NOTICE OF PROOF APPLICATION
OF WATER TO BENEFICIAL USE

Notice is hereby given that at 11:00 A. M. on the 31st day of January, 1953, at City of Hailey, County of Blaine, State of Idaho, before Joseph McFadden, Notary Public, proof will be submitted of the application to beneficial use of Three (3) cubic feet per second of the waters of underground water in accordance with the terms and conditions of Permit No. 20827 heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are George Brueneel, Gannett, Idaho.

The use to which said water has been applied is irrigation of agricultural lands.

The amount applied to beneficial use is Three (3) cubic feet per second.

The place where said water is used NE $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 33, Township 1 North, Range 19 East of the Boise Meridian, Blaine County, Idaho.

The name of the canal or ditch or other works by which said water is conducted to such place of use is well and pump on lands of applicant and permit holder.

The right to take water from such works is based upon Permit No. 20827.

The source of supply from which such water is diverted is underground waters from a well in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 33, Twp. 1 N., Range 19 E., B. M.

The date of priority which said user is prepared to establish is September 4, 1950.

**NOTICE OF PROOF APPLICATION
OF WATER TO BENEFICIAL USE**

Notice is hereby given that at 11:00 A. M. on the 31st day of January, 1953, at City of Hailey, County of Blaine, State of Idaho, before Joseph McFadden, Notary Public, proof will be submitted of the application to beneficial use of Three (3) cubic feet per second of the waters of underground water in accordance with the terms and conditions of Permit No. 20827 heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are George Brueneel, Gannett, Idaho.

The use to which said water has been applied is irrigation of agricultural lands.

The amount applied to beneficial use is Three (3) cubic feet per second.

The place where said water is used NE $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 33, Township 1 North, Range 19 East of the Boise Meridian, Blaine County, Idaho.

The name of the canal or ditch or other works by which said water is conducted to such place of use is well and pump on lands of applicant and permit holder.

The right to take water from such works is based upon Permit No. 20827.

The source of supply from which such water is diverted is underground waters from a well in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 33, Twp. 1 N., Range 19 E., B. M.

The date of priority which said user is prepared to establish is September 4, 1950.

NOTICE OF PROOF APPLICATION
OF WATER TO BENEFICIAL USE

Notice is hereby given that at 10 A. M. on the 11th day of March, 1950, at Hailey, County of Blaine, State of Idaho, before Joseph McFadden, Notary Public, proof will be submitted of the application to beneficial use of 3 cubic feet per second of the waters of a drilled well in accordance with the terms and conditions of Permit No. 20827 heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are George Bruneel, Sun Valley, Idaho (formerly Gannett, Idaho).

The use to which said water has been applied is irrigation.

The amount applied to beneficial use is three (3) cubic feet per sec.

The place where said water is used NE $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 33, Twp. 1 N., R. 19 E.B.M., Blaine County, Idaho.

The name of the canal or ditch

or other works by which said water is conducted to such place of use is unnamed.

The right to take water from such works is based upon Permit No. 20827.

The source of supply from which such water is diverted is a drilled well located in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 33, Twp. 1 N., Rge. 19 E., B.M.

The date of priority which said user is prepared to establish is November 4, 1948.

APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Idaho

37-2496

APPLICATION No. 28373
 PERMIT No. 20827
 DISTRICT No.

1. Name of Applicant: GEORGE BRUNEEL

Postoffice address: Gannett

County: Blaine

State: Idaho

- I. If applicant is a corporation, give:
- (a) Date and place of incorporation:
 - (b) Amount of capital stock:
 - (c) Amount paid in:
 - (d) Names and addresses of directors:

- II. The financial resources of the applicant are:
- (b) Treasury stock:
 - (d) Other resources:

- (a) Cash on hand:
- (c) Bonds to be issued:

2. Quantity of water claimed: Three (3) cubic feet per second.

3. Source of water supply: Well and pump- well drilled at 70 ft which is a tributary of

4. Location of point of diversion: 35 ft. E. and 5 ft. S, feet distant from the N W
 of NE $\frac{1}{4}$ SW $\frac{1}{4}$
 corner of Section 33, T. 1 N., R. 19 E., B.M., and is in the NE $\frac{1}{4}$ SW $\frac{1}{4}$
 of Section 33, T. 1 N., R. 19 E., B.M., County of Blaine

5. Water is to be used for Irrigation and domestic purposes

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section
 T., R., B.M., in the of Section, T., R., B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet
 distant from the corner of Section, T., R., B.M., in the
 of Section, T., R., B.M.

7. Estimated cost of works: \$ 3,400.00

8. Kind of works: 8" centrifugal pump, with 30 H.P. electric motor, discharging into ditch already there ,

9. Height of dam feet; length of dam at top feet; length of dam at bottom
 feet; material used in dam:

10. Size of headgate: Width feet; height feet.

11. Ditch: Width at bottom 2 $\frac{1}{2}$ feet; width at water line 3 feet; depth of water 10" feet;
 dimensions of flume:

Diameter of pipe inches; length of conduit miles.

Average grade per mile 8 feet.

12. The time required for the completion of such work is Completed years.

13. The time required for the complete application of the water to the proposed use is One additional years.
 Water already having been used during August and September, 1948.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: 80" of '84 Big Wood River, as shows
 in State Land Contract 21067

RE: Permit No. 20827

Mr. George Bruncel
Gannett
Idaho

Dear Mr. Bruncel:

We enclose License and Certificate of Water Right issued under Permit No. 20827, confirming your right to the use of 2.4 second feet of water from a well in the NE 1/4 S 1/4 Section 33, Township 1 North, Range 19 East, B.M., with priority of September 4, 1950, for irrigation and domestic use on the E 1/4 S 1/4 of said section.

We also enclose departmental receipt No. 26298 for the \$4.00 fee paid in connection therewith.

Mr. McFadden's letter indicates that you wish to have this recorded in the Recorder's office of Blaine County. However, it is not really necessary to have the license recorded there as it is recorded in this department. Of course, if you wish to have it recorded that will be all right as some people do like to have the record in the County, but it is not really necessary.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

RE: Permit No. 20827
Mr. George Bruneel
Gannett, Idaho

Dear Mr. Kulp:

Mr. Bruneel brought into me today dated August 31st, your letter. Apparently this letter had been mixed up in some of Mr. Bruneel's papers and was only discovered in the last day or two. He wishes to apologize for the delay in forwarding the check in the amount of \$4.00 which is enclosed herewith.

It would be appreciated if you would forward the certificate in regard to this matter directly to Mr. Bruneel directly at Gannett, Idaho, so that he can have the matter recorded in the recorder's office, Blaine County, Idaho, immediately upon its receipt.

We wish to thank you sincerely for your consideration and cooperation in this matter.

Yours truly,

Joseph McFadden

RE: Permit No. 20827

Mr. George Bruneel
Cannett
Idaho

Dear Mr. Bruneel:

The report of our field engineer on examination for beneficial use under Permit No. 20827 shows that you have irrigated 80 acres in the E $\frac{1}{2}$ SW $\frac{1}{4}$ Section 33, Township 1 North, Range 19 East, B.M.

Since 1 $\frac{1}{2}$ inches per acre are considered necessary for proper irrigation in that locality, the license can be issued for 120 inches, or 2.4 second feet, upon receipt of the statutory fees of \$4.00.

Very truly yours,

INSTRUCTIONS TO EXAMINERS

- 1. Always carefully note the location of the point of diversion and accurately plat same.
- 2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
- 3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
- 4. If any unusual conditions are discovered, make plain statement of them under remarks.
- 5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
- 6. Give general characteristics of soils, topography, and crops raised.

RE: Permit No. 20827

Mr. Joseph McFadden
Attorney at Law
Hailey, Idaho

Dear Mr. McFadden:

We acknowledge receipt of your letter of February 4, 1953, enclosing depositions of George Bruneel and two witnesses, also affidavit of publication in the Hailey Times, all submitted in proof of beneficial use under Permit No. 20827.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact Mr. Bruneel at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

**NOTICE OF PROOF APPLICATION
OF WATER TO BENEFICIAL USE**

Notice is hereby given that at 11:00 A. M. on the 31st day of January, 1953, at City of Hailey, County of Blaine, State of Idaho, before Joseph McFadden, Notary Public, proof will be submitted of the application to beneficial use of Three (3) cubic feet per second of the waters of underground water in accordance with the terms and conditions of Permit No. 20827 heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are George Brueneel, Gannett, Idaho.

