Gentlemen:

Our client, Kona Residence Trust, has recently purchased some property in Teton County near Tetonina from Teton Ridge Associates. In connection with the closing of that transaction we secured assignments of four permits from the partnership to the new purchaser. They are permits #22-7525, #22-7587, #22-7588, and #22-7589. The original assignment documents are enclosed with this letter for filing.

We were also advised that because proof of beneficial use was submitted on permit #22-7525 prior to 1987, it would be desirable for us to file an SRBA claim. We are in the process of preparing that document, and as soon as it is complete we will send it in for filing.

Thank you for your kind and continued assistance.

Yours very truly,

Kent W. Foster

Gentlemen:

Re: Permit No. 22-7587

On January 26, 1990, the department received the proof of beneficial use form for the above referenced permit. Along with the proof form, you submitted \$50 fee.

For the diversion of water for stockwater, there is no fee for the department to conduct the field inspection. I have notified the Fiscal Section to prepare a refund. It will take two to four weeks before you receive a check from the Auditor's Office.

The next step is for the department to conduct the field inspection to confirm and determine the extent of beneficial use before issuing a license. A field agent from the Eastern Regional Office will notify you to schedule a convenient time.

If you have any questions about the refund, contact me. If you have questions about the field inspection, contact the regional office at 515-7161.

PROOF DUE NOTICE

RE: PERMIT NO. 22-07587

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before February 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
