Gentlemen:

One of the conditions of approval of your water Permit No. **G-32978/37-2739** (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before **July 15, 1971**. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Castle:

As of this date we have not yet received the affidavit of publication to be submitted in connection with the above referenced permit. Proof of beneficial use is not required until **July 15, 1971**, however, many newspapers do not keep copies of these advertisements in their files. We, therefore, recommend that you obtain this affidavit from the **Wood River Journal, Hailey, Idaho** and submit it to the Department as soon as possible. This insures that when you are ready to submit proof of beneficial use there will be no unnecessary delay or added expense.

Attorney at Law

Hailey, Idaho 83333

Dear Mr. Jeppesen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies permit no. 37-2739 to comply with these rules and regulations. As a part of the new procedure, the permit holder will be required to publish a notice at his expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

Pursuant to your request of April 30, 1970, please find enclosed an assignment form for your use in transferring the permit to Carlyle Castle. Please also find enclosed a beneficial use form to be used in submitting final proof.

If you will have Carlyle Castle complete the enclosed form and send it in along with the assignment, we will cause the notice to be published. If we may be of further assistance, please contact this office.

Very truly yours,

Donald W. McEldowney
