Dear Mr. Nelson:

In checking our files, we can find no assignments or amendments to the original Application for Permit No. G-29057. The proofs have been submitted by Mr. Dean Rogers and as soon as the field examination has been completed, a license will be issued. It is possible that since the proofs were submitted on October 22, 1965, that the property has changed hands. However, no assignments have been received for the permit. We could send you a copy of the permit if you would like to have one, but your letter indicated only copies of the transfers would be required.

Re: 29058 and 29057

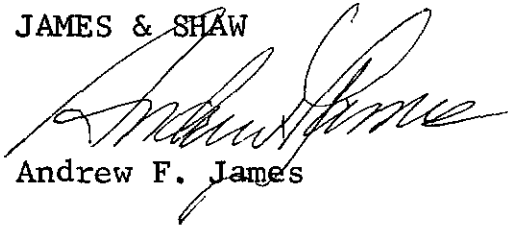

Dear Sir:

It is respectfully requested that you reconsider your decision of October 21st in regard to the above entitled matter. The proofs which have been heretofore submitted will show that the works were completed and the water applied to beneficial use very soon after the date of the permit. The hearing was held on September 22, 1965, but the absence of the Notary Public for several days thereafter by reason of vacation prevented the immediate remittance of the forms to the Department.

It is also respectfully submitted that the 30 days after the time within which the work was to be completed and the water applied to beneficial use would not have expired until October 28, 1965, rather than October 21, 1965, and our file indicates that the depositions and proof of publication were mailed to the Department on October 19, 1965. It is hoped, therefore, that the above and foregoing may be considered as sufficient evidence to prevent cancellation of the above permits.

Very truly yours,

JAMES & SHAW
