Re: Permit No. G-28057

Hedley C. Board
Hailey, Idaho

Dear Mr. Board:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-28057 shows the well is (are) capable of conveying ⁴⁷ miner's inches, or ⁹⁴ c.f.s. of water for the irrigation of ¹³⁸ acres.

Upon receipt of the statutory fees, totaling \$ 23.00 , which consists of a Completion of Works fee of \$ 5.00 and License and Certificate of Water Right fee of \$ 23.00 - based at the rate of \$2.00 for each 40-acre subdivision - we will issue the Certificate of Completion of Works and the License and Certificate of Water Right, confirming the right, with priority of July 22, 1959 to the use of ⁹⁴ second feet of subterranean water with the point of diversion in the NW¹/₄SW¹/₄, Sec. 15 for irrigation of 138 acres in the W¹/₂NE¹/₄, E¹/₂SW¹/₄, SW¹/₄, NW¹/₄SE¹/₄, Sec. 15, T. 4 N., R. 17 E., B.M.

Since your permit shows the point of diversion to be in the NE¹/₄SW¹/₄, Sec. 15 it will be necessary to amend the point of diversion before the certificates of water right can be issued. Complete the enclosed amendment form, submit it with the above mentioned fees, plus an additional fee of \$1.00 for recording the amendment, and the certificates will be issued.

RE: Permit No. G-28057

Hedley C. Board
Hailey, Idaho

Dear Mr. Board:

Proof of completion of works and beneficial use received and seems to be in good order except for the land list. The original application stated that you desired to irrigate 159.37 acres for which 150 inches (3.0 c.f.s.) of water was approved.

Under Question 6, on proof, you show as place of use only the NE $\frac{1}{4}$ SW $\frac{1}{4}$, Section 15, Township 4 North, Range 17 East, but that 100 acres have actually been irrigated.

If you wish to include other parcels of land from the original land list in order to take advantage of the full discharge of the pump, send us the legal descriptions of the land and we will enter them on the proofs with your permission. Otherwise the quantity of water proved up on must be reduced to the maximum amount set by statutes of one inch to each acre.
