WATER RIGHT LICENSE

WATER RIGHT NO. 22-07543

Priority: December 14, 1988

Maximum Diversion Rate:

0.10 CFS

Maximum Diversion Volume:

4.5 AF

This is to certify, that WESTOVER RANCH CORP
489 W 1500 N

REXBURG ID 83440

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated August 4, 1988; and has submitted Proof of Beneficial Use on March 13, 1991. An examination indicates that the works have a diversion capacity of 0.100 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
DOMESTIC	05/01 to 11/01	0.10 CFS	4.5 AF

LOCATION OF POINT(S) OF DIVERSION:

NESW, Sec. 18, Township 06N, Range 40E
MADISON County

PLACE OF USE: DOMESTIC

TWN RGE SEC

06N 40E 18

NESW

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Domestic use is for a lodge and 20 trailer hook-ups.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 23RD day of JUNE, 1997.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 22-7543, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before November 1, 19 90.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.
- e. Other: Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

Witness my hand this 12th day of October, 1988.

RE: WATER RIGHT NO. 22-07543

Dear Water Right Holder(s):

The Department of Water Resources (the Department) has issued the enclosed license confirming that a water right has been established in accordance with the permit referenced above. The license is a preliminary order issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration or files an exception and/or brief as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the Department within fourteen (14) days of the service date of this order. The Department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See section 67-5243(3), Idaho Code.

EXCEPTIONS AND BRIEFS

Within twenty-one (21) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding. Otherwise, this preliminary order will become a final order of the Department.

If any party appeals or takes exceptions to this preliminary order, opposing parties shall have twenty-one (21) days to respond to any party's appeal. Written briefs in support of or taking exceptions to the preliminary order shall be filed with the Department. The Department retains the right to review the preliminary order on its own motion.

ORAL ARGUMENT

If the Department grants a petition to review the preliminary order, the Department shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Department will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Department orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Department in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with Rules of Procedure 302 and 303.

FINAL ORDER

The Department will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Department may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The Department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

RECEIVED

JUN 23 1977

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

MEMORANDUM

TO: File 22-07543

FROM: Sharla Curtis

DATE: June 5, 1997

RE: Recommendation Adjustment(s)

The final license recommendations for Permit No. 22-07543 are based on the following:

H. RECOMMENDATIONS

Domestic	1/1 - 12/31	0.10 cfs	1.8 afa
----------	-------------	----------	---------

The volume has been calculated on 50 gpd/trailer for hook-ups (taken from Non-Irrigation Water Requirements chart from Field Examiner's Handbook) and another 35 gpd/visitor for water use in the lodge.

In a phone conversation on June 9 with DeVona Zollinger (secretary of the corporation), she confirmed that water use in the lodge was simply for showers and restrooms. There are no sleeping quarters in the lodge, nor is there a restaurant or other such facilities. She also stated that the most people they ever have in a day is about 200 visitors.

$$200 \times 35 \times 185 \text{ days} + 20 \times 50 \times 185 \text{ days} = 4.5 \text{ afa}$$

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 22-07543

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. Enclosed is an order advancing the priority of the permit since the proof was received after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

Rita Fleck
Secretary/Records Manager

Dear Permit Holders:

Re: Permit No. 22-7543

On August 31, 1990, I notified you that proof of beneficial use was due on this permit on November 1, 1990. In response I received a partially completed proof of beneficial use form. On December 21, 1990, I returned the form to you, assuming you would properly complete and resubmit the form based on information in my letter. On January 28, 1991, I sent you notice that the permit had lapsed since the proof was not returned.

On February 6, 1991, the department received your note explaining that "not used over 30 days in a year and wouldn't use 13,000 gallons any day."

I did some research to locate what uses had been claimed back to the 1932 priority date. The Snake River Adjudication has a claim (copy enclosed) which reflects the use of water for domestic (caretaker facilities only) and stock. The reason the recreational facility was not put on the claim was that its use did not start until 1979.

Consequently, as of this date, you have no record of having a valid water right for the recreational facility. You filed an application for permit, which was approved, but have not complied with the condition of the permit. That condition being an acceptable proof of beneficial use form submittal.

For your convenience, I have partially completed another form. Look it over carefully, make any changes/corrections/additions. Return it within the next month. Note that no fee is required based upon the 0.04 cfs diversion rate. For your permit to be reinstated and a valid record of this use maintained, the proof form must be returned.

STATE OF IDAHO

DEPARTMENT OF WATER RESOURCES

INSTRUCTIONS FOR PROOF OF BENEFICIAL USE

HOW TO MAKE PROOF:

In order for a permit holder to fulfill the conditions of the permit and obtain a water right license, the permit holder must submit the Proof of Beneficial Use form (proof) together with the examination fee OR submit the proof together with a completed field examination report prepared by a certified water right examiner on or before the date set in the permit for the proof. The information submitted by the permit holder will enable the department to determine the extent of beneficial use before the license is issued. The information entered on the proof form should show the extent of actual development of the project and should correspond to that authorized by the permit. If it does not, an amendment to the permit may be required.

