Total number of acres irrigated: 1

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. The right holder must obtain adequate supplemental water for the irrigation season that natural flow is not available.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, R. Keith Higginson, of the Department of Water Resources hereby approve the above Application for Amendment for Permit No. 22-07658 with the following;

CONDITIONS/REMARKS:

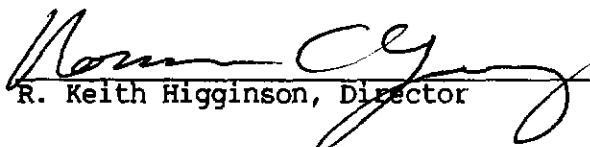

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. The right holder must obtain adequate supplemental water for the irrigation season that natural flow is not available.
6. The use of water under this right shall not give rise to any claim against the holder of a senior water right based upon the theories of forfeiture, abandonment, adverse possession, waiver, equitable estoppel, estoppel by laches or customary preference.
7. The Director retains jurisdiction of the right and any license subsequently issued to incorporate the use into a water district, require streamflow augmentation or other action needed to protect prior surface water and groundwater rights.
8. Use of water under this water right will be regulated by the watermaster of State Water District No. 01.
9. This right when combined with all other rights shall provide no more than .03 cfs per acre nor more than 3.5 afa per acre for the lands above.
10. Source known locally as Glade Spring.

Change of Address

Dear Claimants:

IDWR has been notified the address presently in our records is incorrect. Although we have reached you at the address above, we need your written confirmation this is your correct mailing address before we can change our records. Future notices related to your water right(s) can be sent only to the address on your water right(s) or as otherwise changed by you.

Please sign your name at the bottom of this letter and return it to this office. Make corrections to your name and address if necessary and list any other water rights you may have before returning this letter by October 30, 1998. Thank you for your help.

If your mail delivery address changes in any form, please contact us in writing so we can update our records.

If there has been a change in ownership of the property connected with the water right(s) referenced above, please call this office toll-free at 1-800/451-4129 to obtain a form to make this required change to the water right record.

Sincerely,

S. Sherman

RE: WATER RIGHT NO. 22-07658

Dear Water Right Holder(s):

The above referenced water right is in the process of being licensed. However, before a license can be issued, your permit must be amended to correspond with the findings of the Department's field examiner.

The enclosed application for amendment contains information that will be included on the license when it is issued. Please review carefully and if you concur, sign the amendment and return with the \$20.00 filing fee within 15 days.

If you do not concur with these findings or if you have any questions, please contact us within the 15-day period.

Sincerely,

PAMELA SKAGGS
Water Resource Agent

Measurement Calculations

Area Calculation - Assume irrigated area to be square

Area from collection ditch to fence

$$\text{Average Length} = (161' + 141') \div 2 = 151 \text{ ft}$$

$$\text{Width} = 43'$$

$$A_1 = (151 \text{ ft})(43 \text{ ft}) = 6493 \text{ ft}^2$$

Area from collection ditch to beginning of irrigated field

$$\text{Average width} = (141' + 92') \div 2 = 116.5 \text{ ft}$$

$$\text{Length} = 338'$$

$$A_2 = (338 \text{ ft})(116.5 \text{ ft}) = 39377 \text{ ft}^2$$

$$\text{Total Area} = A_1 + A_2 = 6493 \text{ ft}^2 + 39377 \text{ ft}^2 = 45870 \text{ ft}^2$$

$$= 45870 \text{ ft}^2 / 43560 \text{ ft}^2/\text{ac} = 1.05 \text{ ac}$$

$$A = 1 \text{ acre}$$

Re: Permit No. 22-07658

Dear Mr. Carlson:

Please waive the requirement for a lockable device at the point of diversion on this permit. At the time the permit was issued on August 30, 1990, I noted that a lockable device was a condition of the permit. I called Gary Spackman in Boise and he sent me a sheet entitled "Acceptable Water Measuring Devices".

As the 0.09 cfs of water will be flood irrigated on a three acre meadow located between two "swamp" streams with very little fall in elevation, most of the water will return to the streams. I understand that the lockable device is to, "provide the watermaster suitable control of the diversion". As this water usage is not a shared irrigation ditch type system, the use of a watermaster will not be used and therefore a lockable device is "not appropriate". I believe that an examination of our conditions will substantiate that our request for a waiver of the lockable device requirement is a reasonable request.

Therefore, please waive this requirement. Should the examination by Keith Wilson on May 15, 1991, at 10:00 a.m. reveal something other than what I have mentioned, I would be pleased to immediately comply with something more practicable, possibly a rectangular or cipolletti wier.

As I will be travelling to Idaho beginning April 20, 1991, I would request that you convey your decision to Mr. Wilson. I will be talking with him when I arrive in Idaho in about 10 days.

