Permit No. 20091

Examination for Beneficial use

County Blaine

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

**NOTICE OF PROOF APPLICATION
OF WATER TO BENEFICIAL USE**

Notice is hereby given that at 10 A. M. on the 15th day of July, 1949, at Hailey, County of Blaine, State of Idaho, before R. H. McCoy, Notary Public, proof will be submitted of the application to beneficial use of six cubic feet per second of the waters of two wells in accordance with the terms and conditions of Permit No. 20091 heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit is Jack Allred, Gannett, Idaho.

The use to which said water has been applied is agricultural.

The amount applied to beneficial use is six cubic feet per second.

The place where said water is used S $\frac{1}{4}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 3; NW $\frac{1}{4}$ NE $\frac{1}{4}$, N $\frac{1}{4}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$ and N $\frac{1}{4}$ SW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec 10, Twp. 1 South, Range 19 East of the Boise Meridian, Blaine County, Idaho.

The name of the canal or ditch or other works which said water is conducted to such place of use is unnamed.

The right to take water from such works is based upon Permit No. 20091.

The source of supply from which such water is diverted is two wells on applicants own land, located on the SW $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 3, Twp. 1 S., Range 19 E., B.M. The date of priority which said

user is prepared to establish is May 31, 1947.

APPLICATION FOR PERMIT
To Appropriate the Public Waters of the State of Idaho

Application No. 27682
Permit No. 20091
District No.

Joseph McFadden, Attorney
Hailey, Idaho

1. Name of Applicant: JACK ALLRED

Postoffice address: Gannett

County: Blaine

State: Idaho

I. If applicant is a corporation, give:

- (a) Date and place of incorporation:
- (b) Amount of capital stock:
- (c) Amount paid in:
- (d) Names and addresses of directors:

II. The financial resources of the applicant are:

- (a) Cash on hand:
- (c) Bonds to be issued:

- (b) Treasury stock:
- (d) Other resources:

2. Quantity of water claimed: Eight (8) cubic feet per second.

3. Source of water supply: Wells on applicant's property which is a tributary of No stream

4. Location of point of diversion: About 35 ft. S E feet distant from the N. W.
of SW $\frac{1}{4}$ SW $\frac{1}{4}$
corner of Section 3, T. 1 S., R. 19 E., B.M., and is in the SW $\frac{1}{4}$ SW $\frac{1}{4}$
of Section 2, T. 1 S., R. 19 E., B.M., County of Blaine. Second well to be located about 10 ft.
S. 800 ft. East of NW corner of SE $\frac{1}{4}$ SW $\frac{1}{4}$ of SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 3, Twp. 1 S., R. 19 E., B.M.

5. Water is to be used for Irrigation and domestic purposes.

6. If for mining, milling, power or manufacturing purposes, give:

(a) Point of use of water: feet distant from corner of Section

T., R., B.M., in the of Section, T., R., B.M.

(b) Amount of power generated: H.P., under feet head.

(c) Water is to be returned to at a point feet

distant from the corner of Section, T., R., B.M., in the
of Section, T., R., B.M.

7. Estimated cost of works: \$ 4,000 for both, pumps, including well and piping

8. Kind of works: Drilled well with electric pump

9. Height of dam None feet; length of dam at top feet; length of dam at bottom
feet; material used in dam:

10. Size of headgate: Width feet; height feet;

11. Ditch: Width at bottom 3 feet; width at water line 5 feet; depth of water 2 feet; Approx.

dimensions of flume:

Diameter of pipe 12" discharge pipe / from pump inches; length of conduit 3/4 mile ditch miles.

Average grade per mile 4 feet.

12. The time required for the completion of such work is One (1) years.

13. The time required for the complete application of the water to the proposed use is One (1) additional years.

14. The land to be irrigated is described in the following tabulation: See remarks.

14-A. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are: None

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS
OF THE STATE OF IDAHO, No. 20091

Comes not JACK ALLRED and represents to the State Reclamation Engineer of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 20091;

That the points of diversion are described in said Permit as being located in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 3, Twp. 1 South, Range 19 East, B. M.

That he now requests that the points of diversion be changed to point located in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ and SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 3, Twp. 1 South, Range 19 East, B. M.

That his reasons for desiring to make such change are as follows: The location of the second well was incorrectly described in the original application and proof, as shown by examination by Field Engineer of the Department of Reclamation.

That no one will be injured by such change, and that such change will be made at Permit Holder's own risk.

Signed at Cennett, Idaho this 4th day of April 1949.

JACK ALLRED

Date of receipt at Department of Reclamation April 6, 1949.

APPROVAL OF STATE RECLAMATION ENGINEER

I, MARK R. KULP, State Reclamation Engineer of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. 20091. This approval constitutes a new permit and is issued as an amendment to the original permit to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

MARK R. KULP
State Reclamation Engineer

APPROVAL OF STATE RECLAMATION ENGINEER

I, Mark R. Kulp, State Reclamation Engineer of the State of Idaho, hereby extend the time for the making of proof of Beneficial Use under Permit to appropriate the Public Waters of the State of Idaho, No. 20091, to July 15, 1949.

Witness my hand this 3rd day of June, 1949.

MARK R. KULP
State Reclamation Engineer.

July 30, 1952

RE: Permit No. 20091

Mr. Jack Allred
Cannott
Idaho

Dear Mr. Allred:

The report of our field engineer on examination for beneficial use under Permit No. 20091, shows that you have irrigated a total of 294 acres in the $S\frac{1}{2}$ $S\frac{1}{2}$, $SW\frac{1}{4}$ $SE\frac{1}{4}$ Section 3, $N\frac{1}{2}$ $NE\frac{1}{4}$, $NE\frac{1}{4}$ $NE\frac{1}{4}$, $SE\frac{1}{4}$ $NE\frac{1}{4}$, and $S\frac{1}{2}$ $SW\frac{1}{4}$ $NE\frac{1}{4}$ Section 10, Township 1 South, Range 19 East, B.M.

Therefore, upon receipt of the statutory fee of \$18.00, which is at the rate of \$2.00 for each legal subdivision in which the land is located, a license may be issued for 5.88 second feet of water from your two wells in the $SW\frac{1}{4}$ $SW\frac{1}{4}$ and $SW\frac{1}{4}$ $SE\frac{1}{4}$ Section 3, Township 1 South, Range 19 East, B.M.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 20091This proof is for Beneficial use In Water District No. _____1. Name of applicant Jack Allred, Cannett, Idaho2. Source of water supply: Subterranean (two wells)3. Location of point of diversion: Is in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$ ^{SW $\frac{1}{4}$ SE $\frac{1}{4}$} of Section 3T. 1 S. R. 19 E. County of Blaine

4. Describe works as they exist, giving dimensions and capacities of same: Well is 20' deep and cased with 2" by 6" planks, top of the well is loosely covered with 2" by 6" planks, drawdown is approximately 6'. Pump is a Fairbanks Morse #PF6288-2. It is size 5 by 6 and sets on a concrete base. There is no well house. Impeller B801 and is rotary horizontal pump. Suction pipe is 6" by 18 $\frac{1}{2}$ " long. Discharge is 5" by 31 3/4" pipe into an open ditch. The power is a John Deere, Model D Tractor.