Additional information is required for an irrigation well diverting more than 0.20 cfs (90 gallons per minute or 10 miner's inches). To complete Section 4.a., indicate the pump horsepower and the wellhead pressure in psi. The dynamic pumping level is the sum of the static or standing water level in the well and the drawdown when pumping. Do not confuse the dynamic pumping level with the pump setting depth. Provide the best estimate if unsure about the answers.

WHAT TO DO IN CASE YOU HAVE NOT FULLY APPLIED THE WATER TO BENEFICIAL USE:

If the development authorized by the permit has not been completed in the time allowed, the permit holder may submit a request for extension of time. In order for a request for extension of time to be considered without loss of priority, it must be filed prior to the date on which proof of beneficial use is due. Each request for extension of time will be considered on its own merits.

WHAT IF YOU FAIL TO MAKE PROOF OF BENEFICIAL USE ON TIME:

If you have applied the water to beneficial use, but did not submit the proof of beneficial use on or before the date set for the proof, the permit will lapse. A lapsed permit may be reinstated within sixty (60) days from the date that a lapse notice is sent. In order for the department to reinstate a permit, the permit holder must show reasonable cause why the permit should be reinstated. Submission of an acceptable proof of beneficial use form within the sixty (60) day period will be considered as reasonable cause for reinstatement.

EXAMINATION FEE:

Section 42-217 and Section 42-221, Idaho Code require an examination fee as part of the proof of beneficial use submittal if a completed field examination report prepared by a certified water right examiner is not submitted as part of the proof. The fee is based upon the rate of diversion or volume of water claimed on the proof of beneficial use form. The appropriate fee can be determined from the license examination fee schedule.

ISSUANCE OF LICENSE:

The department will issue a license of water right based on the determination of the amount of water beneficially used in compliance with existing law. The license will include specific information to describe the water right developed.

NOTE - You must address the measuring device/flow measurement port item for the proof to be acceptable if this condition was a requirement of your permit. (See the last page of the application for permit form).

Gentlemen:

Re: Permit No. 22-7543

LAPSE NOTICE

You are hereby notified that under the provisions of Section 42-218a of the Idaho Code, the above referenced permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time to our letters of August 31, 1990 and December 21, 1991. No further construction or additional development is authorized under this permit unless it is reinstated.

Your permit cannot be reinstated unless you submit the proof of beneficial use or submit an extension of time request showing reasonable cause for delay. Either the completed proof of beneficial use submittal including the examination fee or a completed field examination report or the extension request form together with the \$15 fee must be received by this department within sixty days of the date of mailing of this lapse notice or the permit will no longer be of any force or effect.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which brings title to the water in question.

Sincerely,

L. GLEN SAXTON, Chief
Water Allocation Bureau

RE: PERMIT 22-7543

Dear Mr. Hathaway:

Returned is the proof of beneficial use which you submitted on October 2, 1990 in connection with the above referenced permit. The proof is not acceptable since it does not show the amount of water for which proof was filed and was not accompanied by the required license examination fee.

The permit authorizes the diversion of 0.10 cfs (45 gallons per minute) for which a \$50 license examination fee applies. If proof is submitted for 0.04 cfs (18 gallons per minute) or less, a license examination fee is not required.

Please show the rate of diversion for which you are submitting the proof (highlighted in yellow) and return the proof together with the license examination fee if applicable. Please respond within 20 days in order that the department can further consider the proof submittal.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Rita I. Fleck'.

PROOF DUE NOTICE

RE: PERMIT NO. 22-07543

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1990. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. 22-07543

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Please note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

RECEIVED

NOV 21 1988

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

Gary Spackman
Supervisor, Water Allocation Section

RE: Application for Permit No. 11-07371, 22-07543

Dear Sir:

This office is currently in the process of publishing notice that the above application was filed with the Department of Water Resources. Since the application may be of interest to you, a copy is enclosed for your examination. Comments concerning the application should be addressed to the applicant with a copy forwarded to this office. Protests objecting to granting a permit should be directed to this Department and received by September 19, 1988. Final action will be taken by this office shortly after this date, provided there are no protests lodged against the applications.

Respectfully submitted,

Ernest Carlsen
Water Rights Supervisor

RE: Application for Permit No. 22-07543

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right application for permit. The application has been assigned identification No. 22-07543. Please refer to this number in all further correspondence.

This office is currently in the process of advertising the application in the Rexburg Standard-Journal. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

Ernest Carlsen
Water Rights Supervisor
