James Chaney
P. O. Box 173
Ketchum, Idaho 83340

Dear Mr. Chaney:

Be informed that the Department conducted a field examination on July 11, 1969 with regard to the above referenced permit.

As per our phone conversation on July 16, 1969, the Department is enclosing a partially completed application for amendment form which will allow the Department to include upon the license the 27 acres not covered by the permit. If you agree with the land listed upon the application for amendment as ground found beneficially irrigated and the Department's intention to issue a license and certificate of water right for 1.98 c.f.s, please sign the application for amendment and return it within 30 days of the date of this letter with a total of statutory fees of \$24.00.

If you disagree with any of this or have any questions, please feel free to contact this office.

Very truly yours,

Dean R. Reynolds
Field Examiner

NOTICE OF APPROVED
APPLICATION FOR WATER

Notice is hereby given that James Chaney, Box 535, Hailey, Idaho has received an approved permit No. G-31541 to divert 2.64 cubic feet per second of water from a subterranean source. The priority to be established under this permit is November 19, 1963. Water will be diverted by 2 wells, ditch, and headgates within the NE1/4 SE1/4, sec. 15, T. 1 S, R. 18, E. B.M., Blaine County and is to be used for irrigation and domestic purposes in the NE1/4 SE1/4, S1/2SE1/4, sec. 15; N1/2NE1/4, sec. 22, T. 1 S, R. 18 E, B.M.

Any protests against the intent of the permit must be filed with the Department of Reclamation within ten days from the last date of publication of this notice.

**NOTICE OF PROOF OF
COMPLETION OF WORKS
and
APPLICATION OF WATER TO
BENEFICIAL USE**

NOTICE IS HEREBY GIVEN that at 10:00 A. M., on the 17 day of March 1964, at Hailey, County of Blaine, State of Idaho, before R. H. McCoy, Notary Public, at 101 N. Main Hailey, Idaho, proof will be submitted of the completion of works for the diversion of 2.34 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-31541 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is James Chaney, P. O. Box 535, Hailey, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 2.34 cubic ft. per second.

3. The use to which said water has been applied is Irrigation and Domestic purposes, and the amount applied to beneficial use is 2.34 cubic feet per second.

4. The point of diversion of said water is NE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 15 T 1 S. Rge 18 E.B.M. Blaine Co. Idaho.

5. The place where said water is used is NE $\frac{1}{4}$ SE $\frac{1}{4}$ - S $\frac{1}{2}$ SE $\frac{1}{4}$ Sec. 15 T. 1 S. R. 18 E. B. M. and N $\frac{1}{2}$ NE $\frac{1}{4}$ Sec. 22, T. 1 S. R. 18 E. B. M.

6. The date of priority which said user is prepared to establish is Nov. 19, 1963.

Re: James Chaney
Our File #3434
Permit #G31541

Gentlemen:

With reference to the above captioned permit, there seems to be some confusion on the part of the applicant as to what further is required of him to prove up on his well. The applicant did, pursuant to the above named permit, proceed with the drilling of a well and brought in the necessary water. His attempt to prove up, receive his license, was denied March 18, 1964 by reason of the fact that the department raised the question as to whether beneficial use of the water could have actually been made, suggesting that the proof be withheld pending actual application for irrigation. During the course of the summer of 1964, the well went dry. It then became necessary that a new well be drilled. My client advises me that he sought a new permit to drill the well but was informed by your organization that such permit was not necessary in that the existing permit referred to above was in existence on the same ground and for the same purpose. Client then proceeded to drill a new well, having completed the same last winter, 1965. However, the old well which was formerly reported as dry has now started flowing. It seems that its flow was originally interrupted by reason of the freezing of some working parts of the well cap and casing.

I would appreciate your considered opinion on how best to prove up on the two wells. The original permit called for 200 inches. He advises me this date that they are able to develop 110 inches from both wells. Both wells would serve the same land as found in Permit #G31541. The wells are located in the same 40 acres. I would appreciate your advice in this matter at your convenience.

Very truly yours,

MURPHY & BOLLER

Dear Mr. Chaney:

Be informed that the Department conducted a field examination on July 11, 1969 with regard to the above referenced permit.

