RE: License No. 22-7776 - Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

Shelley W. Keen

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 22-07776

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form and \$100.00 license examination fee submitted for the above referenced permit.

Enclosed is an order reinstating the permit since proof was submitted after the proof due date. Please note that the priority date has been advanced to September 14, 1995, pursuant to Section 42-218a, Idaho Code.

Additionally, the license exam fee for a rate of diversion of 0.08 cfs is \$50.00. Therefore, you are entitled to a refund of the extra \$50.00 submitted with the proof form. I have initiated the refund process and you should receive it within seven (7) to ten (10) working days under separate cover.

Please be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water. If you have questions concerning the field examination, please contact the **EASTERN** Regional Office of the department in Idaho Falls at (208)525-7161.

LAPSE NOTICE

RE: PERMIT NO. 22-07776

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated December 31, 1998. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifty dollar (\$50.00) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 22-07776

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before March 1, 1999.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

Dear Permit Holder:

Enclosed are copies of your approved applications for permit. Please be sure to thoroughly review the "CONDITIONS/REMARKS:" listing on the permits.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permits were issued, and you must proceed diligently until the projects are completed. The date shown under condition no. 1 is the date when the projects must be completed.

The Department will send you "Proof Due Notices" approximately 60 days prior to the above referenced date requesting you to file either Proof of Beneficial Use forms or Request for Extension of Time forms.

If wells have not already been constructed you are required to obtain "drilling permits" from the department. The right to drill wells is not a part of these permits to appropriate water.

Please note these water rights limit irrigation occurring under the domestic use to one-half acre within each platted subdivision lot upon which a home has been constructed. These permits do not provide for irrigation of common areas or for irrigation of lots with no homes.

Jeff Bates, architect for Dunn Development called today in response to Shelley's 1/26/96 'Notice of Intent to Deny Application for Permit' letter. Mr. Bates received a faxed copy of the notice from Kathryn Dunn today. Mr. Bates will provide the subdivision plats as requested but will not be able to meet the February 16, 1996 deadline. Mr. Bates is requesting an additional week to respond.

Shelley and I agree to extend the response period to February 23, 1996. Mr. Bates committed to having the subdivision plats in this office by then.

SUBJECT: Request for additional information

=====

On September 28, 1995, I called the applicant and spoke with Kathryn Dunn, sole owner of Dunn Development Inc. I requested a subdivision map identifying the location of the wells, the lots served by each well, the location and size of each lot, and the location of any common areas. I was told by Kathryn that she would send me the subdivision plat.

On November 3, 1995, I wrote a letter requesting the subdivision plat. On November 30, 1995, I wrote another letter requesting the subdivision plat and notifying the applicant that if we did not receive the plat we would void these applications.

On December 29, 1995, at 11:45, I called Kathryn Dunn to again request the subdivision plats. Ms. Dunn was not in until the afternoon; I left a message with her secretary requesting the subdivision plat and that Ms. Dunn call me back.

As of today, I have not received the subdivision plat or any response to either of my letters or my 12/29/95 telephone call.

I recommend voiding these applications per 42-204, additional information was requested but not supplied within 30 days.

NOTICE OF INTENT TO DENY APPLICATIONS FOR PERMIT

Dear Applicant:

On November 3, 1995, and again on November 30, 1995, the Department wrote you to request additional information in support of the Applications for Permit to Appropriate the Public Waters of the State of Idaho listed above. The Department has received no reply from you. If the following information is not submitted to the Department by February 16, 1996, the Department will deny the applications under the provisions of Idaho Code §42-204.

- For each application please submit a copy of the subdivision plat identifying the intended location of the well(s), the lots receiving water diverted from each well, the dimensions and size of each lot, and the dimensions and size of any common areas or lots for which no dwelling is intended.

If you have any questions, please contact me at 208-327-7946 in Boise.

RE: Applications for Permit Nos. 22-07775 through 22-07782

Dear Ms. Dunn:

In my letter of November 3, 1995, I requested additional information pertaining to these applications; specifically, I requested that you submit to the department a copy of the subdivision plat showing the location of the homes identified on the applications.

I have not received this requested information. I need the subdivision plat to clarify water diverted.

The purpose of this letter is to again request that you provide a subdivision plat identifying the location of the wells and lots served by each well, the location of housing and commercial lots, and any common or non-domestic areas, as well as the size of each lot.

I will hold processing on your applications for 30 days. If I do not receive the requested additional information within the 30-day period, I will start proceedings to void these applications.

If you have any questions, you may contact me directly at (208) 327-7944.

RE: Applications for Permit Nos. 22-07775 to 22-07782

Dear Ms. Dunn:

The above referenced applications have been sent to the State Office for final review and processing; however, before the application process can continue, I will need some additional information.

Each of the applications list a domestic use for 3 homes, but subdivision plats identifying the location of the homes were not included with the applications. I need the subdivision plats to clarify where water will be diverted. Please provide a copy of the subdivision plat for each application identifying the location of the well(s), the lots served by each well, the size of the lots, and the location of any common or non-domestic areas.

I will hold further processing on your applications for 14 days pending your response. Please submit this information as quickly as possible within the 14-day period to prevent any further undue delay in processing your applications.

If you have any questions, you may contact me directly at (208) 327-7944.

Sincerely,

Cindy Zimmerman

Dear Applicant:

The Department of Water Resources acknowledges receipt of your water right applications. This office is currently in the process of advertising the application in the Teton Valley News on August 17 & 24, 1995. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in about five weeks. State Office Personnel will conduct a complete review prior to final processing of the applications and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Harold W. Jones
Water Right Supervisor
