Mesdames:

We acknowledge receipt of a letter of September 8, 1956, with a check in the amount of \$10.00 enclosed, from Mr. David D. Bramble.

We believe that you misunderstood our letters of September 6, 1956, in connection with each of the above mentioned Permits, in which we stated a Certificate of Completion of Works and a License could be issued upon the receipt of \$10.00. If you will check you will find that our letters read that it required a total of \$10.00 on each of the Permits. Therefore, it will be necessary for you to send us another check in the amount of \$10.00 before a Certificate of Completion of Works and a License can be issued on both Permits.

We will hold the \$10.00 check which we now have until we receive the other \$10.00 check.

If you will give this matter your immediate attention it will be greatly appreciated.

Very truly yours,

These two permits combine a common system.

Upper well is 6" by 185' deep cased to the bottom. Controlled by a valve. This is a flowing well and has a gage pressure of approximately 30 pounds. 1" plastic pipe line from this well to the small storage tank leading into the well house at the lower well. The upper well house is approximately 4' by 5' by 5'. Built against the house chimney and has saw dust for protection around the top of the well. It is approximately 1/4 yards from the upper to the lower well. The temperature of the upper well is 76 1/2° F. Water from the upper well was measured at a little over 17 gpm.

The lower well is situated a short distance from the creek on the west bank of the stream approximately 20 to 30' distant to the SE corner of the house. This well is 185' deep by 6" diameter cased to the bottom, controlled with valves, a flowing well when open. There is a domestic water system with a pressure tank located in this building operated by a 1 1/2 hp G. E. motor and a Berkeley pump size 2 by 1 1/2". Well is approximately 30' from the creek. These two systems serve a cluster of 5 dwelling houses all of which are fully plumbed, with 1/2" pipe and also used for flower, lawn and garden of approximately 2 acres. A check was made at the County Courthouse and also with an aerial photo in the office of the ASC. From these maps it was not possible to tell exactly where the well was located but seemed to be approximately as located on the diagram.

Dear Mr. Kneeland:

We enclose herewith permits Nos. G-25227 and G-25228 in the name of Ulela Bramble, Frances Snook and Dorothy Perry together with departmental receipt No. G-817 for the \$10.00 filing fees.

Although these applications state that the wells are completed, we have allowed two years or until October 25, 1956, within which to make the proofs of Completion of Works and Beneficial Use as probably the water will not be completely applied to Beneficial Use until the other houses are built. However, if the applicants are prepared to make these proofs at an earlier date, we shall be glad to send the necessary forms and instructions upon request.