5. Water is used for: Irrigation

6. State whether or not water has been turned into works of diversion: _____

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

S $\frac{1}{2}$ SW $\frac{1}{4}$, S $\frac{1}{2}$ SE $\frac{1}{4}$ Section 3;NW $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{2}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$ NW $\frac{1}{4}$; Section 10;All in Twp. 1 South, Range 19 East, B. M.all solid yrs except SW, NW, Sec 10 & SW, SE, Sec 3

4. Well at P.D. #1 is 50' deep by 14" diameter, cased to the bottom. Static H is 8' and the draw down is a good 20'. Pump bowl sets down 30'. One stage 10" bowls, 10" column. There is no house, no protection, a concrete curbing approx. 3' hexagonal. Pump is Fairbanks Morse Turbine, Serial No. C F 52836. Motor is G.E. 440 V. 31.3 amps. 25 h.p. 1760 r.p.m. #SD 6709937. Pump and motor set on top of the casing. Delivery is to the East through short 10" pipe into an open sump. Water was measured at 0.82' over 2' cippoletti weir. Q equals 5.04 c.f.s. T equals 51° F.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: _____

Pump is belt driven with a belt 5" wide by approximately 24' long.

Gas consumed is 1 $\frac{1}{2}$ gallons per hour. The gage reading is .46, Quantity of water is 79.3". Temperature is 11 $\frac{1}{2}$ °C.

This examination was made on the 14th day of July, 1952PD #1 measured on 14th July 1952

RECEIVED

SEP 2 1950

Department of Reclamation

Gannett, Ida.

Aug. 29 - 50

E. H. Humphrey

Deputy State Reclamation Engineer

Dear Sir:

I received your letter of Aug. 25. Evidently the Pump Service Co. haven't received the parts for my pump as yet. I would rather not measure the flow the way it is at present. I want the Power Co. to turn the power off, not later than the 15th of Sept. If they don't get my pump fixed in the meantime perhaps we should wait until next season to complete inspection.

Sincerely yours

Jack Alfred

July 27, 1949

Re: Permit No. 20091

Mr. Jack Allred
Gannett, Idaho

Dear Mr. Allred:

We acknowledge receipt of the depositions of yourself and two witnesses, also Affidavit of Publication in the Hailey Times, all submitted in proof of beneficial use under Permit No. 20091.

Before final action is taken in the matter, the law requires that a field examination be made by an Engineer from this Department.

We are unable to say just when this examination will be made as this Department has but one Field Engineer who makes examinations all over the State.

However, Mr. Tolman, Field Engineer for this Department, will try and contact you at the time he makes the examination in order that you may arrange to show him over the grounds.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Re: Permit No. 20091

Mr. Jack Allred
Cennett, Idaho

Dear Mr. Allred:

I will plan to finish the inspection of your well, if possible, on Thursday, August 31. I hope you have the pump repaired so that it is pumping the amount of water you feel that it should deliver.

I hope it will be possible for you to accompany me on this inspection.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

**NOTICE OF PROOF APPLICATION
OF WATER TO BENEFICIAL USE**

Notice is hereby given that at 10 A. M. on the 15th day of July, 1949, at Hailey, County of Blaine, State of Idaho, before R. H. McCoy, Notary Public, proof will be submitted of the application to beneficial use of six cubic feet per second of the waters of two wells in accordance with the terms and conditions of Permit No. 20091 heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit is Jack Allred, Gannett, Idaho.

The use to which said water has been applied is agricultural.

The amount applied to beneficial use is six cubic feet per second.

The place where said water is used S $\frac{1}{4}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 3; NW $\frac{1}{4}$ NE $\frac{1}{4}$, N $\frac{1}{4}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$ and N $\frac{1}{4}$ SW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec 10, Twp. 1 South, Range 19 East of the Boise Meridian, Blaine County, Idaho.

The name of the canal or ditch or other works which said water is conducted to such place of use is unnamed.

The right to take water from such works is based upon Permit No. 20091.

The source of supply from which such water is diverted is two wells on applicants own land, located on the SW $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 3, Twp. 1 S., Range 19 E., B.M.

The date of priority which said

user is prepared to establish is May 31, 1947.

