WATER RIGHT NO. 37-20623

Priority: October 14, 1988

Maximum Diversion Rate: 0.02 CFS
Maximum Diversion Volume: 1.4 AF

It is hereby certified that MORGAN THOMAS And/Or DENISE L THOMAS
PO BOX 209
HAILEY ID 83333 have complied with the terms and
conditions of the permit, issued pursuant to Application for Permit dated May 9, 1977; and have
submitted Proof of Beneficial Use on October 14, 1988. An examination indicates that the works have a
diversion capacity of 0.06 cfs of water from:

SOURCE

GROUND WATER

and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>DIVERSION RATE</u>	<u>ANNUAL DIVERSION VOLUME</u>
IRRIGATION	04/15 to 10/31	0.02 CFS	1.4 AF

LOCATION OF POINT OF DIVERSION:

RE: License No. 37-20623 - Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a copy of the approved Application for Amendment.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

Shelley W. Keen

Water Rights Supervisor

CERTIFICATE OF SERVICE

I hereby certify that on May 22, 2002 I mailed a true and correct copy, postage prepaid, of the foregoing PRELIMINARY ORDER(Approved License) to the person(s) listed below:

RE: WATER RIGHT NO. 37-20623

**MORGAN THOMAS
DENISE L THOMAS
PO BOX 209
HAILEY ID 83333**

**Kari Lynn Townsend
Secretary**

MICROFILMED

MAY 23 2002

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

RE: Water Appropriation Permit 37-20623

Notice of Intent to Void Permit

Dear Permit Holders:

On June 29, 1977, IDWR issued permit 37-07603 authorizing the development a right to divert 0.14 cubic feet per second from a well within the SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 4, Township 2 North, Range 18 East, B.M., Blaine County, for irrigation and domestic purposes. Under the terms of the permit, the development was to have been completed by June 1, 1982. On October 14, 1988, IDWR received a Proof of Beneficial Use statement indicating the development was complete and the water was put to beneficial use. On November 23, 1990, IDWR issued an Order of Reinstatement of Permit No. 37-07603.

On June 26, 2001, an IDWR field examiner reported that water was being diverted and used for the purpose described in your permit but at a location other than was permitted for the point of diversion and place of use. The examiner found, upon inspection, that the permit was developed under three separate systems and new numbers were issued for each of the systems. On March 1, 2002 and March 25, 2002, the Department requested that you amend Permit 37-20623 so that a water right license could be issued. As of this date the Department has not received the requested Application for Amendment.

The final step in the water appropriation process is the issuance of a Water Right License. By issuing a license, IDWR recognizes that you have met the requirements for establishing a water right. The Department cannot issue a license until the permit has been amended to change the location of the point of diversion and place of use descriptions.

If you believe a water right license should be issued to you, please submit the enclosed application for amendment to correct the location of your development. If I do not receive the requested amendment from you within thirty days, I will take action to void your permit under the provision of Section 42-219(6) of the Idaho Code.

MICROFILMED
OCT 11 2002

If you do not wish to submit the amendment, your water use could be considered under the domestic exemption, which includes domestic use for 1 home and up to ½ acre of lawn and garden.

If you have any questions, please contact me at 208-327-7946.

Respectfully,

A handwritten signature in black ink, appearing to read "Shelley W. Keen". The signature is fluid and cursive, with the first name being the most prominent.

FROM: KAY WALKER *KW*

RE: License Recommendations

Date: May 14, 2002

.....

Denise Thomas called me on April 10, 2002, regarding the need for licensing amendments of the above referenced permits. She said nothing had changed since they had developed the property. I tried to convey to her that the addition of the NWSE, Sec. 4 to the place of use required we amend 37-20622. I also told her we needed the amendment for Permit 37-20623 due to the well developed and used in the NWSE, Sec. 4 which was not included on the permit. She said she understood the need for that amendment.

She was not a happy water user. At the end of our conversation she said she would submit the amendments along with the filing fees. As of this date we have not received either of the licensing amendments.

Permit 37-20623 cannot be licensed without the amendment since all development was in an area that had not been permitted. That permit should be voided; however, the use can be considered under domestic exemption.

The development under 37-20622 can only be licensed for 0.1 acres. License has been prepared to reflect development without an amendment.

RE: Water Right Permit No. 37-20623

Dear Permit Holders:

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit:

☒ Point(s) of Diversion

☒ Place(s) of Use

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$50.00 filing fee within 14 days. If you have any questions, please call me at 208-327-7944.

Sincerely,

KAY WALKER

Comment Report

37-20623

1. jstanton 12/21/2001 Field Exam

Comment: During the exam of 6-26-01, I found that the permittee drilled a domestic well on Lot 3 of Serendipity Acres Sub in 1994. Until then, the lot was irrigated from the original well. In 1994, about 1/2 or 2/3 of an acre on Lot 3 were separated from the rest of the irrigation system for a new home and lawn for the Thomases. This use is within the allowance of Sec. 42-111 of the Idaho Code, so no water right is required. However, the owners want a portion of their permit to go to this property, so my recommendation is made according to their wishes. With only 0.4 acres under irrigation, I am recommending the minimum amount of 0.02 cfs. The original permit (37-7603) had only one domestic use, and that is covered under 37-20622. So I am only recommending water for irrigation under 20623. The original well & 3 hp motor are rated for 0.12 cfs, so the 1.5 hp motor in the Thomas well should pump about 0.06 cfs. As this is for lawn use instead of crops, I am recommending the standard lawn volume of 0.6 afa.

E. NARRATIVE/REMARKS/COMMENTS

This is a split of Permit 37-7603 (now 37-20451 due to partial assignment). All of this property (a portion of Lot 3 of Serendipity Acres Sub.) was watered as pasture from a well on Lot 4 until about 1974, when half of Lot 3 was split off for permittees' new home. A separate well was then drilled for the new home & surrounding lawn. Although a water right is not required for this use, owners want to retain a portion of their water permit for irrigation of this land. So I am recommending that the permit be split accordingly; owners know that a licensing amendment will be needed.

Capacity of original permitted well is 0.12 cfs, which is more than can be licensed based on standard diversion rates. So there are no flow restrictions for the various parts of the original permit recommended for licensing.

Have conditions of permit approval been met? ☒ yes ☐ no

F. FLOW CALCULATIONS

_____ Additional Computation Sheets Attached

Measured Method:

$$0.4 \text{ ac} \times 0.03 \text{ cfs/ac} = 0.012 \text{ cfs, Allow } 0.02 \text{ cfs minimum rate}$$

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = \underline{\hspace{2cm}}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = \underline{\hspace{2cm}}$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = \underline{\hspace{2cm}}$$

2. Volume Calculations for Other Uses:

Allow standard volume of 0.6 AFA for lawn watering

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
Irrigation	4-15	10-31	0.02	0.6
Totals:			0.02	0.6

2. Recommended Amendments

☐ Change P.D. as reflected above ☒ Add P.D. as reflected above ☐ None
☒ Change P.U. as reflected above ☐ Add P.U. as reflected above ☐ Other
