truly yours,

Little Wood River Irrigation Dist.,

Re: Permit No. R-604

To Little Wood River Irrigation Dist.
Carey, Idaho

It appearing to the Commissioner of Reclamation that the terms and conditions of Permit No. R-604 to appropriate the Public Waters of the State of Idaho, have not been complied with as to make proof of completion of works on the 9th of January, 1941,

you are hereby notified in compliance with Sec. 41-311, Idaho Code Annotated that said Permit No. R-604 is hereby held for cancellation.

You are hereby required to show cause before the Commissioner of Reclamation on or before forty days from date of this notice why said Permit should not be cancelled.

Said Permit No. R-604 claims the use of 10,000 acre feet ~~cubic feet per second~~ of the waters of Little Wood River, with point of diversion located NW 1/4, Sec. 13, Twp. 1 N, Rge. 20 E, Blaine County, and was approved Jan. 9, 1936

In Witness Whereof, I have hereunto set my hand and affixed the seal of my office at Boise, Idaho, this 15th day of May, 1941.

E. V. BERG.

Commissioner of Reclamation.

By _____

Assistant.

R-604

March 15, 1941.

Re: R-604.

Little River Irrigation District
Carey, Idaho

Dear Mr. Richards:

This will acknowledge receipt of the deposition of the holder, depositions of two witnesses, and the affidavit of proof of publication from the Hailey Times all in connection with completion of works proposed under the above numbered permit.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made, since this department has but one field engineer, who makes examinations all over the State.

However, Mr. Tolman, field engineer for the Department, will try and contact you at the time set for examination, so that you may arrange to show him over the grounds.

Very truly yours,

E. V. BERG.
Commissioner of Reclamation.

Re: R-604.

Mr. W. D. Richards, Sec.-Treas.
Little Wood River Irrigation District.
Carey, Idaho

Dear Mr. Richards:

We are returning Deposition of Holder for Proof of Completion of Works, signed by Mr. O. J. McCarter, to you for slight correction.

On The application and permit you state that the point of diversion is in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 13, Twp. 1 N., Rge. 20 E., B. M. While on the Deposition the point of diversion is in Section 30, Twp. 1 N., Rge. 21 E., B. M., which is the canal diversion point, from the Little Wood River, down the river.

Please refer to Deposition of Witnesses Question No. 3. The witness should be familiar with the terms and conditions of the Permit in order to be a competent witness. The answer to this question should be "yes" in order for the deposition to be of much value.

Please make the above mentioned corrections and return as soon as possible to the Department of Reclamation.

Very truly yours,

E. V. BERG.

By

Deputy Commissioner.

Mr. E. V. Berg, Commissioner,
Department of Reclamation,
Boise, Idaho.

Dear Sir:

Enclosed find the corrected Depositions as requested
in your letter of February 6th. 1941.

Our two Witnesses have read our Permit No. R-604 and
are well acquainted with its terms and conditions.

It was my understanding that the point of diversion
as referred to in the depositions was that of the canals and
not at the dam site. Hence my reason for giving the wrong
description.

Very truly yours,

Little Wood River Irrigation
District,

By *W. D. Richards*
Secretary-Treasurer.

Notice For Publication

NOTICE is hereby given that at 2 o'clock p. m., on the 1st day of February 1941, at Carey, County of Blaine, State of Idaho, before W. L. Adamson, a Notary Public, proof will be submitted of the completion of works for the diversion of 10,000 acre feet of the waters of Little Wood River in Blaine County, Idaho, in accordance with the terms and conditions of a certain permit heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name of the person or corporation holding said permit is Little Wood River Irrigation District.

2. The postoffice address of such person or principal place of business of such corporation is Carey, Idaho, County of Blaine, State of Idaho.

3. The number of such permit is R-604, and the date set for the completion of such work is January 9th, 1941.

4. Said water is to be used for Irrigation purposes.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is 10,000 acre feet.

6. The amount of lands for which said water is available is 7930.29 acres, particularly described as follows:

The Depositions of two Witnesses, in this form, taken separately, required in each case.

Permit No. R-604

RECEIVED

FEB 5 1941

Department of Reclamation

Proof of Completion of Works

DEPOSITION OF WITNESS

Ques. 1. State your name, residence, occupation and postoffice address.

Ans.

Joseph S. Davis, Farmer, I reside at Carey, Idaho.

Ques. 2. Are you acquainted with Little Wood River Irrigation District, the holder of Permit No. R-604, authorizing the diversion of 10,000 ^{acre-}~~second~~-feet of the waters of Little Wood River in Blaine County, Idaho, at Carey, Idaho, for irrigation purposes? How long have you known ^{them} ~~him~~, and where does he reside?

Ans.

I have known them since 1936, and their place of business is Carey, Blaine County, Idaho.

Ques. 3. Have you read or heard read said Permit No. R-604, and are you familiar with its terms and conditions?

Ans.

Yes

Ques. 4. (If for irrigation purposes). Are you acquainted with the land proposed to be irrigated under said permit? If so, describe same, state its character, and give your estimate of the amount of water required for its profitable cultivation.

Ans.

Most of the land in the valley is of volcanic ash origin and we have some heavy black loam soil. It is my opinion that two acre feet in addition to our present water rights will be ample.

Ques. 5. Are the works of diversion fully completed and of sufficient capacity to convey the entire amount of water set out in the permit from point of diversion to place of use?

Ans.

Yes

Ques. 6. Describe the works of diversion as they now exist, and give your estimate of their capacity.

Ans.

We have two canals that cover the entire valley with a total capacity of some sixteen thousand inches.

(Sign here.)

Joseph S. Davis

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in *Carey*

County of *Blaine*State of Idaho, on this *First*day of *February*

A. D. 1941.

W. L. Anderson
Notary Public

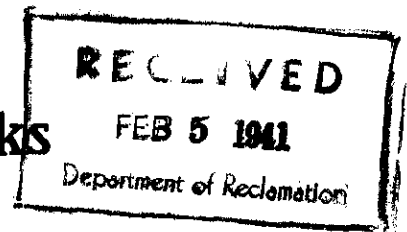

R-604

The Depositions of two Witnesses, in this form, taken separately, required in each case.

Permit No. R-604

Proof of Completion of Works

DEPOSITION OF WITNESS

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Buford Kirkland, Carey, Idaho
Farmer and Stockman

Ques. 2. Are you acquainted with Little Wood River Irrigation District, the holder of Permit No. R-604, authorizing the diversion of 10,000 ^{acre-}~~second~~-feet of the waters of Little Wood River in Blaine County, Idaho, at Carey, Idaho for irrigation purposes? How long have you known ~~him~~ ^{them}, and where does he reside?

Ans. I have known them since 1936, and they reside in Carey Valley, Carey, Idaho.

Ques. 3. Have you read or heard read said Permit No. R-604, and are you familiar with its terms and conditions?

Ans. Yes

Ques. 4. (If for irrigation purposes). Are you acquainted with the land proposed to be irrigated under said permit? If so, describe same, state its character, and give your estimate of the amount of water required for its profitable cultivation.

Ans. I am acquainted with all the land in the Carey Valley, and it is my opinion that two acre-feet on the average would be ample water to supplement present water rights. Volcanic ash and heavy ^{loam soil.}

Ques. 5. Are the works of diversion fully completed and of sufficient capacity to convey the entire amount of water set out in the permit from point of diversion to place of use?

Ans. Yes

Ques. 6. Describe the works of diversion as they now exist, and give your estimate of their capacity.

Ans. There are two canals covering the entire valley with a total capacity of about sixteen thousand inches.

(Sign here.)

Buford Kirkland

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Carey

County of Blaine, State of Idaho, on this first day of February, A. D. 1941.

W. J. Haggard
Notary Public

January 6, 1941

Re: Permit No. R-604

Mr. W. D. Richards, Secretary-Treasurer,
Little Wood River Irrigation District,
Carey, Idaho.