The use to which said water has been applied is irrigation of agricultural lands.

The amount applied to beneficial use is Three (3) cubic feet per second.

The place where said water is used NE $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 33, Township 1 North, Range 19 East of the Boise Meridian, Blaine County, Idaho.

The name of the canal or ditch or other works by which said water is conducted to such place of use is well and pump on lands of applicant and permit holder.

The right to take water from such works is based upon Permit No. 20827.

The source of supply from which such water is diverted is underground waters from a well in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 33, Twp. 1 N., Range 19 E., B. M.

The date of priority which said user is prepared to establish is September 4, 1950.

20827 MARK R. KULP
State Reclamation Engineer
1-1 to 1-22, 1953

Affidavit of Publication

STATE OF IDAHO, }
County of Blaine, } ss.

BERWYN BURKE, being first duly sworn deposes and says that he is now and at all times herein mentioned has been the publisher of The Hailey Times, which is now, and at all times herein mentioned has been a newspaper as defined in Section 58-106 of the Idaho Code Annotated as amended by Chapter 38 of the Laws of 1939, and printed, regularly issued and published weekly at Hailey, in Blaine County, Idaho, and having a general circulation in said county, and not less than 200 bona fide subscribers living within said county, and that said newspaper has been continuously and uninterruptedly so printed and published as a weekly newspaper in said county during the period of 78 consecutive weeks prior to the first publication of the annexed true copy and at all times since, and that said annexed true copy was so published in the regular edition of said newspaper, The Hailey

Times, and not in any supplement thereof, for four consecutive weeks commencing with the first publication thereof on the

1st day of January, 1953
and ending with the last publication thereof on the

22nd day of January, 1953

Cost of this publication is \$ 14.70

20827

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 20827

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. George Bruneel, Gannett, Idaho, farmer, P.O. Address: Gannett, Ida.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. ----

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Number of permit: 20827, dated Dec. 31, 1948; and date of priority of at least July 1, 1949--water used since 1947.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Water supply is from underground flow, raised by pump (Pomona, with 35 H.P. electric motor), and this located in NW corner of NE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 33, Twp 1 N. R. 19 E. B. M., Blaine County, Idaho.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined.

Ans. Works consist of Pomona pump, 35 H.P. electric motor, pump having 8" capacity--so-called with 6" discharge pump, this pumping into irrigation ditch leading into fields. The well is 70 feet deep, 14" casing going down 770" feet, and being 20 feet to water, when water level is up. Discharge of pump is 160 miners' inches, this being determined by measurements over a weir.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. This water is used for irrigation of E $\frac{1}{2}$ SW $\frac{1}{4}$ Sec. 33 Twp 1 N. R. 19 E. B. M., Blaine County, Idaho, the acreage under cultivation being 80 acres. This is cultivated land and by use of this water on this land, it has made this property able to raise and mature crops of hay and grain profitably. Without the use of this water, it was almost impossible to completely mature crops on this land. The use of this water makes the difference between a profitable and a non-profitable operation. This land is gravelly in nature and requires a heavy amount of water to cover it. Without a good flow, it is impossible to irrigate this land

20827

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. The absolute minimum amount of water would be 3 miners' inches to the acre, to mature crops.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. The water raised by this pump has been used since July 1947, the first year it was installed, and the whole flow of this pump has been used each year during irrigation season after about July 1 to July 10 of each year since installed. This has been at least 160 miners' inches. The pump is used continuously during irrigation season after once turned on.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. To the E $\frac{1}{2}$ SW $\frac{1}{4}$ Sec. 33, Twp 1 N. 19 E.B.M., there is decreed 80" of waters Big Wood River, under Frost Decree, with date of priority of 10-15-1884. This land being purchased under State of Idaho Land Sale Certificate, and legal title to land is still in State of Idaho.

(Sign) *George Brunel*

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in *Hailey*, County of *Blaine*, State of Idaho, on this *31st* day of *January*, A. D. 1953.

My commission expires *April 12, 1955*

Joseph M. Gaddan
Notary Public

20827

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 20827

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Clarence Allred, age 53, Gannett, Idaho, farmer

Ques. 2. Are you acquainted with George Bruneel, the holder of Permit No. 20827? How long have you known him and where does he reside?

