NOTICE OF EXISTING WATER PERMIT

Notice is hereby given that Mark B. and Helen R. Lloyd, Box 211, Ketchum, Idaho, have received an approved permit no. 30609/37-2678 issued by the Idaho State Reclamation Department authorizing the diversion of 6.0 cubic feet per second of water from two hot springs, tributary of Warm Springs Creek. The priority to be established under this permit is August 9, 1962, and the permit was approved August 13, 1962. Water is to be diverted by gathering basins, pumping plant and pipeline from a point within the SW 1/4 NW 1/4 and NW 1/4 NW 1/4 of Sec. 14, T. 4N, R. 17E, B. M., Blaine County, to be used for heating, irrigation, swimming pool and domestic purposes in the S 1/2 SW 1/4, Sec. 11; NW 1/4, Sec. 14; E 1/2 NE 1/4, Sec. 15; T. 4N, R. 17E, B. M. Proof of the application of the water to beneficial use is to be submitted to the department on or before August 13, 1973. Any protests against the issuance of the license for the above referenced permit should be filed with the Department of Reclamation within ten (10) days of the last date of publication of this notice or prior to the licensing of the permit. Licensing may commence prior to the date beneficial use proof is due without further notice.

NOTICE OF EXISTING WATER PERMIT

Notice is hereby given that Mark B. and Helen R. Lloyd, Box 211, Ketchum, Idaho, have received an approved permit no. 30609/37-2678 issued by the Idaho State Reclamation Department authorizing the diversion of 6.0 cubic feet per second of water from two hot springs, tributary of Warm Springs Creek. The priority to be established under this permit is August 9, 1962, and the permit was approved August 13, 1962. Water is to be diverted by gathering basins, pumping plant and pipeline from a point within the SW 1/4 NW 1/4 and NW 1/4 NW 1/4 of Sec. 14, T. 4N, R. 17E, B. M. Blaine, Idaho, to be used for irrigating purposes in the S 1/2 SW 1/4, Sec. 11; NW 1/4, Sec. 14; E 1/2 NE 1/4, Sec. 15; T. 4N, R. 17E, B. M. Proof of the application of the water to beneficial use is to be submitted to the department on or before August 13, 1973. Any protests against the issuance of the license for the above referenced permit should be filed with the Department of Reclamation within ten (10) days of the last date of publication of this notice or prior to the licensing of the permit. Licensing may commence prior to the date beneficial use proof is due without further notice.

Dear Danni:

I am writing this letter in response to your request concerning my representation of the Sun Valley Company in the above-referenced water right numbers. Please be advised that this firm, Elam & Burke, P.A., represents the Sun Valley Company. Mr. David Lincoln, a Shareholder with our firm, signed the initial SRBA claims for several of Sun Valley Company's water rights in the late 80's. Accordingly, Mr. Lincoln is listed as the "attorney" for Sun Valley Company on those claims. It is my understanding that for the few licenses and/or permits filed post-November 1987, my name is listed as the "attorney" for Sun Valley Company.

Mr. Lincoln is no longer handling water rights matters for this firm. Therefore, to avoid any further confusion, I ask that the Department update their records to reflect my name as "attorney" for the Sun Valley Company in each and all of the above-referenced water rights.

Thank you for your assistance in this matter. If you have any questions, please do not hesitate to contact me.

Very truly yours,

RE: Water Right Transfer 37-02678

Dear Permit Holder:

Enclosed is a copy of the Order extending your water right transfer's date of completion from November 3, 1993 to December 1, 1994.

Additionally, the Department is in receipt of a request for extension of time that was submitted on November 4, 1993. An extension of time form is needed only for a water right permit. Since this water right is a license, a request for extension is not necessary.

I have begun the process of refunding the \$15.00 extension fee. This process usually takes between two to four weeks, and will arrive under separate cover.

If you have any questions or we can be of any assistance, please feel free to contact the Department.

Sincerely,

BENEFICIAL USE FOR A WATER RIGHT PERMIT

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time in which to complete development of water right under the provisions of Section 42-204, Idaho Code.

Permit No. 37-08798 & 37-02678Name(s) of Permit Holder: Sinclair Oil Corp dba Sun Valley CompanyMailing Address: c/o David B. Lincoln, Elam & Burke, Box 1539, Boise, ID 83701Date Proof Is Due January 1, 1994Telephone No. 343-5454

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

Temporary in-stream collection structure completed; water transportation lines and
deck heating system completed and water is being diverted. Final in-stream collection
structure not completed.

Costing

\$ 25,000

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

Freezing weather conditions at this time and spring run off conditions will prevent
in-stream construction until next fall. Brockway Engineering requests additional time
to design and install system to minimize effect on Warm Springs Creek.

Permit holder(s) request an extension to December 1, 19 94.

FEE: \$15.00

RE: Transfer of Water Right No. 37-02678

Dear Water Right Holder(s):

MEMORANDUM

TO: File 37-02678

FROM: Sharla

DATE: October 28, 1992

RE: Transfer Review (No. 3982)

The above referenced transfer proposes to change the place of use and nature of use under this right.