MARK R. KULP
State Reclamation Engineer

NOTICE FOR PUBLICATION

Notice is hereby given that at 10 A. M., on the 8th day of April 1948, at Hailey, County of Blaine, State of Idaho, before R. H. McCoy, Notary Public, proof will be submitted of the completion works for the diversion of 8 cubic feet per second of the waters wells on applicant's property in accordance with the terms and conditions of a certain permit heretofore issued by the State Reclamation Engineer of the State of Idaho.

1. The name of the person or corporation holding said permit is Jack Allred.

2. The postoffice address of such person or principal place of business of such corporation is Gannett, County of Blaine, State of Idaho.

3. The number of such permit is 20091, and the date set for the completion of such work is June 9, 1948.

4. Said water is to be used for irrigation and domestic purposes.

5. Said works of diversion will be fully completed on the date set forth for such completion, and the amount of water which said works are capable of conducting to the place of intended use, in accordance with the plans accompanying the application for such permit, is 8 cubic feet per second.

6. The amount of lands for which said water is available is 294 acres, particularly described as follows: S $\frac{1}{2}$ SW $\frac{1}{4}$ and SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec 3, and NW $\frac{1}{4}$ NE $\frac{1}{4}$ and N $\frac{1}{2}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$ and N $\frac{1}{2}$ SW $\frac{1}{4}$ NW $\frac{1}{4}$, of Sec 10, all in Twp 1 S. R. 19 E. B. M., Blaine County, Idaho.

BOISE, IDAHO

REPORT OF ENGINEER

Permit No. 20091

This proof is for Completion of works

In Water District No.

1. Name of applicant Jack Allred, Gannett, Idaho
2. Source of water supply: Subterranean from two wells
3. Location of point of diversion: Is in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 3
T. 1 S. R. 19 E. County of Blaine
4. Describe works as they exist, giving dimensions and capacities of same: Well No. 1. drilled 50 feet deep 50 feet with 14 inch, and Cased 40 feet with 12 inch pipe; Diverts with a Fairbanks-Morse deep well pump, 10 inch discharge. Driven by 25 horse power General Electric Motor.
Well No. 2. is dug 12' X 7' X 20 feet deep, and lined with plank lagging. Equipment includes Fairbanks-Morse vertical centrifugal pump, 6 inch intake, and 5 inch outlet.
Ditches 3 feet wide, and 1 foot deep.
5. Water is used for: Irrigation and domestic
6. State whether or not water has been turned into works of diversion: Yes
7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):
S $\frac{1}{2}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 3; NW $\frac{1}{4}$ NE $\frac{1}{4}$, N $\frac{1}{2}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$, N $\frac{1}{2}$ SW $\frac{1}{4}$ NW $\frac{1}{4}$ Section 10;
Township 1 South, Range 19 East, B. M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Unknown

Remarks: Well No. 1 delivers approximately 2.3 second feet

This examination was made on the 8th. day of June, 1948

(Signed)

A. H. Holman

Examiner.

Examination for Completion of works

County Blaine

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Point of Diversion

2009

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

PERMIT NO. 20091

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Robert Brown, age 21, residence and P.O. Address, Gannett, Idaho,
occupation farmer.

Ques. 2. Are you acquainted with Jack Allred, the holder of Permit No. 20091? How long have you known him and where does he reside?

Ans. Yes, I have known Mr. Allred all my life; he resides at
his home at Gannett, Idaho.

Ques. 3. Have you read or heard read said Permit No. 20091, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Source of water is from two wells #1 on SW $\frac{1}{4}$ SW $\frac{1}{4}$ and #2 on SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec 3, Twp 1 S.R. 19 E.B.M.; from the two wells water is conveyed in ditch about 3' on bottom 5' on top and 2 $\frac{1}{2}$ ' deep running E & W along his north line, with laterals from there south into his fields, where water is used.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. My estimate works will safely convey 6 cu ft. per second, and I have seen full flow of the two pumps so conveyed, being about 6 cu ft.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used on Mr. Allred's farm, being S $\frac{1}{2}$ SW $\frac{1}{4}$ (80) SW $\frac{1}{4}$ SE $\frac{1}{4}$ (34) in Sec. 3, and NW $\frac{1}{4}$ NE $\frac{1}{4}$ (40), N $\frac{1}{2}$ NW $\frac{1}{4}$ (80) SE $\frac{1}{4}$ NW $\frac{1}{4}$ (40) and N $\frac{1}{2}$ SW $\frac{1}{4}$ NW $\frac{1}{4}$ (20) in Sec 10, all Twp 1 S.R. 19 E.B.M., Blaine County, Idaho, being Mr. Allred's whole farm, he cultivating right to his boundaries. This is all cultivated land, raising hay and grains, and improvements from the use of this water have been the maturing of the crops he has raised. Mr. Allred's crops the last couple of years have been large and productive. Some land on southerly portion (about 50-60 acres) are irrigated thru subbing of waters. Use of these waters on northerly portion aids in raising of this sub water very noticeably.

20091

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. None

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. This land is quite gravelly in nature gently sloping to the south, fertile and productive when water applied. Before the use of this water, about only use was a little pasture and a few acres of grain in southerly portion which subbed. For proper cultivation needs about 6 cu ft per sec.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

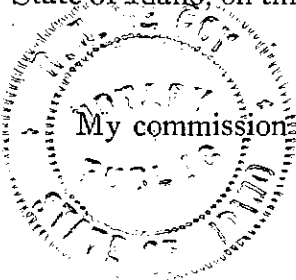

Ans. None whatever

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen Well No. 1 in operation and water used from it since it was first installed in summer of 1946. This well flows about 3.5-4.0 cu ft per sec, and Well No. 2, when it went into operation in middle of irrigation season of 1948, this well flowing about 2.5 cu ft per second. Both wells together flow right at 300", and during each of seasons of respective wells I have seen the full flow of waters so used many times during each season. I living just north of his property.

(Signed) Robert B. Brown

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in City of Hailey, County of Blaine, State of Idaho, on this 15th day of July, A. D. 19 49.

My commission expires 2-31-51

R. J. McLaughlin
Notary Public.

20091

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

PERMIT NO. 20091

Proof of Application of Water to Beneficial Use

Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Lee Ray Byington, age 24, Residence and P.O. Gannett, Idaho
occupation, farmer.

Ques. 2. Are you acquainted with Jack Allred, the holder of Permit No. 20091? How long have you known him and where does he reside?

Ans. Yes. I have known him all my life; he resides at Gannett, Idaho

Ques. 3. Have you read or heard read said Permit No. 20091, and are you familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Water comes from two wells on northerly edge of Mr. Allred's property in SW $\frac{1}{4}$ SW $\frac{1}{4}$ and SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec 3, Twp 1 S. R. 19 E.B.M., these wells being points of diversions. They are powered as follows: No. 1 with 12" discharge by 25 HP electric motor No. 2 with 5" by tractor; These dump into a ditch about 2 $\frac{1}{2}$ " deep 3' on bottom 5' on top along his north boundary, with laterals leading off into the fields.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. About 6 cu. ft. per second; I have seen full flow of wells so conveyed.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation of land and raising of crops, being hay, grain (wheat, barley and oats) and pasture on S $\frac{1}{2}$ SW $\frac{1}{4}$ (80), SW $\frac{1}{4}$ SE $\frac{1}{4}$ (34) in Sec 3 and NW $\frac{1}{4}$ NE $\frac{1}{4}$ (40), N $\frac{1}{2}$ NW $\frac{1}{4}$ (80), SE $\frac{1}{4}$ NW $\frac{1}{4}$ (40) and N $\frac{1}{2}$ SW $\frac{1}{4}$ NW $\frac{1}{4}$ (20) in Sec 10, Twp 1 S. R. 19 E.B.M.; improvements are the growing of crops profitably; prior to use of this water, very little was grown except some pasture on this property. This land is all cultivated, except about 85-100 acres on south which are in pasture, and irrigated by subbing. When water is flowing on north, it apparently assists in keeping this sub up much better than when no water was so applied.