As per our phone conversation on July 16, 1969, the Department is enclosing a partially completed application for amendment form which will allow the Department to include upon the license the 27 acres not covered by the permit. If you agree with the land listed upon the application for amendment as ground found beneficially irrigated and the Department's intention to issue a license and certificate of water right for 1.98 c.f.s., please sign the application for amendment and return it within 10 days of the date of this letter with a total of statutory fees of \$24.00.

If you disagree with any of this or have any questions, please feel free to contact this office.

To: R. Keith Higginson
From: Dean Reynolds
Re: G-31541 - James Chaney

A measurement is to be submitted by Mr. R. J. Newby and the acreage irrigated confirmed by the ASCS office.

However, if the information does not substantiate a foundation for the issuance of a license, an examination will be required.

The first or older well is covered by Permit G-26994 and licensed for 1.36 c.f.s.

2-10-69

Mr. Chaney contacted -- He does not agree with the intention of the Department to use Mr. Newby's 2.04 c.f.s. measurement. This will require an examination.

drr

measured 7-11-69 drr

ATTENTION: Dean R. Reynolds

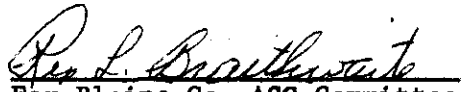

Dear Mr. Reynolds:

Since this farm is mainly a stock ranch, we are not involved with it in any programs except the cost sharing. Consequently, I am not too familiar with the irrigated land.

On the large aerial map it appears like all of the fields measured are irrigated to some degree. The total then would be 352 acres.

Hope this photo and information will help you.

Very truly yours,

For Blaine Co. ASCS Committee

NOV 23 1968

PROOF OF APPLICATION OF WATER TO BENEFICIAL USE

Department of Reclamation

1. a) Name of Permit Holder James Chaney
b) Post Office Address Box 535, Hailey, Idaho
2. Permit Number G-31541
3. Date of Priority that you are prepared to establish November 19, 1963
4. a) Source from which water was appropriated Subterranean source (artisian wells)
b) Location of the point of diversion: NE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 15,
Township 1 S., Range 18 E. Boise Meridian. Other points of
diversion: same as above.
5. a) The amount of water and use to which the water has been applied:
amount 2.64 cfs for irrigation purposes from May 1 to Oct. 15 incl.
(cfs and/or acre feet per annum) (Mo-Day) (Mo-Day)
amount _____ for _____ purposes from _____ to _____ incl.
(cfs and/or acre feet per annum) (Mo-Day) (Mo-Day)
amount _____ for _____ purposes from _____ to _____ incl.
(cfs and/or acre feet per annum) (Mo-Day) (Mo-Day)
b) Total amount appropriated 2.64 cfs and/or acre feet per annum
c) Describe how and by whom measurement of rate of flow or amount of storage was made
and the qualifications of the person making the measurement: _____
Table Publication by Edward E. Johnson, Inc., St. Paul 4, Minnesota
6. If the means of diversion and conveyance are owned by someone other than the Permit
Holder:
a) Give the name or description of the canal, ditch or other works by which the water is
conducted to the place of use: None, not applicable.
b) Describe the agreement or understanding by which you take water from the works: _____
7. a) Briefly describe the works for diverting and conveying the water to the place of use,
(If from a subterranean source, give the pump size, motor size, size of well casing,
depth of well; if from surface water, give brief description of diversion structure and/or
canal or ditch) Artisian wells, 102 feet in depth with 8-inch
casings. Water is conveyed from flow of artisian wells by ditches
to lands to be irrigated. (Wells subsequently redrilled,
depth 128 feet and perforated.)

31541

b) Describe the type and size of measuring device which you have installed at your point of diversion: No measuring device as all of the water of the wells are being used.

c) Give well drillers name and address and date the well was completed Eugene W. Walker, Twin Falls, Idaho, both wells completed

May 21, 1967.

8. If for other than irrigation, describe the beneficial use to which you have applied the water and the place of use Domestic use, summer and winter watering stock.

9. Irrigation uses: Describe the lands irrigated by giving the acreages irrigated within each 40 acre subdivision.

TWP.	RANGE	SEC.	NE 1/4				NW 1/4				SW 1/4				SE 1/4				TOT ^{al}
			NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	
18	18 E	15													40		40	40	120
		22	40	40															80

Total number of acres irrigated 200

10. Remarks: Original well was developed, artesian as described herein.
The well seemed to plug and a new well was dug a few feet away
to replace plugged well. Later, it was determined plugged well
had a frozen pipe and upon repair, started flowing. A total of
2.64 cfs are developed from the two wells applied to irrigation.
Shut down during winter except for minor flows for domestic purposes.
The above information is a true statement of the extent to which the above numbered permit has been developed.

**STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BUREAU OF PROOF OF
COMPLETION OF WORKS
and
APPLICATION OF WATER TO
BENEFICIAL USE**

NOTICE IS HEREBY GIVEN that at 10:00 A. M., on the 17 day of March 1964, at Hailey, County of Blaine, State of Idaho, before R. H. McCoy, Notary Public, at 101 N. Main Hailey, Idaho, proof will be submitted of the completion of works for the diversion of 2.34 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-31541 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is James Chaney, P. O. Box 535, Hailey, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 2.34 cubic ft. per second.

3. The use to which said water has been applied is Irrigation and Domestic, purposes, and the amount applied to beneficial use is 2.34 cubic feet per second.

4. The point of diversion of said water is NE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 15 T. 1 S. Rge 18 E.B.M. Blaine Co. Idaho.

5. The place where said water is used is NE $\frac{1}{4}$ SE $\frac{1}{4}$ - S $\frac{1}{2}$ SE $\frac{1}{4}$ Sec. 15 T. 1 S. R. 18 E. B. M. and N $\frac{1}{2}$ NE $\frac{1}{4}$ Sec. 22, T. 1 S. R. 18 E. B. M.

6. The date of priority which said user is prepared to establish is Nov. 19, 1963.

Re: Permit No. 0131541

Mr. James Chaney
Box 535
Hailey, Idaho

Dear Mr. Chaney:

The Department of Reclamation has received the legal notice we forwarded to you and your authorization to publish the notice. However, in reviewing the correspondence in your file we find that at one time it was necessary to drill a replacement well for the original well which went dry. After the replacement well was dug, the original well again began to flow.

If you are at this time using both wells to supply the 2.64 cubic feet per second of water for the irrigation of 200 acres, the department will require that you amend your permit to include an additional point of diversion.

Enclosed is an amendment form for your use. You should further be advised that the proof of beneficial use for this permit is due no later than November 29, 1968. If proof is not received by November 29, 1968, the permit will lapse and be of no further use. Enclosed is a proof form for your use.

The Department of Reclamation will continue processing your legal notice as soon as we are in receipt of the amendment.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

Re: Permit No. G-31541

James Chaney
Box 535
Hailey, Idaho 83333

Dear Mr. Chaney:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with those rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

BEFORE THE STATE RECLAMATION ENGINEER

OF THE

STATE OF IDAHO

IN THE MATTER OF PERMIT NO. G-31541)

in the name of James Chaney)

Box 535, Hailey, Idaho)

ORDER MODIFYING REQUIREMENTS
FOR COMPLETION OF PERMIT TO
APPROPRIATE WATER

WHEREAS, the 39th Idaho Legislature made certain amendments to the Idaho Water Law; and,

WHEREAS, these changes raised questions as to the procedures to be followed by holders of permits issued prior to the effective date of the amendments, May 31, 1967; and,

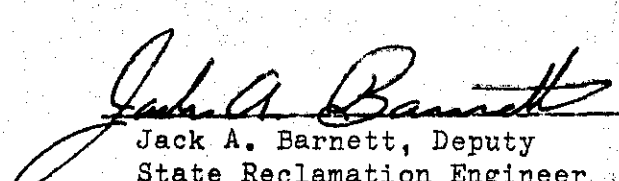

WHEREAS, on August 1, 1968, the Department of Reclamation adopted Rules of Practice and Procedures for the processing of such permits issued prior to May 31, 1967; and,

WHEREAS, Permit No. G-31541 was issued previous to that date;

NOW THEREFORE, the requirements for completion of the above-numbered permit are hereby modified to conform to the adopted Rules of Practice and Procedures as follows:

1. The above-numbered permit will be completed under the terms of Title 42, Chapter 2, Idaho Code, as amended by the 39th Idaho Legislature.
2. The conditions of the above-numbered permit are modified as follows:
 - a. The permittee will not be required to submit proof of completion of works as originally specified, but will be required to submit proof to the Department of Reclamation of the application of the water to beneficial use on or before November 29, 1968. The permit holder should be aware that failure to complete one-fifth (1/5) of the works within one-half (1/2) of the time originally set for Completion of Works may be grounds for cancellation at the instance of the Department.
 - b. Notice of the issuance of the permit will be published at the permit holders expense for two weekly issues in the official newspaper of the county in which the point of diversion lies.

Dated this 18th day of September, 1968.

Jack A. Barnett, Deputy
State Reclamation Engineer

Re: Application No. G-31541

James Chaney
Box 535
Hailey, Idaho

One of the conditions of the approval of your permit G-31541 was that proof of application of the water to beneficial use be submitted to this office on or before November 29, 19 68.

Enclosed is an affidavit form which must be used to submit this proof. You may also request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, ICA.

Either the proof or a request for extension must be received by this department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

State Reclamation Engineer

January 7, 1968

Re: Permit # G-31541

Mr. James Chaney
P. O. Box 535
Hailey, Idaho

Dear Mr. Chaney:

After you called today I again checked the file concerning your Permit No. G-31541.

The letter which you recently received from the office signed by Mr. McEldowney is a copy of the letter which was mailed to the Hailey Times requesting that they publish the notice which you authorized to be published and that they bill you for the expense of the publication. The note at the bottom of the letter was intended to notify you that you should obtain an affidavit from the newspaper that the notice had been published and forward it to this office so that we could issue the license confirming the water right.

We are sorry that the procedure has been so confusing but it resulted from your having drilled two wells under the permit which originally provided for only one and from certain amendments made to the state water law by the 1967 Session of the Legislature.

Let me again state that all that is now required of you is to obtain from the newspaper the affidavit of publication and forward it to this office. This, of course, cannot be done until it is actually published. If you have any further questions please let me know.

Very truly yours,

R. KRITH HIGGINSON
State Reclamation Engineer

Re: James Chaney
Our File: 3434
Permit #G31541

Gentlemen:

I am enclosing herewith a letter addressed May 22, 1967, to your office relative to the above captioned matter.

I am most confident that there has been a response to this letter as I distinctly remember viewing the same. However, in some way or manner your response has become lost. I am wondering if you would be good enough to check your files and provide us with your response.

The irrigation season is about over and we are most desirous of having the department make their survey of the well site to determine if all rules and regulations of the State of Idaho have been complied with.

We await your advise.

Very truly yours,

MURPHY & BOLLER

ATTENTION: Jack M. Murphy

Gentlemen:

We are writing in reply to your letter of May 22, 1967, concerning the above referenced permit. Whereas there are now two wells in existence for the lands covered under permit G-31541, it would seem the most probable solution to amend the point of diversion of the above referenced permit to include a second well. Form for amendment is enclosed for which there is a \$5.00 application fee.

Please bear in mind that the maximum quantity of water which can be diverted under this permit is 2.64 c.f.s. for 200 acres. If upon completion of amendment, Mr. Chaney has applied all the waters of this permit to a beneficial use, the holder then could submit the required proof of completion and application of water to beneficial use; however, this proof is not due until November 29, 1968, should the holder need additional time

Please contact us if we may be of further assistance.

Very truly yours,

Donald W. McEldowney
Water Rights Clerk

Re: James Chaney
Our File #3434
Permit #G31541

Gentlemen:

With reference to the above captioned permit, there seems to be some confusion on the part of the applicant as to what further is required of him to prove up on his well. The applicant did, pursuant to the above named permit, proceed with the drilling of a well and brought in the necessary water. His attempt to prove up, receive his license, was denied March 18, 1964 by reason of the fact that the department raised the question as to whether beneficial use of the water could have actually been made, suggesting that the proof be withheld pending actual application for irrigation. During the course of the summer of 1964, the well went dry. It then became necessary that a new well be drilled. My client advises me that he sought a new permit to drill the well but was informed by your organization that such permit was not necessary in that the existing permit referred to above was in existence on the same ground and for the same purpose. Client then proceeded to drill a new well, having completed the same last winter, 1965. However, the old well which was formerly reported as dry has now started flowing. It seems that its flow was originally interrupted by reason of the freezing of some working parts of the well cap and casing.

I would appreciate your considered opinion on how best to prove up on the two wells. The original permit called for 200 inches. He advises me this date that they are able to develop 110 inches from both wells. Both wells would serve the same land as found in Permit #G31541. The wells are located in the same 40 acres. I would appreciate your advice in this matter at your convenience.

Very truly yours,

MURPHY & BOLLER

RE: Permit No. G-31541
James Chaney

Murphy, Schwartz & Cunningham
Attorneys at Law
Shoshone, Idaho

Attention: Jack N. Murphy

Dear Mr. Murphy:

Enclosed are forms 36 and 11 with instructions.

Mr. Chaney evidently was premature in his first legal notice as he had not used the water beneficially until after March 17, 1964. Changing the depositions to show use of the water after the date shown in the legal notice would put a cloud on the water right. The well log in our file shows the well was drilled in December, 1963.

A new legal notice will be necessary with new depositions. The date to make the proofs should not be made until all of the water shown on the permit or delivered by the well, whichever is least, has been used beneficially.

Very truly yours,

RALPH W. THOMAS
Deputy State Reclamation Engineer

State Water Rights Clerk

Department of Reclamation

Re: Permit No. G-31541
James Chaney

Dear Mr. Rhodes:

May I direct your attention to your letter of March 18, 1964, wherein you pointed out that the affidavits submitted for completion of works suggested that the water had been used only for domestic purposes and not for irrigation purposes at the time indicated. These waters have been applied to beneficial use throughout the irrigating season of 1964 and the witnesses who attested to this matter in March can now attest to same again.

Is it sufficient for your purposes that we merely amend the affidavits, transmitting same to your office, or will it be necessary to re-notice the matter? May I have your advice?

Should you require any new notices and new and additional affidavits other than merely amending, would you be good enough to transmit these forms?

Yours very truly,

MURPHY, SCHWARTZ & CUNNINGHAM

Re: Permit No. G-31541

Mr. James Chaney
P. O. Box 535
Hailey, Idaho

Dear Sir:

To prove beneficial use of water you must have actually used the water as called for in your permit. From the information in the enclosed depositions it is apparent you have used the water for stock watering purposes only.

We are returning the depositions to you and ask that you wait until the water has been used for irrigating the land described therein before proving beneficial use.

If you wish, you may prove beneficial use of the water for stock water, however, if this is done the quantity of water under this permit would have to be reduced to the amount of water used for that purpose only.

Please advise us when proof of beneficial use can be made and the necessary forms will be sent to you.

Very truly yours,

CARL E. TAPPAN
State Reclamation Engineer

Re: Permit No. G- 31541
James Chaney

August 21, 1964

J. M. Murphy
Attorney at Law
Shoshone, Idaho

Dear Mr. Murphy:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 31541 are due not later than Nov. 29, 1968

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

CARL E. TAPPAN

State Reclamation Engineer

NOTICE OF PROOF OF COMPLETION OF WORKS

and
APPLICATION OF WATER TO BENEFICIAL USE

Department of Reclamation

Notice is hereby given that at 10: A M., on the 17 day of March 1964, at Hailey, County of Blaine, State of Idaho, before R.H. McCoy, Notary Public, at (address) 101 N. Main Hailey, Idaho., proof will be submitted of the completion of works for the diversion of 2.34 cubic ~~foot~~ ^{ft.} per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. ~~G-31541~~ G-31541 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is James Chaney P.O. Box. 535 Hailey, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 2.34 cubic ~~foot~~ ^{ft.} per second.

3. The use to which said water has been applied is Irrigation and Domestic, purposes, and the amount applied to beneficial use is 2.34 cubic ~~foot~~ ^{ft.} per second.

4. The point of diversion of said water is NE 1/4 Sec. 15 T 1 S. R. 18 E.B.M. Blaine Co. Idaho.

5. The place where said water is used is NE 1/4 - S 1/4 Sec. 15 T 1 S R. 18 E.B.M. and NE 1/4 Sec. 22, T 1 S. R. 18 E.B.M.

6. The date of priority which said user is prepared to establish is Nov. 19, 1963

Re: Permit No. G-31541

James Chaney
Box 535
Hailey, Idaho

Dear Mr. Chaney:

This acknowledges the Notice of Proof of Completion of Works and Application of water to Beneficial Use under Permit No. G-31541. The proofs are to be made at 10:00 o'clock A.M., on the 17th day of March, 1964, before R.H. McCoy, 101 N. Main, Hailey, Idaho, Notary Public.

As of this date, we have mailed the Notice to the Hailey Times, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Very truly yours,

CARL E. TAPPAN