Dear Mr. Richards:

We are this morning in receipt of your letter of January 3rd, enclosing duplicate copies of Notice in connection with completion of works proof under the above numbered permit.

However, it is too late to allow for the necessary four weeks' publication prior to January 28th, the date which you have set, so we have changed the date of proof to February 1st, one week later.

The notice has been sent to the Halley Times, with instructions to publish it once a week for four consecutive weeks, beginning this week, and to send the affidavit of publication, together with the bill, to you.

About ten days prior to February 1st, depositions consisting of one for the holder and one for each of two witnesses, will be sent to Mr. W. L. Adameon, Notary Public, so that he may have them in ample time for the proof.

On February 1st, you should appear at Mr. Adameon's office, with two disinterested witnesses, who are familiar with the terms of the permit, and the works constructed thereunder, for the purpose of executing the depositions.

Meanwhile, we enclose a form of application for Amendment to the land list, which should be filled in in accordance with the list as shown in the Notice, and returned to this Department, prior to date set for proof.

Very truly yours,

JAMES SPOFFORD

Commissioner of Reclamation

Notice for Publication

Notice is hereby given that at 2 o'clock P.M. on the 1st day of January February 1941, at Carey, County of Blaine, State of Idaho, before W. L. Adamson, a Notary Public, proof will be submitted of the completion of works for the diversion of 10,000 acre feet cubic feet per second of the waters of Little Wood River in Blaine County, Idaho, in accordance with the terms and conditions of a certain permit heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name of the person or corporation holding said permit is Little Wood River Irrigation District.

2. The postoffice address of such person or principal place of business of such corporation is Carey, Idaho., County of Blaine, State of Idaho.

3. The number of such permit is B-604, and the date set for the completion of such work is January 25th, 1941.

4. Said water is to be used for Irrigation purposes.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is 10,000 acre feet cubic feet per second.

6. The amount of lands for which said water is available is 7930.29 acres, particularly described as follows:

INSTRUCTIONS

Permit No. R-604

Little Wood River Irr. Dist. PROOF OF COMPLETION OF WORKS

Mr. W. L. Adamson
Carey, Idaho

BOISE, IDAHO,

DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of completion of works under Permit No. R-604

DEPOSITION OF PERMIT HOLDER,

DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of the permit holder's rights:

1. On February 1, 1941, the date set for proof of completion of works, the enclosed deposition forms (one for permit holder and one each for two witnesses) should be filled out and sworn to, at Carey, Idaho before W. L. Adamson, Notary Public.

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

E. V. BING
COMMISSIONER OF RECLAMATION.

R-604

Re: Permit No. B-604.

Mr. W. E. Richards, Secretary-Treasurer,
Little Wood River Irrigation District
Carey, Idaho.

Dear Mr. Richards:

We are in receipt of your Application for Amendment which we are returning for signature. It will be recorded when properly signed and returned to this office.

We will be glad to furnish you with a copy of the original permit. The statutory fee is \$1.00 and \$1.50 for a certified copy.

Very truly yours,

E. V. BERG.
Commissioner of Reclamation.

Mr. E. V. Berg,
Commissioner of Reclamation,
Boise, Idaho.

Dear Sir:

Enclosed find one of your Forms No. 12 with the correct description and amount of lands that we wish shown on our amended permit No. R-604.

As to the information requested on the back of this Form, which is to be given by our engineer, may I refer you to Mr. H. E. Echols or Mr. Raymond J. Briggs of Boise, Idaho. They have both worked for us in an engineering capacity.

I do not seem to have a copy of the original Permit No. R-604, in my files, would it be possible for you to send us a copy of same. Our former secretary seems to have misplaced it and is unable to locate it for us.

Yours very truly,

Little Wood River Irrigation
District,

By

Notice For Publication

NOTICE is hereby given that at 2 o'clock p. m., on the 1st day of February 1941, at Carey, County of Blaine, State of Idaho, before W. L. Adamson, a Notary Public, proof will be submitted of the completion of works for the diversion of 10,000 acre feet of the waters of Little Wood River in Blaine County, Idaho, in accordance with the terms and conditions of a certain permit heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name of the person or corporation holding said permit is Little Wood River Irrigation District.

