Dear Mrs. Thomas -

I'm writing in regard to your notice of April 9 pertaining to Permit No. G-25114. Your notice states that we are required to show cause why said permit should not be cancelled. Due to the letter that's attached and dated 1960 I don't know what I can say. We are in fault and there really isn't a JUST reason why it shouldn't be cancelled is there?

But Oh, I do hope you'll give it more consideration. We depend so upon this water for our crops. As regards this letter of 1960 I don't know how it was over looked but I assure you we were not aware that we owed this \$13.00. We are enclosing it and hope that it will be your decision not to cancel our permit. B25114

If you ~~could~~ continue our perm. We would
be most grateful and would like an application
to claim the excess water for irrigation of the
land in section 8.

I'm terrible sorry that this matter was
over looked and I do hope you will give us
a favorable decision.

Sincerely,
Mrs. J. K. Kline

RE: Permit No. G-25114

W. M. Sherbins
Gannett, Idaho

Dear Mr. Sherbins:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-25114 shows the well is capable of conveying 160 miner's inches, or 3.2 c.f.s. of water for the irrigation of 160 acres.

Upon receipt of the statutory fees, totaling \$13.00, we will issue the Certificate of Completion of Works (fee \$5.00) and the License and Certificate of Water Right (fee \$8.00, based at the rate of \$2.00 for each 40-acre subdivision) confirming the right, with priority of August 15, 1954 to the use of 3.2 second feet of subterranean water with the point of diversion in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 31 for irrigation of 160 acres in the SE $\frac{1}{4}$ of Section 31, Township 1 North, Range 19 East, B.M.

The report of the engineer shows the well produces 4.52 c.f.s. or 1.32 c.f.s. over the amount allowed above which is the amount claimed on your permit, and that you are irrigating 70 acres of land in the NW $\frac{1}{4}$, SW $\frac{1}{4}$ of Section 8, Township 1 South, Range 19 East with the extra water. You may make application for permit to claim the excess water for irrigation of the land in Section 8 on the enclosed Form 3.
