DEPARTMENT OF RECLAMATION

In the Matter of the Reinstatement of
Permit No. 21839 Under the Provisions
of Section 42-311, Idaho Code.

ORDER REINSTATING PERMIT

WHEREAS, Permit No. 21839 lapsed through failure of the holder to make proof of completion of the works of diversion within the time specified in the Permit, to-wit: March 26, 1951; and,

WHEREAS, On the 20th day of June, 1951, notice to show cause why said permit should not be canceled, under the provisions of Section 42-311, Idaho Code, was duly served on the holder of said permit; and,

WHEREAS, On the 30th day of June, 1951, the holder filed an affidavit to the effect that the well was completed and the pump installed, but on account of delay of the Idaho Power Company to bring the power line to said well, they were unable to complete same within the required time, but that the works are now fully completed, and,

WHEREAS, On the 3rd day of July, 1951, affidavit of the holder was received at the Department of Reclamation, showing that the said works of diversion were completed.

IT IS, THEREFORE, Hereby Ordered that said Permit No. 21839 be, and the same is, hereby reinstated, and that a certificate of completion of works be issued to the applicant herein.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the official seal of this Department, at Boise, Idaho, this 10th day of July, 1951.

RE: Permit No. 21839

Mr. Chandler C. Griffin
Box 628
Buhl, Idaho

Dear Mr. Griffin:

The report of our field engineer on examination for beneficial use under Permit No. 21839, shows that your well in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 2, Township 2 South, Range 21 East, B.M., will deliver 189 $\frac{1}{2}$ inches of water and that you have irrigated 465 acres of land in the S $\frac{1}{2}$ NW $\frac{1}{4}$ and SW $\frac{1}{4}$ Section 2, E $\frac{1}{2}$ SE $\frac{1}{4}$ Section 10, W $\frac{1}{2}$ NW $\frac{1}{4}$ and W $\frac{1}{2}$ SW $\frac{1}{4}$ Section 11, same township and range.

Therefore, upon receipt of the statutory fee of \$24.00, which is at the rate of \$2.00 for each 40 acre subdivision in which the land is located, a license will be issued for 189 $\frac{1}{2}$ inches, or 3.79 second feet of water from said well.

Dear Mr. McFadden:

Your letter, dated December 7, 1951, but post-marked January 19, 1952, reached us this morning, enclosing depositions of Chendler C. Griffin and two witnesses, also affidavit of publication in the Hailey Times, all submitted in proof of beneficial use under Permit No. 21839.

Before final action is taken in the matter, the law requires that an examination be made by an engineer from this department.

We cannot say just when this examination will be made as this department has but one field engineer who makes examinations all over the State.

However, he will try to contact Mr. Griffin at the time the examination is made so that arrangements may be made to show him over the grounds.

**NOTICE OF PROOF APPLICATION
OF WATER TO BENEFICIAL USE**

Notice is hereby given that at 10 A. M. on the 7th day of December, 1951, at Hailey, County of Blaine, State of Idaho, James C. Chandler, Notary Public, proof will be submitted of the application to beneficial use of 3 (three) cubic feet per second of the waters of a well, subterranean flow in accordance with the terms and conditions of Permit No. 21839 heretofore issued by the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are Chandler C. Chandler, Box 100, Hailey, Idaho.

The use to which said water has been applied is irrigation.

The amount of water beneficial use is 3 (three) cubic feet.

The place where said water is used is NW 1/4 and SW 1/4, Section 10, Township 10N, Range 12E, Blaine County, Idaho; and NW 1/4, Section 11, all being in Township 10 North, Range 12E, Blaine County, Idaho.

The basis of the amount of ditch or pipe capacity which said water is applied to such place of use is several ditches situated on said place.

The source of supply from which such water is based upon Permit No. 21839.

The source of supply from which said water is based upon Permit No. 21839 is from a well in the NW 1/4, Section 2, Twp. 2 South, Range 12E, Blaine County, Idaho.

Witness my hand and seal of office at Hailey, Idaho, this 21st day of November, 1951.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. -----

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. 21839, dated Dec. 26, 1950, and date of priority, December 26, 1950.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Source of water is from underground flow, tapped by well, and pumped with turbine pump and 40 H.P. electric pump motor; exact point of diversion being approx 490 ft East and 396 ft South from NW corner SW 1/4 Sec. 2, Twp. 2 S., R. 21 E. B.M., Blaine County, Idaho

