NOTICE OF EXISTING WATER PERMIT

Notice is hereby given that Sun Valley Company Inc., Sun Valley, Idaho, has received an approved permit No. 32436/37-2710 issued by the Idaho State Reclamation Department authorizing the diversion of 1.0 cubic feet per second of water from an unnamed spring subject to all prior rights. The priority to be established under this permit is July 8, 1965 and the permit was approved July 9, 1965. Water is to be diverted by pipeline, storage tank, and pump from a point within the SE 1/4 SE 1/4, Sec. 23, T. 4 N, R. 17 E, B. M., Blaine County, to be used for domestic purposes in the NE 1/4 SE 1/4, Sec. 23, T. 4 N, R. 17 E, B. M. Proof of the application of the water to beneficial use is to be submitted to the department on or before July 9, 1970. Any protests against the issuance of a license for the above referenced permit should be filed with the Department of Reclamation within Ten (10) days of the last date of publication of this notice or prior to the licensing of the permit. Licensing may commence prior to the date beneficial use proof is due without further notice.

REMARKS: This spring has been used for over 10 years at Round House on Baldy Mountain at Sun Valley, Idaho. It was installed by Union Pacific Railroad Company. Sun Valley was sold to Janss Corporation by Union Pacific Railroad Company in December, 1964. Janss Corporation has assets in excess of Ten Million Dollars. A breakdown of assets has not been made because it is believed the same is not necessary or would be required. The spring in question is not a tributary and sinks. This application is made to simply confirm a long established use. There are no adverse claims known to this water.

			This water is used at Round House, which is approximately two-thirds the way up Baldy Mountain in the ski area. The pipeline is 1320 feet long leading from the spring to 3,000 gal. storage tanks in the basement of Round House. From these tanks water is relayed to a 20,000 tank located 1,000 ft. away and 168 ft. above the Round House along the #3 ski lift. This large storage tank is kept filled during the summer months, and provides fire protection for Round House, ski lifts and other buildings in the area.

Gentlemen:

A representative of this Department has made an examination of the works covered by your Permit No. 32436/37-2710 and has found the following:

Quantity of water diverted: 0.06 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 0.06 cfs

The maximum quantity diverted shall not exceed 2.0 acre feet per season.

Beneficial use: Domestic purposes within the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 23,
Twp. 4N, Rge. 17E, B.M.

Point of diversion: SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 23, Twp. 4N, Rge. 17E, B.M.

The priority date established is: July 8, 1965

If you do not concur with these findings, please advise us within 10 days; otherwise, a license will be issued as set forth in this letter.

Dear Mr. Stewart:

We acknowledge receipt of your affidavit submitted as proof of beneficial use for permit 32436/37-2710.

Before a license can be issued a field examination must be made by a representative from this department.

We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system. If someone other than yourself should be contacted, please advise.

Very truly yours,

Gentlemen:

One of the conditions of the approval of your permit no. 32436/37-2710 was that proof of application of the water to beneficial use be submitted to this office on or before July 9, 1970.

Enclosed is an affidavit form which must be used to submit this proof. You may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code Amended.

Either the proof or a request for extension of time must be received by this department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

ATTENTION: Harry Holmes

Dear Mr. Holmes:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Donald W. McEldowney

ORDER MODIFYING REQUIREMENTS
FOR COMPLETION OF PERMIT TO
APPROPRIATE WATER

WHEREAS, the 39th Idaho Legislature made certain amendments to the Idaho Water Law;
and,

WHEREAS, these changes raised questions as to the procedures to be followed by
holders of permits issued prior to the effective date of the amendments, May 31, 1967;
and,

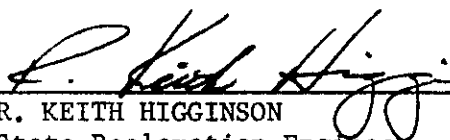

WHEREAS, on August 1, 1968, the Department of Reclamation adopted Rules of Practice
and Procedures for the processing of such permits issued prior to May 31, 1967; and,

WHEREAS, Permit No. 32436 was issued previous to that date;

NOW THEREFORE, the requirements for completion of the above-numbered permit are
hereby modified to conform to the adopted Rules of Practice and Procedures as follows:

1. The above-numbered permit will be completed under the terms of Title 42,
Chapter 2, Idaho Code, as amended by the 39th Idaho Legislature.
2. The conditions of the above-numbered permit are modified as follows:
 - a. Notice of the issuance of the permit will be published at the permit
holders expense for two weekly issues in the official newspaper of
the county in which the point of diversion lies.
 - b. The permittee will not be required to submit proof of completion of
works as originally specified, but will be required to submit proof
to the Department of Reclamation of the application of the water to
beneficial use on or before July 9, 1970. The permit holder should
be aware that failure to complete one-fifth (1/5) of the works within
one-half (1/2) of the time originally set for completion of works may
be grounds for cancellation at the instance of the department.

Dear Mr. Kramer:

Please refer to our telephone conversation yesterday. Returned herewith are three applications for water permit all located in Section 7, T. 4N. - R. 18 EBM. As discussed, these three permits can be combined in one application.

In so doing, the quantity of water would be 2.17 c.f.s. with a fee of \$5.50, plus \$5.00 for the flow permit, or a total of \$10.50.

Enclosed please find a suggested sketch and an example for completing Form No. 3. Also a blank Form "No. 3" and extra Form "0".

We are retaining the spring flow application until we receive the subterranean application and a new check for \$10.50 covering both application fees.

Dear Mr. Kramer:

Returned herewith are the four application for permit with your check for \$20.00 filing fees.

The application for spring #3 is the spring normally tributary to a stream? If so, that stream should be shown, or if the water would sink, the answer is sinks. The answer shown should properly be under remarks. Answer 4. The map shows SE¹/₄SE¹/₄, Sec. 23, without township or range. The answer under 6 (a) shows point of diversion. The map shows place of use as NE¹/₄SE¹/₄, Sec. 23.

The three applications for water from wells seem to be all the same. No maps, two are required by statute, no location of point of diversion. The three wells could be shown on one application.

All applications show "none" for time to prove completion of works. The permit would be delinquent before they could be mailed to you.

Kindly complete the applications and return for processing.

Gentlemen:

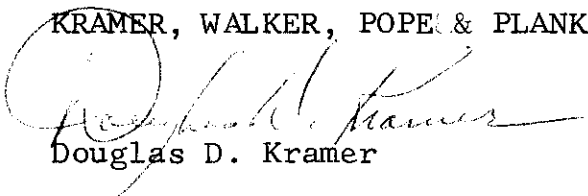

Please find four applications for permits to appropriate public waters of Idaho. These are filed by Janss Corporation which owns Sun Valley. Three of the applications are for wells that are on Sun Valley proper and one is for a spring which supplies the Round House on Baldy Mountain.

The spring is located on United States Government land and it did not appear that the affidavit of permission to file on the same was necessary. If I am in error please return the same to me.

All of these wells and the spring have been in use for many, many years and I am not just sure what the procedure from this point is. Will you please advise what further steps are necessary for us to prove up on this water. I am in hopes that since the water has been in use for so many years that there can be no adverse claim and the use can be established as of now. If any other steps are necessary, however, we will, of course, be willing to comply. Will you please advise.
