The final licensing recommendations for the above referenced water right are based on the information below:

A. GENERAL INFORMATION

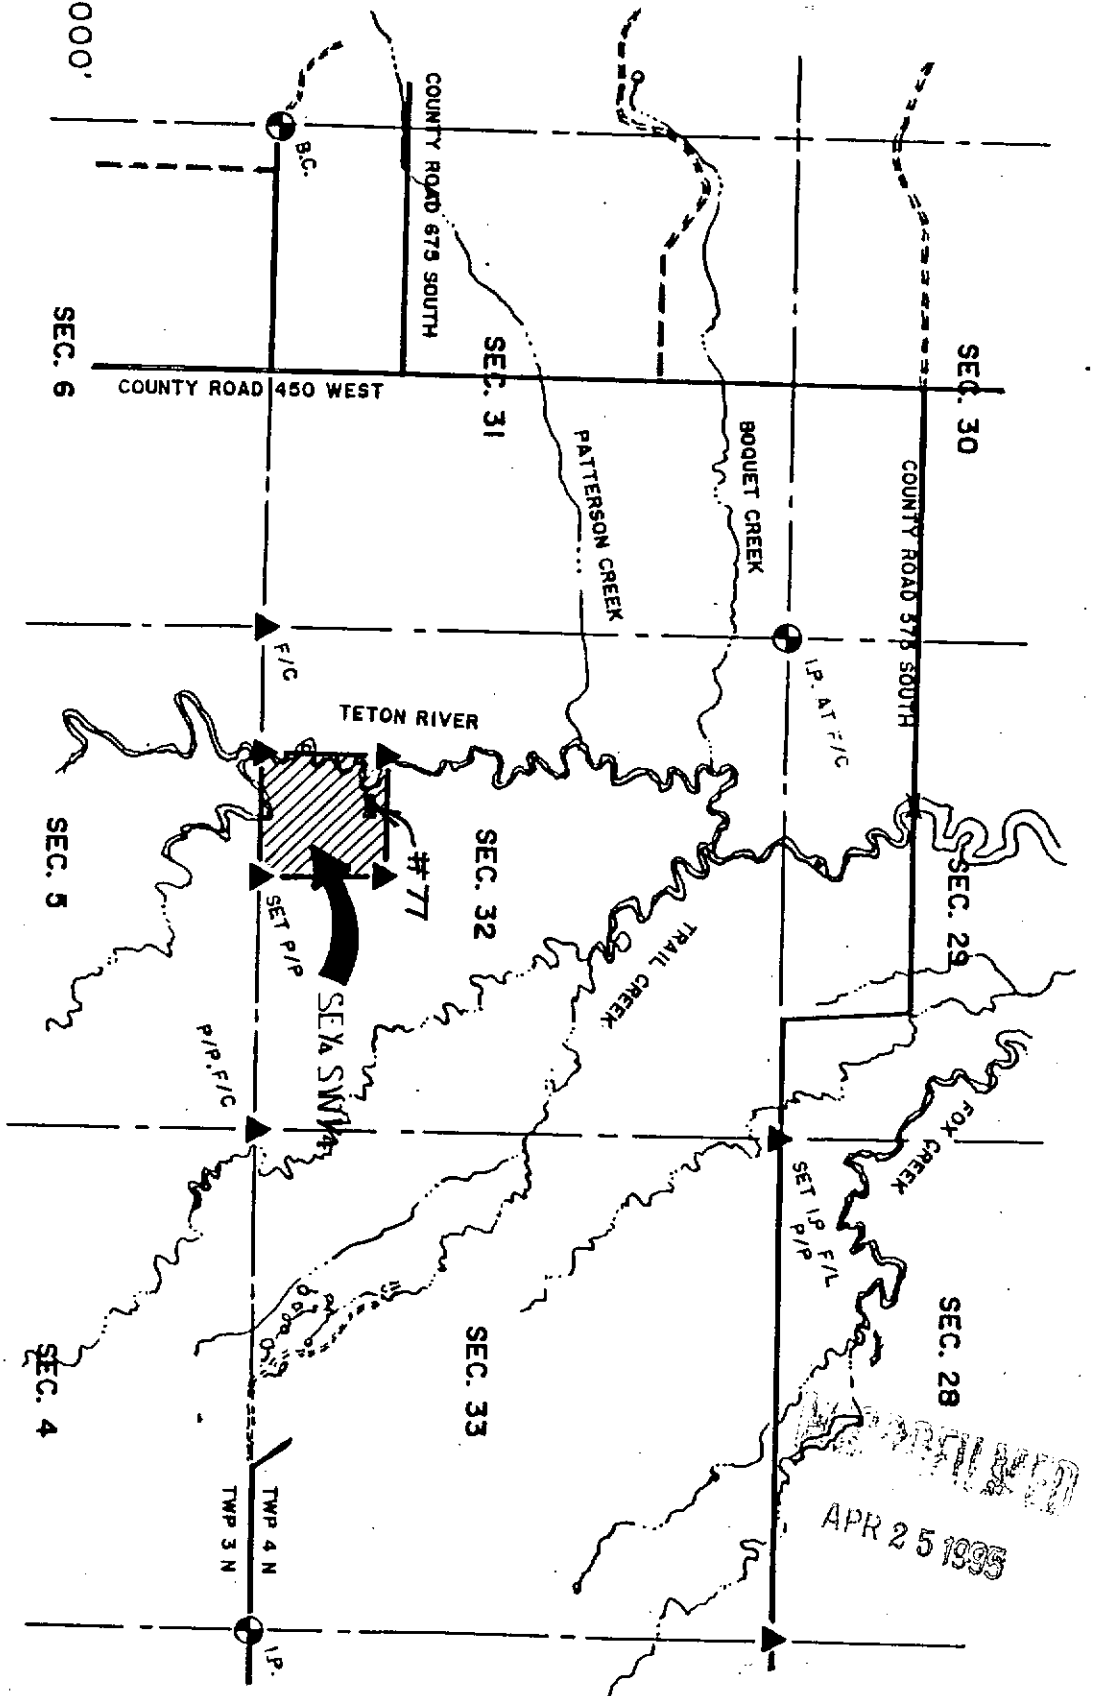

3. Source: The examiner referred to the source as a small spring channel at one point and a small creek in another. For clarification, since there is no diversion structure at the spring site, the recommendation to change the source to an "unnamed stream" is being made.

C. SYSTEM DESCRIPTION

6. Place of Use: According to the exam map, the P/U is in the SESW $\frac{1}{4}$ of Section 32. Since the examiner indicated no P/U amendment was required and this location also coincides with the permit, the SESW $\frac{1}{4}$ will be recommended as the P/U.

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 22-07677

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form and beneficial use field report submitted for the above referenced permit.

Enclosed is an order reinstating your permit since proof of beneficial use was received after the proof due date. Please note that the priority date has been advanced to July 28, 1990.

The next step in the process of developing a water right is for the field report to be reviewed for licensing.

If you have questions concerning this matter, please feel free to contact Brenda Chapman at (208) 327-7900.

Sincerely,

JULIE L. YARBROUGH

RE: Permit Nos. 22-07678, 22-07753, 22-07677 & 22-07723

Dear Mr. Gaudet:

This letter is a follow-up to our telephone conversation of December 21, 1994. In our conversation I informed you that the completed Proof of Beneficial Use and Field Exam forms for the above referenced permits, could not be accepted as filed since Arnold W. Woolstenhulme was not a certified water rights examiner with the State of Idaho. I also spoke with Mr. Woolstenhulme about this matter but neither of you have corresponded with me.

Your options regarding these permits are to have Mr. Woolstenhulme submit the \$50.00 fee for re-certification as a water rights examiner or to submit the appropriate license examination fees for the proofs and let the department conduct the exams.

I will hold the proofs for twenty (20) days to allow you time to respond. If you do not respond within twenty (20) days of receipt of this letter, I will reject the proofs and lapse the permits.

If you have any questions or if I can be of assistance, please do not hesitate to contact me at (208)327-7953.

Sincerely,

A handwritten signature in cursive script that reads "Julie L. Yarbrough".

LAPSE NOTICE

RE: PERMIT NO. 22-07677

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated August 31, 1994. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifty dollar (\$50.00) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

PROOF DUE NOTICE

RE: PERMIT NO. 22-07677

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1994. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Dear Permit Holder:

Enclosed is a copy of the approved request for extension of time. The time within which to submit proof of beneficial use is extended to November 1, 1994. Please note that the department has granted this extension based on due diligence. It is important that you work diligently toward the completion of this project during the construction period allowed since the department will not be able to grant additional extensions based on due diligence.

If you have any questions or if I can be of any further assistance, please feel free to contact this office.

RE: Letter of 10-26-91/Permits 22-07677 & 22-07678

Dear Mr. Gaudet:

I am responding to your above referenced letter sent to Jim Johnson. The condition requiring the permit holder to commence project construction within one year of permit approval is a standard condition of all permits requesting a development period greater than one year. It is not a condition that is strictly enforced. Your concern and questions regarding this condition demonstrate a conscientious effort to develop these water rights. Also, pursuing approval from the Corp of Engineers is evidence of your efforts.

Condition one (1) on your permits provides the date that proof of beneficial use must be submitted and development should be completed. If you have not fully completed your project at this time, you may request an extension of time if the delay is for reasonable cause or you have been prevented from proceeding by a governmental agency or litigation. The Department will contact you 60 days prior to the proof due date.

I hope this answers your questions and concerns. Your permits remain in good standing at this time and you should proceed with development as soon as possible.

Sincerely,

PAMELA SKAGGS

MR. JIM JOHNSON,

Department of Water Resources

This letter is in regard to the one year deadline for commencing the EXCAVATION OR CONSTRUCTION OF diverting works for Permit # 22-07677 (deadline date November 13, 1991) and for Permit # 22-07678 (deadline date February 12, 1992). Both projects are part of a individual permit application waiting final approval by the Corp. of Engineers WALLA WALLA district. Drawings of both projects have been submitted since May of 1991. IF there is any questions, you may contact Bill McDonald at 509-522-6724. The case number of the project is # 4578. Also Martin Miller at 208-523-1412 is familiar with the project and the timetable needed for approval. Any approval at this point in time will not allow time to start the project by the deadline. Approval now will not allow the project this fall. The Spring of 1992 will be the earliest possible date, & the fall of 1992 will be the more likely & the more practical starting date. The completion deadlines in 1993 & 1994 should not pose a problem.

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 22-07677

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Sincerely,

JIM JOHNSON

RE: Application for Permit No. 22-7677 & 22-7678

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the Teton Valley News on SEPTEMBER 20 & 27, 1990. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor
