Department of Reclamation

**AFFIDAVIT
OF PUBLICATION**

STATE OF IDAHO, }
COUNTY OF CAMAS, } ss.

ORIN N. GARRETT, being first
duly sworn, on his oath, states:
That he is publisher of the Camas
County Courier, a newspaper of
general circulation in Camas
County, Idaho, published weekly
at Fairfield, in said county. That
said newspaper has been pub-
lished in said County uninterr-
uptedly and continuously for
over seventy-eight consecutive
weeks prior to the first publica-
tion of the annexed Notice.

of proof of comple-
tion of works . . .

and that said Notice

was published as per clipping at-
tached, in the regular and entire
edition of said newspaper and
not in any supplement thereof, in

four consecutive issues,
the date of the first publication
being the

15 day of May,

19 58, and the last publica-
tion being the 5th day of

June, 19 58

Orin N. Garrett
Publisher.

Subscribed and sworn to before
me this 6th day of

June, 19 58.

J. S. Woburn
Notary Public Residing in Fair-
field, Idaho.

Notice is hereby given that
2:00 P.M., on the 19th day of
June, 1958, at Fairfield, County
of Camas, State of Idaho, be-
fore Chas. O. S. Scoggin, No-
tary Public, at Fairfield, Idaho,
proof will be submitted of the
completion of works for the
diversion of 6.4 cubic feet per
second of underground water
from a well, and of the appli-
cation to beneficial use of said
water, in accordance with the
terms and conditions of Per-
mit No. G-24406 heretofore is-
sued by the Department of
Reclamation of the State of
Idaho.

1. The name and postoffice
address of the person holding
said permit are George Petrie,
Fairfield, Idaho.

2. Said works of diversion
will be fully completed on the
date set for such completion,
and the amount of water which
said works are capable of con-
veying to the place of use is
6.4 cubic feet per second.

3. The use to which said wa-
ter has been applied is irriga-
tion and stock water purposes,
and the amount applied to bene-
ficial use is 6.4 cubic feet per
second.

4. The point of diversion of
said water is NW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec.
16, Twp. 1S., Rge. 15 E., B.M.

5. The place where said water
is used is E $\frac{1}{2}$ Sec. 16, Twp. 1S.,
Rge. 15 E., B.M.

6. The date of priority which
said user is prepared to estab-
lish is August 26, 1953.

State of Idaho
License and Certificate of Water Right

Water License No. G-24406 Amount 3.1 c.f.s.
Water District No. Priority August 26, 1953

THIS IS TO CERTIFY that GEORGE PETRIE
of Fairfield, Idaho, made application for a permit to appropriate the
public waters of the State of Idaho, dated August 26, 19 53 ; that Permit No. G-24406
was issued under said application; that Certificate of Completion of works, with a carrying capacity of
3.1 second feet, was issued thereunder on October 10, 19 58, showing that said works
were completed on the 19th day of June, 19 58 ; and that on the 19th
day of June, 19 58, GEORGE PETRIE

of Fairfield, State of Idaho, made proof to the satisfaction of the
State Reclamation Engineer of Idaho, of the right to use the waters of a well
, a tributary of subterranean, for the purpose of Irrigation
, under Use Permit No. G-24406 of the Department of Reclamation
and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
10 of Licenses at page 6438, on the 10th day of October, 19 58 ;
The right hereby confirmed dates from August 26, 19 53 ;
The Point of Diversion is located

in the NW ¼ SE ¼, Sec. 16, Tp. 1 S., R. 15 E., B. M. County Camas

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
not exceed 3.1 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated

APPLICATION FOR PERMIT

To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 32203
Permit No. G- 24406
District No.

1. Name of Applicant: GEORGE PETRIE
Postoffice address: Fairfield County: Camas State: Idaho
2. Quantity of water claimed: 320 miners inches or 6.4 c.f.s.
 (a) Rate of withdrawal in cubic feet per second. 6.4 or Idaho
 Miners' inches 320 or gallons per minute. 2880
 (b) Annual withdrawal in acre feet per annum 1600
3. Source of water supply: Subterranean well
4. Location of point of diversion or well is in the NW $\frac{1}{4}$ of the SE $\frac{1}{4}$ of Section 16
 Twp. 1 S. , Rge. 15 E. , B.M., County of Camas, Idaho
5. Water is to be used for: Irrigation
6. If for municipal, industrial or recreational purposes, give:
 (a) Point of use of water is in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp.
 Rge. , B.M.
 (b) Waste water or sewage effluent is to be returned to
 at a point in the $\frac{1}{4}$ of the $\frac{1}{4}$ of Section , Twp. , Rge. , B.M.
7. Kind of works: Drilled well with pump and motor
8. Estimated cost of works: \$ 10,000.00
9. (a) Is reservoir to be used?
 (b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is five years.
11. If applicant is a corporation, give:
 I. (a) Date and place of incorporation:
 (b) Amount of capital stock: \$ (c) Amount paid in: \$
 (d) Names and addresses of directors:
 II. The financial resources of the applicant are (a) Cash on hand: \$
 (b) Treasury stock: (c) Bonds to be issued:
 (d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None
 (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supplemental to the existing water rights.
 (b) (cubic feet per second, inches or gallons per minute) is for new lands.

Re: Permit No. C-24406
George Petrie

Mr. Charles Scoggin
Attorney At Law
Fairfield, Idaho

Dear Mr. Scoggin:

Our field engineer's report on his inspection of the completion of works and beneficial use of the water under the terms of Permit No. C-24406 shows the well is capable of conveying 155 miners' inches (3.1 c.f.s.) of water for irrigation of 300 acres.

Upon receipt of the statutory fees, totalling \$21.00, we will issue the Certificate of Completion of Works (for which the fee is five dollars) and the License and Certificate of Water Right (sixteen dollars--fee based at the rate of two dollars for each 40-acre subdivision) confirming the right with priority of August 26, 1953, to the use of 3.1 second feet of subterranean water, with point of diversion in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 16, for irrigation of 300 acres in the E $\frac{1}{2}$ of Section 16, Township 1 South, Range 15 East, B.M.

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. G-24406This proof is for C/W & Beneficial Use In Water District No. _____1. Name of applicant George Petrie, Fairfield, Idaho2. Source of water supply: Subterranean well3. Location of point of diversion: Is in the NW 1/4 SE 1/4 of Section 16T. 1 S. R. 15 E. County of Camas Rus

4. Describe works as they exist, giving dimensions and capacities of same: Water is pumped from 125' x 16" well with Layne + Bowler pump #20417 & U.S. Motor #985184-400, both into sprinkler line & Ditch. The ditch water flows to Deer Cr. from which it is put through sprinkler lines with booster pump consisting of Pacific Pump #FIP18953 1/2 International U D It Mounted as a unit for the purpose on a truck trailer.

5. Water is used for: Irrigation6. State whether or not water has been turned into works of diversion: Yes.

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Township 1 South, Range 15 East, B.M.Section 16: NE 1/4 (160 a) SE 1/4 (160 a) Total acres: 320 Rus

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: The Sept. 8 inspection was made in the company of Mr Geo. Petrie.

The pump & motor well installation originally supplied water for gravity irrigation and it was designed for that purpose - hence its efficiency must be low for the sprinkler set-up.

The total length of ^{sprinkler} lateral will not permit the use of more than about 60% the well supply - but prior to the use of the sprinklers all of the water could be used in the gravity irrigation system

This examination was made on the 8 day of Sept., 1958(Signed) James H. Hark

Examiner.

Re: Permit # G-24406

Mr. George Petrie
Fairfield, Idaho

Dear Mr. Petrie:

Statutes requires a field inspection in connection with the proofs on Permit # G-24406 before license and certificate of water right can be issued.

Such inspection and report on same is required for any and all permits being brought to license within this State.

An inspecting Engineer from this Department requests that you or someone familiar with the terms of the permit and representing you be prepared to accompany him on the inspection, on Monday,

August 11, 1958.

If he cannot get in touch with you by phone or otherwise he will drive to the well location or point of diversion given in the permit.

Very truly yours,

Dear Mr. Petrie:

This acknowledges the depositions of Holder and two Witnesses and the Affidavit of Publication in the Camas County Courier in proof of completion of works and beneficial use under Permit No. G-24406.

Before a permit can be licensed the law requires that a field examination be made by an engineer from this department. At this time we cannot say just when this will be made but our field engineer will contact you prior to the time he is to make the inspection so that you can arrange to accompany him.

Very truly yours,

Permit No. G-24406

Proof of Application of Water to Beneficial Use

and Completion of Works

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. George Petrie, Fairfield, Idaho, farmer, Fairfield, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. _____

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. G-24406, August 26, 1953, (August 25, 1953).

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. an irrigation well located in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 16, Twp. 1S., Rge. 15 EBM

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. 40 ft. 2 $\frac{1}{2}$ " casing then 120 ft 22" casing to bottom of well. Well pumps into cement box and then out gravity flow to the land also sprinkley system is used being 84 nozzles putting out 7 $\frac{1}{2}$ gal. per minute under 45 lb. pressure. There is produced 150 inches of water. Water raises to 22 ft. from top and pumps down to 89 ft. Pump discharge is 10 inches and measured by Inter-Mt. Equipment Co. with usual devise in 1953.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation and stock use. Waters the E $\frac{1}{2}$ Sec. 16, Twp. 1S., Rge. 15 EBM It irrigated each 40 acres in the above property and they have all actually been so irrigated. This is all cultivated land and was dry grain lands until this well was developed. It has been improved by being able to have the water when needed and not having to rely on nature for the moisture. It has increased production a good half.

J 24406

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. just a little for stock watering during pasture times.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 160 miners inches and spread over the entire acreage. Well is now producing more than the original 150 inches, when measured.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. original holder.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. First applied water in 1954 using it all for gravity flow application to the land this continued until summer of 1954 late when sprinklers were purchased and installed and every year since both methods have been used. Water whole 320 acres using mostly sprinkler application.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. this is the only water used or usable upon the above lands.