Your help with this request is appreciated.

Sincerely,

Gary W. Grandy

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 22-07658

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

I note that the permit issued to you by the department requires the installation of a lockable device to allow the department to determine the rate of diversion. The proof which you submitted does not show that you have installed this equipment.

The installation of the lockable device must be complete by the time the department representative conducts the examination of your system unless the department has rescinded the requirement prior to the field examination. In some cases, the equipment requirement can be rescinded because the equipment cannot be physically installed, is not appropriate or can be accommodated with other measuring methods.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

Rita Fleck
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 22-07658

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Be sure to note the special condition requiring you to install a lockable device that will provide the watermaster control on your diversion.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor

RE: Water Right Application 22-7658 - Gary Grandy.

Dear Skip:

On June 1, 1990, Steve Elle of my staff met Mr. Grandy in Teton Valley for an onsite review of the proposed water right. Based on that inspection, we determined Mr. Grandy's proposed diversions will not impact fish or wildlife resources. Return subflow from ground water will protect resources downstream in Little Warm Creek.

Therefore, Idaho Department of Fish and Game drops our protest to this water right. Thank you for the opportunity to comment.

Sincerely,

Herbert A. Pollard II

WATERMASTER COMMENTS

I have reviewed Application for Permit No. 22-7658 and have the following comments objections to the approval of this application for permit:

Without more information it
would appear that impacts on
other water rights associated w/
approval of this permit would not
be significant. If approved,
a mitigation requirement may
be necessary

Dear Applicants:

Enclosed is a copy of a protest filed against the issuance of a permit pursuant to application No. 22-07658. The Department suggests you contact the protestant directly in an effort to determine the nature of the protest and to attempt to resolve the protest.

Unless this office is advised that either the matter has been resolved or there exists extenuating circumstances requiring additional time, our objective is to schedule a conference and/or hearing to consider the protests within 60 days. At a conference and/or hearing, the following are the principle items the Department can consider in either approving or denying the application for permit (Sec. 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purpose intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?
5. Will the proposed use under this permit conflict with the local public interest?

The applicant must be prepared to present evidence and/or testimony addressing each of the five items. Although representation by legal

Re: Water Right Application 22-7658 - Gary or Lavon Grandy

Dear Skip:

Idaho Department of Fish and Game has reviewed the referenced application by Mr. and Mrs. Grandy. Our Department has the following concerns regarding this water right.

1. A 6 inch diameter pipe will carry much more than .09 cfs, and we are concerned about diversions over the permitted level.
2. What is the flow of Glade Springs? We request no water right be approved if it will dewater the spring stream below the point of diversion.
3. Unless the diversion dam is located right at the headwaters, we are concerned about blockage of fish migration.

Until we can resolve these questions, our Department wishes to protest this application.

Thank you for the opportunity to comment.

Sincerely,

Herbert A. Pollard II
Regional Supervisor

RE: Application for Permit No. 22-7658

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right permit. This office is currently in the process of advertising the application in the TETON VALLEY NEWS on April 5 & 12, 1990. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor

RE: Application for Permit

Dear Mr. and Mrs. Grandy,

This letter is in reference to the Application for Permit for irrigation of three acres you filed with the IDWR in August, 1988. After reviewing your application, it became evident that several items need clarification before we can process it.

Enclosed you will find a photo-copy of your application, two maps of the area indicated in your application, an instruction book for filling out the application and a second Application for Permit that I've partially completed. The following items must be completed on the second application:

- 1) The proper legal description of both the point of diversion and place of use are required. According to the map that you supplied with the original application, both the point of diversion and the place of use are in the same legal description, however the place of use that you show on the form is different. I've marked in pencil under item #9 the place you indicated with your map. If this is correct, please ink over my marks in pen on the second application.
- 2) In Item #6, parts 'a' and 'b' both need to be completed, including the description of diverting works, the height of your storage dam, reservoir capacities, period of use etc.
- 3) Finally, Item #11. Your application indicated that you own both the point of diversion and the place of use. The map, however, shows that both fall within the boundaries of land administered by the USDA Forest Service. I've indicated the boundary on one of the maps. Forest policy usually requires that a special use permit be filed. This form is available from the Forest Service Ranger Station in Driggs, Idaho, and should be filed with them. Please indicate the proper ownership of the land by completing Item #11.

MICROFILMED

SEP 14 1990

-2-

Please look over the application carefully, complete the map and make any corrections that you need to. Then sign the new application and return it to our office in Idaho Falls. If you have any questions, please give me a call here at the office. The phone number is (208)525-7161.

Sincerely,

A handwritten signature in dark ink, appearing to read 'P. R. Meyer', with a long horizontal flourish extending to the right.
