Dec. 17, 1919.

W. G. Swendsen, Esq.
Commissioner of Recl.
Boise, Idaho.

Dear Sir:

In reply to your letter of Dec. 11th
Re: Permit No. 9268 of Charles I. Johnson, beg to
advise that the application for permit correctly
described the land to be covered thereby; namely,
Lots 1 and 2, $SE\frac{1}{4}NW\frac{1}{4}$, and $NW\frac{1}{4}SE\frac{1}{4}$ sec. 6, T. 1 N.,
R. 16 E., B.M.

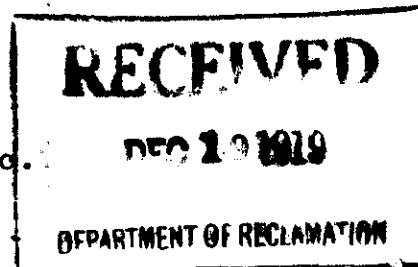

Lots 1, 2, and $SE\frac{1}{4}NW\frac{1}{4}$ sec. 6, are em-
braced in Mr. Johnson's Homestead Entry, and the
 $NW\frac{1}{4}SE\frac{1}{4}$ sec. 6 is embraced in his Desert Land Entry.
The $NW\frac{1}{4}SE\frac{1}{4}$ sec. 6 is not contiguous ~~to~~ to the other
lands, as shown in the plat filed with the applica-
tion. The said plat is absolutely correct, as re-
gards the location of the land, the creek, and the
ditches, and point of diversion.

I do not understand how the examining
engineer could have made his apparent error in the
description of the land, unless it was through the
unusual numbering of the lots in section 6 of this
township. The lots usually are numbered commencing
with the $NE\frac{1}{4}NE\frac{1}{4}$ or lot 1, the $NW\frac{1}{4}NE\frac{1}{4}$ or lot 2, the
 $NE\frac{1}{4}NW\frac{1}{4}$ or lot 3, the $NW\frac{1}{4}NW\frac{1}{4}$ or lot 4, the $SW\frac{1}{4}NW\frac{1}{4}$
or lot 5, etc. In this township, the $NW\frac{1}{4}NW\frac{1}{4}$ is the
same as lot 1, the $SW\frac{1}{4}NW\frac{1}{4}$ lot 2, etc.

I trust with this explanation, it will
be possible to issue the license, if the cultiva-
tion and irrigation warrant same.

Very truly yours,

Enc.

Re Permit- Chas. I. Johnson.

Mr. H. D. Smith,
Hailey, Idaho.

Dear Sir:--

In checking the proof papers for beneficial use of water under the above permit, preparatory to making out the license, I find that the report of the examining engineer does not agree with the permit, nor with the depositions filed in the matter of proof, as to point of diversion and lands. You will readily see the discrepancy upon the enclosed copies of maps on file here.

The permit describes the land as Lots 1 & 2, and the SE $\frac{1}{4}$ of NE $\frac{1}{4}$ and NW $\frac{1}{4}$ of SE $\frac{1}{4}$, Sec. 6, T. 1 N., R. 16 E., B.M., while the report gives the land as Lot 2, the SW $\frac{1}{4}$ of NE $\frac{1}{4}$ and SE $\frac{1}{4}$ of NE $\frac{1}{4}$, said section. The permit locates the point of diversion in the NW $\frac{1}{4}$ of NW $\frac{1}{4}$, section 6, while the report shows this point in Lot 2, said section.

Before issuing the license it will be necessary for the records to be corrected as to the point of diversion and lands. If the mistake has been made by the engineer who made the examination, it will be necessary to have the same corrected. If the error was made in making out the original application and map for permit, the holder should file an affidavit for change of point of diversion and an application for amendment of the permit, forms for which are herewith enclosed. Duplicate maps should accompany these, showing the correct location of diversion and lands.

As soon as this correction can be made, the license will be mailed to you.

Very truly yours,

W. G. SWENDSEN,

Commissioner of Reclamation.

Notice of Proof of Application
to Permit Use

Notice is hereby given that at 10 a. m. on the 5th day of March 1913, at Shoshone, county of Lincoln, State of Idaho, before Frank T. Disney, Notary Public, proof will be submitted of the application to beneficial use of 3.2 cubic feet per second of the waters of Willow creek in accordance with the terms and conditions of Permit No. 9268 heretofore issued by the State Engineer of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are Charles L. Johnson, Shoshone, Idaho.

2. The use to which said water has been applied is Irrigation and Domestic Use.

3. The amount applied to beneficial use is 3.2 cubic feet per second.

4. The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated) Lots 1 and 2, SE $\frac{1}{4}$ NW $\frac{1}{4}$, NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 6, Twp. 1 North, Range 16 E. B. M.

5. The name of the canal or ditch or other works by which said water is conducted to such place of use is Private ditch.

6. The right to take water from such works is based upon Permit No. 9268.

7. The source of supply from which such water is diverted is Willow Creek.

8. The date of the priority which said user is prepared to establish is April 17, 1913.

In re: Permit 9268.

H. D. Smith,
Hailey, Idaho.

Dear Sir:

Reference is had to your letter of November 10,
relative to the above numbered permit, standing in the name
of Charles I. Johnson.

In checking over our files preparatory to the issuance
of license under the permit, no proof of publication is found,
although under date of March 16, 1918, we acknowledged receipt,
to Mr. Disney of Shoshone, Idaho, of the depositions of proof
and of the affidavit of publication; the proof of publication,
as said, does not appear in the files, and the acknowledgment
of receipt of such proof of publication was an error on our
part.

Our files indicate that the notice was published in
the Camas Prairie Courier at Fairfield, the notice being
forwarded to such paper under date of January 28, 1918.

Immediately upon receipt of proof of publication
at this department a license will be issued.

In re: Permit #9268

H. D. Smith,
Hailey, Idaho.

Dear Sir:

Replying to your letter of the 6th, you are advised that our records show that Charles I. Johnson made proof of beneficial use of water under the above numbered permit, under date of March 5, 1918 before Frank T. Disney, Shoshone, Idaho. Under date of March 14, Mr. Disney forwarded to this office the depositions of final proof and enclosed his check in the sum of \$6.00. Thereafter and under date of March 16, we returned to him his check and advised him that the matter of issuing license would be taken up after the statutory examination was made by a representative of this department, and that he would be notified as to the fees due.

Under date of July 23rd, 1919, we advised Mr. Disney that the statutory examination had been made and that upon receipt of fees in the sum of \$6.00, license would issue. To date hereof, the fees have not been submitted. Consequently, license has not issued. Upon receipt of the above fees in the sum of \$6.00, the matter of issuing license will be taken up.

Instructions To Examiners

1. Examiners will not be permitted to examine any of the records in the office pertaining to this permit. They are to furnish a report of the facts and conditions as they exist, from their own observations and inquiries.
2. Always carefully note the location of the point of diversion, and accurately plat same.
3. Find out how many parties own rights in the ditch or canal and give their names and amount of right.
4. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
5. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
6. If any unusual conditions are discovered, make a plain statement of them under remarks.
7. Always see the holder, if possible, and go over the whole ground with him, and make your report only upon actual existing facts and conditions.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Chas. I. Johnson,
Hailey, Idaho

Boise, Idaho,

Dear Sir:

Jan. 13, 1916.

Under the terms of your permit No. 9268, you are required to complete your diversion works on or before April 30, 1916. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