Ans. Yes. I have known Mr. Bruneel 6 years; he resides at Gannett, Idaho, on property adjoining my ranch on the west.

Ques. 3. Have you read or heard read said Permit No. 20827, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Water supply is from underground flow, and it is pumped with Pomona pump, with 6" discharge, well and pump situate in Northwest corner of NE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 33, Twp 1 N.R. 19 E.B.M. Blaine County, Idaho, pump discharging into ditch that irrigates the NE $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 33, Twp 1 N.R. 19 E.B.M., Blaine County, Idaho

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. It will safely conduct 4 second feet of water, and I have seen 3 second feet of water so used and conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen this pump deliver 160 miner's inches of water, and personally witnessed measurement of this water of a wier in that amount.

20827

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. This water has been used for irrigation of the E¹SW¹ Sec. 33, Twp 1 N.R. 19 E. B.M., for raising grain and alfalfa. The whole of the 80 acres is under cultivation. By use of this water in conjunction with 80" of decreed rights of priority of 1884, have been able to adequately mature crops. This is gravelly in nature and requires a large head of water to irrigate this land. Without the use of this extra water it would be impossible for Mr. Bruneel to adequately irrigate his property, and have economically feasible farming operation.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. -----

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. This land is quite level, but contains high percentage of gravel, with large loss of water by seepage, and requires an absolute minimum of 3" to the acre to raise crops and to adequately irrigate it.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen Mr. Bruneel irrigate the property above described from this pump, using the whole flow of about 160" (3.2 second feet), all for the irrigation of his crops. He has used it each irrigation season since 1947, to my knowledge. He starts pumping water about July 1st of each season, and uses it continuously until all crops are matured.

(Signed) *Clarence Allen*

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Hailey, County of Blaine, State of Idaho, on this 31st day of January, A. D. 1953.

Joseph M. Tadden
Notary Public.

My commission expires April 12, 1955

20827

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 20827

Proof of Application of Water to Beneficial Use
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Robert Brown, Gannett, Idaho, age 25, and a farmer.

Ques. 2. Are you acquainted with George Bruneel, the holder of Permit No. 20827? How long have you known him and where does he reside?
since 1945.

Ans. Yes. / He resides on ranch outside of Gannett, Idaho, and his property adjoins Mr. Clarence Allred's.

Ques. 3. Have you read or heard read said Permit No. 20827, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. The water comes from a well, with Pomona pump with 6" discharge pipe--classified as an 8" pump, with 35 H.P. electric motor, the well being in NW corner of the NE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 33 Twp 1 N.R. 19 E.B.M., Blaine County, Ida. and discharges into the ditch system irrigating his farm.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. This ditch will adequately handle 4 second feet of water, and the pump will raise and pump 3.2 sec. feet (160")

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. I have seen this pump deliver 160" of water, and I personally witnessed the measurement of this amount of water over a weir.

20827

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. This water is used to irrigate Mr. Bruneel's property, being the E $\frac{1}{2}$ SW $\frac{1}{4}$ of Sec. 33, Twp 1 N.R. 19 E.B.M., Blaine County, Idaho, and the whole of this 80-acre tract is under cultivation. This is all cultivated land, and by the use of this extra water, Mr. Bruneel is able to raise agricultural crops of hay and grain on a profitable basis. Without this water, in many years it would be wholly impossible to profitably raise such crops.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. _____

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land is level and highly gravelly in nature, and requires a heavy flow of water to irrigate it. It requires, as does other land in this immediate vicinity, not less than 3" to the acre to properly irrigate.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None. _____

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen Mr. Bruneel use his pump and water developed each year since about July 1947. After about the 1st to 10th of July of each year, depending on the season, Mr. Bruneel has used this water continuously with his decreed waters to irrigate the lands.

(Signed) Robert Brown

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in Hailey, County of Blaine, State of Idaho, on this 31st day of January, A. D. 1955.

Mr. Joseph McFadden
Attorney at Law
Hailey, Idaho

Dear Mr. McFadden:

Reference is made to your letter of December 23, 1952, enclosing notice for beneficial use proof under Permit No. 20827, in the name of George Bruneel.

