PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 22-07698 Telephone No. 208-354-2362
2. Name(s) of Permit Holder(s): CITY OF DRIGGS, IDAHO
3. Mailing Address: PO BOX 48 DRIGGS ID 83422
4. Source of Water: GROUNDWATER If GROUNDWATER (well), Date Drilled: mo. 10-12 / yr. 92
 - a. Well Driller: HIGH PLAINS DRILLING Drilling Permit Number: 22 - 91 - E - 0024-000
 - b. **OPTIONAL:**
Pump Horsepower: 60 Pressure (psi): 60 Dynamic pumping level (ft): 160
5. Use(s) (as authorized by the water right permit):
Domestic (No. of households): _____ Stockwater (No. and type of stock): _____
Irrigation (No. of acres): _____ Other: MUNICIPAL - CITY OF DRIGGS
6. Total rate of diversion and/or volume for which proof is submitted: 1.67 cfs OR _____ acre feet
7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)
(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required?	Yes <u>X</u> or No _____
Has the measuring device been installed?	Yes <u>X</u> or No _____
Flow Measurement Port: Is a flow measurement port required?	Yes _____ or No _____
Has the measurement port been installed?	Yes _____ or No _____

8. Fee Enclosed: \$ 125.00 (See Fee Schedule on back of the instructions for filing proof of beneficial use)

9. Person to contact to accompany the Department representative during field examination of the water system.

Name: JOHN MORRISON Telephone Number: 208-354-2362

Address: PO BOX 48 DRIGGS, ID 83422

10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and I relinquish any undeveloped portion of the permit to the State of Idaho.

Signature of permit holder: Velma Duster

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

REQUEST FOR EXTENSION OF TIME
TO PROVIDE ADDITIONAL TIME IN WHICH TO SUBMIT PROOF OF
BENEFICIAL USE FOR A WATER RIGHT PERMIT

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time in which to complete development of water right under the provisions of Section 42-204, Idaho Code.

Permit No. 22-07698

Name(s) of Permit Holder: City of Driggs

Mailing Address: P.O. Box 48 Driggs, Idaho 83422

Date Proof is Due June 1, 1993 Telephone No. (208) 354-2362

Describe what work has been completed toward the development of this water right:
(This must be filled out! If no work has been completed, show "none".)

Well has been drilled to 505' and is delivering only 300 gallons per minute. We have
expended some \$130,000 to date, expecting to hit enough water at no greater than 350'.

Recent consultation with INEL Geohydrologist resulted in a recommendation to perforate
the well at various levels. This development has taken extra time. Costing \$130,000
(Please refer to attachment I & II)

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

INEL Geohydrologist recommended perforating well casing at levels where water was found.
Engineer has pump tested well for capacity and has ordered a 60hp/600gpm pump.

Permit holder(s) request an extension to December 31, 19 95 1 to 5 years

FEE: \$15.00

(Signature)*

*If other than permit holder, Power of Attorney must be supplied.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

IT IS HEREBY ORDERED that the above request for extension of time be APPROVED
and the time within which to submit proof of beneficial use is JUL 02 1993
extended to January 1, 1996.
IT IS FURTHER ORDERED that this permit be REINSTATED and the
priority date advanced to March 14, 1991.

Signed this 1st day July, 19 93

Permit To Appropriate Water

NO. 22-07698

Proposed Priority: February 14, 1991 Maximum Diversion Rate: 4.50 CFS
This is to certify, that CITY OF DRIGGS

80 N. MAIN
DRIGGS, ID 83422

has applied for a permit to appropriate water from: GROUNDWATER
and a permit is APPROVED for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
MUNICIPAL	01/01 to 12/31	4.50 CFS

LOCATION OF POINT(S) OF DIVERSION: NWNE Sec. 35, Township 05N, Range 45E
TETON County

PLACE OF USE: See Remarks

CONDITIONS/REMARKS:

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before June 1, 1992.
2. Subject to all prior water rights.
3. Prior to the diversion of water under this permit a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.
4. The right to the use of water acquired under this permit shall not give rise to any right or claim against the holder of a senior right based upon the theories of forfeiture, abandonment, adverse possession, waiver, equitable estoppel, estoppel by laches or customary preference.
5. The Director retains jurisdiction of the permit and any license subsequently issued to incorporate the use into a water district, require streamflow augmentation or other action needed to protect prior surface water and groundwater rights.
6. Place of use is located within the city limits of Driggs.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this

23 day of

may, 1991.

RE: PERMIT NO. 22-07698

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

JULIE L. YARBROUGH

PROOF DUE NOTICE

RE: PERMIT NO. 22-07698

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before January 1, 1996.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

Re: Permit No. 22-07698

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to January 1, 1996. However, since the extension was received after the proof of beneficial use date, it was necessary for the department to reinstate your permit and advance your priority date to March 14, 1991.

Please note that the department has granted this extension based on due diligence. It is important that you work diligently toward the completion of this project during the construction period allowed. The department will not be able to grant additional requests based on due diligence.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

RE: Request for Technical Assistance/City of Driggs Well Project

Dear Ms. Johnson:

I am writing on behalf of the Driggs City Council to request technical assistance from an INEL hydrogeologist to advise the City on a course of action for a new City well that is being developed. I am the principal planner for this project and we have drilled to some 500' feet and the well is delivering only some 300 gallons per minute. We have expended some \$130,000 to date expecting to have hit enough water at not greater than 350'.

