Mr. Carl Schoessler,
Gannett, Idaho.

Dear Mr. Schoessler:

We enclose Permit No. G-30821 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. G-6340 which was issued covering payment in the amount of \$6.25 for the filing fee of the above mentioned permit. ~~was handed to you~~

Well logs are an important part of your recorded water right and State Statutes require that well drillers' supply logs on all wells, whether irrigation, domestic, drain or stock wells, to be filed in the Department of Reclamation. In view of the rapidly increasing demand for ground water, the lowering of the ground water level, and the creation of critical ground water areas, it is important that you, as owner, make sure a log on your well is filed in this office.

BEFORE THE DEPARTMENT OF RECLAMATION
OF THE STATE OF IDAHO.

In the Matter of the Application)
No. G-38047 of CARL SCHOESSLER.) PROTEST OF BIG WOOD UNDERGROUND
) WATER USERS ASSOCIATION TO AP-
) PLICATION NO. G-38047

COMES NOW the Big Wood Underground Water Users Association composed of the following water users:

J. E. Fredrickson	Gannett, Idaho
Harry Bettis	Gannett, Idaho
James Chaney	Gannett, Idaho
Frank Gomes	Gannett, Idaho
William Allred	Gannett, Idaho
Wayne Clark	Gannett, Idaho
George McGonigle	Gannett, Idaho
John McGonigle	Gannett, Idaho
V. J. Blincoe	Gannett, Idaho

who are ground water users in the vicinity of Gannett, Idaho, in Big Wood River Valley and protest the issuance of the permit pursuant to Application No. G-38047 of CARL SCHOESSLER of Gannett, Idaho, to appropriate 6.0 cubic feet per second of subterranean water with a point of diversion being located in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Section 7, Township 1 South, Range 19 East of the Boise Meridian, to be used upon lands described as the W $\frac{1}{2}$ NE $\frac{1}{4}$, N $\frac{1}{2}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, S $\frac{1}{2}$ SW $\frac{1}{4}$, Section 7, Township 1 South, Range 19, East of the Boise Meridian.

This protest is made on the grounds and for the reason that there is not sufficient ground water to provide a reasonably safe supply for the irrigation of cultivated lands in the area in which the application is made, at the current rates of withdrawal from the ground water sources.

Further grounds for the said protest and objections are:

(1) That, pursuant to the request of the Big Wood Underground Water Users Association, and the members thereof, the State Reclamation Engineer on June 21, 1961, entered an Order designating the area to which this application applies as a "critical

1 ground water area" as defined in Section 42-233(a) of the Idaho Code
2 and, as a basis for the issuance of the Order, determined the area
3 as "not having sufficient ground water to provide a reasonably safe
4 supply for irrigation of cultivated lands in the basin at the then
5 current rates of withdrawal."

6 (2) That no facts have developed since the issuance of
7 this Order which should change the determination of the State
8 Reclamation Engineer that this area is a "critical ground water area."

9 (3) That, on the contrary, the ground water situation
10 in this area is now more critical than on the date said Order was
11 entered, to-wit, June 21, 1961; that the water level of wells owned
12 by many of the above named members of the Association is continuing
13 to drop and they are unable to obtain sufficient water from ground
14 water sources to irrigate adequately the lands to which said water
15 rights are appurtenant.

16 (4) That the issuance of a permit to this application
17 pursuant, or the issuance of any permits in this area, would con-
18 tribute to and aggravate the grave and critical conditions now
19 existing.

20 WHEREFORE, Protestants request that the application of
21 Carl Schoessler be forthwith denied by the Department of Reclamation
22 of the State of Idaho, or, in the alternative, that the applications
23 for permit to appropriate ground water in this area "be held in
24 abeyance pending further study and determination of the sufficiency
25 of the ground water supply therein to meet further withdrawals
26 therefrom, "consistent with the third paragraph of the Order of
27 the State Reclamation Engineer dated June 21, 1961.

RE: Permit No. G-38047

Carl Schoessler
Gannett, Idaho

Dear Mr. Schoessler:

Your application for permit is adequate, however the point of diversion is in a Critical Ground Water Area:

Enclosed are original and two copies of a legal notice to be published in a Blaine County paper. You sign and date the acknowledgement of service on all copies and have the paper complete the other three dates of first and last publication and last date for protest. Leave original notice with the paper, return one copy to this office and retain a copy for your file. Also send us the affidavit of publication from the paper.

In case the approval of your application is protested, a hearing will be held. After the hearing your application may be approved for full amount of water claimed, the amount of water may be reduced or the application may be denied.

Very truly yours,

RE: Application for Permit

Carl Schoessler
Gannett, Idaho

Dear Mr. Schoessler:

Returned herewith is your application for permit with attached check for \$5.75 filing fee.

You are claiming 400 miner's inches of water to irrigate 316 acres of land which has a stream flow water right. Not over one miner's inch per acre of land can be allowed without full justification.

Kindly change the amount of water claimed or give full justification for additional water.

The filing fee is \$5.00 for the first cubic foot per second or 50 miner's inches plus \$0.25 for each additional second foot or fraction thereof.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer
