RE: Application for Transfer Nos. 37-2660; 37-2697; 37-2729

Dear Mr. Walker:

The Department of Water Resources acknowledges receipt of your Applications for Transfer.

This office will be advertising the application in the Gooding County Leader on 02/05 and 02/12/87. The advertisement will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State Office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review.

Please feel free to contact this office if you have any questions regarding this procedure.

Re: Permit No. 37-2697 (G-31984)

Mr. John Brooks
Route 2
Gooding, Idaho 83330

Dear Mr. Brooks:

Our field examiner reports that you are now the owner of the land covered by Permit No. 37-2697. If you wish to have the Water License issued in your name rather than Mr. Edholm's name, you must have him complete the enclosed assignment form relinquishing all of his right, title, and interest, in and to Permit No. 37-2697. You should be advised that it is not necessary to have the Water License issued in your name. Once a water right is licensed it is appurtenant to the land on which it is issued and if you own the land then you own the water right.

As soon as we receive the licensing fee of \$19, we are prepared to issue a Water License on this permit for 3.25 c.f.s. of water from a ground-water source within the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 12, T. 6 S., R. 14 E., B.M., Gooding County. The license will be issued for irrigation of 194 acres within the SW $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 1; NE $\frac{1}{4}$, E $\frac{1}{2}$ NW $\frac{1}{4}$ Sec. 12, T. 6 S., R. 14 E., B.M. The maximum quantity diverted shall not exceed 796 acre feet of water per season and the priority date established is July 2, 1964. If you agree with these findings, please remit the licensing fees within 30 days of the date of this letter.
