Dear Mr. Rogers:

It has been brought to our attention that on or about
Sept. 9, 1963, you had a well drilled. The
well is reported to be located at a point in the SE 1/4
NE 1/4, sec. 18, T. 1 S, R. 18 E, B.M. for
irrigation use.

A search of our records has failed to find your
application or approved permit. Under existing Idaho
Statutes, Sections 42-226, 42-229, and 42-230 of the
Idaho Code, you are required to file and obtain an
approved permit before you divert waters from a sub-
terranean source, with the exception of domestic wells
which are defined under Section 42-111 of the Idaho Code.

If we have overlooked your permit, please advise the
department as to your permit number. However, if you have
not yet filled out an application for permit, please use
the instructions and the blank application form which
we have enclosed.

We will be very happy to assist you with any questions
you might have.

Very truly yours,

Dear Mr. Rogers:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the _____, all submitted and on 10/27/65, completion of works and beneficial use on Permit No.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Attn: Andrew F. James

Dear Mr. James:

Returned herewith are the two applications for permit with attached check for \$12.50 and copies of the applications.

The amount of water claimed cannot be checked as the acreage in each 40-acre subdivision is not given.

There is an apparent application for an excess over 1.0 miners inch per acre under both permits, the maximum amount allowable, except where additional water is justified.

The application claiming 6.24 cubic feet per second shows the point of diversion in the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 18, whereas the maps show the well in NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 7.

Kindly complete the applications and return the original application with two maps and the filing fee. You may retain the copies of the applications.

Very truly yours,

GEO. N. CARTER
