1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Source: Springs at base of a Mountain entering a man made ditch. The springs enter through a 30' area of the ditch. The ditch is .15 mile long & flows eastward, with a depth of 5' to 3', bottom of 18" to 24" and a crest of 30" to 48". The Spring water flows into Warm Springs Creek.

P.D. Mr. Simpson uses Exchange water which he takes out of Warm Spring Creek, wester up stream about .3 mile. At this point River water enters into a 300' x 75' holding pond. Just how the water enters the pond is not visible due to Spring floods. From this pond the water is pumped into an enclosed Sprinkler system.

The Golf course which is irrigated with this water was not used in 1965 Nor was the system turned on.

Dear Mr. Simpson:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the HAILLY TIMES, all submitted in proof of completion of works and beneficial use on Permit No. Q-28093

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Re: Permit No. G-28093

Dear Mr. Thomas:

I am returning herewith the depositions of holder and witnesses in the above permit matter.

The depositions are a matter of typographical error in that the permit as proved listed some properties and then crossed out several of them, and the map showed an unusual sketch which, in fact, apparently represented the pipeline rather than the areas embraced in the permit. Therefore, the corrections have been made and I am herewith submitting again the depositions.

Dear Mr. Kneeland:

Receipt is acknowledged of Proof of Completion of Works and Application of Water to Beneficial Use for Mr. Owen Simpson. However, we note that the Land List given to answer #6 on all three depositions does not agree with the Permit or the Affidavit of Publication. If the Land List has been changed from that listed in the Affidavit of Publication or the Permit an amendment to the permit will be required. The fee for each amendment is \$1.00. Forms are enclosed.

If the depositions are correct, and upon receipt of the amendment, it will require that the proofs again be published at the expense of the permit holder. If the errors are typographical please correct them and return to this office promptly.

Dear Mr. Kneeland:

We received your letter of October 1st in regard to proofs under Permit No. G-28093, which were to have been made July 31, 1964. It would seem that Mr. Simpson should have been able to find two witnesses who could have completed the depositions.

The State Statutes provide that proofs of completion of Works and Beneficial Use of the water must be made at the same time for the original proof. Later proof may be made for beneficial use of the water where all the water had not been used beneficially.

The original proofs are either accepted, without loss of priority or the permit is cancelled. Priority is advanced in case supplemental proof is made of beneficial use of the water.

You obtain the depositions of two witnesses and file in this office with deposition of holder made July 31, 1964, and the affidavit of publication. Also your affidavit of reason for delay in proof of witnesses.

Dear Mr. Tappan:

Mr. Simpson has handed me your letter of September 25, 1964, in regard to the above-numbered permit and the failure to submit proof of completion and beneficial use.

Notice of proof was posted and on the day set for proof the owner appeared to testify but the witnesses did not. I set the matter aside and it was inadvertently, on my part, overlooked until your letter of September 25, above-mentioned.

No one of course appeared to object to the issuance of the license, but on the other hand, testimony of the witnesses was not taken on the day set.

I would ask permission to re-publish the notice of proof of completion and application to beneficial use under provisions of Idaho Code 42-219, setting back the date of priority by the number of days beyond the final date as set out in the permit.

If this is satisfactory to your department, I would appreciate your forwarding the forms to me.

Dear Mr. Kneeland:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-28093, in the name of Owen Simpson. Final Proof is to be made before you, as Notary on the 21st day of July, 19 64, at 10:00 o'clock A.M., at your office in Ketchum, Idaho.

As of this date, we have mailed the Notice to the Hailey Times Hailey, Idaho, with instructions to publish it once a week for 10 consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Owen Simpson
Box 923
Ketchum, Idaho

Dear Mr. Simpson:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 28093 are due not later than **Aug. 14, 1964**

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.