2. The postoffice address of such person or principal place of business of such corporation is Carey, Idaho, County of Blaine, State of Idaho.

3. The number of such permit is R-604, and the date set for the completion of such work is January 9th, 1941.

4. Said water is to be used for Irrigation purposes.

5. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is 10,000 acre feet.

6. The amount of lands for which said water is available is 7930.29 acres, particularly described as follows:

Subdivision of Section	Sec.	Twp.	Range

Re: R-604.

The Hailey Times
Hailey, Idaho

Gentlemen:

We are in receipt of your publication of Notice for the Little Wood River Irrigation District Permit No. R-604. Corrections are to be made in the following places for your January 30th issue.

Section 20, 1 South, 21 East should read
~~N₁NE₁, N₁SW₁, N₁SE₁, NW₁~~

Section 15, 2 South, 21 East should read
~~S₁NW₁, N₁SW₁, NE₁NW₁, Tax Lot No. 1460, SW₁SW₁, N₁SE₁~~

Section 16, 2 South, 21 East should read
~~SE₁SE₁, SE₁NW₁, SW₁NE₁, NE₁SW₁, Tax Lots No. 1457, 1458, 1459, 1465, 1466.~~

Please send us a corrected copy from your January 30th edition.

Very truly yours,

E. V. Berg.
Commissioner of Reclamation.

By
Chief Clerk.

RECEIVED

JAN 28 1941

Department of Reclamation

Application for Amendment
To Permit to Appropriate the Public Waters
of the State of Idaho, No. R-604

Comes now Little Wood River Irrigation District, and represents to the Commissioner of Reclamation of the State of Idaho.

That he is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. R-604, and requests that the list of lands to be irrigated, as described in said permit, be changed to read as follows:

....., making a total of 7930.29 acres.

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change.

Signed at Carey, Idaho, this 22nd. day of January, 19 41

Little Wood River Irrigation District

By [Signature] Secretary and Treasurer

Date of receipt at Office of Department of Reclamation 11:00 A. M., January 24, 1941.

APPROVAL OF COMMISSIONER OF RECLAMATION.

I, E. V. Berg, Commissioner of Reclamation of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to Appropriate the Public Waters of the State of Idaho, No. R-604. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

[Signature]
 Commissioner of Reclamation.

(Over)

R-604

Effective April 10, 1911

Department of Reclamation

REGULATIONS AS TO AMENDED APPLICATION AND PERMIT.

Section 3255 of the Revised Codes, provides for the amendment of a permit as to lands upon which the water is to be used. The permit holder, to avail himself of the provisions of this section, should fill out and file with the Commissioner of Reclamation the application blank found upon the reverse side of the sheet. If there is not sufficient room in such blank for the legal description of the amended list of lands, this may be submitted as an exhibit, proper reference thereto being made in the application.

Before amended permit will be granted applicant must file with the application two maps, showing the following details:

- (a) Name of applicant.
- (b) Section, town and range numbers, where public survey has been made.
- (c) Source or sources of supply.
- (d) Point or points of diversion.
- (e) Route of ditch or ditches, including laterals delivering water within one mile of each 160 acre tract of the lands to be irrigated.
- (f) Lands to be irrigated to be shown by cross-hatching, outlining, or coloring.

If original permit called for more than 25 cubic feet per second, the maps must be prepared from actual survey and must be certified to by engineer in charge of survey, in the following form:

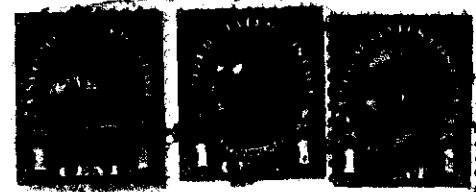

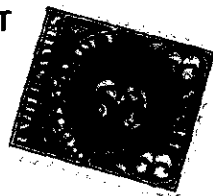

I hereby certify that this map was prepared from an actual survey made by me.....
19..... and correctly shows position of points indicated thereon.

