Dear Mr. Fields:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Camas County Courier, all submitted in proof of completion of works and beneficial use on Permit No. 24340.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Dear Mr. Elam:

This acknowledges the Notice of Proof of ~~Completion of Works and~~ Application of Water to Beneficial Use under Permit No. 24340, in the name of E. E. Fields. Final Proof is to be made before you, as Notary on the 10th day of September, 19 63, at 11:00 o'clock A.M., at Gooding, Idaho.

As of this date we have mailed the Notice to the Camas County Courier Fairfield, Ida. with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

Re: Permit No. 24340

Date:
June 3, 1963

E. E. Fields
Gooding, Idaho

Dear Mr. Fields:

The date for proof of application of water to beneficial use, as set out under the terms of Permit No. w 24340 is due not later than Aug. 7, 1963. If by this date you are not prepared to make this proof, you may make it at a later date, however, your priority will be advanced the same length of time for which the proof is late.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county.

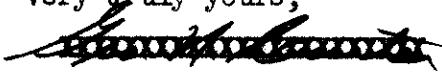

We enclose Form 10, in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof. This form, in duplicate, is to include the time of day, the date, the name of the town, the address of the Notary Public before whom you will appear to make the depositions of proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use or lands which are irrigated - by legal land description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 10.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set and at the place named, before the Notary Public, as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by field inspection to have been irrigated at the time of proof.

Dear Mr. Fields:

Acknowledgment is made of Completion of Works Proof by yourself and two witnesses.

On September 22, 1958, we returned the above proof to you for corrections and completion of unanswered questions. Since the corrections were not made we are again returning the proof to you for completion.

Before a Certificate of Completion of Works can be issued it is essential that you enter the answers to all questions mentioned in the above letter, a copy of which is enclosed.

Since the permit is now considerable overdue it is necessary that this matter is given your immediate attention.

Re: Permit No. 24340

Mr. Ernest E. Fields,
Gooding, Idaho

Dear Mr. Fields:

We have had no reply to office letter addressed you on September 22nd, 1958, returning your affidavit submitted in proof of completion of works on Permit No. 24340.

Since it is now more than two months since August 7, 1958, the date these proofs were due, Permit No. 24340 is subject to cancellation for failure to make the proof within the required time.

Of course, if the works were actually completed within the statutory limit, the proofs can still be made, as indicated in our letter of September 22nd; but it is important that the matter be given your prompt attention, if the permit is to be continued in good standing.

We return herewith your check for the \$5.00 fee which accompanied your affidavit.

Very truly yours,

GEO. N. CARTER

Re: Permit No. 24340

Mr. Ernest E. Fields,
Gooding, Idaho

Dear Mr. Fields:

We return your Affidavit submitted in proof of Completion of Works on Permit No. 24340, for the following corrections:

1. Question 5 should give the use for which the water is intended, which the permit states is irrigation.
2. The permit describes the kind of works as "diversion dam, dike, pump to lift water into open ditches"; but Question 6-I of the affidavit only mentions a ditch. Have the dam, etc. been constructed?
3. Question c-II should give the dimensions of the works; that is, the height of the dam (if any has been constructed), the dimensions of the conduit (or pipe), and if a pump has been installed, the kind and capacity.
4. Question 7 should state the amount of water which the works are capable of conducting to the place of use.
5. Question 8 should give the legal description of the land, by sub-division, section, township and range.

Our records show that this proof was due on or before August 7, 1958, as per notice sent you on June 1st, but your proof is dated September 18, 1958. It will, therefore, be necessary to furnish proofs that the work was completed on or before the due date of August 7, 1958.

Please have the enclosed depositions executed before a Notary Public by two disinterested witnesses, who are familiar with the terms of your permit and the work done thereunder. These depositions should describe the works fully, and should state definitely, under Question 5, that they were completed prior to August 7, 1958 (if such is the case).

Meanwhile, we hold to your credit your check for the \$5.00 fee which accompanied your affidavit.

Very truly yours,

GEO. N. CARTER

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

RE: Permit No. 24340

Boise, Idaho June 1, 1958

E.E. Fields
Gooding, Idaho

Dear Sir:-

Under the terms of your permit No. 24340 you are required to complete your diversion works on or before August 7, 1958. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