We have set January 31, 1953, as the date for making this proof, and have completed the notice accordingly, also included priority date of September 4, 1950.

A copy of the notice has been sent to the Hailey Times with instructions to publish it once a week for four consecutive weeks prior to that date and to send Mr. Bruneel the affidavit of publication together with statement of costs.

We enclose the necessary forms of deposition to be used in making this proof and at the time set Mr. Bruneel should appear before you together with two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder for the purpose of executing the depositions.

Very truly yours,

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 11:00 A. M. on the 31st day of January, 1953,
at City of Hailey, County of Blaine, State of Idaho, before
Joseph McFadden, Notary Public, proof will be submitted of the
application to beneficial use of Three (3) cubic feet per second of the waters of underground
water in accordance with the terms and conditions of Permit No. 20827
heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are

George Bruneel, Gannett, Idaho

The use to which said water has been applied is irrigation of agricultural lands

The amount applied to beneficial use is Three (3) cubic feet per second

The place where said water is used ~~(if for irrigation, give full and accurate description of the lands irrigated)~~

NE $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 33, Township 1 North, Range

19 East of the Boise Meridian, Blaine County, Idaho

The name of the canal or ditch or other works by which said water is conducted to such place of use is

well and pump on lands of applicant and permit holder

The right to take water from such works is based upon Permit No. 20827

The source of supply from which such water is diverted is underground waters from a well in
the NE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 33, Twp. 1 N., Range 19 E., B.M.

The date of priority which said user is prepared to establish is September 1, 1950

MARK R. KULP

State Reclamation Engineer.

Dear Sir:

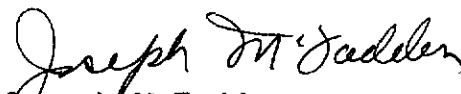

Enclosed herewith is Form 10 made out in duplicate,
together with executed copy of Form 11 authorizing publica-
tion of the enclosed notice.

I have left the date of priority open on this, as I
do not know what date should be inserted and would appre-
ciate if you would insert the proper date in this matter.

Also, I am leaving the date blank for the submitting of
proof and would appreciate your inserting such date as will
give ample time for the publication.

I wish to thank you for your attention to this matter.

Yours truly,

Joseph McFadden

Re: Permit No. 20827
Mr. George Bruneel

Dear Sir:

Mr. Bruneel came to my office today concerning the above matter. Unfortunately, Mr. Bruneel was not in a position to submit proof of application of beneficial use at the time set for hearing some time ago; and this proof, from my records, apparently was never submitted.

Mr. Bruneel wishes to get this matter cleared up and would like to know whether or not it would be possible to finally submit proof on this matter as to the application of the water to beneficial use.

I would appreciate hearing from you concerning this matter so that proper steps can be taken by us to get the matter straightened out. It has been a couple of years since the matter was set for hearing; and, of course, hearing on that matter could not be made at this time, but Mr. Bruneel is now in a position where he can submit proper proof in this regard.

Yours truly,

Joseph McFadden

NOTICE FOR PUBLICATION
**NOTICE OF PROOF APPLICATION OF WATER
 TO BENEFICIAL USE**

Notice is hereby given that at 10 A. M. on the 11th day of March, 1950
 at Hailey, County of Blaine, State of Idaho, before
Joseph McFadden, Notary Public, proof will be submitted of the
 application to beneficial use of 3 cubic feet per second of the waters of a drilled
well in accordance with the terms and conditions of Permit No. 20827
 heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are.....

George Bruneel, Sun Valley, Idaho (formerly Gannett, Idaho)

The use to which said water has been applied is irrigation

The amount applied to beneficial use is three (3) cubic feet per sec.

The place where said water is used (if for irrigation, give full and accurate description of the
 lands irrigated) NE $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec 33, Twp 1 N., R. 19 E., B.M.
Blaine County, Idaho

The name of the canal or ditch or other works by which said water is conducted to such place of
 use is unnamed

The right to take water from such works is based upon Permit No. 20827

The source of supply from which such water is diverted is a drilled well located in
the NE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 33, Twp. 1 N., Rge. 19 E., B.M.

