AFFIDAVIT

OF PUBLICATION

STATE OF IDAHO, } ss.
COUNTY OF CAMAS, }

ORIN N. GARRETT, being first duly sworn, on his oath, states: That he is publisher of the Camas County Courier, a newspaper of general circulation in Camas County, Idaho, published weekly at Fairfield, in said county. That said newspaper has been published in said County uninterruptedly and continuously for over seventy-eight consecutive weeks prior to the first publication of the annexed Notice of Proof of completion of Works, etc.

and that said Notice

was published as per clipping attached, in the regular and entire edition of said newspaper and not in any supplement thereof, in four consecutive issues, the date of the first publication being the 15th day of September, 19 60, and the last publication being the 6th day of October, 19 60

Orin N Garrett

Publisher.

Subscribed and sworn to before me this 13th day of October, 19 60.

T. E. Wokersien

Notary Public Residing in Fairfield, Idaho.

NOTICE OF PROOF OF COMPLETION OF WORKS and APPLICATION OF WATER TO BENEFICIAL USE

NOTICE IS HEREBY GIVEN, That at 2:00 P.M., on the 14th day of October, 1960, at Fairfield, County of Camas, State of Idaho, before T. T. Wokersien, Notary Public, at Fairfield, Idaho, proof will be submitted of the completion of works for the diversion of 3.0 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-26044, heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit is Frank Matthews and Julia E. Coates Box 247, Fairfield, Idaho.

2. Said works of diversion will be fully completed on the day set for such completion, and the amount of water which said works are capable of conveying to the place of use is 1.56 cubic feet per second.

3. The use to which said water has been applied is irrigation, stock, domestic purposes, and the amount applied to beneficial use is 1.56 cubic feet per second.

4. The point of diversion of said water is SE¼SE¼, Sec. 3, T. 1 S., R. 16 E. B. M.

5. The place where said water is used is SE¼ of SW¼, SW¼ of SE¼, Sec. 2; SE¼ of SE¼, Sec. 3; E½ of NE¼, E½ of SE¼, SW¼ of SE¼, Sec. 10; E½ of NW¼, SW¼ of NW¼, NW¼ of SW¼, W½ of SE¼, SE¼ of SE¼, Sec. 11. all in T. 1 S., R. 16 E. B. M.

6. The date of priority which said user is prepared to establish is October 28, 1955.

GEO. N. CARTER,
State Reclamation Engineer.

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 33922
Permit No. G- 26044
District No.

Frank Mathews
% Everett Coates
Fairfield, Idaho.

1. **Name of Applicant:** JULIA COATES and FRANK MATHEWS

   Postoffice address: Fairfield **County:** Camas **State:** Idaho

2. **Quantity of water claimed:** 150 miners inches

   (a) **Rate of withdrawal in cubic feet per second.** 3.0 or Idaho
   Miners' inches 150 or gallons per minute. 1350

   (b) **Annual withdrawal in acre feet per annum** 750

3. **Source of water supply:** Subterranean from drilled 14 inch cased well, 318 feet deep.

4. **Location of point of diversion or well is in the** SE ¼ of the SE ¼ of Section 3

   Twp. 1 So. , **Rge.** 16 E. , **B.M., County of** Camas, Idaho

5. **Water is to be used for:** irrigation 149 inches and one inch for stock watering and domestic uses.

6. If for municipal, industrial or recreational purposes, give:

   (a) **Point of use of water is in the** ¼ of the ¼ of Section , Twp.
   Rge. , **B.M**

   (b) **Waste water or sewage effluent is to be returned to**
   at a point in the ¼ of the ¼ of Section , Twp. , Rge. , B.M.

7. **Kind of works:** drilled and cased well with pump and motor

8. **Estimated cost of works:** $ 5,000.00

9. (a) **Is reservoir to be used?**

   (b) **Capacity of reservoir:**

10. The time required for the completion of such work and complete application of the water to the proposed use is five years.

11. If applicant is a corporation, give:

   I. (a) **Date and place of incorporation:**

   (b) **Amount of capital stock: $** (c) Amount paid in: $

   (d) **Names and addresses of directors:**

   II. The financial resources of the applicant are (a) Cash on hand: $

   (b) **Treasury stock:** (c) Bonds to be issued:

   (d) **Other resources:**

12. The land to be irrigated is described in the following tabulation:

13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None

   (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.

   (b) 3 (cubic feet per second, inches or gallons per minute) is for new lands.

Land to be irrigated by gravity flow [illegible] ditches and pressure system under sprinklers SE¼SW¼ and SW¼SE¼ of Sec. 2; SE¼SE¼ of Sec. 3; E½E½ and SW¼SE¼ of Sec. 10; NE¼ NW¼, S½NW¼, NW¼SW¼, [illegible]SE¼ and S½SE¼ of Sec. 11; NW¼NE¼ of Sec. 14; and the NE¼ of Sec. 15 all in Twp. 1 S., 16 E.B.M.

Log and Description of Well:

14 inch casing - well 318 ft. deep-water standing 90 feet from surface-draw down to 125 ft. on pumping test for 10 hours with 12 in. bowls and [illegible] in. column. Cased 14 in. top to bottom. Perforations 600 with 3/8 in. knife at 110 ft. to 318 ft.

Remarks: 0-3 ft. surface soil, 3-4 ft. hard pan, 4-88 ft. clay, sand, gravel, 88-145 ft. lava some water at 105 ft. 145-160 ft. brown clay, 160 to 190 ft. brown clay, some gravel, 190-205 ft. blue clay and some gravel, 205-209 ft, blue clay,

Re: Permit No, G-26044

Julia Coates & Frank Matthews
Box 247
Fairfield, Idaho

Attention: Julia Coates

Dear Mrs. Coates:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-26044 shows the well is (xxx) capable of conveying 68 miner's inches, or 1.36 c.f.s. of water for the irrigation of 764 acres.

Upon receipt of the statutory fees, totaling $ 45.00 , we will issue the Certificate of Completion of Works (fee $5.00) and the License and Certificate of Water Right (fee $ 40.00 , based at the rate of $2.00 for each 40-acre subdivision) confirming the right, with priority of October 28, 1955 to the use of 1.36 second feet of subterranean water with the point of diversion in the SE¼SE¼, Sec. 3 for domestic and stock watering purposes, and irrigation of 764 acres in the SW¼SE¼, SE¼SW¼, Sec. 2; SE¼SE¼, Sec. 3; E½NE¼, SE¼, Sec. 10; NE¼NW¼, S½NW¼, NW¼SW¼, NW¼SE¼, S½SE¼, Sec. 11; NW¼NE¼, Sec. 14; NE¼, Sec. 15, T. 1 S., R. 16 E.,B.M.

Very truly yours,

GEO. N. CARTER

5. Water is used for: Irrigation, domestic and stock watering

6. State whether or not water has been turned into works of diversion: yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

SE¼SW¼, SW¼SE¼ Sec. 2; SE¼SE¼ Sec. 3; E½NE¼, NE¼SE¼, S½SE¼ Sec. 10; NE¼NW¼, S½NW¼, NW¼SW¼, NW¼SE¼, S½SE¼ Sec. 11; NW¼NE¼ Sec. 14; NE¼ Sec. 15, T. 1 S., R. 16 E., B.M.

This ground is summer fallowed each year. Therefore the same ground is not irrigated each year.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Remarks: Mr Everett Coats along (Son of Julia Coats.)

Most ground is irrigated once each year, whenever possible, twice on seed crops.

Uses 2 ¼ mile sprinkler lines on Portable system to irrigate most of ground.

This examination was made on the 22 day of August, 1961

(Signed) Lorin Johnson
Examiner.

P26044

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

RE: Permit No. G-26044

Julia Coates & Frank Matthews
Box 247
Fairfield, Idaho

Dear Madam and Sir:

We acknowledge receipt of the Deposition of Holder and two witnesses, also affidavit of publication in the Camas County Courier, all submitted in proof of completion of works and beneficial use on Permit No. G-26044.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

Proof of Application of Water to Beneficial Use

and Completion of Works

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Julia Coates and Frank Matthews Box 747 Caemas Co Fairfield Idaho Farming and Stock Raising

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. None

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G-26044 Oct. 28, 1955 10-7-55

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. well SE¼ SE¼ Sec 3 T 1 S R 16 E B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Pump sprinkler system ditches conveying
well is 318 ft deep size of hole 14" water standing from
surface 96' pump test 1000 gal per minute 12" bowls
drawdown 125" of pressure
8" column 14" casing ½ mile of 6" pipe main line 6" and 5" pressure 50 #

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Stock water domestic use Irrigation SE¼ SE¼ of Sec 3, T 1S, R 16 E NE¼ NE¼ of Sec 10.
We raise two crops a year on 80 acres of barley have it
seeded to permanent pasture intermediate wheat grass brome
alfalfa leveled the land for irrigation and will 3/8" kinds

Permit No......

Proof of Application of Water to Beneficial Use and Completion of Works

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. S. E. Frostenson, 49, Fairfield, Idaho, Farmer & Stockman

Ques. 2. Are you acquainted with Julia Coates & Frank Matthews, the holder of Permit No. G 26044? How long have you known him and where does he reside?

Ans. Yes. Have resided within 10 miles of their place all my life

Ques. 3. Have you read or heard read said Permit No. G 26044, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Well- SE¼ SE¼ Section 3, Township 1 South, Range 16 E. B. M. Ditch and sprinkler system

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I have seen 1.56 Cubic feet per second being conveyed and used

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I was at the well when it was tested and saw 700 gallons per minute being pumped. I have also visited the well since then several times and observed the water delivery

G 26044

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation - applied to the SE¼ SE¼ of Section 3, NE¼ NE¼ of Section 10, Township 1 South, Range 16 E. B. M. total of 80 acres. Land leveled and cultivated

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what etxent.

Ans. For irrigation

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Dry land placed under irrigation. 1.56 cubic feet per second

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I farmed land within two miles when well was put in and had the opportunity to see the application of the water on the land. Have observed the system several times since well was put in.

(Signed) S E Robertson

Julia Coates & Frank Mathews

Frank Mathews
c/o Everett Coates
Fairfield, Idaho

Dear Mr. Mathews:

Enclosed is receipt No. G-5249 for $1.50 fee for copy of the permit.

You asked for a copy of "Ground Water Resources of Camas Prairie" by William C. Walton. The Geological Survey, Ground Water Branch, 911 Jefferson, Boise, Idaho, will send you a copy.

Our copy of the report would indicate to me that a well in Section 8 would be similar to the well drilled in Section 4 of the same township. The well log shows that they hit water in lava rock between 90 and 96 feet deep. The depth to water in your proposed well should be about the same, plus or minus the difference in land level.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer

SEP 27 1960
Dept. of Reclamation

Dear Sirs: Re. Well

Your favor of Sept 15, 1960 is received with enclosure of copy of Permit No. G.-26044. for which we thank you.

I am sending check No 837 for $1.50 for copying permit.

No amendment desired.

We are in distress for stock water and for fire protection. I am making a study to do something to provide more water.

Will you please send me a copy of bulletin Ground Water in Camas Prairie by William H. Walton.

Do you think we could find water on my homestead in Sec 5, R 16 E T 1 S Thru is draw across the west side of this place running from the north.

We have dug a well 16 ft deep in this draw,

G26044

found a good supply of cold west soft
water in 1908.
We also made a long reservoir
for stock water cementing it,
this reservoir is about 100 yds
South of my well,
Farther down another reservoir
about 10 ft deep,
but these have all lowered this year
which has been the driest in 50 years,
We have had to haul water to the cattle
while grazing these fields.
Electric power is not economically
available. We use a W6 cat for
power to pump with,
Please tell us about how deep
we would have to go, and the
probable amount of water obtained.
There is a spring farther up this draw
one mile. I found 7 damp places on
this land in 1908.

Very respectfully yours
JE Cooter
BF Matthews

Re: Permit No. G-26044

Frank Matthews & Julia E. Coates,
Box 247,
Fairfield, Idaho.

Dear Mr. Matthews & Mrs. Coates:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-26044 . The proofs are to be made at 2:00 o'clock P.M., on the 14th day of October, 1960, before T. T. Mokerson, Fairfield, Idaho, Notary Public.

As of this date we have mailed the Notice to the Camas County Courier with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

Re: Permit No. G- 26044 Date: Sept. 1, 1960

Julia Coates & Frank Mathews
Frank Mathews
c/o Everett Coates
Fairfield, Idaho

Dear Sir:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- 26044 are due not later than November 4, 1960.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER
STATE RECLAMATION ENGINEER

September 20, 1955

Mrs. Julia E. Coates
Box 306
Fairfield, Idaho

Dear Mrs. Coates:

In reply to your letter of September 16, 1955, we enclose a form of application for permit to appropriate subterranean water from a well together with a pamphlet giving regulations and instructions in regard to filing same.

When this application is approved, it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application.

In order to complete your water right, proofs of Completion of Works and application of the water to Beneficial Use are required. The time required for making these proofs should be indicated under Question 10.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