20091

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. None.

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. This land is gravelly in nature at north, and sub ground on south. The northerly portion with use of this water has in last couple of years raised good crops, and it needs not less than full flow of these two wells, about 6 cu ft per sec. to properly irrigate this land

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen Well No. 1, put into operation in season (about August) of 1946, this well flowing about 3.5 cu. ft per sec, and Well No. 2, which went into operation in July 1948, flowing about 2.5 cu. ft. per sec. and the waters from these wells ever since they were put in applied by Mr. Allred to irrigate the crops he put in on his property. I have witnessed this use many times each irrigation season, as my land adjoins his on the north of his property.

(Signed) Lee Ray Byington

I hereby certify that the foregoing testimony was read to the above subscriber before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me in City of Hailey, County of Blaine,

State of Idaho, on this 15th day of July, A. D. 19 49.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. 20091

Proof of Application of Water to Beneficial Use

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Jack Allred, residing in Townsite Gannett, Idaho, occupation: farmer; P.O. Address, Gannett, Idaho

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. Acting on own behalf

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit No. 20091, dated JMay 31, 1947; priority to be established: May 31, 1947

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. Water comes from subterranean flow from two wells, point of diversion being wells on SW $\frac{1}{4}$ SW $\frac{1}{4}$ and SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 3, Twp 1 S. R. 19 E.B.M., Blaine Co., Ida. Well #1 about 35 ft SE from NW corner of SW $\frac{1}{4}$ SW $\frac{1}{4}$; #2 10' S and 10' E of NW corner of SW $\frac{1}{4}$ SE $\frac{1}{4}$.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use.

Ans. Works of diversion being two wells, #1 50' deep, #2 20' deep; #1 being cased with 14" casing; #2 being cased with 2" x 6", and is 4' x 6' in size; #1 has Fairbanks-Morse pump 12" discharge; #2 Fairbanks-Morse Centri. Pump 5". #1 powered with 25HP and #2 tractor powered #1 having electric motor. Pumps discharge into ditch running E & W along north edge of property 3' at bottom, 5' at top and about 2 $\frac{1}{2}$ ' deep. Laterals run southerly from main ditch to all fields southerly. Works are capable of carrying 6 Cu. ft. per sec. of water. Ditches are unnamed, being all on applicant's property.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for irrigation of cultivated crops. Premises are described as follows: S $\frac{1}{2}$ SW $\frac{1}{4}$ (80 acres) SW $\frac{1}{4}$ SE $\frac{1}{4}$ (34 acres) in Sec 3, and NW $\frac{1}{4}$ NE $\frac{1}{4}$ (40 acres), N $\frac{1}{2}$ NW $\frac{1}{4}$ (80 acres) SE $\frac{1}{4}$ NW $\frac{1}{4}$ (40 acres) and N $\frac{1}{2}$ SW $\frac{1}{4}$ NW $\frac{1}{4}$ (20 acres) in Sec. 10, all Twp 1 S. R. 19 E.B.M., Blaine County, Idaho. Improvements which have been made as direct result of use are maturing of first and second cuttings of hay and maturing properly of all grains raised on said premises, which were never done prior to use of water to my knowledge.

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. None.

20091

Note: On southerly portion of my land there are sub-irrigated grounds of about 75-100 acres; use of this water on north materially aids in maintaining this sub at a high level, and this is used for pasturage.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. Approximately $1\frac{1}{2}$ " to the acre or more. More water could be profitably used, but not available at present.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. - - - -

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Well #1 drilled and completed Aug. 1946 and used continuously since that date; Well #2 ~~drilled~~ dug and completed July 1948 and used continuously since that date; water used from wells as needed for irrigation of crops during seasons of each year. Well #1 delivered 180" (3.6 cu ft per sec) and Well #2 delivered about 130" (2.6 cu ft per sec) all water being used

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. No other water rights held or used.

