PROOF OF APPLICATION OF WATER TO BENEFICIAL USE
and Completion of Works

DEPOSITION OF WITNESS

The deposition of two witnesses on this form, taken separately, required in each case.

Ques. 1 State your name, age, residence, occupation and postoffice address:

Glenn L. Sorensen, age 45, residence Dietrich, Idaho, farming, P.O. Address Dietrich, Idaho

Ques. 2 Are you acquainted with Floyd O. Kisling, the holder of
Permit No. G-29602? How long have you known him and where does he reside?

I have known him for 10 years; he resides at Dietrich, Idaho.

Ques. 3. Have you read or heard said Permit No. G-29602 read, and are you familiar
with its provisions and conditions: Yes No. I have not read the permit but
I understand it applies to water developed on SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 26, Twp 6 So. R. 18 E., B.M.

Ques. 4. State source of water supply: under ground from a well

Give location of place of diversion, showing subdivision, section, township and range

Near the Southeast Corner of the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 26, Twp 6 So. R 18, E., B.M.

Describe works for conveying water to place of use: There is a huge electric motor which
pumps water from this well into a ditch from which he applies the water to the 40 Acres
upon which the well is located and the two 40 Acre tracts just West thereof and the three
40 Acre tracts just South of the three described above.

Ques. 5. How many second feet of water do you estimate said works will safely conduct
to place of use: up to six second feet How much water have you seen being so
conveyed? I would estimate from three to four second feet

Ques. 6 If for irrigation, show number of acres irrigated in each subdivision, giving

full legal description: in Sec. 26 the South Half of the Northwest Quarter= 1 Second foot.
in Sec. 26 the North Half of the Southwest Quarter= 1 Second foot.

in Sec 27 the Southeast Quarter of the Northeast Quarter= one half Second foot
in Sec 27 the Northeast Quarter of the Southeast Quarter= one half Second foot
all of the above being in Township 6 South, Range 18, East, Boise Meridian.

29602

Ques. 7. If for other than irrigation purposes, show full legal description of place of use, and state purpose for which water is used.

So far as I know this water is not used for anything other than irrigation.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

This land is a light sandy loam and in my opinion ~~could~~ ^{when used for the most} profitable cultivation

would require the use of one inch of water per acre. The land is quite level.

Ques. 9. Have you any ownership interest in the works, water or lands above mentioned?

If so, in what way and to what extent? no.

Ques. 10. When did you first see this water used? July of the year 1961.

Other times you have seen such use: I have seen it used every year since 1961.

Feb. 1, 1966

Floyd O. Kisling

Department of Reclamation

Dietrich, Idaho

Dear Mr. Kisling:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 29602 are due not later than April 6, 1966

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

Floyd O. Kisling

Dietrich, Idaho

Dear Mr. Kisling:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 29602 are due not later than **April 6, 1966**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

Carl E. Tappan

Re: Application for Permit

Mr. Lee J. Roberts
Route #3
Weiser, Idaho

Dear Mr. Roberts:

Returned herewith is your application for permit to appropriate water from a well and from Crystal Lake, or Buttermilk Slough, with your check for \$5.25 attached. Also enclosed are Blank Forms No. 1 and 3 with instructions.

We cannot accept applications for permit which claim water from surface source together with water from subterranean water.

The parts relating to the well have been crossed out on the first page of the application you submitted except No. 7, the cost will probably be less. The land list may be changed if you desire. You can use that form or use the blank Form No. 1 to reapply for water from Crystal Lake. The filing fee for 0.5 c.f.s. is \$5.00.

You may use the Form 3 to apply for a permit to divert the water from the well. The filing fee for 1.33 c.f.s is \$5.25.

Two maps should accompany each application.

The legal notice, necessary before proof of beneficial use of the water can be made, can be combined for both permits in one notice.

Very truly yours,

GEO. W. CARTER
