Gentlemen:

You will find enclosed authorization signed by W. P. McIntyre of Gooding, and also Notice for publication in the paper for the hearing.

The original application asked for 200 inches of water and also included land in Section 34. However, Mr. McIntyre tells me the water has been used only on Section 27 so far and that the well now pumps only 75 inches.

According to your instruction sheet, even though the point of diversion has not been changed, perhaps an amendment should be filed before the publication. If this is necessary under the above circumstances will you please send the necessary papers for his signature and we shall immediately sign and return them.

You will note the hearing is set far enough ahead to allow this and also inclement weather (we hope).

Thank you.

Sincerely,

Mrs. Loretta M. Strickling