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Works of diversion are 14" cased well, turbine pump, 40 H.P. electric motor; well 225 ft deep, discharging into irrigation ditch on premises, and from there carried throughout land to be irrigated; pump discharges 3.6 cu. ft per sec, and not less than 3 cu. ft per second, flow varying; measured by drillers by pressure at discharge point, and also estimate of flow in ditch. Well 225 ft deep, cased with 14" casing 148 ft deep; depth to water 55 feet.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water used to irrigate following lands: S 1/2 NW 1/4 Sec. 2; SW 1/4 Sec. 2; W 1/2 NW 1/4 Sec. 11; W 1/2 SW 1/4 Sec. 11; E 1/2 SE 1/4 Sec. 10, All Twp 2 S. R. 21 E. B.M., 480 acres, all cultivated, and the improvements made as direct result of use are the increase in productivity of this land; have grown during 1951 season, hay, grain, seed, and pasture; without use of this water the yield would have been materially less

21839

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. All for irrigation.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Full flow of pump, varying from 3.6 to 3.0 cu. ft per sec. were used, starting about July 15, 1951 and running continuously until about September 10, 1951, all for irrigation on above described premises.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. Have 470 acre foot storage right Little Wood River Irr. Dist; 220" in decreed rights Little Wood River, with varying priority from 1883 to 1890 appurtenant to premises. 22 shares stock Little Wood River Canal Co stock--. Actually have approx 1 acre foot per acre of land. These waters used annually, but many years no real benefit derived after July 15. Year 1951, the water held up fairly well, but even so, pump water needed to properly mature crops.

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Hailey, County of Blaine, State of Idaho, on this 7th day of December, A. NOTICE TO ACCOMPANY THIS LETTER MUST BE MADE IN DUPLICATE

(Date) October 30, 1951

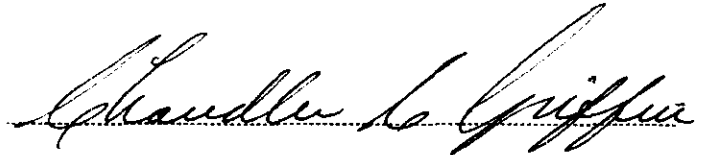

(P. O.) Box 628, Buhl, Idaho

TO THE STATE RECLAMATION ENGINEER:

Boise, Idaho.

Dear Sir:

You are hereby authorized to have the attached notice published at my expense in the
Hailey Times of Hailey, Idaho published in
the county in which the works are situated.

(In case of canals or other works designed to divert and carry more than 50 cubic feet of water per second, the following certificate must be signed by a well-known and competent engineer.)

I hereby certify that the facts set forth in the attached notice are true.

Engineer.

Dear Mr. Griffin:

Reference is made to your letter of October 27, 1951,
in regard to proof of beneficial use under Permit No. 21839.

It is not necessary to have the water measured by an
engineer from this department before making proof of beneficial
use, nor is it even customary to have this done until after
the proof has been made.

The notice should state that you intend to make proof
on the amount applied for, or whatever amount your pump is
able to deliver up to the amount applied for.

Very truly yours,

Dear Mr. Kulp:

I have been advised that before one can complete Form #10, "Notice of Proof Application of Water to Beneficial Use", that it is necessary to have the water measured by one of your representatives.

I was not aware of this requirement, but if such be the case, am wondering if a measurement could be made in the near future so as to enable me to complete my Forms #10.

The pump at the present time is turned off, but could be connected on a day's notice so that a measurement could be taken.

I realize that this is late in the season for such business but I have been incapacitated and hospitalized since mid-July, so am behind in my work.

Yours very truly

Box 628
Buhl, Idaho

Dear Mr. Griffin:

Reference is made to your letter of September 15, 1951, requesting necessary forms for proof of beneficial use under Permit No. 21839.

The statutes require publication of the notice in a county newspaper, once a week for four consecutive weeks prior to making this proof. The notice should be made in duplicate on Form 10 enclosed, setting the time and place and naming the Notary Public before whom the proof is to be made. The time, of course, should be set sufficiently far ahead to allow for four weeks publication, and the proof may be made at Buhl or any place convenient for yourself and your two witnesses.

Both copies of Form 10 to be returned to this department together with Form 11, which is your authorization for us to have the notice published at your expense in the designated county newspaper.

That said Permit provided for completion of works by March 26, 1951. That proof of such completion of works has not been heretofore made for the following reasons: That the applicant and permit holder has completed drilling of the well, casing of the well and installation of pump. That your applicant had made numerous requests to the Idaho Power Company to bring power line to the said well and that they were unable to complete the said line within the time prescribed and that the said line has just been completed within the past 5 days. That with the completion of the said line the said well and irrigation works are now fully complete and that your applicant is now ready, willing and able to submit full proof of completion of works. That all of said work had been completed prior to March 26, 1951, except for the bringing of the power line to the said well and that the delay in that particular was due to no fault of your applicant but due only to the fact that the power company could not get required materials.

Wherefore applicant prays that the State Reclamation Engineer grant to applicant the right to submit proof of completion of works within such time as the State Reclamation Engineer shall designate.
