Dear Mr. McCoy:

We have your letter of August 25, 1953, in regard to the above numbered permits and if we understand correctly the location of the well described in Permit No. 20663 is correct. For that reason we do not quite understand why you have suspended publication on this permit since your letter states that you are ready to prove up on Permit No. 20663.

Since the notice, as published, sets the date for making proof as September 22, and as the notice has already been published twice it would save Mr. Gomes some expense if, instead of starting this publication, you would notify the paper to give it two additional publications.

We also note that Mr. Gomes wishes to make proof on his new permit No. G-24224 and notice should be made for this in duplicate on Form 36 enclosed and both copies returned to this department together with Form 11.

Meanwhile, we have partially filled out Mr. Gomes' applications for amendment which we return to have completed by stating the reasons for the change.

Re: Permit No. 20663

Mr. R. H. McCoy
Notary Public
Hailey, Idaho

Dear Mr. McCoy:

Reference is made to your letter of August 20th, in regard to notice now being published in the Hailey Times for proof of beneficial use on Permit No. 20663, in the name of Frank Gomes.

A reference to the records in this department shows that Mr. Gomes has three permits, as follows:

No. 20663 for 4.3 second feet of water from a well in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 14, Twp. 1 S., Range 18 E., B.M., for use on the NE $\frac{1}{4}$ Section 14, and the W $\frac{1}{2}$ NW $\frac{1}{4}$ Section 13, same township and range. Certificate of completion of works was issued on this October 20, 1948, and proof of beneficial use is due September 29, 1953. This is the permit notice for which was sent us, and which we sent to the Hailey Times for publication.

No. 21304 for 0.58 second foot from a well in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 13, Twp. 1 S., Range 18 E., B.M. for use on the E $\frac{1}{2}$ NW $\frac{1}{4}$ of Section 13; Certificate of completion of works was issued on this permit December 27, 1949, and proof of beneficial use due December 10, 1954.

No. G-24224 for 2.48 second feet from a well in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 14, for use on the NW $\frac{1}{4}$ Section 13, and the NE $\frac{1}{4}$ Section 14, Twp. 1 S., Range 18 E., B.M. This is anew permit, filed June 20, 1953, and both proofs are due on or before June 27, 1955; but since the application stated that the works were completed, etc., the proofs can be made at any earlier date.

If the notice as now being published is wrong, we suggest that you notify the newspaper to discontinue, until we can get the matter straightened out, and then republish later. But if, on a re-check, it is found that the notice is correct, of course it can stand.

If it is on Permit No. 20663 that proof is to be made, and there has been a change in the location of the well, an application for amendment should be made on the enclosed form.

We shall await your further advice.

Very truly yours,

Gentlemen:

Re Application No. 20063 for
Beneficial use of water.

It was called to our attention this morning by a neighbor of Frank Gomes that the well we proposed to prove up on is located in the wrong place, and should be located in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 13, Township 1 South, Range 18 East, Boise Meridian. We are not aware of how this error originated but one of the neighbors of Frank Gomes called our attention to it.

Mr. Gomes does have a well in the NE $\frac{1}{4}$ of Section 14, but this was proved up on more than a year ago.

Your advice on how to correct it will be appreciated. All the other information seems to be correct.

Dear Mr. Gomez:

We acknowledge receipt of your letter of September 14 enclosing you application for permit to appropriate five (5) second feet of water from a well located on your property, accompanied by your check for \$6.00.

However, your two sketch maps are different and we are not sure as to the description of the land to be irrigated of the location of the well.

Question 14 of the application would seem to describe the E $\frac{1}{2}$ NE $\frac{1}{4}$ and SE $\frac{1}{2}$ NE $\frac{1}{4}$ of Section 14 (60 acres) and all the NW $\frac{1}{4}$ of Section 13 which is in accordance with sketch map No. 1. This would make a total of 220 acres instead of 320.

On the other hand, sketch map No. 2 seems to show all the NE $\frac{1}{4}$ of Section 14 and all the NW $\frac{1}{4}$ of Section 13, or 320 acres.

Also sketch map No. 1 shows the well located in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 13 and Sketch map No. 2 seems to show it in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 14.

We are returning the application and sketch maps for correction. For your information will say that the application can not be approved for more than the statutory maximum of one inch per acre, which would be 4.4 second feet on the 220 acres if the application and sketch map No. 1 are correct.

Very truly yours,

Dear Mr. Gomes:

In reply to your letter of September 13, 1948, we enclose a form of application for permit to appropriate the public waters of the State of Idaho, together with regulations and instructions in regard to filing same.

This form is used for filing on subterranean water from a well the same as from any other source. The point of diversion called for under Question 4 should be the legal subdivision in which the well is located.

When this application is approved it will be signed by the proper State Officials and sent you as a use permit under which you may proceed with the construction of the work described in the application. In order to complete your water right two proofs are required as follows:

First, proof of completion of works which is made by affidavit before a Notary Public. The time required for making this proof should be stated under Question 12 in the application.

The final proof is made when the water has been completely applied for irrigation or whatever purpose it is intended. Notice of such proof must be published for four consecutive weeks in a county newspaper at your expense and at the time set for proof depositions are to be executed by yourself and two witnesses in proof of such beneficial use. The additional time required for making this proof should be stated under Question 13 of the application.

Very truly yours,