Permit No. G-24406

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Tom Wokersien, 64, Fairfield, Abstractor and farmer. Fairfield, Idaho.

Ques. 2. Are you acquainted with George Petrie, the holder of Permit No. G-24406? How long have you known him and where does he reside?

Ans. Yes well acquainted with Mr. Geo. Petrie, and have known him well 24 years and he resides in Fairfield, Idaho.

Ques. 3. Have you read or heard read said Permit No. G-24406, and are you familiar with its provisions and conditions?

Ans. Yes I have read it and am familiar with its provisions.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. a well in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 16, Twp. 1S., Rge. 15 EBM. This is diverted from the well into a cement box and gravity flowed upon the lands, also some goes into a pressure system and is sprinkled upon the lands, both being done at the same time during the heavy irrigation season.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 160 inches and I have seen it all so used.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. 160 miners inches and I just estimated it from the flow away from the well.

24406

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Used for irrigating the E¹/₂ Sec. 16, Twp. 1S., Rge. 15 EBM. I have seen it so used over all of the above described lands. This is all dry land all cultivated dry grain lands. This water has been applied on all of this land since 1954 to my knowledge. I beleive this has increased the production about one-half.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what etxent.

Ans. some little use as stock water.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. All land was farmed as dry land before and now is irrigated giving a better production return from watering. I estimate it takes 160 inches of water and that is used for that purpose.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. none

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen this so applied since 1954 by both gravity flowing on land and also sprinlling the lands. It has been applied to the full flow of the well since that time.

(Signed)

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in _____ Fairfield _____, County of Camas _____, State of Idaho, on this 19th day of June _____, A. D. 19⁵⁸.

Permit No. G-24406

Proof of Application of Water to Beneficial Use
Deposition of Witness **and Completion of Works**

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. John H. Bahr, 73, Fairfield, Idaho, farmer, Fairfield, Idaho.

Ques. 2. Are you acquainted with George Petrie, the holder of Permit No. G-24406? How long have you known him and where does he reside?

Ans. Yes I am acquainted well with Geo. Petrie and I have known him well for 24 years.

Ques. 3. Have you read or heard read said Permit No. G-24406, and are you familiar with its provisions and conditions?

Ans. Yes and I am familiar with its conditions.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. A well in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec.16, Twp.1S., Rge.15 EBM. It is diverted directly from the well in gravity flowing ditches as well as under a pressure system to sprinklers. It is applied to the whole 320 acres.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. I beleive it flows about 3.2 cfs or 160 miners inches away from the pump and I have seen this since 1954.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. Approximately 160 miners inches and I estimated it from the flow thereof in an open ditch.

24406

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Used for irrigation of the said 320 inches. It covers each 40 in the whole 320 acres. All cultivated dry grain lands and this has improved the productivity of this land about 50 per cent over the dry land before.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. used some for stock water.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. No land reclaimed as it has been cultivated as dry land before. I beleive it takes at least 160 inches to properly and minimum use for irrigation and could use twice that amount, and profitably.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. none

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen this water so applied most every year since 1954 as we are neighbors and I have been watching it closely as a new type improvement in this area. I have gone over the improvement closely and also over the land and observed the change in production brought about by this type irrigation. I have seen it applied to all of the said 320 acres.

RE: Permit No. G-24406
George Petrie

Mr. Charles Scoggin
Attorney at Law
Fairfield, Idaho

Dear Mr. Scoggin:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-24406, in the name of George Petrie. Final proof is to be made before you as Notary on the 19th day of June at 2:00 P.M.

As of this date we have mailed the Notice to the Camas County Courier with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the Permit holder and his two disinterested witnesses, who are familiar with the terms of the Permit and the work done thereunder, at the time, on the date, and, before you as Notary as stated in the publication Notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each, and, that all depositions (Holder and two Witnesses) are being returned. Also, be sure to enclose the Affidavit of Publication.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

**NOTICE OF PROOF OF COM-
PLETION OF WORKS and AP-
PLICATION WATER TO
BENEFICIAL USE.**

Notice is hereby given that 2:00 P.M., on the 19th day of June, 1958, at Fairfield, County of Camas, State of Idaho, before Chas. O. S. Scoggin, Notary Public, at Fairfield, Idaho, proof will be submitted of the completion of works for the diversion of 6.4 cubic feet per second of underground water from a well, and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G-24406 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person holding said permit are George Petrie, Fairfield, Idaho.

2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use is 6.4 cubic feet per second.

3. The use to which said water has been applied is irrigation and stock water purposes, and the amount applied to beneficial use is 6.4 cubic feet per second.

4. The point of diversion of said water is NW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 16, Twp. 1S., Rge. 15 E., B.M.

5. The place where said water

is used is E $\frac{1}{2}$ Sec. 16, Twp. 1S., Rge. 15 E., B.M.

6. The date of priority which said user is prepared to establish is August 26, 1953.

MARK R. KULP,
State Reclamation Engineer.
Publish May 15, 22, 29, and
June 5, 12, 1958.
