IN THE MATTER OF APPLICATION FOR PERMIT) COMMENTS AND
TO APPROPRIATE THE PUBLIC WATERS OF THE) EVIDENCE OF
STATE OF IDAHO) JAMES J. WALKER

COMES NOW, Jim J. Walker of Bellevue, Idaho, and provides the following comments and evidence in this matter:

1. I acquired property in Blaine County, Idaho described as the SW1/4 Section 24, T. 1 N., R. 18 E., B.M. in 1973, as evidenced by the quitclaim deed labeled Exhibit A attached to this affidavit.
2. I deeded said property to Walker Sand and Gravel in 1994, as evidenced by quitclaim deed labeled Exhibit B attached to this affidavit.
3. The groundwater well known as the Valley Paving well was completed on June 1, 1983. The well has a 12-inch casing and is 240 feet deep. A 25 HP pump has been installed in the well since its construction.
4. The aforementioned well has been used to irrigate 24.1 acres of land in SE1/4 SW1/4 Section 24 and 0.9 acres of land in NE1/4 SW1/4 Section 24, T. 1 N., R. 18 E., B.M. beginning in the 1983 season and continuing, without a 5-year period of non-use, to the present day.
5. No other water, including surface water, has been used on the aforementioned land.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 37-20833

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The field examination report is presently on file with the department, therefore, the next step in the process is for the department to review the file for issuance of a water right license.

Be advised that Section 42-248, Idaho Code, requires you or the owner of these water rights to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

Sincerely,

RE: Permit No. 37-20833

Dear Permit Holder:

Upon review and approval of the request for extension of time you submitted in connection with the above referenced permit, the department hereby extends the time within which to submit proof of beneficial use to **May 1, 2004**. With the approval of your request for extension I am also reinstating the permit since a lapse notice was issued. The lapse notice was issued because I had not received your request when processing the lapsed permits, but received it from the regional office on May 6, 2003. I am reinstating the permit with no change to the priority date since the filing was timely.

Please note that the department granted the extension based on due diligence.

Section 42-248, Idaho Code requires you or the owner of this water right to maintain current ownership and address records on file with the department. Therefore, I am enclosing an Assignment of Permit form for the new owner to file with the department. This form will update our records and your name will be removed from this permit.

Please contact me at (208) 327-7953, if you have any questions regarding this matter.

Sincerely,

Re: Extension of time request for 37-20833

Dear Allen:

The above-referenced permit was issued to Walker Sand and Gravel for irrigation of 25 acres that began prior to the moratorium order (see the application file for further details). The permit was issued on January 16, 2003 with a proof of beneficial use date of May 1, 2003. The well and irrigation system have been installed, of course, but irrigation will not commence this year until well into May due to wet soil conditions at the site. The permit holder will be having Brockway Engineering conduct a beneficial use field examination, and additional time is necessary to allow measurement of the flow rate and examination of the system when irrigation is actually occurring. An extension of time to October 31, 2003 (the end of the irrigation season) is requested per the enclosed Request for Extension of Time.

LAPSE NOTICE

RE: PERMIT NO. 37-20833

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in the proof due notice dated February 28, 2003. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifty dollar (\$50.00) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

Sincerely,

L. Glen Saxton, Chief
Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 37-20833

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 01, 2003. (See last page of your approval permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Sincerely,

Deborah J. Gibson, Administrative Assistant

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a form entitled 'Instructions for Proof of Beneficial Use.' Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled 'Proof of Beneficial Use.' If your project is already completed, you should complete and submit this form immediately.

The right to drill a well is not a part of this permit to appropriate water. Beginning in July of 1987, a statute was enacted which requires a drilling permit for new well construction and deepening of existing wells. If the well(s) proposed for use under this water right permit were drilled or deepened after July 1, 1987, a separate drilling permit must be obtained from this Department. Please contact the Ground Water Protection Section located here at this office or our regional office nearest you.

MICROFILMED

JAN 21 1997

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

(To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below.

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of, or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

The application proposes to divert groundwater from the "Eastern Snake River Plain Aquifer" presently under a moratorium order dated April 30th, 1993. The order allows the Director to consider on a case-by-case basis applications; if it can be shown the development will have no effect on prior surface and groundwater rights because of its location, insignificant consumption, or mitigation by the applicant to offset injury to other rights. The applicant has submitted material as evidence of pre-1987 development as part of the application.

Remark: Application proposes to develop domestic and irrigation use within Timberview Terrace Subdivision located near the mouth of Greenhorn Gulch approximately 2 miles west and 6 miles north of Hailey. The application proposes diverting water from two existing wells for 10 homes within the five-lot subdivision. The 5 acres of proposed irrigation use is based on a $\frac{1}{2}$ acre allowance per home.

Permits will be subject to all prior water rights. Protests may be submitted based on the criteria of Sec 42-203A, Idaho Code.

AIRPORT WEST PARTNERS, C/O JAMES P SPECK, SPECK & ANESTAD, PO BOX 987; KETCHUM ID 83340 filed Application No. 70260 on 9/19/02. Transfer application proposes changing the place of use of a 0.21 cfs and 8.82 acre portion of water right 37-7683. The changed portion will be diverted from an existing irrigation well and used to irrigate landscaping within the Airport West Subdivision. The subdivision is located between Broadford Road and the airport, approximately 1.0 mile south and 0.5 miles east of the center of Hailey. Protests may be submitted based on the criteria of Sec 42-222, Idaho Code.

An Extension of Time to Avoid Forfeiture of A Water Right was filed by Robert J. Struthers, Jr., 388 Gannett Rd; BELLEVUE ID 83313 on 10/23/02. The extension is requested to avoid loss of the water right due to non-use because portions of the appurtenant place of use has been sold.

Re: Four Applications for Permit, one Transfer of Water Right and one Extension of Time To Avoid Forfeiture

Dear Mr. Peterson:

Enclosed are copies of various Applications within your District, and Watermaster's Recommendation Form(s).

Section 42-222 of the IDAHO CODE requires that the watermaster must be advised of proposed changes in water rights in the water district and must notify the Department of his recommendation on the application.

Please complete the enclosed recommendation form(s) and return to this office.

Regional review of an unprotested application can be completed as soon as the final protest period is past; therefore, your prompt response to this request is appreciated.

If you have any questions about an application, please contact this office or the applicant.

Very truly yours,

Mary A. Baldwin

RE: Applications for Permit No. 37-20833 and No. 37-20834

Dear Applicant(s):

The Department of Water Resources acknowledges receipt of your water right application. Please refer to the above referenced number in all future correspondence regarding this application.

A legal notice of the application has been prepared for publication in the **Wood River Journal** on 12/18 & 12/24/02. Submittal of protests to the application will be allowed for a period ending ten days after the second publication. (January 6, 2003)

If an application is protested you will be sent a copy of the protest(s). All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If an application is not protested, it will be forwarded to our State Office in Boise for final processing. The State Office will notify you of any action taken on the application and will send you a copy of the permit if approved. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions.

Sincerely,

Re: Water right applications and SRBA claims – Walker
Project No. 529-01-2001

Dear Allen:

Enclosed are the following applications and claims for Walker Sand and Gravel Ltd. Co., and for Jimmie R. and Kathy M. Walker:

Permit Application #1: Industrial use

This permit will cover additional non-consumptive use from a well known as the "Crusher Well" which has occurred due to increased pump size. The permit also provides for an additional 400 gpm for future expansion. If this permit is approved, a total of 5.90 cfs (2650 gpm) would be allowed from all wells.

Water from the industrial wells is withdrawn for use in the facility for washing gravel and sand. Spent water is directed to an existing recharge pit, where it returns to the aquifer rapidly by infiltration in the gravelly soil. This recharge pond has been in use at least since the original permit 37-8136 was acquired in the early 1980s. Another permit, 37-8532, with a priority date of 7/20/1989, also covers the industrial use. Both of these permits were granted prior to the moratorium on new consumptive use water rights. Therefore, any consumptive use which may be inherent in the water use, or which may occur by evaporation from the recharge pit, is covered by these earlier rights. The recharge pit covers approximately 4.4 acres, and is located in soil designated by the SCS as the Balaam-Adamson-Riverwash complex. This soil has an infiltration rate ranging from 8 ft/day in the upper layers to over 40 ft/day in cobble layers beginning about 1.5 feet below ground. To recharge the total well discharge, an infiltration rate of only 2.66 ft/day is required; therefore, the pit is easily capable of recharging the total well discharge with insignificant increase in water depth or water surface area. Therefore, the new

permit application will not result in an increase in consumptive use over historical usage.

Permit Application #2: Irrigation.

Irrigation of 25.0 acres in the location shown on the attached map commenced in 1983 and has continued to the present. Water for this irrigation has been drawn from the well known as the "Valley Paving Well" and applied to the land with wheel line sprinkler systems. A water right permit was not acquired for this usage. The applicant recently became aware of the lack of a permit for this usage, and is requesting that this permit application be processed based on beneficial use that began prior to the moratorium. This land has not been irrigated with surface water; a review of historical photos from 1957, 1964, 1969, and 1977 confirms this.

An affidavit by Jim J. Walker is being submitted in support of this permit application. Mr. Walker testifies that the usage began in 1983 and has continued to the present, and that no other water, including surface water, has been used on this land.

An aerial photo workup of the 1987 infrared photo is also being submitted, showing this land clearly irrigated at that time.

Amendments to SRBA claims 37-235C, 37-236A, and 37-308A.

These claim amendments are being filed to correct the place of use description based on documented historical use. The claims are appurtenant to the north parcel purchased from Heath-Marshall in 2001. The acreage claimed is based on the 1964 aerial photo, which shows 28.4 acres irrigated as indicated on the attached map. Ownership of this land is in the name of Jimmie R. Walker and Kathy M. Walker, as evidenced by the attached deed.

Amendments to SRBA claims 37-235D, 37-236B, and 37-308B.

These claim amendments are being filed to correct the place of use description based on documented historical use. The claims are appurtenant to the south parcel purchased from Heath-Marshall in 1993, plus a small amount of historical irrigation on the original Walker property, as indicated on the

MICROFILMED
1993.1.17/171

attached map. The acreage claimed is based on the 1964 aerial photo, which shows 110.0 acres irrigated. This land is in the name of Walker Sand and Gravel, as evidenced by the attached deed.

Fees for the applications and claims are being submitted as follows:

Permit #1	3.47 cfs	\$370
Permit #2	0.50 cfs	\$250
Claims – north	10 unclaimed acres	\$10
Claims – south	26 unclaimd acres	\$26
TOTAL		\$656

Enclosed is Brockway Engineering check #4040 for \$656.00.

Sincerely,

Charles G. Brockway, P.E.
