Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Irrigation: about 5 acres is irrigated in the NW $\frac{1}{4}$ NE $\frac{1}{4}$ and about two acres in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ sec. 33, T. 4 N., R. 19 E. The land has been seeded in oats for several years prior to 1921, and this year is seeded in wheat. Fair crops have been raised as the result of the irrigation.

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. ---

12201

Ques. 8. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The land irrigated is a sandy loam and requires about one inch of water per acre for proper irrigation.

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. None.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have seen this land being irrigated with the water from Willow Spring several times during each year from 1919 to and including the year 1921. About 25 inches of water was being used.

Dear Sir:

Beg to enclose herewith duplicate notice for publication in connection with proof of beneficial use of water under permit #12201 issued to Anna L. Ellingsen.

Mrs. Ellingsen died about a year ago, and her estate is now in probate, her husband, John J. Ellingsen being the administrator and only heir.

Will it be proper for him to submit the proof of beneficial use in his own name, or in the name of his deceased wife? Mr. Ellingsen is away at present, and I have been unable to secure permit #12201, and hence can not fill in the amount of cu. ft., the source of water, date of priority, etc. in the notice for publication.

Very truly yours,

H. D. Smith

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Boise, Idaho, February 4, 1920.

Aana Ellingsen,
Bailey, Idaho.

Dear Sir:—

Under the terms of your permit No. 12201 you are required to complete your diversion works on or before June 15, 1920. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

W. G. Swendsen,
Commissioner of Reclamation.
