The decreed water is from Wood River. The canal is coarse gravel so it has a tremendous water loss. Our loss is from 30 to 50%. We are located near the end of the canal thus making it impossible to receive our decreed water after the decrees are cut. We have lost all water early in July on some previous years. Under this condition, we usually lose the grain crop & get only one crop of hay. These conditions make it financially unfeasible to operate the ranch. With the proposed well, we can provide the necessary water to raise our crops. The well will act as insurance on short water years, thus allowing us to save our crops.

Reference is made to the copy of your letter of October 29, 1962, regarding the above entitled Application for Permit.

I have conferred with representatives of the Big Wood Underground Water Users Association and they requested me to advise that they plan to file no protest. If no protest is filed, I assume there will be no hearing.

They also requested me to advise you that the Association desires to withdraw its protest against other applications for permits now pending in this area and they do not propose to appear at any hearing on these applications. According to my file, protests were filed against applications of Baldwin Bros., Carl Schoessler, Wordell J. Rainey, William A. Price, Raymon Urrutia, Veral Loveland, and Ruth and Robert Gardner.