.....
Engineer.

Boise, Idaho.

c/o Mr. James Spofford,

December 26, 1940

Re: Permit No. B-604

Mr. W. D. Richards, Secretary-Treasurer,
Little Wood River Irrigation District,
Carey, Idaho.

Dear Mr. Richards:

We have just received your letter dated December 22nd, which was probably delayed on account of the holiday mails.

You inquire as to whether or not it will be necessary to publish this detailed list in connection with both proofs, Section 41-223, I. C. A., providing that in the case of an irrigation district it shall not be necessary to give a description of the land by legal subdivisions, but only a general description of the entire area in the project.

It is, however, necessary to give the detailed description in connection with completion of works proof, but your description can be shortened considerably and the cost of publication proportionately lessened, by combining the descriptions of all the lands within each section, as mentioned in our former letter.

For example, we find various tracts in Section 27, Twp. 1 S., Range 21 E., B.M., each described separately, instead of combining the description of all the lands in each section, thus making it unnecessary to repeat the words "Tax Lot" on each description, and also naming the Section, Township and Range only once instead of repeating it each time.

The description as you give it is all right, of course; but we are returning the notice herein so that you may make the combinations and thus reduce the cost of publication, if you care to do so.

But please let us hear from you, one way or the other, not later than Monday, if possible, so that the notice may get to the newspaper in time to be published in next week's issue.

When this matter has been taken care of, we shall send you the necessary form for amendment to the land list, so that the permit may be amended to conform to the proof that is to be made.

Very truly yours,

JAMES SPONFORD
Commissioner of Reclamation

DIRECTORS:

O. J. MC CARTER
WILLIAM AITKEN
JAMES TURNBULL

W. D. RICHARDS
SECRETARY - TREASURER

LITTLE WOOD RIVER IRRIGATION DISTRICT
CAREY, IDAHO

December 22nd. 1940.

Mr. James Spofford,
Commissioner of Reclamation,
Boise, Idaho.

Dear Sir:

Enclosed find corrected copies of "Notice for Publication" of the time and place that proof will be submitted of the completion of works.

As to the 14,711.13 acres described on our permit, will say that I think this was the acreage at the time the district was first organized, but after all those had withdrawn who wanted to, the acreage was brought down to 7930.29. This is the total acreage of the district at the present time and is the total that is shown on our assessment of benefits roll.

I got your letter Saturday but as there is no mail goes out of Carey on Sunday it will be impossible to get this letter to you on Monday, so have allowed an extra week for publication.

If all of these descriptions will have to be published two times, once now and once when beneficial use proofs made, and in four issues of the paper it will be very expensive publishing for the district, will it not. Will it be possible to eliminate some of this detail description?

Very truly yours,

W. D. Richards
W. D. Richards, Secty.-Treas.
Little Wood River Irrigation
District, Carey, Idaho.

R-604

December 20, 1940

Re: Permit No. R-604

Mr. W. D. Richards, Secretary-Treasurer,
Little Wind River Irrigation District,
Carey, Idaho.

Dear Mr. Richards:

We acknowledge receipt of your letter of December 17th, enclosing notices in connection with completion of works proof under your Permit No. R-604, and authorization to publish the notice in the Hailey Times.

There are, however, several points on which the notice will have to be corrected before it can be sent to the newspaper for publication.

First, you have set the date for January 9th, but this will not allow the necessary four weeks publication prior to making the proof. If your reply is received by return mail, publication can commence with next week's issue, in which event the proof can be made on January 18, 1941, or any date thereafter that you may set.

Second, in regard to the amount on which you want to prove up, would suggest that, inasmuch as the reservoir is capable of storing the 10,000 acre feet applied for, that you make your proof accordingly.

Third, in regard to the land list, we note that you mention 7,330.33 acres, whereas the permit described 14,711.15 acres, and we do not know wherein the difference lies. We would suggest that you describe all the land on which the water may possibly be applied, and then when the beneficial use proof is made that of course will show the actual number of acres on which the water has been applied.

