NOTICE OF PROOF APPLICATION
OF WATER TO
BENEFICIAL USE

Notice is hereby given that at 10:00 A.M. on the 29th day of March, 1956, at Hailey, County of Blaine, State of Idaho, before J. F. Ensign, Notary Public, proof will be submitted of the application to beneficial use of 3.0 cubic feet per second of the waters of the 8½" Artesian Well in accordance with the terms and conditions of Permit No. 20688 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are L. J. Lawson 832 East Franklin Street, Whittier, California.

The use to which said water has been applied is irrigation.

The amount applied to beneficial use is 3.0 cubic feet per second.

The place where said water is used The South Half of the Southwest Quarter (S½SW¼), South Half of the Southeast Quarter (S½SE¼) and the Northwest of the Southeast Quarter (NWSE¼), Section 2, Township 1 South, Range 18 E., B.M., Blaine County, Idaho.

The name of the canal or ditch or other works by which said water is conducted to such place of use is the regular ditches, laterals and pipe flume.

The right to take water from such works is based upon Permit No. 20688.

The source of supply from which such water is diverted is subterranean.

The date of priority which said user is prepared to establish is December 19, 1948. 20688

License and Certificate of Water Right

Water License No. 20688

Amount 2.0 c.f.s.

Water District No.

Priority December 21, 1946

THIS IS TO CERTIFY that

LENORD J. LAWSON

of Gannett, Idaho

made application for a permit to appropriate the

public waters of the State of Idaho, dated October 6, 1948; that Permit No. 20688

was issued under said application; that Certificate of Completion of works, with a carrying capacity of

3.0 second feet, was issued thereunder on November 8, 1950, showing that said works

were completed on the 29 day of June, 1950; and that on the 29

day of June, 1950

LENORD J. LAWSON

of Gannett

State of

Idaho

made proof to the satisfaction of the

State Reclamation Engineer

of Idaho, of the right to use the waters of a well

a tributary of subterranean flow, for the purpose of irrigation

under Use Permit No. 20688 of the Department of Reclamation

and that said right to the use of said waters has been perfected in accordance with the laws of Idaho

and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume

11 of Licenses at page 6676, on the 5 day of March, 1960;

The right hereby confirmed dates from December 21, 1948.

The Point of Diversion is located

in the NE 1/4, Sec. 2, T. 1 N., R. 12 E., B. M. Elaine County

and the source of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed 2.0 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
1 S.	18 E.	2	NE 1/4	40	40
			SE 1/4	40	40
			SW 1/4	40	40
			EW 1/4	40	40
			Total (all four 40-acre tracts)	160	160

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this

5 day of March, 1960.

SA. GEO. W. CARTER

State Reclamation Engineer.

APPLICATION FOR PERMIT

To Appropriate the Public Waters of the State of Idaho

APPLICATION No. 28332
PERMIT No. 20688
DISTRICT No.

1. Name of Applicant: LEONARD LAWSON

Postoffice address: Gannett

County: Blaine

State: Idaho

I. If applicant is a corporation, give:

(a) Date and place of incorporation:

(b) Amount of capital stock:

(c) Amount paid in:

(d) Names and addresses of directors:

II. The financial resources of the applicant are:

(a) Cash on hand:

(c) Bonds to be issued:

(b) Treasury stock:

(d) Other resources:

2. Quantity of water claimed: Three (3) cubic feet per second.

3. Source of water supply: Artesian water under $SE\frac{1}{4}SE\frac{1}{4}$ Sec. 2/ which is a tributary of Twp. 1 S., Range 18 E., B.M.

4. Location of point of diversion: About 300 feet distant from the Northeast of above described tract, being about 300 ft. South and slightly West of said corner corner/ of Section , T. , R. , B.M., and is in the $SE\frac{1}{4}SE\frac{1}{4}$ of Section 2 , T. 1 S. , R. 18 E. , B.M., County of Blaine

5. Water is to be used for Irrigation

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section

T. , R. , B.M., in the of Section , T. , R. , B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet

distant from the corner of Section , T. , R. , B.M., in the of Section , T. , R. , B.M.

7. Estimated cost of works: \$800.00

8. Kind of works: Artesian well, piped

9. Height of dam feet; length of dam at top feet; length of dam at bottom

feet; material used in dam:

10. Size of headgate: Width feet; height feet.

11. Ditch: Width at bottom feet; width at water line feet; depth of water feet;

dimensions of flume:

Diameter of pipe inches; length of conduit miles.

Average grade per mile feet.

12. The time required for the completion of such work is One year years.

13. The time required for the complete application of the water to the proposed use is One additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

15. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: 150 inches of an 1882 right and 50 inches of an 1895 right, which are wholly inadequate for the reason that the land is very gravelly and requires about 3 inches to an acre.

16. (a) Is reservoir to be used? No If so, fill in (b) and (c) below:
 (b) Name of Reservoir and number of Storage Permit:
 (c) Date of filing of Application for Storage Permit and Name of Applicant:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public water of the State of Idaho as herein set forth.

LEONARD LAWSON

Applicant.

By

Agent.

Date of first receipt at Department of Reclamation: 3:00 P. M. October 6, 1948

Returned to applicant for correction: October 12, 1948

Corrected application received: January 11, 1949

Approval of State Reclamation Engineer

The number of this permit is 20688

Recorded in Book 74 Page 20688 Approved January 14, 1949

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho, and

hereby approve the same, subject to the following limitations and conditions: Rate for new land subject to determination that the claimed Bond in the sum of \$ _____ to be filed on or before _____ 3 inches per acre is necessary.

Work to begin on or before March 14, 1949 and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.

One-fifth of the work above specified to be completed on or before July 14, 1949

The whole of said work to be completed on or before January 14, 1950

Beneficial use of water appropriated in accordance herewith, to be made on or before January 14, 1951

WITNESS My hand this 14th day of January, 1949

MARK R. KULP

State Reclamation Engineer.

IN TESTIMONY WHEREOF, WE, C. A. ROBINS, Governor of the State of Idaho.

and J. D. "CY" PRICE, Secretary of State of the State of Idaho, have caused this instrument to

be executed in the name of the State of Idaho, and caused the Great Seal of the State of Idaho to be hereunto affixed, this 14th

day of January, 19 49.

STATE OF IDAHO

Countersigned:

Dear Sir:

We enclose herewith Affidavit as suggested in your letter of March 2, 1960. We also enclose for your examination and return Grant Deeds by which Mr. Lawson conveyed the land to his wife Frances C. You will notice that in one instance he used the name L. J. and in the other instance used the name Lenord J. The land described in the deeds includes the land to which the well water is appurtenant.

Dear Mr. James:

Our permanent permit record and the original map which evidently accompanied the permit, shows the name as Leonard Lawson.

The name can be changed to Lenord Lawson if you will send us an affidavit that Lenord Lawson was the name of the person who filed the application for permit which was numbered 20688 and not Leonard Lawson as shown on the record.

The Certificate of Completion of Works was issued to Leonard Lawson and there is no change in the name until the proof of beneficial use of the water was made where the spelling was changed, evidently by his attorney in fact, Mr. Fiske.

Re: Permit No. 20699 *2*

Dear Sir:

We have had considerable correspondence with you in regard to the above permit and as I recall your last letter advised that on the receipt of \$8.00 a license and certificate would be issued. We conveyed this information to Mrs. Leonard J. Lawson, but do not know whether she has paid the same and whether the license has been issued. Would you kindly advise in this regard.

If your records show any other license, certificate or application in connection with another well water right on the land covered by the above permit please advise.

Very truly yours,

JAMES, SHAW & JAMES

Re: Permit No. 20688
Lenord J. Lawson

James, Shaw & James,
Attorneys At Law
Gooding, Idaho

Attention: Andrew F. James

Dear Mr. James:

In reply to your letter of February 20, 1958 in connection with the above stated permit, we note what you have to say relative to this permit.

Our engineer's report upon examination of the application of water to beneficial use states that there are two wells in connection with this property and that the wells were metered at 252 Miners Inches or 5.04 cubic feet per second.

It was found by our engineer on August 6, 1956 that there was 10 acres irrigated in the NW $\frac{1}{4}$ SE $\frac{1}{4}$; 40 acres in the SW $\frac{1}{4}$ SE $\frac{1}{4}$; 30 acres in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ and 20 acres in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 2, Township 1 South, Range 18 East. The number of acres actually irrigated at the time inspection was made was 100 acres, therefore, under the statutes, we can only allow a license of 2.0 cubic feet per second or one inch for each irrigable acre under cultivation.

We hope this gives you the information requested.

Very truly yours,

MARK R. KULP
Stat Reclamation Engineer

ATTENTION: Roy W. Thompson

Dear Sir:

I take it from your letter of February 19th that Lenord J. Lawson has no interest in permit \$20027. Mrs. Lawson states that there are two welss on the Bellevue ranch and that 20027 was the permit number of the first well, although we have no record in the office.

We have received your letters of September 24, 1956 and January 14, 1958 and have advised Mrs. Lawson of the contents. She states that the well produces 5 cubic feet that all of it has been used and that the duty of water in the Bellevue area is more than one inch per acre. She wants to straighten this out and apply the balance to beneficial use before she pays for the permit.

Lenord J. Lawson never resides at Bruneau nor has his address ever been Bruneau.

Very truly yours,

JAMES, SHAW & JAMES

Attention: Andrew P. James

Dear Mr. James:

In reply to your letter of February 11, 1958, requesting information in regard to Permit No. 20027, in the name of Lenord R. Lawson. These two permits, 20027 and 20688 were indexed upon the index record under the name of Lenord R. Lawson who is a different person than Lenord J. Lawson, whose address was, at the time the permit was issued, Brunau, Idaho.

In regard to Permit No. 20688, final proofs were submitted on this permit, also the engineer's report of inspection is on file in this department.

Under our office letter dated September 24, 1956 and January 14, 1958, we notified your firm that upon the receipt of \$8.00 license fee, a license and certificate of water right can be issued under Permit No. 20688 for 2.0 cubic feet per second, from a well located in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 2, Township 1 South, Range 18 East.

Re: Leanord Lawson

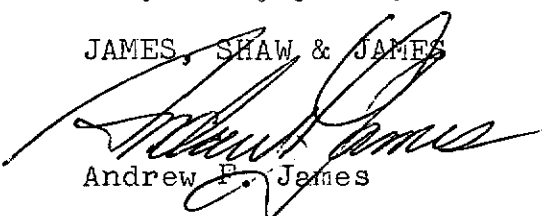

ATTENTION: Mark R. Kulp

Dear Sir:

We have your letter of January 1, 1958, addressed to a Mr. Leanord R. Lawson of Bruneau, Idaho in regards to the above matter. We can not locate a copy of the same in our file. Your letter of September 18, 1956 under the signature of Roy W. Thompson advises that the above permit has to do with water filed on in Owyhee County whereas, Mrs. Lawson advises that neither she or Mr. Lawson filed on any Owyhee water but that the filing was made on another well at Bellevue and as far as she knew proof of beneficial use had been made. If you can clarify the problem, we shall appreciate it.

