Dear Mr. Hansen:

Depositions for the above referenced permit are returned herewith. You will note that question #14 gives the point of diversion as being in the SE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of Sec. 17. We received an amendment on May 1, 1961 changing the point of diversion to the SW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Sec. 17. The notice as published has the point of diversion listed the same as our records.

Since the correct point of diversion is in the SW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Sec. 17, as stated by Mr. Hellyer's letter of October 12, 1964, please correct the depositions and return to this office promptly.

Dear Mr. Thomas:

I have your letter of October 8, 1964 and the enclosures. Thru an oversight I had failed to show the change of Point of Diversion on the Permit so that when it was passed along to my Attorney, Mr. Jack M. Murphy, he was unaware of the change.

I have made the change now on the forms which you provided as another Application for change is not required.

Thank you for calling this to my attention.

Most Sincerely,

RE: Permit G-28910
K.F. Hellyer

K.F. Hellyer
Gannett,
Idaho

Dear Mr. Hellyer:

Receipt is acknowledged for your Notice of Proof of Completion of Works and Application of Water to Beneficial Use. However, we note that you state the point of diversion as being the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 17. On April 24, 1961 we received your amendment requesting a new point of diversion in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 17. Therefore, your permit carries the point of diversion as amended.

If you desire to have the point of diversion back at the original site it will require another amendment, the forms for which are enclosed. The cost for amendment is \$1.00.

Please make the appropriate corrections to the notice and return promptly.

Very truly yours,

CARL E. TAPPAN

Re: Permit No. G- 28910

J. M. Murphy
Attorney at Law
Shoshone, Idaho

Dear Mr. Murphy:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 28910 are due not later than August 4, 1964

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

State Reclamation Engineer