But, in any event, the land list must contain a description of the legal subdivisions in each section, although this need not be by separate 40's, but by the largest legal subdivision, such as the whole section, half section, quarter section, etc. As you say, it will not be possible to write this full description in the small space allowed on the printed form, but it can be written on a separate sheet, and attached.

Please advise us as to these points by return mail, if possible, so that it will reach us Monday, as otherwise the proof cannot be made on January 18th, but will have to be set for a later date.

Very truly yours,

JAMES SPONFORD
Commissioner of Reclamation

Dear Sir:

Enclosed find copies of "Notice for Publication" and Form No. 11.

May I ask that you fill in the correct amount for the number of cubic feet per second that we will be permitted to divert, as I do not know the correct amount. Thanks.

Also in the last question it says to describe the lands that make up this district, but space will not permit on this form so I have just given the section numbers, will this be sufficient?

Very truly yours,

Re: Permit No. R-604

Mr. W. D. Richards, Secretary-Treasurer,
Little Wood River Irrigation District,
Carey, Idaho.

Dear Mr. Richards:

We are this morning in receipt of your letter of December 13th, in reply to our notice dated November 6th, that proof of completion of works under the above numbered permit would be due on or before January 9, 1941, and note your request for an extension of time.

Inasmuch as the permit is dated January 9, 1934, the statutory limit of five years within which to make this proof will expire on January 9, 1941, and no extension can be allowed, and it is necessary to make the proof at this time.

Of course, it is now too late to allow for the four weeks publication prior to January 9, 1941, but it is important that you fill out and return the notice immediately, setting time and place, and giving the name of the Notary Public before whom the proofs will be made, so that publication may start at once, and the proofs made at the earliest possible date thereafter.

We are enclosing additional forms for your use, in case you may have misplaced the ones enclosed in our former notice.

Very truly yours,

JAMES SPOFFORD
Commissioner of Reclamation

Boise, Idaho.

Dear Sir:

I have your letter of November 6th. 1940, with forms enclosed for making proof of completion of works. But before filling out these forms I thought it best to write to you to ask if I should do this in as much as the work is not as yet completed at our dam.

Would it be possible for us to get an extension of time in which to make this final proof of completion of works to such time as work has all been completed on this dam.

Our present Permit is numbered R-604, and expires January 9th. 1941.

Will you please advise if you wish the notice for publication filled out at this time.

Very truly yours,

Re: Permit No. R-604

INSTRUCTIONS

Little Wood River Irr. Dist. **PROOF OF COMPLETION OF WORKS**
Carey, Idaho

Boise, Idaho, **November 6, 1940**

Dear Sir:—

I enclose herewith blank form upon which to give notice that you are prepared and desire to submit proof of completion of works under your permit No. **R-604**.

This form should be filled out and mailed to the Department of Reclamation, at least 60 days before the date upon which proof is to be submitted, which proof **MUST** be on or before **Jan. 9, 1941**. Upon receipt of the blank properly filled out, notice for publication will be sent to the paper direct from this office, which notice must be published a period of four weeks prior to the date of proof.

The proof may be submitted at any place convenient to you and two witnesses, where there is a notary public or other officer authorized to administer oaths.

The certificate that shall be issued under this proof does not give you a perpetual right to the use of the water for which application is made, as it only confirms the completion of the works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

JAMES SPOFFORD

Commissioner of Reclamation.

Re: Application No. R-25408
Little Wood River Irrigation District

EDITOR, HAILEY TIMES
Hailey,
Idaho

Dear Sir:

A publication was recently run for the Little Wood River Irrigation District, giving notice of an application to appropriate 10,000 acre feet of water per annum for irrigation and domestic purposes. The notice provided, among other things, that anyone desiring to protest the approval of the application would have to do so within forty days from the date of the notice. December 27th was the last date for protest and none were filed. The application can, therefore, be approved immediately upon receipt of an affidavit of publication from your paper.

As these people are very anxious to obtain their permit, it would be very much appreciated if you would forward this instrument to the department at once. If you have not yet received payment of the publication, kindly communicate with Mr. Dick Adamson at Carey, Idaho, who is secretary of the district.