Very truly yours,

September 18, 1956

RE: Permit No. G-20688

Messrs. James, Shaw & James
P. O. Box 176
Gooding, Idaho

ATTENTION: Mr. Andrew F. James

Dear Mr. James:

In reply to your letter of September 6, 1956, in regard to the above captioned permit, your letter states that you had a letter from Mrs. Lawson stating that the engineer who examined the premises in connection with proof of use advised her that proof was not made on the correct well. There seems to be some confusion between Permit No. G-20688 and G-20027. The status of said Permits are as follows:

Permit No. G20688 - Name of applicant, Leonard Lawson - Quantity of water claimed, 3 cubic feet per second - Source of supply, artesian wells, located in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 2, Township 1 South, Range 18 East, which is the point of diversion - Water is used for irrigation - Place of use, E $\frac{1}{2}$ SW $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$, S $\frac{1}{2}$ SE $\frac{1}{4}$ Section 2, SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 1, Township 1 South, Range 18 East - Completion of Works proof was made by Mr. Lawson as of June 29, 1950, on 3 cubic feet of water from an artesian well located in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 2, Township 1 South, Range 18 East, stating that the lands to be irrigated were the W $\frac{1}{2}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$, S $\frac{1}{2}$ SW $\frac{1}{4}$ Section 2, Township 1 South, Range 18 East. Notice of proof of application of water to beneficial use was published in the newspaper as per a copy attached hereto. Proof of application of water to beneficial use was made in accordance with the notice of proof published in the paper with one exception, that under question 5 by the holder, the amount of water stated was 4.3/5 cubic feet per second in place of the 3 feet which would be the maximum amount that applicant could make proof.

On August 6, 1956, our well inspector, Mr. E. N. Humphrey, Deputy State Reclamation Engineer, made the inspection and found that the well was flowing 252 Miner's inches or 5.04 cubic feet per second. However, the inspection showed that there was only 10 acres irrigated in the NW $\frac{1}{4}$ SE $\frac{1}{4}$, 20 acres irrigated in the SE $\frac{1}{4}$ SW $\frac{1}{4}$, 40 acres irrigated in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ and 30 acres irrigated in the SE $\frac{1}{4}$ SE $\frac{1}{4}$. No land being irrigated in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 2 or the SW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 1, Township 1 South, Range 18 East, making a total of 100 acres irrigated in all.

20688

James, Shaw and James

-2-

September 18, 1956

Therefore, the maximum amount of water allowed under this proof cannot exceed the 100 inches or 2 cubic feet per second based upon an allowance of one inch per acre.

Mr. Humphrey, who made the examination on said well, states that the examination was made on the correct well and states after looking over the proofs submitted on beneficial use, says that everything is in order.

Providing applicant gets the rest of the land under irrigation, as stated in the permit, he will have the right to make a supplemental proof on the balance of said water up to three second feet which would give him a later priority of right based on the time that said supplemental proof was made. Applicants only other alternative is to refile and submit a new application.

We also wish to state that Permit No. 20027 is a permit on water filed on in Owyhee County and has no connection with Permit No. C-20688. Completion of Works proof was made on Permit No. 20027 on March 10, 1952, and beneficial use proof is not required until March 25, 1958. Place of use being on 420 acres in Sections 23, 24, and 26 Township 7 South, Range 4 East, B.M.

We are enclosing herewith extra forms for submitting application for underground water as per request of Mrs. Lawson.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Permit No. G-20688
Mr. Lawson

Dear Sir:

I have a letter from Mrs. Lawson stating that the engineer who examined the premises in connection with proof of use advised her that proof was not made on the correct well. This matter was started by my father, A. F. James, prior to his death in 1950 and no where in our file do we have any evidence of Application #20027 which pertained to the well about which testimony was taken and proof submitted.

We prepared the papers in the proof upon the old application #20688 and Mr. Lawson, because of ill health did not notice the mistake. The final result is that proof was made on the wrong well and for an insufficient amount. Is it possible that this matter can be corrected without submitting second proof on the last well and without additional publication?

Very truly yours,

JAMES, SHAW & JAMES

ANDREW F. JAMES

RECEIVED

SEP 7 1956

Sept. 4, 1956

Dear Sirs:

Department of Reclamation

I am enclosing Mr. James' letter to us, after he charged us \$68.00 for professional services. I wrote him prior to the March date concerning the original appl. to drill then the amended form later. The 1st well was not successful, so we drilled again farther west & a little south (behind our corner) where we hit a flow of approx. 250 in. I believe it was measured by your Dept. in late June to be around 235 in. He sent some forms to Mr. Lawson to fill out, but due to the latter's poor condition, he did not go into details but left the correct filing for Mr. James. Said the amount advertised looked too small but guessed Mr. James what he was doing. Mr. Lawson had forgotten over

(20688)

how many inches made a sec. foot.

I have recently written Mr. James to rectify this matter after having had a report from our meter, Mr. Bert Tisk, who said your engineer had come out & measured our big well & could not understand why we did not prove up on water. We thought we had asked for all of it.

Mr. Tisk has power of atty to represent us in this matter since he has signed a 5 yr. lease on the ranch.

Mr. Lawson passed away June 23rd. Give my regards to Mrs. Anderson if she is still there.

Yours truly, Frances Clark Lawson

Dear Leonard:

I went to Hailey today and supervised submission of Proof of Application of Water to Beneficial Use in connection with your permit. Bert Fisk signed as your attorney as well as on his own behalf and Jessie Dorshack was the other witness and the proof has been sent to Boise. There are several things in connection with the permit which I do not understand and may or may not affect the amount of water approved. In some instances the permit was referred to as No. 20688, whereas the Department of Reclamation refer to it as No. 20027. The original application called for 3 second feet, whereas the testimony shows $4 \frac{3}{5}$ second feet. As soon as you hear from the department let us know and if the approval is for 3 second feet we should immediately file application for permit on the balance.

Bert Fisk advised that you might want to file application for permit to drill on the lands west of the river. If this is true, let us know and we shall obtain and prepare the necessary papers. The law has been changed since you made your last application and it should be a little easier to work out in connection with the drilling for spring water.

We are enclosing a statement of charges for our services.

Very truly yours,

JAMES, SHAW & JAMES

NOTICE OF PROOF APPLICATION
OF WATER TO
BENEFICIAL USE

Notice is hereby given that at 10:00 A.M. on the 29th day of March, 1956, at Hailey, County of Blaine, State of Idaho, before J. F. Ensign, Notary Public, proof will be submitted of the application to beneficial use of 3.0 cubic feet per second of the waters of the 8 1/2" Artesian Well in accordance with the terms and conditions of Permit No. 20688 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are L. J. Lawson 832 East Franklin Street, Whittier, California.

The use to which said water has been applied is irrigation.

The amount applied to beneficial use is 3.0 cubic feet per second.

The place where said water is used The South Half of the Southwest Quarter (S 1/2 SW 1/4), South Half of the Southeast Quarter (S 1/2 SE 1/4) and the Northwest of the Southeast Quarter (NW 1/4 SE 1/4), Section 2, Township 1 South, Range 18 E., B.M., Blaine County, Idaho.

The name of the canal or ditch or other works by which said water is conducted to such place of use is the regular ditches, laterals and pipe flume.

The right to take water from such works is based upon Permit No. 20688.

The source of supply from which such water is diverted is subterranean.

The date of priority which said user is prepared to establish is December 19, 1948. 20688

Ans. Artesian well located approx. 300 feet SW of the NE corner of the
SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 2, Township 1 South, Range 18 E.B.M.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Building of ditches from point of diversion and flumes with cement butments and corrugated pipe set in cement, with dirt fills to the approach of flumes. Will call Lawson No. 1 running north then west. No. 2 running south & west from point of diversion. The source is a Natural flowing well at the depth of 118 ft it started flowing and the size of casing 8 $\frac{1}{2}$ " diameter and flow was measured by Mr. Mans Coffin, myself and a man from Dept. of Reclamation Over a special type weir for that purpose and flow measured 230 minor inches or 4 $\frac{3}{5}$ ft.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Approx. 140 acres irrigated both cultivated and natural meadow as shown by map sketch with description of land being a part of the S $\frac{1}{2}$ of the SW, the S $\frac{1}{2}$ of the SE, and the NW of the SE of Section 2 and the West 35 acres of the SW of the SW of Section 1 all in Township 1 South, Range 18 E.B.M. See question No. 5 for explanation of improvement made for use of said water.

20688

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. for stock water in winter and to keep well from freezing

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. All of water from well plus decreed water from River

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I am person to whom permit was issued.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. As soon as well was finished and during the irrigation season

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. 150 In 1882 River water (50 in 1896 which only is good in high water years.)

Permit No. 20688

Proof of Application of Water to Beneficial Use
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Bert Fisk, 62, Rupert, Idaho - Rancher Route #2

Ques. 2. Are you acquainted with Leonard J. Lawson, the holder of Permit No. 20688? How long have you known him and where does he reside?

Ans. Yes Since 1952 832 Franklin Street, Whittier, California

Ques. 3. Have you read or heard read said Permit No. 20688, and are you familiar with its provisions and conditions?

Ans. yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Artesian well located approx. 300 feet SW of the NE corner of the SE 1/4 Sec. 2, Township 1 South, Range 18 E.B.M. Building of ditches from point of diversion and flumes with cement butments and corrugated pipe set in cement, with dirt fills to the approach of flumes. Will call Lawson No. 1 running north then west. No. 2 running south & west from point of diversion.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 4 3/5 second feet

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. No pump used. Well is natural flowing

20688

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. For irrigation: NW of the SE, Sec. 2 approx. 20 acres, S $\frac{1}{2}$ of the S $\frac{1}{2}$, Sec. 2, 160 acres, West 35 acres of SW $\frac{1}{2}$ SW $\frac{1}{2}$, Sec. 1, Approx. 35 acres SE part of NE $\frac{1}{4}$ of NE $\frac{1}{4}$ Sec. 10, approx. 25 acres.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. None

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. All of the water is necessary for profitable cultivation because of the gravelly condition of the soil.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I have no interest except as lessee

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have witnessed the application to beneficial use of water diverted under said permit for the last four years. 4 3/4 ft. by means of two laterals

(Signed)

Ben F. Hill

20688

Gentlemen:

Proof of Application of water to beneficial use was submitted before me at 10:00 A. M. on the 29th day of March, 1956, at Hailey, County of Blaine, State of Idaho.

Please find enclosed the following papers:

Affidavit of Publication

Proof of Application of Water to Beneficial Use - Deposition of Holder

Two (2) Proof of Application of Water to Beneficial Use - Deposition of
Witness

The owner's name and address is: Leonard J. Lawson, 832 Franklin Street,
Whittier, California.

Very truly yours,

J. F. Ensign

20688

February 6, 1956

RE: Permit No. 20688

Mrs. Frances Lawson
832 East Franklin St.
Whittier, California

Dear Mrs. Lawson:

We wish to acknowledge receipt of your letter of January 30, 1956, in which you state that you should have a priority date of October 6, 1948, instead of December 19, 1948, as shown in the publication notice now being published in the Bailey Times in connection with your Beneficial Use proof relative to the above captioned Permit.

Providing you had made your Beneficial Use proof on time being January 14, 1956, as allowed you under Extension of Time granted you by this Department, your priority would have been October 6, 1948.

Since your proof is going to be 74 days late the priority date is advanced said number of days that your proof is late which advances the priority date to December 19, 1948, the same as shown in the publication notice of the Bailey Times.

Hoping this clarifies your objection in the matter.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

20688

RECEIVED
FEB 3 1956

Department of Reclamation

Jan 30, 1956
832 E. Franklin St.
Whittier, Calif.

Dear Mr. Knap:

Just rec'd the Hanley
paper with "Notice of Proof
Application". We are not at
all in agreement with the date
mentioned Dec. 19. We are sure
this must be an error and
respectfully ask your office to
please have the Times correct
this date. We were both of
the opinion that the original
date was October, when we started
drilling the second well. I know
we drilled it after we applied
for the permit.

Is there an explanation?

The letter from your office got
lost someplace — addressed to 20688

• We already take
the Harley paper.

20688

Gannett — so we had little
time to meditate upon this or
send to the Vault for original
papers — hence we turned it
over to Andrew James, our Atty. —
since it was his father who
advised us on the revised
or amended application. We
drilled three wells because
we didn't get one after apply-
ing for permit. Had to leave the
pipe in the ground.

If necessary, Mr. James,
can advise since we sent
him the papers. He said
he was asking for the Oct.
date. We drilled the first
well for domestic use and
garden before anyone knew about
applications. — yours truly, 20688
Frances Lawson

RE: Permit No. 20688

Messrs. James, Shaw & James
Attorneys At Law
Gooding, Idaho

ATTENTION: Mr. Andrew F. James

Dear Mr. James:

In answer to your letter of January 24, 1956, in which you state that Mr. Lawson, Holder of the above stated Permit, is in California and it is impossible for him to be present to make and sign his deposition of proof relative to the above numbered Permit.

It would be satisfactory to this Department if Mr. Lawson would designate someone with knowledge of his Water Right and its Application to Beneficial Use as power of Attorney to act in his behalf.

This would be more satisfactory than sending the Affidavit to Mr. Lawson in California for his signature as the Department has done this in the past and got into difficulty.

Very truly yours,

Att: Roy W. Thompson

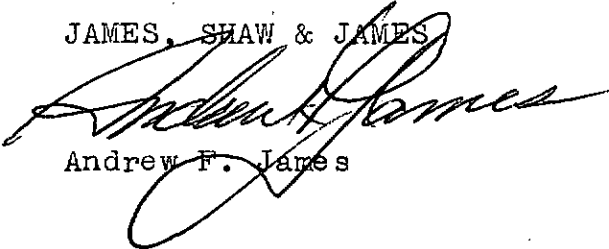

Dear Mr. Thompson:

This will acknowledge receipt of your letter of January 23 in regard to the above matter in which you advise that Mr. Lawson should appear before Mr. Ensign on March 29th. Mr. Lawson has a very serious heart condition which is his reason for living in California and which will prevent him from returning to Idaho to appear at the hearing. He has made arrangements for three persons to appear at the hearing who are familiar with the entire development and if necessary Mrs. Lawson can come to Idaho at that time.

We can send the affidavit to Mr. Lawson in California for his signature but wish you would advise as to the requirements of your office in view of the existing difficulties.

Very truly yours,

JAMES, SHAW & JAMES

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 10:00 A. M. on the 29th day of March, 1956,
at Hailey, County of Blaine, State of Idaho, before
J. F. Ensign, Notary Public, proof will be submitted of the
application to beneficial use of ~~approx~~ 3.0 cubic feet per second of the waters of the 8 $\frac{1}{2}$ "
Artesion Well in accordance with the terms and conditions of Permit No. 20688
heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are L. J. LAWSON
832 East Franklin Street Whittier, California

The use to which said water has been applied is irrigation

The amount applied to beneficial use is ~~approx~~ 3.0 cubic feet per second

The place where said water is used (~~irrigation~~) ~~is for the purpose of irrigation~~

The South Half of the Southwest Quarter (S $\frac{1}{2}$ SW $\frac{1}{4}$), South Half of
the Southeast Quarter (S $\frac{1}{2}$ SE $\frac{1}{4}$) and Northwest of the Southeast
Quarter (NWSE $\frac{1}{4}$), Section 2, Township 1 South, Range 18 E.B.M.
Blaine County, Idaho

The name of the canal or ditch or other works by which said water is conducted to such place of use is
the regular ditches, laterals and pipe flume

The right to take water from such works is based upon Permit No. 20688

The source of supply from which such water is diverted is subterranean

The date of priority which said user is prepared to establish is ~~October 2, 1942~~ December 19, 1944

November 1, 1955

Mr. Leonard Lawson
Cannett
Idaho
Dear Sir:

We enclose herewith blank notice for proof of application of water to beneficial use under your Permit No. 20688. This notice should be filled out in duplicate and returned to this office at least 40 days before the date upon which you wish to make this proof, in order to allow time for the four weeks' publication required by law.

This proof must be submitted before a Notary Public or other officer authorized by law to administer oaths.

The date for proof, as set out in your permit, is not later than January 14, 1956, and if proof is submitted later than said date, your priority will be brought down a length of time equal to the time elapsing between the date the proof is due and the date proof is actually made.

Re: Permit No. 20688

Mr. L. J. Lawson
Gannett, Idaho

Dear Mr. Lawson:

We acknowledge receipt of your corrected deposition in Proof of Completion of Works on Permit No. 20688 prior to the due date of January 14, 1950.

The Permit has accordingly been reinstated and we enclose Certificate of Completion of Works for the diversion of three second feet of water from a well in the SE₄ SE₂ Section 2, Township 1 South, Range 18 East, B.M., for the irrigation of land in the W₂ SE₄, SE₄ SE₂, S₂ SW₂ of said Section.

We also enclose Departmental Receipt No. 22800 for the \$5.00 fee paid in connection with this proof.

As mentioned in office letter addressed you on November 1, 1950, Proof of Beneficial Use is due on or before January 14, 1951. If you are prepared to make Beneficial Use Proof at this time, we shall send you the necessary forms of notice for publication, as the law requires such notice to be published once a week for four consecutive weeks prior to making proof.

However, if you are not prepared to make Beneficial Use Proof at this time, you may be allowed an extension of several years if necessary, and we enclose herewith a form of application for such extension.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

STATE OF IDAHO
DEPARTMENT OF RECLAMATION

In the Matter of the Reinstatement
of Permit No. 20688 Under the
Provisions of Section 5594, Idaho
~~Compiled Statutes~~ 42-311 Idaho Code

ORDER REINSTATING PERMIT

WHEREAS, Permit No. 20688 lapsed through failure of the holder to make proof of completion of the works of diversion within the time specified in the Permit, to-wit: January 14, 1950; and,

WHEREAS, On the 15th day of May, 1950 notice to show cause why said permit should not be canceled, under the provisions of Section 5594, Compiled Statutes of Idaho, was duly served on the holder of said permit; and,

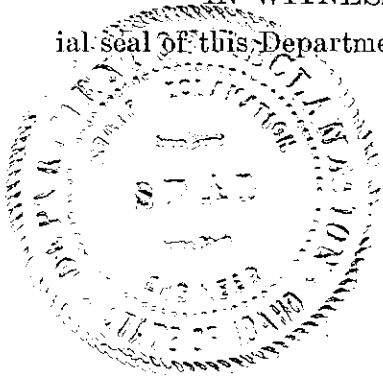

WHEREAS, On the 24th day of May, 1950 the holder filed notice of appearance to offer proof to show that the works of diversion under said permit were fully completed within the time required; and,

WHEREAS, On the 6th day of November, 1950 depositions of the holder and two witnesses were received at the Department of Reclamation showing that the said works of diversion were completed within the time required in the permit; and,

WHEREAS, After examination of the said depositions, the ~~Commissioner of~~ State Engineer of the State of Idaho, is fully satisfied that the works of diversion were completed as required under the terms of said Permit No. 20688, and that the holder has acted in good faith;

IT IS, THEREFORE, Hereby Ordered that said Permit No. 20688 be, and the same is, hereby reinstated, and that a certificate of completion of works be issued to the applicant herein.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the official seal of this Department, at Boise, Idaho, this 8th day of November, 1950.

Re: Permit No. 20688

Mr. L. J. Lawson
Cannett, Idaho

Dear Mr. Lawson:

In checking Permits on which Proof of Beneficial Use is due sometime in January, 1951, we find your Permit No. 20688.

However, we remind you that this Permit is being held for cancellation for failure to complete your Proof of Completion of Works on or before January 14, 1950.

As you know, we have had some correspondence about this and have returned your deposition for correction under date of July 8, 1950.

If the Permit is to be continued in good standing, it will be necessary for you to return the corrected deposition at once, together with the statutory fee of \$5.00, upon receipt and approval of which, the Permit may be reinstated, Certificate of Completion of Works issued, following which you may then proceed to make your final proof, or Proof of Beneficial Use.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Permit No. 20688

Mr. L. J. Lawson
Gannett, Idaho

Dear Mr. Lawson:

We return your deposition in Proof of Completion of Works under Permit No. 20688 for the following reasons:

1. Question 3 should state the amount of water claimed under this Permit; also, the correct date is October 8, 1948.
2. Question 4 describes 160 acres in the $W\frac{1}{2}$ SE $\frac{1}{4}$, SE $\frac{1}{4}$ SE $\frac{1}{4}$, and S $\frac{1}{2}$ SW $\frac{1}{4}$ Section 1, but does not give the Township or Range. The Permit describes the S $\frac{1}{2}$ SW $\frac{1}{4}$, W $\frac{1}{2}$ SE $\frac{1}{4}$ and SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 2, and the SW $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 1, Township 1 South, Range 18 East, B.M.
3. Question 6 should state that the works were completed prior to the due date of January 14, 1950, if such is the case.

Upon return and approval of your corrected deposition, the Permit may be reinstated, and upon receipt of the statutory fee of \$5.00, a Certificate of Completion of Works may be issued.

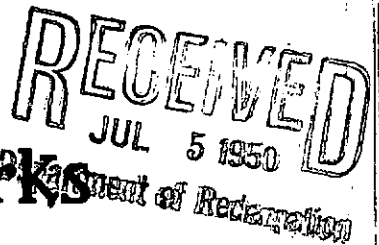

Very truly yours,

MARK R. KULP
State Reclamation Engineer.

PERMIT NO. 20688

Proof of Completion of Works

DEPOSITION OF HOLDER

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. L. J. Lawson
Stannett, Idaho.

Ques. 2. If acting in behalf of a corporation, state its name, principal place of business, your position with reference to same, and your authority for appearing in its behalf.

Ans. Acting for myself. L. J. Lawson

Ques. 3. State number and date of permit, amount of water you are authorized to divert, source, and point of diversion.

Ans. No 20688 Date ~~March~~ ^{Oct 6} 1949.
1949 → 3.56 cfs from well NE corner SE 1/4 SE 1/4
1950 → 4.60 cfs from well NE corner SE 1/4 SE 1/4

Ques. 4. State purpose for which water is to be used, and, if for irrigation, state the number of acres and give description of the land you intend to reclaim.

Ans. irrigation 160 acres 1/2 SE 1/4
SE 1/4 SE 1/4
SE 1/4 SE 1/4
Sec 18 T18N R18E

Ques. 5. State whether or not the water has been turned into your works of diversion, and, if so, when and to what extent.

Ans. all water has been turned in

Ques. 6. State whether or not the works of diversion are fully completed, and whether or not they comply in all respects with the terms of the permit.

Ans. yes they have been completed before

Ques. 7. If the works of diversion do not comply with all the terms of your permit, state fully those particulars in which there is any variance.

Ans. They do comply.

Ques. 8. Give description of works, state dimensions and capacity of each part, and give cost of same.

Ans. 8 1/2 in casing 120 ft deep.
cost \$840.00 plus 160.00 labor.
total \$940.00

Re: Permit No. 20688

Mrs. L. J. Lawson
Cannett, Idaho

Dear Mrs. Lawson:

We enclose the depositions of two witnesses offered in Proof of Completion of Works under Permit No. 20688 for the following reasons:

1. Question 1 of both depositions should state the name, residence, occupation and postoffice address of the witnesses and not Leonard J. Lawson, the Permit Holder.
2. Question 5 should state definitely that the works were completed on or before the due date, January 14, 1950 (if such is the case).
3. Question 6 should state the estimated capacity and not merely state that the capacity is "more than enough".

A deposition should also be furnished by Mr. Lawson himself on the form enclosed.

Very truly yours,

Mrs. L. J. Lawson
Gannett, Idaho

Dear Mrs. Lawson:

If you wish to keep your Permit No. 20688 in good standing, you may furnish this Department with affidavits of two disinterested witnesses to the effect that the works were actually completed on the date specified in the Permit.

We recommend the permit procedure carried out to License for (1) the purpose of having a record of the appropriation, proof of completion and proof of beneficial use, and (2) to take advantage of the doctrine of relation in which the priority dates back to the date of application for permit.

In your case, by completing the permit procedure, you would eventually have a License for 150 inches with a priority of October 6, 1948, and under the course suggested by your attorney, you could get through the District Court, a Decree for the amount proved to have been beneficially used with a probable priority date of sometime in June, 1949.

The course you wish to follow is your personal choice and unless your Permit is reinstated by the affidavits mentioned, the Permit will be cancelled.

Very truly yours,

Mark R. Kulp

RECEIVED
MAY 24 1950

Department of Reclamation

Dear Mr. Humphrey:

In answer to your Reg. letter
of May 15 regarding Permit No. 20688
to drill and appropriate water
from an artesian well, may I
state that said well was
"brought in" last June 8, 1949 by
Eugene Walker (driller) and meas-
ured by Mons Coffin immediately
thereafter or within a few days?

It threw out 178" of water
from 8 $\frac{1}{4}$ " casing at a depth of
117 ft. However, before the crug-
ging season was over, the water
shot up a foot higher, then
receded in late fall. The permit
20688

This water to use within 15 min.
after its inception on main ditch.

Our atty. Mr. James G.
Jordan told us there was no
need to file on this well, but
to use that water pronto and
keep it going for the entire irri-
gating season, then after
Apr. to "prove upon it" with the
Dept's. consent and approval.

Some advice to apply on the
1st well by the garden drilled
Oct. 4, 1948 used for that, house,
errands, chicken house, milk
house, etc. - That casing was
5 1/2" - 78" flow at depth of 126 ft.

Sorry if our negligence in
this matter has caused incon-
venience on your looks.

What do we do now? Is it
necessary to do anything? None of the
other farmers have they any?
Yours truly, H. J. Lawson

Re: Permit No. 20688

To: Mr. Leonard Lawson
Gannett, Idaho

It appearing to the State Reclamation Engineer that the terms and conditions of Permit No. 20688 to appropriate the Public Waters of the State of Idaho, have not been complied with as to
Completion of works January 11, 1950

42-311
you are hereby notified in compliance with Sec. 41-311, Idaho Code annotated that said Permit No. 20688 is hereby held for cancellation.

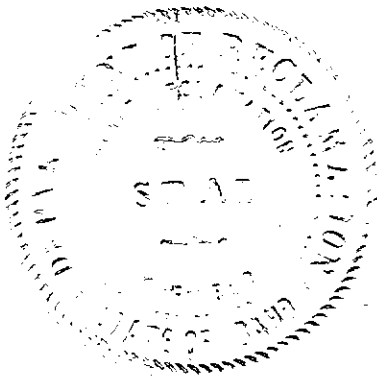

You are hereby required to show cause before the State Reclamation Engineer on or before forty days from date of this notice why said Permit should not be cancelled.

Said Permit No. 20688 claims the use of three cubic feet per second of the waters of an artesian well with point of diversion located in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 2, Township 1 South, Range 18 East, B. M., and was approved January 11, 1949

In Witness Whereof, I have hereunto set my hand and affixed the seal of my office at Boise, Idaho, the 15th day of May 1950.

Mark R. Kulp
State Reclamation Engineer.

DEPARTMENT OF RECLAMATION
BOISE

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Mr. Leonard Lawson

Gannett, Idaho

Boise, Idaho November 1, 1949

Dear Sir:-

Under the terms of your permit No. 20688 you are required to complete your diversion works on or before January 14, 1950. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

MARK R. KUIP

State Reclamation Engineer

Re: Application No. 28332

Mr. Leonard Lawson
Gannett, Idaho

We do not seem to have received reply to office letter addressed you on October 29 in which we inquired as to whether or not your post card meant that you wished to make a correction as to the location of the well described in the above numbered application.

This application locates the well in the NW 1/4 SW 1/4 Sec. 2, Twp. 1 S., Range 18 E., the water to be appurtenant to the NW 1/4 SE 1/4 of Section 2 and the SW 1/4 SW 1/4 of Section 1, same township and range.

As we are holding up issuance of the permit awaiting information as to the exact location of the well we shall appreciate your early reply.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Application No. ~~20688~~ 28332

Mr. Leonard Lawson
Cannett, Idaho

Dear Mr. Lawson:

We are in receipt of your post card in reply to office letter addressed you on October 12 relative to your application to appropriate three (3) second feet of water from a well to be used on 235 acres of land in Sections 1 and 2, Twp. 1 S., Range 18 E. B.M.

In checking the decree we note that the 150 inches of the 1882 water right and 50 inches of the 1895 water right is appurtenant to 160 acres described as the S $\frac{1}{2}$ SE $\frac{1}{4}$ and S $\frac{1}{2}$ SW $\frac{1}{4}$ of Section 2.

With your permission we shall therefore note on your permit that 1.6 second feet of water applied for from the well will be appurtenant to the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 2 and the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 1, and the remaining 1.4 second feet will be supplemental water for the other 160 acres.

Your post card refers to a correction on location. Do you wish to change the location of the well as described in your original application?

Please advise us as to these matters.

Very truly yours,

MARK R. KULP
State Reclamation Engineer
By

Roy W. Thompson
Supervisor of Water Distribution

T/gt

20688

Dear Sir:

Will you please return my water application filing for a correction on location?

Yes, indeed. I have another ranch of 160 A. to transfer that 1.6 ac. ft. to. The soil has gravel bars running through it which require as much as the law allows for that porous ground.

When I prove up on my water well, will make a map of the land if necessary.

(20688)

Yours truly,
J. H. Lawson.

Re: Permit No. 20688

Mr. Leonard Lawson
Gannett, Idaho

Dear Mr. Lawson:

We wish to acknowledge receipt of your application for permit to appropriate three (3) cubic feet per second from a well located in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 2, Twp. 1 S., Range 18 E. B.M.

Before we can approve said application it will be necessary for you to state if it is correct that 1.6 cubic feet per second of water will be appurtenant to new lands or, in other words, lands not made appurtenant by your decreed water, and 1.4 cubic feet per second is to be used as a supplemental right to your existing right. Otherwise to follow the statute of allowing an appropriator one inch to the acre, we would have to reduce your filing to 2.06 cubic feet per second.

Please give us the foregoing information so that your application may be approved at an early date.

Thanking you, we are

**NOTICE OF PROOF APPLICATION
OF WATER TO
BENEFICIAL USE**

Notice is hereby given that at 10:00 A.M. on the 29th day of March, 1956, at Hailey, County of Blaine, State of Idaho, before J. F. Ensign, Notary Public, proof will be submitted of the application to beneficial use of 3.0 cubic feet per second of the waters of the 8½" Artesian Well in accordance with the terms and conditions of Permit No. 20688 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are L. J. Lawson 832 East Franklin Street, Whittier, California.

The use to which said water has been applied is irrigation.

The amount applied to beneficial use is 3.0 cubic feet per second.

The place where said water is used The South Half of the Southwest Quarter (S½SW¼), South Half of the Southeast Quarter (S½SE¼) and the Northwest of the Southeast Quarter (NWSE¼), Section 2, Township 1 South, Range 18 E., B.M., Blaine County, Idaho.

The name of the canal or ditch or other works by which said water is conducted to such place of use is the regular ditches, laterals and pipe flume.

The right to take water from such works is based upon Permit No. 20688.

The source of supply from which such water is diverted is subterranean.

The date of priority which said water is prepared to establish is September 19, 1948.

Ensign, Notary Public, proof will be submitted on the application to beneficial use of 3.0 cubic feet per second of the waters of the 8½" Artesian Well in accordance with the terms and conditions of Permit No. 20688 heretofore issued by the Department of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are L. J. Lawson 832 East Franklin Street, Whittier, California.

The use to which said water has been applied is irrigation.

The amount applied to beneficial use is 3.0 cubic feet per second.

The place where said water is used The South Half of the Southwest Quarter (S½SW¼), South Half of the Southeast Quarter (S½SE¼) and the Northwest of the Southeast Quarter (NWSE¼), Section 2, Township 1 South, Range 18 E., B.M., Blaine County, Idaho.

The name of the canal or ditch or other works by which said water is conducted to such place of use is the regular ditches, laterals and pipe flume.

The right to take water from such works is based upon Permit No. 20688.

The source of supply from which such water is diverted is subterranean.

The date of priority which said user is prepared to establish is December 19, 1948.