We do not need a written report or study, just an oral assessment of the situation with recommendations on our options as to how to proceed from here. The project engineer is Vance Forsgren at Forsgren and Associates in Rexburg who can be reached at 356-9201 for specific project information about the well drilling to date. Enclosed please find the latest well log. Please advise if additional information would be useful. I sincerely appreciate the excellent assistance in the past provided by your office.

Yours truly,

Don Watson
Planner

RE: Driggs Well

Dear Don:

Thank you for having the hydro-geologist from the INEL contact me regarding the Driggs Well Project. He suggested that to increase production of the well we could perforate in three additional locations. He suggested additional perforations at the 90 foot level, at the 155 to 170 foot level, and at the 230 to 235 foot level. This will result in an additional 25 feet of perforations. The additional perforations with the associated well testing should amount to around \$4000 to \$5000. The hydro-geologist feels like it would be much better to try to develop this well as opposed to abandoning it altogether. Please let me know how you would like to proceed on this matter.

Sincerely,

FORSGREN ASSOCIATES, P.A.

LAPSE NOTICE

RE: PERMIT NO. 22-07698

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated March 31, 1993. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

L. GLEN SAXTON
Chief, Water Allocation Bureau

Re: Permit No. 22-07698 in the name of City of Driggs

Dear Mr. Forsgren:

The Department is in receipt of the correspondence and well drillers report submitted in connection with the above referenced permit.

First of all, and for your information only, the well driller has not submitted this original well log to the Department. Should he do so, it would be unacceptable for several reasons. The driller has failed to list the drilling permit number, water right number and legal description of the well. Also, a search of our files indicates the drilling permit issued in connection with this well was issued February 14, 1991 and expired 60 days later. The driller drilled this well without a valid drilling permit. The Department will pursue both of these issues directly with the driller.

While the Department can accept a proof of beneficial use filed on this permit in mid June, you should be aware that the permit will officially lapse on June 1, 1993 and will be of no further force nor effect. Furthermore, the priority date will be penalized one day for every day that the proof is filed after June 1, 1993. Therefore, I encourage you to file the proof of beneficial use as soon as possible. Since an extension of time based on due diligence has already been granted, the Department would not be able to grant another extension for this reason.

If you have any questions, or if I can be of any further assistance, or if you wish to discuss these issues, please feel free to contact me.

Sincerely,

Karen L. Gustafson

RE: City of Driggs Water Well

Dear Karen:

This letter is in response to your letter dated March 31, 1993. The City of Driggs is in the process of drilling and developing a new culinary water well. I have enclosed the driller's report for your records. Presently the City is working with the driller to perforate and develop the well to its full potential. When the well is developed and on line, the City will submit a Proof of Beneficial Use for the well. We anticipate this sometime in mid June. If you have any questions regarding this matter, please feel free to contact me at 356-9201.

Sincerely,

FORSGREN ASSOCIATES, P.A.

PROOF DUE NOTICE

RE: PERMIT NO. 22-07698

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before June 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

Re: Permit No. 22-07698

Dear Permit Holder:

Enclosed is a copy of your approved Request for Extension of Time submitted in connection with the above referenced permit. The time within which to submit proof of beneficial use is extended to June 1, 1993.

Please note that the department has granted this extension based upon governmental agency delay. It is important that you work diligently toward the completion of this project during the construction period allowed. The department may not be able to grant additional requests.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Karen L. Gustafson

- ~~(X)~~ Domestic: The use of water for homes, organization camps, public campgrounds, livestock and for any other purpose in connection therewith, including irrigation of up to 1/2 acre of land, if the total use is not in excess of 13,000 gpd; or any other uses, if the total use does not exceed a diversion rate of 0.04 cfs and a diversion volume of 2500 gpd.

Domestic does not include water for multiple ownership subdivisions, mobile home parks, commercial or business establishments, unless the use does not exceed a diversion rate of 0.04 cfs and a diversion volume of 2500 gpd.

- (X) Non-Domestic: Any beneficial use not included within the definition of domestic.

Municipal
() Injection

- () Monitoring - A well bore schematic and map is required for each well.

No. of proposed wells: _____

5. Well construction information:

A. (X) New well () Deepen () Replace - See Condition 9

B. Proposed Surface Diameter 16" Proposed Maximum Depth 200'

C. Anticipated bottom hole temperature:

- (X) 85°F or less (Cold water well)
() 85°F to 212°F (Low temp. geothermal well)
() 212° or more (Geothermal well)

6. Construction Start Date Summer 1991

7. Anticipated Well Driller Andrew Well Drilling

NOTE: The actual well driller must be identified prior to drilling.

8. Applicant's signature Alm Valley Date February 7, 1991

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit is APPROVED

Date 5-29-91

If approved, this permit authorizes the constuction or modification of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 22-07698

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Be sure to note the special condition requiring you to install a measuring device. Enclosed, for your reference, is a list of of measuring device options.

Also enclosed is a copy of the approved drilling permit submitted in connection with this water right.

You should be aware that you are located within a drainage basin where surface water diversions are regulated by a watermaster. It is possible that diversion of groundwater under your permit may cause a reduction of surface water flow. Siting your well as far as possible from surface water channels and casing your well

MICROFILMED

JUL 01 1991

so that groundwater tributary to surface water flows are not diverted will reduce the potential for the watermaster to regulate your water use.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

RE: Application No. 22-07698

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in TETON VALLEY NEWS on April 4 & 11, 1991. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor
