Re: Permit No. G-32823/37-2732

Mr. Cleo Baldwin
Gannett,
Idaho

Dear Mr. Baldwin:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Very truly yours,

Cleo Baldwin
Gannett, Idaho

Dear Mr. Baldwin:

The Agricultural Stabilization and Conservation Service has supplied this department with a list of farmers who drilled wells under the 1966 Drought Emergency Program. Your name appears on the list; however, we are unable to determine under what permit the well was drilled. Would you please advise this office as to the number of the permit authorizing the well?

State Law requires that a permit be obtained prior to the diversion of irrigation water from a well. If no permit has been issued, application forms should be obtained from this office and a filing made.

Very truly yours,

Donald J. Watts
