Permit G28629 (Irvin)

Dear Sir: FOR MR. Loyd Johnson, Field Engineer

We have your letter advising you will be here to inspect our permit between the 13th and 18th, and to please be on the premises.

We both work and the boys are both in school. The only thing I can suggest is if you call us during the evening and make an appointment for the next day, one of us could arrange to be there; or, on the same day, you might call Mrs. Margaret Irvin (John W.) at the Sun Valley Hospital (7263323) and I could arrange to take right off work for an hour and meet you at the house.

I hope one of these solutions is agreeable as otherwise there will be nobody at home unless just accidentally, the boys' grandfather, Mr. George Rice, happened to be there.

Sincerely,

Mrs Margaret Irvin

Mrs. John W. Irvin

(or stop at the Court House in Hailey and see the County Assessor -- Jack (John W.) Irvin, and make some arrangements with him about being there.

Dear Mr. and Mrs. Irvin:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the HAILEY TIMES, all submitted in proof of completion of works and beneficial use on Permit No. G-28629.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

John W. & O. Margaret Irvin,
P.O. Box 552,
Ketchum, Idaho.

Dear Mr. & Mrs. Irvin:

This acknowledges the Notice of Proof of Completion of Works and Application of water to Beneficial Use under Permit No. G-28629. The proofs are to be made at 10:00 o'clock A.M., on the 12th day of April, 1965, before George McCoy, Court House, Hailey, Idaho, Notary Public.

As of this date, we have mailed the Notice to the Hailey Times Hailey, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

DEPARTMENT OF RECLAMATION

Boise, Idaho

Re: Permit No. G- 28629

~~April~~ Feb. 1, 1965

John W. & O. Margaret Irvin
Box 952
Ketchum, Idaho

Dear Mr. & Mrs. Irvin:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 28629 are due not later than Apr. 21, 1965

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.

Very truly yours,

CARL E. TAPPAN

RE: Application for Permit

John W. and O. Margaret Irvin
Box 952
Ketchum, Idaho

Dear Mr. Irvin:

Returned herewith is your application for permit to appropriate subterranean water, with attached \$5.25 check, and with blank application Form 3 which is used to apply for subterranean water.

Under number 2 you claim 10 inches (2 cubic feet) of water. 10 miner's inches of water equals 0.2 cubic feet per second or 90 gallons per minute. The fee for the application claiming up to 1.0 cubic foot of water is \$5.00 and the fee for 1.01 to 2.0 cubic feet of water is \$5.25. The 10 miner's inches of water is probably the amount you require. Your map did not locate the land in Lot 4 of Section 14 unless you were using the 2 inch square as being Lot 4. Below your map we have shown the section as on the Land Survey Plat. Your place is shown in pencil. Two maps are requested. The land description shown under remarks is not necessary as we do not have plats of various towns in the state. Your property is probably listed as a Tax Number or Lot or Block of the Second Addition, Warm Springs Village.

Kindly make your application on the enclosed blank form, correct the amount of water claimed, under remarks show location of property as suggested above, sign as applicant and return with the filing fee according to the amount of water claimed.
