H. B. Bickett
Gannett, Idaho

Dear Mr. Bickett:

Enclosed are a precancellation notice, Forms 36 and 11 with instructions, and form for amending the point of diversion.

The proofs were due September 7, 1960, however you were not notified prior to that date.

You withdrew your proofs made August 20, 1957 and requested an extension of time to change your well.

You may complete the two Forms 36 and Form 11 as a notice of your intention to make proofs must be printed in the county paper for four weekly issues before the date you make the proofs. Your permit shows the well to be in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 17, Township 1 South, Range 19 East. If your new well is not in that 40-acre subdivision it will be necessary to amend the permit to show the proper location. There is a recording fee of \$1.00 which should accompany the amendment, if the amendment is necessary.

The well had been operated with sprinkler system, but Mr. Bickett will gravity irrigate in the future. He is leveling his fields and drilling more wells for the purpose.

The well in this permit was dismantled at the time of the inspection. It will be operated in the future. The water stands 8 feet from the ground surface and Mr. Bickett states that it yields 125 Miners inches without drawdown.

Impossible to complete inspection at this time because well not being pumped. Also the 160 acres that had been sprinkled was freshly leveled - Aug. 11 1958

On Sept 2-58 Mr. Bickett requested permission to withdraw proofs and get an extension of time.

He has or is changing his system completely. It is now impossible to make an inspection on the former works.

He has since brought in a flowing well on high spot of his field. He may pass never again use G-25929.