(Sign)

Jack Alfred

NOTICE FOR PUBLICATION
NOTICE OF PROOF APPLICATION OF WATER
TO BENEFICIAL USE

Notice is hereby given that at 10 A. M. on the 15th day of July, 1949,
at Hailey, County of Blaine, State of Idaho, before
R. H. McCoy, Notary Public, proof will be submitted of the
application to beneficial use of ^{six}~~7 1/2~~ cubic feet per second of the waters of two wells
in accordance with the terms and conditions of Permit No. 20091
heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are.....

Jack Allred, Gannett, Idaho

The use to which said water has been applied is agricultural.

The amount applied to beneficial use is ^{six}~~7 1/2~~ cubic feet per second.

The place where said water is used (~~if for irrigation give full and accurate description of the~~
~~lands irrigated~~) S 1/2 SW 1/4, SW 1/4 SE 1/4 Sec 3; NW 1/4 NE 1/4, N 1/2 NW 1/4, SE 1/4 NW 1/4 and N 1/2 SW 1/4 NW 1/4
Sec 10, Twp 1 South, Range 19 East of the Boise Meridian, Blaine
County, Idaho

The name of the canal or ditch or other works by which said water is conducted to such place of
use is unnamed

The right to take water from such works is based upon Permit No. 20091

The source of supply from which such water is diverted is two wells on applicants
own land, located on the SW 1/4 SW 1/4 and SE 1/4 SW 1/4 Section 3, Twp. 1 S., Range 19 E., B.M.

The date of priority which said user is prepared to establish is May 31, 1947

MARK R. KULP

State Reclamation Engineer.

Re: Permit No. 20091

Mr. Joseph McFadden
Attorney at Law
Hailey, Idaho

Dear Mr. McFadden:

We acknowledge receipt of your letter of June 1, 1949, enclosing application of Jack Allred for extension of time for making Proof of Beneficial Use under Permit No. 20091 to July 15, 1949.

We enclose approval of the State Reclamation Engineer for such extension, which should be attached to the original Permit, of which it now forms a part.

Since this proof was not due until June 9, 1949, the extension application is not too late for the Permit to keep the original priority, but we have had to change the notice in one respect. Since Certificate of Completion of Works only showed a capacity of six cubic feet per second, Beneficial Use Proof cannot be made on a larger amount.

A copy of the notice has been sent to the Hailey Times, with instructions to publish it once a week for four consecutive weeks, prior to that date and to send the Affidavit of Publication, together with statement of costs, to Mr. Allred, in your care.

However, we note that Form 11 has not been signed by either Mr. Allred or you, and we return it for that purpose.

As requested, we enclose the necessary forms of deposition for making this proof, consisting of one for the Permit Holder and one for each of two witnesses. At the time set, Mr. Allred should appear before you with two disinterested witnesses who are familiar with the terms of the Permit and the work done thereunder, for the purpose of executing the depositions.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

Permit No. 20091

Application for Extension of Time for Beneficial Use Proof

STATE OF IDAHO }
County of Blaine } SS

Jack Allred, of Gannett

State of Idaho, being first duly sworn, upon his oath deposes and says:

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 20091

That, under the terms and conditions of said permit, proof of beneficial use thereunder was required to be made by June 9, 1949

That he has heretofore put to beneficial use $7\frac{1}{2}$ second feet of water and has irrigated 200 acres approx.

That, for the following reasons, he is unable to put to beneficial use within the required time the remainder of the water appropriated under his permit, to-wit: applicant has put above water to beneficial use, but desires merely sufficient extension of time for proof to allow necessary publication, inadvertently forms for publication were not returned to Commissioner within time to allow for publication.