The date of priority which said user is prepared to establish is November 4

Dear Sir:

We enclose herewith blank notice for proof of application of water to beneficial use under your Permit No. 20827. This notice should be filled out in duplicate and returned to this office at least 40 days before the date upon which you wish to make this proof, in order to allow time for the four weeks' publication required by law.

This proof must be submitted before a Notary Public or other officer authorized by law to administer oaths.

The date for proof, as set out in your permit, is not later than March 31, 1950, and if proof is submitted later than said date, your priority will be brought down a length of time equal to the time elapsing between the date the proof is due and the date proof is actually made.

Very truly yours,

MARK R. KUIP

Re: Permit No. 20827, George Bruneel

Dear Sir:

Enclosed herewith is proof of completion
of works signed by Mr. Bruneel today.

No doubt final action on this will be
held up pending action by the Legislature of the
present session. As soon as Mr. Bruneel has put
this water into use for an additional season I feel
it would be advisable to have proof submitted on
this. However, I believe it wise to wait for an
additional season's use to give members of your
department an opportunity to inspect this so final
determination can be made.

Yours truly,

Joseph McFadden

Permit No. 20827

STATE OF IDAHO

Department of Reclamation

Proof of Completion of Works

AFFIDAVIT OF HOLDER

STATE OF IDAHO

County of BLAINE

ss.

George Bruneel

, being first duly sworn, upon his oath deposes and says:

First: That he is the holder and owner of Permit to Appropriate the Public Waters of the State of Idaho, No. 20827, and that his postoffice address is Gannett,

State of Idaho

Second: That the name of the stream ^{FROM} which said water is to be ^{DIVERTED} ~~directed~~ is
No stream--water being pumped from underground, well 70 ft. deep

Third: That the point of diversion of said water is 35 Ft. E., and 5 ft. S.
from NW corner of NE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 33, Twp. 1 N.R. 19 E.B.M., Blaine Co., Ida.

Fourth: That under the terms and conditions of said permit, construction thereunder was required to be completed by March 31, 1949.

Fifth: That the use for which said water is intended is Irrigation & Domestic use.

Sixth: That on the date above mentioned, the works constructed under said permit were ~~(approximately)~~ fully completed and consisted of the following:

I. Kind of works: Well, 70 ft. deep, with 8" Centrifugal pump and 30 H.P. Electric motor. (Reservoir, dam, ditch, flume, pipe or otherwise)

II. Dimensions of work:

(a) Height of dam feet, length of dam at top feet, length of dam at bottom feet. Material used in construction

(State whether wood, earth, stone or concrete)

(b) Capacity of reservoir acre feet.

(c) Size of headgate: Width feet, height feet.

(d) Conduit ditch width at bottom 2 $\frac{1}{2}$ feet, width at water line 3 feet, depth of water 10" feet, diameter of pipe inches, average grade

per mile is 8 feet. Length of conduit is 2 miles, including all laterals for irrigation purposes.
Seventh: That said works are capable of conducting to the place of intended use 3 second feet of water.

Eighth: That water appropriated under said permit is available for 80 acres of land described as follows: E $\frac{1}{2}$ SW $\frac{1}{4}$ of Sec. 33, Twp. 1 N.R. 19 E.B.M., Blaine County, Idaho

Ninth: Remarks: That Said well was drilled 70 ft. deep about May 1, 1948, and pump and motor installed about July 1, 1948, and put into operation about July 6, 1948.

Re: Permit No. 20827

Mr. Joseph McFadden
Attorney at Law
Boiley, Idaho

Dear Mr. McFadden:

We enclose Permit No. 20827, in the name of George Bruneel, which you will note has been tentatively approved for three (3) cubic feet per second subject to determination by the Department of Reclamation as to whether or not this amount is necessary.

We also enclose Departmental Receipts Nos. 20994 and 21129, totaling the \$5.50 filing fee on this amount of water.

Since the application states that the works are completed, we have allowed until March 31, 1949, within which to make proof of completion of works.

This proof may be made by executing Form 6 before a Notary Public and returning to this Department with the statutory fee of \$5.00.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Application No. 28373

Mr. Joseph McFadden
Attorney at Law
Bailey, Idaho

Dear Mr. McFadden:

We acknowledge receipt of your letter of November 1 enclosing the application of George Bruneel to appropriate three (3) second feet of water from a well and enclosing his check for the \$5.50 filing fee.

However, the application is not signed and we return it herewith to have Mr. Bruneel sign it on the line indicated on the third page.

We also direct attention to the fact that while Question 4 describes the point of diversion in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 33 and Question 14 describes the land to be irrigated as the E $\frac{1}{2}$ SW $\frac{1}{4}$ of this section, the sketch map shows the point of diversion in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ and the land in the W $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 33. Please advise which description is correct.

In as much as only 80 acres of land are to be irrigated under this permit, it can only be approved for 1.6 cubic feet per second, or 60 inches, instead of the 3 second feet applied for.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

app. 28-373
September 25, 1948

Mr. George Bruneel
Cannett, Idaho

Dear Mr. Bruneel:

In reply to your letter of September 22, 1948, we enclose a form of application for permit to appropriate the public waters of the State of Idaho, together with regulations and instructions in regard to filing same.

This same form is used for filing on subterranean water from a well the same as from any other source. The point of diversion called for under Question 4 should be the legal subdivision in which the well is located.

When this application is approved it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application. In order to complete your water right two proofs are required as follows:

First, proof of completion of works which is made by affidavit before a Notary Public. The time required for making this proof should be stated under Question 12 in the application.

The final proof is made when the water has been completely applied for irrigation or whatever purpose it is intended. Notice of such proof must be published for four consecutive weeks in a county newspaper at your expense and at the time set for proof depositions are to be executed by yourself and two witnesses in proof of such beneficial use. The additional time required for making this proof should be stated under Question 13 of the application.

Very truly yours,

**NOTICE OF PROOF APPLICATION
OF WATER TO BENEFICIAL USE**

Notice is hereby given that at 11:00 A. M. on the 31st day of January, 1953, at City of Hailey, County of Blaine, State of Idaho, before Joseph McFadden, Notary Public, proof will be submitted of the application to beneficial use of Three (3) cubic feet per second of the waters of underground water in accordance with the terms and conditions of Permit No. 20827 heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are George Brueneel, Gannett, Idaho.

The use to which said water has been applied is irrigation of agricultural lands.

The amount applied to beneficial use is Three (3) cubic feet per second.

The place where said water is used NE $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 33, Township 1 North, Range 19 East of the Boise Meridian, Blaine County, Idaho.

The name of the canal or ditch or other works by which said water is conducted to such place of use is well and pump on lands of applicant and permit holder.

The right to take water from such works is based upon Permit No. 20827.

The source of supply from which such water is diverted is underground waters from a well in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 33, Twp. 1 N., Range 19 E., B. M.

The date of priority which said user is prepared to establish is September 4, 1950.

State Reclamation Engineer
1-1 to 1-22, 1953

6 NOTICE OF PROOF APPLICATION
OF WATER TO BENEFICIAL USE

10 Notice is hereby given that at
11 10 A. M. on the 11th day of March,
12 1950, at Hailey, County of Blaine,
13 State of Idaho, before Joseph Mc-
14 Fadden, Notary Public, proof will
15 be submitted of the application
16 to beneficial use of 3 cubic feet
17 per second of the waters of a
18 drilled well in accordance with the
19 terms and conditions of Permit
20 No. 20827 heretofore issued by the
21 State Reclamation Engineer of the
22 State of Idaho.

23 The name and postoffice ad-
24 dress of the person or corporation
25 holding said permit are George
26 Bruneel, Sun Valley, Idaho (for-
27 merly Gannett, Idaho).

28 The use to which said water has
29 been applied is irrigation.

30 The amount applied to beneficial
31 use is three (3) cubic feet per sec.

32 The place where said water is
33 used NE $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$ of
34 Sec. 33, Twp. 1 N., R. 19 E.B.M.,
35 Blaine County, Idaho.

36 The name of the canal or ditch

37 or other works by which said
38 water is conducted to such place
39 of use is unnamed.

40 The right to take water from
41 such works is based upon Permit
42 No. 20827.

43 The source of supply from which
44 such water is diverted is a drilled
45 well located in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec-
46 tion 33, Twp. 1 N., Rge. 19 E., B.M.

47 The date of priority which said
48 user is prepared to establish is
49 November 4, 1948.