Advertising was completed correctly. As documented in my memo of 10/19, the rate of diversion to be granted under this transfer must be limited to 0.10 cfs. This matter was discussed over the phone with Mr. Lincoln (attorney representing Sinclair Oil Corp.). Mr. Lincoln also met with me and Jim Johnson on this date to discuss options available for authorizing diversion of the originally licensed rate of 0.45 cfs. Mr. Lincoln admitted that they would be unable to produce any evidence to show that 0.35 cfs had not been lost due to forfeiture. Since the use of water is non-consumptive, a new application for permit can be approved under the moratorium. The application was filed today (No. 37-08798).

Mr. Lincoln stated that Chuck Brockway has designed a water delivery system which will require the diversion of the 0.45 cfs. Diversion at a lower rate such as 0.10 allowed under the transfer is unacceptable because the system would freeze up at that slow rate. Upon approval of the transfer, the applicant will be able to finish construction and can divert up to 0.10 cfs. Mr. Lincoln stated that until the application for permit is approved, they can shovel the snow and ice and hopefully will have approval of the application by December 1.

Terry Blau has spoken to Jim Johnson and requested that a special condition regarding the area of construction be added.

The transfer can be approved with the following conditions:

The maximum rate of diversion authorized under this right is limited to 0.10 cfs.

- R04 Use of water under this water right will be regulated by the watermaster of State Water District No. 37.
- T07 The change authorized by this transfer shall be accomplished within one (1) year of the date of this approval.

RECEIVED
OCT 28 1992

T08 Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.

T09 Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.

R01 A measuring device of a type approved by this Department shall be maintained as a part of the diverting works.

Area of construction for extending the collection into the stream shall be isolated from stream flow until grouting has set up.

RE: Reduction of Rate

On October 16, I spoke to Jim Stanton concerning Trans. #3982. We discussed the original field examination conducted in 1973 which showed 7 pumps and 2 spring boxes in comparison to Jim's recent inspection which found only 1 pump and 1 spring box. Jim stated that Mr. Breneman (who lives in one of the two homes supplied by the springs) indicated that this diversion and delivery system had been in use for as long as he had lived there.

As documented in Jim's memo of 6/5/92, only a cold-water well was found in approximately the same location as the upper spring was shown in the 1973 exam.

Based upon a single 2hp pump (which will continue to be the diversion system under the transfer), the rate of diversion capable of being produced is right at 0.10 cfs. Theoretical calculations using various psi, lift and efficiency range from 0.06 cfs to 0.14 cfs.

Jim agreed with the proposal to reduce the rate under the transfer to 0.10 cfs.

Dear Mr. Lincoln:

The Department of Water Resources acknowledges receipt of the Application for Transfer on behalf of Sinclair Oil Corporation dba Sun Valley Co.

This office will be advertising the application in the Wood River Journal on 9/2 & 9/9/92. The advertisement will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

The department's review process may have to include field investigation and verification of the claims which is required as part of the Snake River Basin Adjudication.

In order to complete regional review, a list of corporate officers and addresses should be submitted to this office.

State Office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review.

SUBJECT: App/Transfer 37-02678

FROM: Jim Stanton

DATE: 6-5-92

On 6-3-92, I again visited the original P/U. The original exam showed a second spring
above the home, with a line to the home for heating. My previous visit only found the
one along Warm Spring Creek. The only other water source I found was a cold-water domestic
well in a well house. The well is in about the same location as shown for the upper spring
in the previous license exam. No other water sources or active diversions were found.
Cold water was coming out of sprinklers during my visit. So it appears that only a flow
of 0.10 cfs is available for transfer, although ^{as} judicata may obligate us to allow
transfer of the licensed amount.

SUBJECT App. for Transfer of Rt. 37-02678, Sun Valley Co.

Last month I inspected the water system involved with this transfer. A concrete springbox along the south side of Warm Springs Creek collects hot spring water. A pump & pipeline pushes the hot water uphill to two homes, both owned by the applicant. The original Lloyd home is presently unoccupied but is heated from the spring. A swimming pool inside the home will not be used in the future according to Steve Breneman, security chief for Sun Valley Co. (he unlocked the home to show me the pool). His home is also heated from this spring. A separate cold well provides domestic water to the homes. Overflow from the system goes into Warm Spring Creek just downstream from the spring house. Use is almost totally non-consumptive. A Sta-Rite 2 hp 3450 rpm 230 volt pump at the spring pumps water via a 2" line to the homes. Although there is only one diversion, it is very hard to determine the exact legal description; the survey map shows the NW $\frac{1}{4}$ SW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 14, but the quad map shows it either on the ~~44~~ 40 line or in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 14. So Transfer Part 1 lists both legals. As far as I could see, there is only 1 spring. Pump is rated for 0.10 cfs at 100' PM according to Floyd Lily Co.

