Dear Mr. Loveland:

On April 29, 1968, we received a telephone call from The Hailey Times stating that because of the change in ownership of their newspaper, several notices from our office have not been published.

Therefore, the date for making proof has had to be changed to May 31, 1968, and the newspaper has been so informed.

Please be sure that you and the witnesses complete the depositions sent to you earlier before Mr. Jeppeson in Hailey on May 31, 1968. Thank you for your cooperation.

Dear Sirs:

Regarding permit no. G-30898- we thought all the necessary requirements had been fulfilled. We have no papers nor forms to fill - at least we can find none and remember none. We have been using this well for three years - irrigating the grain ground and pasture. We can have this verified if need be.

Let us know what to do and how to do it with the necessary forms and we will do whatever is necessary to comply with all requirements. If it will be impossible to do this by April 8, 1968, could we be granted an extension of time to get it done?

Please let us know what to do. Thank you!

Sincerely,

Veral Loveland

P.S. I had planned on coming to Boise and talking to you personally and getting this all straightened out but an accident has prevented me from doing this. So hope to hear from you soon.

Dear Mr. Loveland:

Your application No. C-38035 showing point of diversion in the NW $\frac{1}{4}$ Sec. 22, T. 1 S., R. 19 E is adequate, however your application for permit showing point of diversion in the SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 22, T. 1 S., R. 19 E. claims 200 miners inches of water to irrigate 104 acres of land. The maximum amount allowable is one miner's inch per acre without full justification for additional water. Kindly check the land acreage shown under No. 12. You probably mean the west half to have the smaller acreage to agree with the other application.

Enclosed herewith are original and two copies of a legal notice to be published in a Blaine County paper. You sign and date the acknowledgment of service on all copies and have the paper complete the other three dates of first and last publication, also last date for protest. Leave original notice with the paper, return one copy of this to this office and retain one copy for your file. Also send us affidavit of publication from the paper.

In case the approval of your application is protested, a hearing will be held. After the hearing your application may be approved for full amount of water claimed, the amount of water may be reduced, or the application may be denied.

Also enclosed is the one application with attached check. Kindly correct the amount of acreage shown in the NE $\frac{1}{4}$, Sec. 22, change the amount of water claimed, which will probably change the fee, or justify the amount claimed and return.