Very truly yours,

R. W. FARIS
Commissioner of Reclamation

STATE OF IDAHO DEPARTMENT OF RECLAMATION

Notice of Application to Appropriate Water in Accordance with the Provisions of House Bill 293, 1935 Session Laws

NOTICE IS HEREBY GIVEN That on the 3rd day of September, 1935, the LITTLE WOOD RIVER IRRIGATION DISTRICT, whose address is Carey, Blaine County, Idaho, made Application No. R-25408 to appropriate 10,000 acre feet of water per annum from LITTLE WOOD RIVER for irrigation and domestic purposes.

That the point of outlet of the proposed reservoir is located: S. 78° 15' W. 1648 feet, distant from the N¼ corner of Section 13, Township 1 N., Range 20 E., B. M., and is in the NW¼ of NW¼ of Section 13, Township 1 N., Range 20 East, B. M., County of Blaine.

That the land to be irrigated under said application is described as follows, to-wit:

W½NE¼, W½SE¼ & SE¼SE¼, Sec. 31, T. 1 N., R. 21 E., B. M.; All Sec. 4, All Sec. 5, Lot 1 & SE¼SE¼ Sec. 6, NE¼ & SE¼ Sec. 7, All Sec. 8, All Sec. 9, W½NW¼ & W½SW¼ Sec. 15, All Sec. 16, NE¼, N½NW¼, SE¼NW¼, E½SW¼ & SE¼ Sec. 17, N½NE¼ Sec. 18, All Sec. 20, All Sec. 21, All Sec. 22, NW¼, SW¼ & W½SE¼ Sec. 23, W½NE¼, NW¼SW¼ & W½SE¼ Sec. 26, All Sec. 27, NE¼, N½NW¼, SE¼NW¼, NE¼SW¼ & SE¼ Sec. 28, NE¼ & NE¼SE¼ Sec. 33, All Sec. 34, All Sec. 35, T. 1 S., R. 21 E., B. M.; Lots 1, 2, 3, & 4, S½NE¼, S½NW¼ & SW¼ Sec. 2, All Sec. 3, N½NE¼, SE¼NE¼, & NE¼SE¼ Sec. 8, All Sec. 9, All Sec. 10, NW¼, N½SW¼ & SW¼SW¼ Sec. 11, Lots 4, 5, & 6, Sec. 14, NE¼, NW¼, N½SW¼, SW¼SW¼, & N½SE¼, Sec. 15, All Sec. 16, S½NE¼, SE¼SW¼ & SE¼ Sec. 20, N½NE¼, SW¼NE¼, NW¼, SW¼, & NW¼SE¼ Sec. 21, NW¼NW¼, Sec. 22, NW¼ Sec. 28, NE¼, & E½NW¼ Sec. 29, T. 2 S., R. 21 E., B. M., containing a total of 14,711.13 acres.

That any protests against the approval of this application should be filed in the Department of Reclamation within forty (40) days of the date of this notice; such protest shall state the name and address of the protestant and shall clearly set forth his objections to the approval of the said application.

Dated This 18th day of November, 1935.

Re: Application R-25408

Mr. W. L. Adamson
Carey, Idaho

Dear Mr. Adamson:

The Department of Reclamation has returned the last application of Little Wood River Irrigation District for permit to store ten thousand acre feet of water at the upper site for completion. Said completion amounts to making two new tracings, one of the reservoir, and the other of the district lands. The application must be returned, completed, not later than December 1st.

It appears that I will not have time to do this work. I have gotten in touch with an engineer here in town who can complete the application and draw the maps with the information I can give him. However, he inquired about payment, and I informed him that I would ask the District to advance \$25.00, which I estimate is the proper amount for doing this work. Therefore, upon receipt of \$25.00, I will pass the application over to him with the necessary instruction for completion, whereupon he can file it with the Department for approval as a permit.

Should the District desire to handle this matter otherwise, please advise, and I will return the application to you and you can arrange for its completion.

Yours very truly,

Geo. N. Carter