SUBJECT App. for Transfer of Lic. 37-02678

This license was issued showing P/U as NW $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 14. At the time of the transfer, no SRBA claim had been filed. So I told the applicant that a claim was needed. The claim was filed based on the license. While discussing this transfer with the applicant's attorney earlier today, it was discovered that the actual P/U was in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 14. This was verified via the warranty deed describing the Lloyd property and the area survey provided by the applicant. The property survey makes it pretty clear where the original land was; the license was simply wrong. I will be doing a field inspection on this system to further clarify this point.

Dear Mr. Donart:

You recently requested information concerning the appropriation and use of water from Guyer Hot Springs tributary to Warm Springs Creek.

We have searched our files and find that two water right licenses have been issued for hot springs in that area. License No. 37-2451 dating back with a priority of June 30, 1936, was issued for domestic, natatorium and heating purposes. The other water right license no. 37-2678 was issued with a priority of August 2, 1962, also for domestic, heating and swimming pool purposes. Copies of both of these licenses are enclosed for your information.

We would agree that the water from these springs, unless they are classified as private waters under Idaho Code, Section 42-212, would be subject to regulation of the state as prescribed in the statutes.

If you have any other questions, please feel free to contact us.

Ketchum, Idaho 83340

Dear Mr. & Mrs. Lloyd:

A representative of this Department has made an examination of the works covered by your Permit No. 30609/37-2678 and has found the following:

Quantity of water diverted: 0.45 cfs Source: two hot springs

Amount of water that can be recognized as beneficially used under Idaho law: 0.45 cfs

The maximum quantity diverted shall not exceed 1.2 acre feet per year. for domestic use.

Beneficial use: For domestic, heating and swimming pool purposes within the NE 1/4, Sec. 14, Twp. 4 N, Rge. 17 E

Point of diversion: SE 1/4 and NE 1/4, Sec. 14, Twp. 4 N, Rge. 17 E, B.M.

Priority date established: August 9, 1962

If you do not concur with these findings, please advise us within 10 days; otherwise, a license will be issued as set forth in this letter.

Sincerely,

BOBBY D. FLEENOR
Assistant Director

REMARKS: The SW $\frac{1}{4}$ of Section 14 comprises Lot 5 and part of the Warm Springs Lodge, patented, and of the Carbon Hill Millsite, patented. The NW $\frac{1}{4}$ of Section 14 consists of Lot 4, and parts of Carbon Hill and Keystone Millsites, patented. The springs are on land owned by the applicants. The actual quantity of water now seeping into Warm Springs Creek is but a fraction of the quantity of water applied for, applicants believing that by tunnels and wells they may materially increase this flow. Dear Mr. & Mrs. Lloyd:

One of the conditions of approval of your water Permit No. 37-2678 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 13, 1973. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Lloyd:

As of this date we have not yet received the affidavit of publication to be submitted in connection with the above referenced permit. Proof of beneficial use is not required until August 13, 1973; however, many newspapers do not keep copies of these advertisements in their files. We, therefore, recommend that you obtain this affidavit from the Wood River Journal, Hailey, Idaho and submit it to the Department as soon as possible. This insures that when you are ready to submit proof of beneficial use there will be no unnecessary delay or added expense.

Dear Sirs:

My clients, Mrs. C. E. I would appreciate it if you can make a copy and send it to me and I will immediately reimburse you for any costs involved. I would also appreciate any comment you might have about any possible conflict apparent from the permit with the Brandts.

Re: Permit No. 30609 (New No. 37-2678)

Mark B. and Helen R. Lloyd
Box 211
Ketchum, Idaho 83340

Dear Mr. & Mrs. Lloyd:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Re: Permit No. 30609

Date:

June 1, 1967

Mark B. & Helen R. Lloyd
Sun Valley, Idaho 83353

Dear Mr. and Mrs. Lloyd:

Under the terms of your Permit No. 30609 you are required to make proofs of completion of works and application of water to beneficial use on or before **Aug. 13, 1967**

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper in the county.

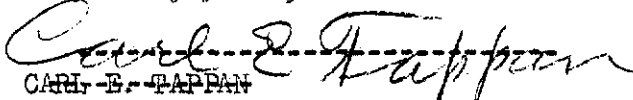

We enclose Form 36-A in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use, or lands which are irrigated - - by legal description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published, or you may have to readvertise and complete another set of proof forms.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 36-A

At the time we send the notice to the newspaper we will send you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, and at the place named, before the Notary Public as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by the field inspection to have been irrigated at the time of proof.

Very truly yours,

CARL E. TAPPAN
State Reclamation Engineer

Re: Permit No. 30609

Mark B. & Helen R. Lloyd,
Sun Valley, Idaho.

Dear Mr. & Mrs. Lloyd:

We enclose Permit No. 30609 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. 31179 which was issued covering payment in the amount of \$6.25 for the filing fee of the above mentioned permit.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer
