37-0232
Amount: 1.60 cfs
Priority Date: 5/15/1884
Point of Diversion: Same as 37-0230
Place of Use: Same as 37-0230

PORTION OF RIGHT TO BE CHANGED:

37-0230
Amount: 4.0 cfs
Point of Diversion: SWSW, Sec. 11, T1S, R18E, B.M., Blaine County. Also known as Black #61 generally described as the NWSE, Sec. 2, T1S, R18E
Place of Use: NW¼, Sec. 15, T1S, R18E for irrigation of 160 acres from April 1 to November 1

37-0231
Amount: 0.40 cfs
Point of Diversion: Same as 37-0230
Place of Use: Same as 37-0230

37-0232
Amount: 1.60 cfs
Point of Diversion: Same as 37-0230
Place of Use: Same as 37-0230

PORTION OF RIGHTS TO BE CHANGED:

Amount: 6.0 cfs total of all rights
Point of Diversion: Lt 1, NWSE (Black #61), Sec. 2; SWNE, Sec. 10; NWNW, SWSW, Sec. 11; NWNE, Sec. 15, T1S, R18E; NWSE, Sec. 35, T1N, R18E
Place of Use: W½SW¼, Sec. 10; NW¼, Sec. 15; NE¼NE¼, Sec. 16, T1S, R18E for irrigation of 160 acres from April 1 to November 1

Any protest against the approval of the above-proposed change of the portion of the right described above must be filed with the Director of the Idaho Department of Water Resources, 1041 Blue Lakes Boulevard North, Twin Falls, Idaho 83301, OR OR BEFORE JANUARY 16, 1984.

D. REMARKS This transfer application is based on historical usage as expressed by watermaster records prior to 1925. While the water delivered exceeds one (1) miners inch per acre, the historical beneficial use should be honored. These soils are extremely porous in nature, being the flood plain of the Big Wood River. Additionally, water applied in excess of the consumptive requirement of crops enters the ground water system and returns to the Big Wood River within a few miles. This ranch is at the downstream end of the Big Wood River system therefore no other water rights will be injured by recognizing historical use and allowing the transfer.

I hereby assert that no one will be injured by such change and that the change does not constitute an enlargement in use of the original right. The information contained in this application is true to the best of my knowledge.

I understand that any willfull misrepresentations made in this application may result in voiding its approval.

D. REMARKS

Because of changes in irrigation practices in the area, the consolidation of several farms and changes in the Big Wood River channel modification of existing water rights is necessary. The changes described herein more accurately reflect actual irrigation practices and will ease delivery of water by Water District 37.

I hereby assert that no one will be injured by such change and that the change does not constitute an enlargement in use of the original right. The information contained in this application is true to the best of my knowledge.

I understand that any willfull misrepresentations made in this application may result in voiding its approval.

Re: Application for Transfer of Water Right No.

Dear Mr. Newby:

Enclosed is a copy of an Application for Transfer of a Water Right within your District, and Watermaster's Recommendation Form.

Section 42-222 of the Idaho Code requires that the watermaster must be advised of proposed changes in water rights in the water district and must notify the Department of his recommendation on the application.

Please complete the enclosed recommendation form and return it to this office.

Processing of the application can be completed in 20 days, so your prompt response to this request will be appreciated.

If you have any questions about the application, please contact this office or the applicant.

Very truly yours,

LOREN O. HOLMES
Southern Region Supervisor

Dear Mr. Merritt:

This letter is to clarify applications for transfer for several water rights for my property located near Bellevue, Idaho. It is my understanding that because of some confusion with regard to the actual location of the "Black 61" diversion and a request by the Watermaster, this letter is necessary to clarify my intent with the transfer applications.

The application for transfer of water right now in the process of being reviewed by the Watermaster and your office relating to state water right numbers 37-0060, 37-0061, and 37-0062 should have the following additions for clarification. Item C-2 under additional points should have added the NE/4 SE/4, Section 2, T1S, R18E (Black 61 diversion). Additionally, the map under Item 5 should have the Black 61 diversion added in the NE/4 SE/4 of Section 2. It is important to note, that this point of diversion is the same point of diversion described under application for transfer of water right filed by Mr. Dave Cropper for water right 37-0577 in my behalf which is noted under Item C-2 as the NW/4 SE/4 of Section 2. In our discussions with Mr. Reid Newby, Watermaster, he indicated that he did not know whether or not the Black 61 diversion was located in the NW/4 SE/4 or the NE/4 SE/4 and the decree only refers to the point of diversion as being in the SE/4 of Section 2 which leaves a great deal of room for error. However, it is my intent that those two descriptions be considered the Black 61 diversion as it is recognized by the Watermaster.

Additionally, I've enclosed application for transfer of water right for water rights 37-0230 through 37-0232. The quantities of water described in this transfer are those that have historically been diverted and recognized as beneficial use by the Watermaster and further clarification is included under the remarks section of

MICROFILMED

the application. I've also attached a copy of a letter from Mr. Reid Newby, Water District 37 and 37M, which describes the historical diversion to the ranch under these water rights and ask that this historical usage be recognized under this application.

If any questions arise regarding these transfers, please contact Mr. Sherl Chapman in Boise at 344-6690.

Sincerely yours,

E Hadley Stuart Jr

RE: Point of Diversion for the E. Hadley Stewart Transfer on Water Right No. 37-0577

Dear Reid:

Pursuant to your telephone conversation a couple of weeks ago, I reviewed carefully the point of diversion on the above referenced Application for Transfer. You had indicated that there was a chance that the point of diversion was actually in the NE¼SE¼, rather than the NW¼SE¼ as shown on the application.

I have attached a copy of the USGS topographic map for the vicinity of the point of diversion. On the map I have shown the location of the point of diversion as shown on the application. On this map the Big Wood River does appear to run through the NW¼SE¼ and not the NE¼SE¼. However, it may be that you have a map that is more accurate than this one that would show the location in a different tract. If so, please contact me and we will make the appropriate changes. If not, no further action is necessary because we have approved the Application for Transfer as shown since the information appears to be correct and the applicant was in a hurry.

I appreciate you pointing out your concern regarding the location of the point of diversion. Information from watermasters is the most objective information that we receive regarding Applications for Transfer.

Sincerely,

Dave

Dear Sherl: In Re: E. Hadley Water Water Right

Regarding your letter of September 19 on E. Hadley Stuarts' water rights; in the 22 years that I have been Watermaster for Water District #37, Big Wood River, we have delivered to the Black #61, Flood #64 and Bettis #65 diversion points for Mr. E. Hadley Stuart or his predecessors upon demand; which includes up to 200 inches of State Water Right #37-0230; #37-0231 - 20 inches and #37-0232, 80 inches. No water has been delivered to Mr. Stuart under State Water Right #37-0233.

The Watermaster's records show that these waters have been delivered to these diversion points since they were originally decreed in the S.C. Frost vs. Alturas Water Company decree.

Hope this helps you and if we can be of further service to you, please let us know.

Sincerely,

Reid J. Newby, Watermaster

Dear Allen:

Enclosed you will find the completed applications for transfer of water right in behalf of E. Hadley Stuart, Jr. we discussed sometime back and proof of ownership of the property involved. If you have any questions on these, please give me a call, however, I think everything is in order and you should not have any difficulty with them.

On another matter, I have been able to pull out the materials and legal description on water right #37-0231 in the name of Robert T. Flood under the Frost decree. At the present time, I am working with Reid Newby and the State office in an effort to get a correct legal description for the land irrigated. If you will refer to the Frost decree, you'll find that that water right is listed as being applicable to 320 acres while the land description only describes 240 acres. There apparently is a duplication in the land description and I'm working with the others involved to get the land description corrected to show the full 320 acres. As soon as we can unravel this situation with the watermaster and the State office, I'll forward a transfer to you that redistributes that water. I would appreciate, however, if you could continue processing these transfers I'm sending you today so as to minimize any delays in the future.

Thanks for you help in this matter.

Re: 3 Transfer Applications for E. Hadley Stuart, Jr.

Dear Sherl:

Please find enclosed the transfer applications which we discussed in our phone conversation this date.

I looked in the Frost Decree and our records indicate that right 37-0231 originally decreed to Flood remains on the land with rights 37-0230, 37-0231, and 37-0233. Before the transfer of the other rights can be allowed the use of 37-0231 will have to be resolved. (Refer to enclosed memo dated April 28, 1982.)

I failed to mention in our phone conversation that we will need proof of ownership of all the rights being transferred. This can be copies of deeds, quit claims, tax notices, ect., which would show ownership of the rights or the land which they are presently appurtenant.

Please make the necessary changes we discussed in our phone conversation and attend to the items listed above and return the applications to our office and we will continue processing them.

Please note that we have receipted the fee for all three of the transfers assuming that these transfers shall be returned for processing.

Please feel free to contact us if you have any questions.

Dear Loren:

Please find enclosed three applications for transfer of water right and one claim to water right filed in the name of Hadley Stuart, Jr. Mr. Stuart owns all of the land included in the documents and the changes are to modernize his irrigation system. There is no increase in acreage or diversion on the transfers but merely changes in place of use and addition of points of diversion. The claim is for lands that have been irrigated for many years but never filed on.

If you need any additional data or have any questions, please give me a call.

This day I phone Sheryl Chapman's office to discuss the Shuart transfers. Mr. Chapman was not in but left word with Charlie Bryan to have Mr. Chapman call.

Transfer 37-0071 appears OK

Transfer on 37-0060, 37-0061, 37-0062 need proof of ownership

Transfer on 37-0230, 37-0232, 37-0233 need proof of ownership and also resolve issues with 37-0231

Transfer applic needs to be modified to identify what portions of each right is being transfered.

6/27/83 Phoned Chapman's office again & left message to call. AOm

Memo: Date 1/18/83

This day I talked with Sheryl about the three transfers. We discussed the rights as listed by the water masters records I requested that the proof of ownership question be pursued and that possibly this would shed some light on the way the water is presently being delivered.

We decided to hold the applications until he gets back to me.
