Gooding, Idaho

Dear Mr. Goss:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-29761 shows the well is capable of conveying 106 miner's inches, or 2.12 c.f.s. of water for irrigation of 156 acres.

He found the point of diversion to be in the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 33, and the land to be in the S $\frac{1}{2}$ SE $\frac{1}{4}$, Sec. 28; NE $\frac{1}{4}$, Sec. 33, all in T. 5 S., R. 14 E., B.M.

In accordance with a ruling from the Attorney General's Office it will be necessary to amend both the point of diversion and the land list, readvertise and make new proofs before the certificates of water right can be issued. See the enclosed letter in regard to the ruling. Your permit, the legal notice, and the proofs all showed the location to be in R. 15.E., B.M.

Enclosed are amendment forms, Form 36 and 11. Please complete and return to this office promptly so that your water right may be completed.

There is a fee of \$2.00 for recording the amendments. It should accompany the applications for amendment.
