Dear Mr. Stimpson:

Our records show that you filed a new permit for the well located in the NE1/4NE1/4, Section 28 to irrigate the N1/2NW1/4, Section 27, and the N1/2NE1/4, Sec. 28, all in Township 6S, Rge. 18 E.B.M., under Permit No. 37-7005, dated November 22, 1967 in the amount of 3.2 c.f.s. for the 160 acres. The beneficial use proof is due February 1, 1973, but you may prove up on this permit at any time prior to February 1, 1973, if the land is in complete cultivation and the well is at its maximum yield of production.

Checking back on the inspection report of the well to the north, I came up with 310 acres irrigated with the well producing 4.78 c.f.s.

Dear Mr. Stimpson:

Returned herewith are your depositions taken in connection with the above numbered permit. You failed to include the point of diversion in question #4 which we have filled-in in red pencil, also question #6 you list the S¹NE¹4, Section 21. This piece of property is not on the permit. If you desire to include this land that is not covered in the legal notice you will have to re-publish the permit and take new proofs. If you have made a mistake in the listing in question #6 please correct it and return to our office as soon as possible.

Very truly yours,

Comes now William F. STIMPSON
and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to Appropriate the Public Waters of the State of Idaho, No. G-30748.

That the point of diversion is described in said Permit as being located:

NW 1/4 SW 1/4 SEC 21, T6S, R18E.

That he now requests that the point of diversion be changed to a point located: SW 1/4 SE 1/4 SEC 21, T6S, R18E.

That the reason for desiring to make such change is as follows:

BETTER WATER DISTRIBUTION

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Mr. William F. Stimpson,

Shoshone, Idaho.

Dear Mr. Stimpson:

We enclose Permit No. G-30748 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. G-7458 which was issued covering payment in the amount of \$6.25 for the filing fee of the above mentioned permit. ~~was cancelled to copy~~

Well logs are an important part of your recorded water right and State Statutes require that well drillers' supply logs on all wells, whether irrigation, domestic, drain or stock wells, to be filed in the Department of Reclamation. In view of the rapidly increasing demand for ground water, the lowering of the ground water level, and the creation of critical ground water areas, it is important that you, as owner, make sure a log on your well is filed in this office.
