Dear Mr. Drage:

One of the conditions of the approval of your permit 33304 was that proof of application of the water to beneficial use be submitted to this office on or before November 15, 19 68.

Enclosed is an affidavit form which must be used to submit this proof. You may also request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, ICA.

Either the proof or a request for extension must be received by this department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. 33304

Gordon Drage
Carey, Idaho 83320

Dear Mr. Drage:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with those rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Re: Permit No. 33304

Dear Mr. Drage:

Under the terms of your Permit No. 33304 you are required to complete your diversion works on or before Nov. 15, 1967. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public, or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the said permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Dear Mr. Higginson:

We are forwarding, herewith, the application of Gordon Drage for a permit to appropriate the waters of a spring which arises on state land described as SE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 36, Twp. 1 N., Rge. 21 E.B.M. I have signed the Affidavit of Permission. Please note that said permission is given with the stipulation that said water may be repossessed by the State if, at any time, it is needed for use on state land. We have explained to Mr. Drage that we can give permission only with this reservation.

This is the case discussed recently by Mrs. Hamblin and your Mr. Bosch, when it was agreed that such reservation could be made in the water permit.

We have granted Mr. Drage an easement for pipe line right-of-way, with the reservation that a stock water tank is to be provided by him on the state land and no water is to be carried away in said pipe line except when the tank is full.

Our agent reports that the flow from the spring is probably not greater than one-fiftieth c.f.s., for which Mr. Drage has applied.

Yours sincerely,