State Reclamation Engineer

WHEREFORE, He asks that the Commissioner of Reclamation extend the time for the making of proof of beneficial use under said permit to July 15, 1949

Subscribed and sworn to before me this 1st day of June, 1949

My commission expires April 12, 1951

Notary Public.

Date of receipt at office of Department of Reclamation

Re: Application 20091 Jack Allred

Dear Sir:

I find that Mr. Allred received a letter from your department several weeks ago which enclosed blank notice for proof of application for water for beneficial use. He failed however, to advise me of this and has not had the blank notice of proof of application for water for beneficial use filled out and returned to your office for publication within the time limit. I would appreciate it if you would advise me if we can get a new proof form and fill this out and forward the same to you. He realized that this would change the date of his certificate but under the circumstances that is all that can be done. If you will kindly forward me the necessary forms for publication notice I will see that it gets under way immediately with the least possible delay.

Yours truly,

Joseph M. Fadden

Re: Permit No. 20091

Mr. Joseph McPadden
Attorney at Law
Hailey, Idaho

Dear Mr. McPadden:

In reply to your letter of May 23, we enclose the necessary forms in connection with Proof of Beneficial Use to be used under Permit No. 20091, in the name of Jack Allred.

As you understand, both copies of Form 10, when filled out, are to be returned to this Department, together with Form 11, which is the Permit Holder's authorization for us to have the notice published at his expense in the designated county newspaper.

We are also enclosing a form of application for extension of time for making Proof of Beneficial Use. If this is executed and returned promptly to this Department, it will not be necessary to change the priority date as given on the original Permit.

Very truly yours,

Dear Mr. McFadden:

In reply to your letter of July 2nd requesting forms for making completion of works proof on Permit No. 20018, Non Sponsor, and Permit No. 20091, Jack Allred:

Proof of completion of works on Permit No. 20018 may be made on Form 6, enclosed, which should be executed before a Notary Public, and returned to this department with the statutory fee of \$5.00.

Permit No. 20091 requires publication once a week for four consecutive weeks, as provided in Section 41-203, I.C.A., for permits for more than 6.4 second feet.

This notice should be made in duplicate on Form 8, enclosed, setting time and place and naming the Notary Public before whom the proof will be made. The date, of course, must be sufficiently far ahead to allow for the four weeks' publication.

Both copies of the notice to be returned to this department, together with Form 10, which is authorization for us to have the notice published, at applicant's expense, in the designated county newspaper.

**NOTICE OF PROOF APPLICATION
OF WATER TO BENEFICIAL USE**

Notice is hereby given that at 10 A. M. on the 15th day of July, 1949, at Hailey, County of Blaine, State of Idaho, before R. H. McCoy, Notary Public, proof will be submitted of the application to beneficial use of six cubic feet per second of the waters of two wells in accordance with the terms and conditions of Permit No. 20091 heretofore issued by the State Reclamation Engineer of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit is Jack Alfred Gannett, Idaho.

The use to which said water has been applied is agricultural.

The amount applied to beneficial use is six cubic feet per second.

The place where said water is used S $\frac{1}{2}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 3; NW $\frac{1}{4}$ NE $\frac{1}{4}$, N $\frac{1}{2}$ NW $\frac{1}{4}$, SE $\frac{1}{4}$ NW $\frac{1}{4}$ and N $\frac{1}{2}$ SW $\frac{1}{4}$ NW $\frac{1}{4}$ Sec 10, Twp. 1 South, Range 19 East of the Boise Meridian, Blaine County, Idaho.

The name of the canal or ditch or other works which said water is conducted to such place of use is unnamed.

The right to take water from such works is based upon Permit No. 20091.

The source of supply from which such water is diverted is two well on applicants own land, located on the SW $\frac{1}{4}$ SW $\frac{1}{4}$ and SE $\frac{1}{4}$ SW $\frac{1}{4}$ Section 3, Twp. 1 S., Range 19 E., B.M.

The date of priority which said user is prepared to establish is May 31, 1947.
